Objectives and Scope	<p>The Subproject 1 will build on the ongoing work under the previous SCFP TA and help continue to implement and expand SCFP in view of the additional financing approved in 2018 (footnote 5). An important element of the Subproject 1, and a feature that also distinguishes SCFP from TFP, concerns its focus on assessing and monitoring SME and corporate risk. ADB currently still lacks experience in assessing and monitoring this risk, which impedes its ability to implement projects directly impacting DMC companies. The Subproject 1 will fund the engagement of consultants who will continue to focus on obligor risk assessments and monitoring and administration of SCF transactions. In assessing risk and working with PFIs to finance supply chains, the Subproject 1 will remain to inspire this shift in thinking, which should result in more systemic support for DMC companies. While the primary beneficiary of the TA will be DMC companies through the resulting program financing, an ancillary beneficiary will be ADB itself. ADB's own technical capacity in working with DMC companies will be enhanced and this will position ADB to consider and implement new SME-supporting projects in the future.</p> <p>Since SCF is relatively new or does not materially exist in some markets, continued capacity building and knowledge-sharing events will be important to support both the growth of SCF and SCFP. Thus, the Subproject 1 will also undertake activities related to capacity development and knowledge-sharing to support DMC companies including SMEs, as well as DMC banks and regulators.</p>
