Project Administration Manual Purpose

The project administration manual (PAM) describes essential requirements for the Ministry of Finance, the executing agency (EA), and the participating financial institutions (PFIs) Hamkorbank, Ipak Yuli Bank, Davr Bank, and UzbekLeasing International A.O., acting as implementing agencies to carry out the project in accordance with the loan and project agreements of the government of Uzbekistan and the participating financial institutions (PFIs) and Asian Development Bank (ADB). The PAM provides relevant reporting requirements and instructions either through linkages to relevant URLs or direct reference.

The MOF and PFIs are wholly responsible for the implementation of the ADB-financed project, in accordance with the loan and project agreements entered into by the government and ADB and each PFI. ADB staff is responsible for supporting implementation including monitoring compliance by MOF and each PFI.

At loan negotiations, the Government of Uzbekistan and ADB shall agree to the PAM and ensure consistency with the loan and project agreement. Such agreement shall be reflected in the minutes of the loan negotiations. In the event of any discrepancy or contradiction between the PAM and the loan and project agreements, the provisions of the loan and project agreements shall prevail.

After ADB Board approval of the project, changes in implementation arrangements are subject to agreement and approval by the Government of Uzbekistan, the PFIs and ADB and upon such approval, such changes will be incorporated in the updated PAM.

I. PROJECT DESCRIPTION

- 1. The proposed financial intermediary loan (FIL) of \$100 million will provide US Dollar funding to the participating financial institutions (PFIs) to finance investment and working capital loans to small businesses. In addition, \$0.5 million technical assistance (TA) will support the selected PFIs to improve their lending and outreach to small businesses, and enhance financial literacy of small businesses. The impact will be improved contribution of small businesses to economic growth and employment. The outcome will be increased sustainable provision of PFIs' financing to small businesses. The PFIs are expected to set examples for other financial institutions on how to deepen their outreach, while retaining good asset quality and funding private enterprise activities that generate jobs.
- 2. The output will be expanded capacity of the PFIs for financing to small businesses. At project completion, at least 20% of the eligible subloans are expected to be made to womenowned small businesses, and at least 60% of the eligible subloans are expected to be made to rural small businesses outside the capital. The capacity development TA will complement this output by focusing on measures for strengthening PFIs' credit underwriting policies and procedures, developing a credit scoring system as well as financial literacy training to small businesses. The output will also include an established environmental and social management system (ESMS) embedded in each PFI's operations for adequate management of environmental and social issues in compliance with the ADB's Safeguard Policy Statement (2009) and national laws and regulations.

IV. COSTS AND FINANCING

A. Project Financing Plan

- 3. The project is estimated to cost \$133.3 million. A \$100 million loan from ADB will have a 15-year term, including a grace period of 5 years, an annual interest rate determined in accordance with ADB's London interbank offered rate (LIBOR)-based lending facility, a commitment charge of 0.15% per year.
- 4. The government will relend the proceeds of the loan in US dollars, through subsidiary loan agreements to the eligible PFIs that satisfy ADB's eligibility criteria.³ The government will relend the proceeds of the loan to the PFIs at the same tenor and grace period at which it received the funds from ADB. The government's relending rate will be the interest rate charged by ADB for the loan plus 0.2% per annum.⁴

The distribution of the ADB loan to the PFIs is based on their absorptive capacity, subject to review and adjustments during project implementation, and currently set as follows: Hamkorbank (\$45 million), Ipak Yuli Bank (\$38 million), UzbekLeasing A.O. (\$10 million), and Davr Bank (\$7 million).
 The PFIs' interest rates carry the cost for (i) loan origination, (ii) the provision of foreign exchange to service the

⁴ The PFIs' interest rates carry the cost for (i) loan origination, (ii) the provision of foreign exchange to service the ADB loan, (iii) the repricing risk arising from the mismatch of 6 months of repricing of ADB loans (as subloans may carry a fixed interest rate up to 5 years), and (iv) credit risk and related capital charges. Under the current foreign exchange regime, the cost of providing US dollars at payment dates is substantial, justifying the significant net interest margins.

5. The PFIs will use the loan proceeds to finance subloans and leases to eligible small business subborrowers to support working capital and fixed asset investments. Subloans and leases may be issued in USD and sum and priced by the PFIs at market rates that cover foreign exchange, credit, maturity, and interest rate risks. Loans made by PFIs will have a tenor of up to 5 years. PFIs will determine the creditworthiness of subborrowers and assume full credit risk. The maximum subloan size is currently set at \$300,000. The project financing plan is in Table 1.

Table 1: Project Financing Plan

| Source | Amount (\$ million) | Share of Total (%) |

| Asian Development Bank | | |
| Ordinary capital resources (loan) | 100.0 | 75.0 |
| Subborrowers (through equity contribution) ^a | 33.3 | 25.0 |
| Total | 133.3 | 100.0 |

^a Subborrowers will contribute equity to the project at a level consistent with market norms. Based on discussions with the PFIs, the average contribution is estimated at 25%.

B. Detailed Disbursement Estimates by Year

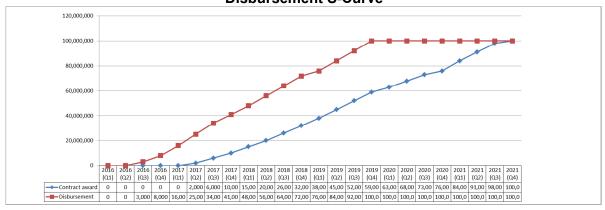

6. The current allocation of the ADB loan to PFIs is presented in Table 2. The Loan Agreement provides that the Government of Uzbekistan shall reallocate the funds among the PFIs in a manner acceptable to ADB should there be a change in the composition of the PFIs or a need to reallocate the proceeds of the ADB loan.

V. FINANCIAL MANAGEMENT

A. Financial Management Assessment

- 7. The PFIs will maintain the following until the project completion date:
 - (i) Prepare financial statements in accordance with International Financial Reporting Standards (IFRS):
 - (ii) Davr Bank and ULC will recruit senior accountants familiar with IFRS prior to the first disbursement of their respective loans;
 - (iii) An internal audit unit that reports to the audit committee of the supervisory board that includes at least one independent member;
 - (iv) Financial statements are audited by reputable internationally affiliated audit firms;
 - (v) A dedicated credit risk management unit is in place;

- (viii) Satisfactory profitability with return on average assets of not less than 1%;
- (ix) Comply with anti-money-laundering (AML) and combating the financing of terrorism (CFT) laws and regulations in Uzbekistan.
- 8. On 10 February 2016, CBU restricted Hamkorbank from performing certain foreign exchange operations for a period ending on 11 August 2016. This has adversely affected its ability to manage its foreign exchange open position, which turned negative in April 2016. ADB received on 3 May 2016 written confirmation from CBU that foreign exchange operations related to foreign creditors are not affected by the restrictions. The removal of the foreign exchange operation restrictions will be a condition for the disbursement of the proposed loan to Hamkorbank.
- 9. No withdrawal shall be made by Davr Bank until it has hired adequate number of qualified accountants with sufficient knowledge of IFRS. In addition, Davr Bank will implement a time-bound action plan that includes the provision of regular training on IFRS and improvements in risk management.
- 10. No withdrawal shall be made by ULC until it has hired adequate number of qualified accountants with sufficient knowledge of IFRS In addition, ULC will implement a time-bound action plan that includes the provision of regular training on IFRS.

The PFIs will be responsible for preparing disbursement projections, collecting, and retaining supporting documents, and preparing and sending withdrawal applications to ADB.
- 12. **Imprest fund procedure.** ADB's imprest fund and SOE procedures will be used for disbursement under the loan.⁵ Each PFI will open a US dollar imprest account at the CBU to facilitate disbursements. Each of the PFIs will establish an imprest account in its name and shall be accountable and responsible for proper use of advances to the imprest account. The advance to the respective imprest account will not exceed each PFI's estimated 6 month funding required for payments to be made to eligible subborrowers. The request for initial and additional advances to the imprest account should be accompanied by an Estimate of Expenditure Sheet setting out the estimated subloans for the forthcoming six (6) months of project implementation (Appendix 2).⁶ The ADB project division responsible for project administration will review the reasonableness of the 6-month estimate.
- 13. **Statement of expenditure procedure.** The statement of expenditure (SOE) procedure may be used for reimbursement of eligible expenditures or liquidation of advances to the imprest account(s). PFIs are required to ensure that supporting documents and records for the loan amounts claimed under the SOE procedure are maintained and made available for review

OE forms are available in Appendix 9B and 9C of ADB's Loan Disbursement Handbook (2015, as amended from time to time).

Details about SOE procedures are available at (http://www.adb.org/documents/handbooks/loan_disbursement/default.asp).

⁶ Available in Appendix 10b of the Loan Disbursement Handbook.

by ADB's disbursement and review missions, upon ADB's request for submission of supporting documents on a sampling basis, and for independent audit.

- 14. Before submission of the first withdrawal application, the MOF will submit to ADB sufficient evidence of the authority of the person(s) who will sign the withdrawal applications together with the authenticated specimen signatures of each authorized person. The minimum value per withdrawal application is set in accordance with the Loan Disbursement Handbook (LDH). Individual payments below this amount should be paid by each PFI and subsequently claimed from ADB (i) through reimbursement; or (ii) from the imprest account, unless otherwise accepted by ADB.
- 15. Each liquidation report financed from the ADB loan will include (a) withdrawal application for liquidation of advance, (b) statement of expenditures on the ADB loan (Appendix 2), (c) bank statement for the imprest account, (d) the Imprest Account Reconciliation Statements (IARSs) required to reconcile all bank statements against the PFIs' records. SOE records will be maintained and be available for review by ADB's disbursement and review mission and external auditors. The MOF and the PFIs will submit to ADB in a timely manner any supporting documents requested by external auditors or ADB including documentation supporting creditworthiness assessments of each subborrower.
- 16. Supporting documents should be submitted to ADB or retained by the PFIs in accordance with ADB's *Loan Disbursement Handbook* (2015, as amended from time to time) when liquidating or replenishing the imprest accounts.
- 17. The project implementation unit (PIU) of each PFI will be responsible for (i) updating and preparing yearly disbursement projections, (ii) preparing summary of eligible subloans financed by ADB funds, and (iv) preparing and sending withdrawal applications to ADB.

Conditions for loan disbursement

- 18. No withdrawal shall be made under the project for any PFI until such time as the PFI has: (a) established an ESMS in a manner satisfactory to ADB, which includes without limitation, (i) third party monitoring mechanism for subloans; (ii) guidelines for site visits of qualified subprojects; and (iii) a tracking system of qualified subprojects; and (b) appointed designated staff who is capable and adequately trained in fully implementing the ESMS, in particular implementing environmental category B qualified subprojects including and executing any corrective or preventive measures needed to ensure compliance of such qualified subprojects with applicable national laws and regulations and the SPS.
- 19. No loan disbursement shall be made under the project for Hamkorbank until the CBU has removed all relevant restrictions on Hamkorbank's foreign exchange operations.
- 20. No loan disbursement shall be made under the project for Davr Bank and UzbekLeasing International A.O. until each of them has hired adequate number of qualified accountants with sufficient knowledge of IFRS to adequately administer its day-to-day financial management operations and to satisfactorily prepare its financial statements in accordance with IFRS.

The report format is in Appendix 1. These reports will be ADB's basis for monitoring and updating project performance and measuring the development impact of the project.
- 43. **Compliance monitoring.** Compliance of the PFIs to project agreement covenants will be monitored through periodic ADB review missions, quarterly progress reports by the PFIs, random spot checks of subloan documents, and review of the PFIs' audited financial statements. An ESMS expert will be recruited through the TA to help monitor PFIs' training, provide assistance to PFIs for ESMS establishment and operations including the preparation of Environmental and Social Safeguard (ES) performance reports of the PFIs.

- 44. Safeguards monitoring. PFIs will be required to establish an ESMS that meet ADB's standards before the first disbursement of funds (Appendix 1 of ESMS linked document). Monitoring and reporting of the implementation of safeguards requirements and procedures within the established ESMS will be prepared by PFIs. The PFIs' quarterly progress reports will include status of compliance with safeguards covenants. The PFIs will submit to the ADB annual ES performance reports (Appendix 6 of ESMS linked document) by the end of March of every year.

The mid-term review mission will undertake a comprehensive review of the project design and the performance of the project. It may require a change in the design and implementation arrangements. Within 6 months after the loan closing date, MOF will submit a project completion report to ADB in a form acceptable to ADB. 12

Χ. **ANTICORRUPTION POLICY**

ADB reserves the right to investigate, directly or through its agents, any violations of the 47. Anticorruption Policy relating to the project. 13 All contracts financed by ADB shall include provisions specifying the right of ADB to audit and examine the records and accounts of the executing agency and all project contractors, suppliers, consultants, and other service providers. Individuals and/or entities on ADB's anticorruption debarment list are ineligible to participate in ADB-financed activity and may not be awarded any contracts under the project.¹⁴ To support these efforts, relevant provisions will be included in the legal agreements.

XI. **ACCOUNTABILITY MECHANISM**

48. People who are, or may in the future be, adversely affected by the project may submit complaints to ADB's Accountability Mechanism. The Accountability Mechanism provides an independent forum and process whereby people adversely affected by ADB-assisted projects can voice, and seek a resolution of their problems, as well as report alleged violations of ADB's operational policies and procedures. Before submitting a complaint to the Accountability Mechanism, affected people should make an effort in good faith to solve their problems by working with the concerned ADB operations department. Only after doing that, and if they are still dissatisfied, should they approach the Accountability Mechanism.¹⁵

In making those risk assessments, the auditor considers the internal control relevant to the entity's preparation and fair presentation of the Annual Statement of Utilization of Funds in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
