Note: Results-based lending (RBL) supports government-owned programs in achieving overall RBL program results. There is no attribution of RBL program results achieved by ADB financing alone as results will be achieved by using all resources for the RBL program. RBL can thus increase leverage and development results of ADB assistance. In this RBL program with additional financing, ADB will provide $90 million from Ordinary Capital Resources and $106.1 million from Special Facility for the total RBL program financing of $874 million. Other financing sources include government financing at $550.4 million and the World Bank at $101.5 million, and other development partners at around $26 million.
