Dear Alessandro,

In response to your Request Number S2311-4706; Case Number AI8899, we are pleased to provide you with the following:

The relevant operation is still at early stage of definition and the specific prior actions will need to be further detailed in the coming months, as it would go through different rounds of discussions with the government and internal approvals and reviews. As these rounds of discussion and approvals unfold, the relevant document in our website will be updated/uploaded.

The reference to “foster decarbonization” relates to the selection of a set of policies, which will be grouped under a decarbonization pillar, that the World Bank is supporting in Romania to reduce greenhouse gas emission in the economy. As reference, we would recommend you to read relevant documents of recent operations *“Romania Second Programmatic Inclusive and Green Growth Development Policy Loan (P179297)”* and *“Romania Inclusive and Green Growth DPF (P178912)”*, which will give you a sense of the type or structure and actions that are supported under similar operation.

Your request is now complete and will be closed in the system. Should you require further information, kindly submit a new access to information request.

Thank you for your interest in the World Bank.
