Description	The Project will support the establishment of municipal government in Nuku'alofa and will provide high priority urban infrastructure identified in the Nuku'alofa Urban Infrastructure Development Plan (UIDP). The Project will expand upon infrastructure development currently being undertaken in Nuku'alofa through the Nuku'alofa Reconstruction Project (NRP) and the Integrated Urban Development Sector Project (IUDSP).				
Project Rationale and Linkage to Country/Regional Strategy	Nuku'alofa, Tonga's capital, has a population of 34,058 (34% of the national population) and is forecast to grow to 45,000 (or about 40% of Tonga's population) by 2030. Migration to Nuku'alofa from Tonga's outer islands is significant. Urban growth in Tonga is a relatively recent phenomenon and has not been matched by the provision of, or improvement in the delivery of, urban services. Living conditions for many of Nuku'alofa residents are deteriorating and demand for improved urban infrastructure is increasing.				
Impact	The living conditions for the Nuku'alofa urban population have improved.				

### Project Outcome

Description of Outcome	Nuku'alofa residents have access to improved municipal services.
