

CONTRIBUTION TO THE ADB RESULTS FRAMEWORK

Table 1: Contribution of the Project 1 to the ADB Results Framework

No.	Level 2 Results Framework Indicators (Key Outputs and Beneficiaries)	Targets	Methods / Comments
1	Water supply pipes installed or upgraded length of network (km)	1,050	
2	Households with new or improved water supply (number)	52,000	
3	Wastewater treatment capacity added (in m3/day)	48,000	
4	Households with new or improved sanitation (number)	60,000	Increased sewerage coverage and sewage treatment.

Table 2: Contribution of the Investment Program to the ADB Results Framework (Project Estimate)

No.	Level 2 Results Framework Indicators (Key Outputs and Beneficiaries)	Targets	Methods / Comments
1	Water supply pipes installed or upgraded and length of network (km)	TBD	
2	Households with new or improved water supply (number)	90,000	
3	Wastewater treatment capacity added (in m3/day)	70,000	
4	Households with new or improved sanitation (number)	76,000	

Note: As this program will be developed as a sector-type MFF, the above are **estimates projected** based on the State's needs gap analysis and Project 1 cost-benefit assessments. Separate assessments on the project contribution to ADB's Results Framework will be derived for each of the tranches and included in the Periodic Financing Requests Reports submitted for consideration/approval.
