Project Development Objectives

Project Development Objective (from Project Appraisal Document)

Original PDO: The direct project development objectives will be to expand the level of activity of processing, marketing, and trade enterprises downstream of the farmgate, to increase the number and economic importance of producer organizations, and to improve the functioning of markets and trade linkages between producers, and primary and secondary level trade organizations. The Project will work directly with private enterprises and producer and other commercial organizations to improve the competitiveness of Kyrgyz products. The ultimate objective of these efforts will be to increase the amount of value added to Kyrgyz agro-food commodities, to increase sales of those commodities both domestically and abroad, and to improve the operation of domestic agricultural markets. Revised PDO: The objective of the Project is to assist the Borrower in increasing and enhancing the business activities of the Beneficiary agribusinesses supporting the Borrower#s economic growth.

Has the Project Development Objective been changed since Board Approval of the Project?

Implementation Status Overview

Results

The project continues to maintain good progress in most areas even though some delays were caused by the political and social turmoil in April and June 2010. Results achieved to date under the Enterprise Development Subcomponent and the Market Development Services trade facilitation deserve high praise and, with one exception, the credit line component is performing equally satisfactorily. The Agribusiness Competitiveness Center (ABCC) continues to monitor the markets, identify the trade and administrative barriers and develop proposals for their mitigation or removal, as well as provide technical assistance and advice to the agribusiness companies, which is highly demanded. Such a demand for ABCC services in a market where some other projects had difficulties in getting the enterprises interested in their consultancy services, is a good indication of true value added by the project technical assistance. The Market Development Service (MDS) continues to successfully facilitate the trading and promotion of Kyrgyz agricultural products both domestically and abroad. Since its inception in 2006, the MDS has facilitated 1,216 client contacts on various matters, including 96 trade deals for about 38,000 tons of products at a total value of US\$13.3 million (91% was sold to export markets). A total of 81 sub-loans have been financed under the project directly from the Credit Line and from the reflows in the total amount of US\$5.5 million equivalent. Total investments mobilized into the agribusiness sector amount to close to US\$10 million equivalent, including the required co-financing by Participating Financial Institutions and beneficiaries. An extensive training program of loan officers of commercial banks has also been provided under the project. The Market Conditions Analysis Unit (MCAU) continues to collect and provide the Ministry of Agriculture with the current price information and market analysis on key food items. These have also been posted regularly on the ABCC website.
