PROJECT MONITORING AND ADVISORY	0.02

#### Overall Ratings

	Previous Rating	Current Rating
Progress towards achievement of PDO	Satisfactory	Moderately Satisfactory
Overall Implementation Progress (IP)	Satisfactory	Moderately Satisfactory
Overall Risk Rating		Moderate

#### Implementation Status Overview

All project activities have been completed by June 30, 2012, except for setting up of the Food Technology Training Center (FTTC) under the Kyrgyz State Technical University (KSTU).

Overall, the project achieved the following results. Under the Enterprise Development Subcomponent the Agribusiness Competitiveness Center (ABCC) supported 42 agribusinesses, which have developed 68 new products, identified new markets, and increased sales and profits in the client companies. The ABCC Market Development Service (MDS)

successfully facilitated the trading and promotion of Kyrgyz agricultural products both domestically and abroad. Since its inception in 2006, the MDS has facilitated 1,971 client contacts on various matters, including 142 trade deals for almost 54,000 tons of agricultural products for a total value of US\$17.5 million (of which 89% were sold to export markets). Under the Access to Credit Component, the credit line was fully disbursed, and the commercial bank training activities have been done very cost-effectively and far exceeding the original targets. A total of 108 sub-loans have been financed under the project from the Credit Line (including 11 sub-loans to cooperatives) and from reflows amounting to almost US \$6.76 million equivalent. Total investments mobilized into the agribusiness sector amount to about US\$14.8 million equivalent, including the required co-financing by Participating Financial Institutions and beneficiaries. Fifty-eight matching grants totaling US\$0.8 million have been granted to cooperatives towards co-financing their investments. An extensive training program for loan officers of commercial banks has also been provided under the project, with 883 loan officers and branch managers trained in various subjects. The Market Conditions Analysis Unit (MCAU) collected and provided the Ministry of Agriculture with market price information and market analysis on key food items. These were posted regularly on the ABCC website.
