Dear Sir/Madam,

Please find the reply to your request in this email. You may click [here](#) to check if there is any supporting information.

AIIB Response:

Dear Alessandro,

Thank you for your query and interest in the Asian Infrastructure Investment Bank (AIIB).

Catalyst’s fund strategy is 100% climate financing with focus in climate mitigation (e.g., renewable energy, energy storage and energy efficiency) and climate adaptation (e.g., water treatment). Therefore, we can confirm that there is no exposure in gas and oil.

Should you have any further questions, please feel free to contact us at [AIIB](#).

Best regards,

Asian Infrastructure Investment Bank

Your Request (RX20230817053127):

I would like to receive additional information on the project Multicountry: Catalyst MENA Climate Fund 2 (“CMCF2”) (number 000621). Especially if it will include investments into gas and/or oil infrastructure. Thank you in advance for your help.
