

Resettlement Plan

Document stage: Draft (to be updated based on detailed design and ADB's approval sought, prior to commencement of construction)

Project Number: 42267-026
August 2017

IND: Rajasthan Urban Sector Development Program (RUSDP) – Water Supply and Sewerage Subprojects in Jhunjhunu

Prepared by the Government of Rajasthan for the Asian Development Bank.

This draft resettlement plan is a document of the borrower. The views expressed herein do not necessarily represent those of ADB's Board of Directors, Management, or staff, and may be preliminary in nature.

In preparing any country program or strategy, financing any project, or by making any designation of or reference to a particular territory or geographic area in this document, the Asian Development Bank does not intend to make any judgments as to the legal or other status of any territory or area.

EXECUTIVE SUMMARY

1. **Sub-project Scope.** Rajasthan Urban Sector Development Program (RUSDP) will complement the past and ongoing efforts of the government of Rajasthan (GOR) to improve water supply and wastewater services to the residents of the state of Rajasthan. It comprises (i) a program, financed by a policy-based loan, to support policy reforms, including institutional development and governance improvement in the urban sector in the state, and (ii) a project, financed by a project loan, to invest in water distribution network and sewerage systems in the six project cities in the state¹.

2. Jhunjhunu is the district headquarter of the district Jhunjhunu which is located about 185 km from Jaipur towards North abutting the district of Bhiwani of Haryana in Rajasthan State with 69 km from Sikar, 39 km from Navalgadh & 15 km from Baggar in S-W direction. The town is having 4391 Ha of area comprising of 45 wards. Jhunjhunu is one of the six project towns selected for implementation of the ADB funded Rajasthan Urban Sector Development Program (RUSDP).

3. The sub-projects includes: **Water Supply:** (i) GIS based consumer, properties and asset mapping, surveys & Investigations, underground utility mapping, prepare consumer data base for total project area. (ii) Study, review, update hydraulic modelling and other designs and prepare service improvement plan for project area. (iii) Treated Water Transmission Mains: DI-K9 pipeline of 100-600 mm dia, about 19 km length. (iv) The old water distribution mains of AC, PVC and CI pipelines will be replaced by the new water mains of different sizes of 75 mm to 400 mm dia- 563 km length. (v) Water distribution Pumping station (6 nos) (City Campus, Colony campus, Islam nagar, Housing board, Beewani and Khetri Mahal). (vi) Clear Water Reservoirs-5(nos)- Colony campus-800 KL, Islam Nagar-300 KL, Housing Board-550KL, Khetri Mahal-300KL, Beewani-250KL (vii) Elevated Service Reservoir-1 nos (viii) Metered Consumer service connection-32650 nos (ix) Refurbishment and rehabilitation of existing infrastructure works of OHSR, PS, CWR tube well etc including replacement of mechanical and electrical equipments/appliances. (x) Bulk water meters, pressure sensors-As per design requirement (xi) Well equipped and staffed consumer relation management centres-4 nos and one Master Control Centre (xii) O&M of system, including water distribution service delivery with performance guarantee, meter reading, billing and collection system and consumer service for the completed DMAs including consumer service centres. **Sewerage:** (i) Sewerage network 124 kms including left over work of sewerage system of UIDSSMT scheme with construction of 5810 Manholes (ii) Cleaning, Hydro-testing and commissioning of laid sewer lines and constructed Manholes under left out packages-61 kms and 2522 Manholes (iii) House Sewer connection –About 20424 nos (iv) 2 nos of Intermediate Pumping station of capacity 3.5 mld and 1 mld. (v) Construction of 7 mld STP with Primary Settling Tank followed by SBR technology, Effluent Disposal & Reuse works includes 1000 KL capacity of Reservoirs with pumping station & 1000 KL Capacity of OHT (vi) Sewer suction cum jetting machine-2 nos of 4000 liters capacity and sewer jetting machine-2 nos each of 500 liters capacity (vii) Road restoration works (viii) Power and Gas generation from 15.5 Mld sewerage. Project scope also includes O&M of the created assets for 10 years.

¹ The six project cities are Bhilwara, Jhunjhunu, Sri Ganganagar, Hanumangarh, Tonk, and Pali.

4. This Resettlement Plan (RP) document is prepared for proposed Water Supply and Sewerage Subprojects in Jhunjhunu and is in line with the Resettlement Framework (RF) prepared for the implementation of social safeguards under RUSDP.

5. Summary of Resettlement Impact Consistent with the subproject selection criteria, rehabilitation is prioritized over new construction to avoid / minimize involuntary resettlement impacts. Construction of Water distribution Pumping station(6 nos), Clear Water Reservoirs (5 nos), Elevated Service Reservoir(1 nos), Consumer relation management centres (4 nos), Master Control Centre(1 nos) ,Intermediate Pumping station(2 nos) of capacity 3.5 mld and 1 mld and Construction of 7 mld STP will be undertaken in existing PHED Campus and government land. No new land acquisition is required. **Details are in table 1 and NoCs are attached in annexure 2 to 5.**

6. The main resettlement impacts will be due to laying of water supply and sewerage pipe networks. Pipes will be laid within road rights-of-way (RoW), and will not require land acquisition or cause permanent displacement, but will cause temporary access disruptions and possible temporary losses in income during construction. It has been confirmed through transect walks and SIA (followed by 100% Socio-Economic Survey) that laying of pipeline may cause temporary loss of access/disruption to livelihood during civil works to 503 vendors/traders located at both sides of road. These are majorly non-titled movable /transitory structure (push carts etc)²owners. As per information from design engineers, maximum number of days the vendors will experience loss of access/disruption of livelihood is 14 days which can be further minimized by scheduling civil works at night time or non-market day and laying of pipeline in phases. Temporarily affected persons (APs) will be assisted in moving to the other side of the road and returning their structures after construction is completed. Where moving is not required, access will be ensured by the contractor through measures prescribed in bidding documents.

7. To further minimize construction impacts, work will be executed during the early hours of the day in order to avoid inconveniences to the public as well as traders and vendors. All safety norms would strictly be adhered to depending on the magnitude of work and the sensitivity of the location. The Project Implementation Unit (PIU) will also ensure that all the necessary rules related to safety and security of the public and residents are followed by the contractor. The actual dates of construction schedule with respect to rush hour, festival time, and special business days have been discussed with vendors, squatters, market committee members, and residents, and intimated to the contractor for planning construction activities. After laying of pipes the lane/road will be restored to its original condition (including bitumen, cement concrete (CC) and CC interlocking tiles as applicable). Orientation program with Project Contractor and PIU was held on **08.03.2017 & 02.05.2017** and safeguard issues were deliberated in detail. (**See Annexure 12**).

8. It is pertinent to inform that this project is Design Build and Operation (DBO) contract and even though the DPRs are being prepared by consultants (PMDSC), the final design/alignment/confirmation has to be provided/ prepared by Contractor. Taking a note of above SIA and census and socio economic survey (100%) of the entire town was conducted and now even if some minor changes are made by the contractor in final DPR there will be no change in categorization of RP as these minor changes (in case the impacts are further minimized by scheduling civil works at night time or non-market day and laying of pipeline in

² Resettlement impacts based on the detailed survey

phases etc.) may at its maximum result in reduction of DPs. Letter has been issued to Contractor through Employers Representative (ER), on dated 11.05.2017 for freezing of alignment of DP Areas. (**See annexure 6**)

9. **Categorization.** This subproject has been categorized as “B”³ for Involuntary Resettlement (IR) impact as per the ADB’s Safeguard Policy Statement (SPS), 2009. This resettlement plan (RP) is developed as per Detail Project Report (DPR)⁴ and as per agreed Resettlement Framework (RF).

10. **Public Consultations and Disclosure:** Consultations were carried out during RP preparation and will continue throughout the subproject cycle. The social safeguard team carried out preliminary consultations, through focus group discussions (FGDs) and meetings with the affected persons (APs) as well as the general public. FGDs were conducted with the APs wherein policy related issues, i.e., displacements and other issues like compensation and assistance, input to alternative design were discussed. During consultation meetings, participants were of the view that this subproject is important and very much needed. All participants are pleased and committed to support the implementation of the project. There was no opposition for this subproject.

11. RPs will be made available near affected area, and PIU and PMU offices. The sub-project RP will be disclosed in ADB’s web site and the PMU web sites. Leaflet prepared in local language (Hindi) has been distributed to the Affected Persons in the month of April (2017) for understanding the sub-projects scope, R & R provision and GRC system under this project (**see annexure 8&9**). Cut-off-date for temporary impacts has been communicated to APs through survey agency and disclosed in the project affected area on dated 08.05.2017 (**see annexure 10&11**).

12. **Policy Framework and Entitlements.** The policy framework and entitlements for the program are based on national laws: the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013⁵, (ii) National Rehabilitation and Resettlement Policy, (NRRP) 2007 (iii) ADB SPS, 2009; and agreed RF.

13. **Compensation and Income Restoration:** The implementing agency (PIU) will provide compensation in accordance with the entitlement matrix of the updated RF. As a policy, all affected persons will be provided 30 days advance notice to ensure minimal disruption of livelihood. Compensation will be completed prior to start of civil works. If required, they will also be assisted to temporarily shift for continued economic activity. For example they will be assisted to shift to the other side of the road where there is no construction. Letter has been issued to Contractor through ER, on 11.05.2017 for freezing of alignment and for shifting requirement of the project as ensuring there is no income or access loss during sub-project construction is the responsibility of contractors.

³ A proposed project is classified as category B if it includes involuntary resettlement impacts that are not deemed significant.

⁴ SIP (by contractor) is under preparation which includes finalization of Designs/ coverage area/alignment. This RP may be revised accordingly.

⁵ The Act has received the assent of the President on the 26 September 2013.

14. **Grievance Redress Mechanism.** Grievances of DPs/APs will first be brought to the attention of the Contractor, Social Development Expert of CAPC, Implementing officer, PMDSC (Safeguard Staff of PMDSC) and PIU. They can immediately resolve issues on-site in consultation with each other, and will be required to do so within 3 days of receipt of a complaint/grievance. All grievances that cannot be redressed within 3 days at field/ ward level will be brought to the notice of Social Project Officer (SPO) of PMU. PMU SPO will resolve the grievance within 7 days of receipt of compliance / grievance in discussion with the PIU, CAPC/ Safeguard Staff and the Contractor. All the grievances that are not addressed by PMU within 7 days of receipt will be brought to the notice of the Grievance Redressal Committee (GRC). The City Level Committee (CLC), established in every project town, will act as GRC. The GRC will resolve the grievance within 15 days of receiving the complaint. An aggrieved person shall have access to the country's legal system at any stage, and accessing the country's legal system can run parallel to accessing the GRM and is not dependent on the negative outcome of the GRM. The PIU will keep records of all grievances received including: contact details of complainant, date of the complaint received, nature of grievance, agreed corrective actions and the date these were effected, and final outcome. All costs involved in resolving the complaints will be borne by the PMU. The GRCs will continue to function throughout the project duration.

15. **Institutional Arrangements:** The Local Self Government Department (LSGD), Government of Rajasthan (GoR) will be the Executing Agency (EA) of the Project and will be responsible for overall strategic approvals, guidance, monitoring the execution of the project. The current Project Management Unit of RUIDP, under the LSGD, will be the Implementing Agency (IA) for the project. IA will execute and monitor the RUSDP implementation. Six Project Implementation Units (PIUs), one each of in six project towns, have been setup for implementation. PMU is providing support to PIUs in implementation, management and monitoring of the project. PMU and PIUs are being assisted by Programme Management, Design and Supervision Consultants (PMDSC). At state-level an inter-ministerial Empowered Committee (EC) has been established to provide overall policy direction and City Level Committees (CLCs) has established in each town to oversee the implementation at town level. The PMU are assisted by a PMDSC social safeguards specialist (PMDSCSSS). The SSS will (i) update the existing resettlement plans based on the detailed design; (ii) assist in the monitoring and supervision of ongoing subprojects and RP and IPP implementation; (iii) prepare resettlement plan and/or IPPs for new subprojects, where required to comply with national law and/or ADB procedure; (iv) ensure all subprojects meet safeguard requirements as agreed in the loan covenant and in line with resettlement framework; (v) review and finalize all reports in consultation with the PMU SPO (RP updating and preparation, preparation of semi-annual social safeguard monitoring report for PMU submission to ADB, and support GRM implementation); (vi) provide project management support. In addition, SSS will assist the PMU in procurement needs and other project implementation aspects, and shall play a central role in ensuring capacity building on resettlement management of the PMU, Contractor, and line departments through capacity development support, training and orientations. In addition to this, at town level, Safeguard Implementation Officer is appointed (as per recent variation in PMDSC Contract on recommendation of ADB) to support Contractor's outreach team in RP implementation.

16. **RP Implementation and Monitoring:** All compensation is to be paid prior to start of civil works. RP implementation will be closely monitored by PIU with an effective basis for assessing resettlement progress and identifying potential difficulties and problems. The PIU, with assistance from Safeguard Implementation Officer PMDSC, will prepare monthly and quarterly progress report in terms of physical and financial indicators. In addition, the monitoring process will also look into: the communication and reactions of affected persons;

use of grievance procedures; information dissemination to affected persons on benefits; and options and implementation time table, livelihood and living standard of affected persons in pre and post-project situations. Report prepared by PIU will be compiled by PMDSC SSS and the PMU on a semi-annual basis for its due submissions to ADB.

17. **Resettlement Budget:** The resettlement cost estimate for the Jhunjhunu Water and Sewerage subproject includes resettlement assistance, as outlined in the entitlement matrix, and contingency provision amounting to be 5% of the total cost. Funds for resettlement will be released in a timely manner. The total resettlement cost for the subproject is INR **36,73,759/-**. The resettlement cost items and estimates are outlined in Table 9. The town Safeguard Implementation Staff will be involved in facilitating the disbursement process, and will facilitate opening bank accounts for the affected persons who do not have bank accounts. PIU will be issuing sanction order to payment of DPs /APs and making ECS/NEFT transaction from bank through concerned Treasury (State Share). Payment of the compensation will be ensured before the start of civil works.

RESETTLEMENT PLAN

A. Sub-project Description

1. Rajasthan Urban Sector Development Program (RUSDP), building on the previous two ADB funded projects: RUIDP and RUSDIP (also referred as RUIDP I and II respectively), will support the Government of India (GOI) and the Government of Rajasthan (GoR) in their policy of balanced regional socio-economic development and poverty reduction through improvements in urban governance, management, and infrastructure and service provision in six selected cities⁶ in Rajasthan. The selected cities are particularly district headquarters with more than 100,000 population and the ones which were not benefitted under the previous two ADB funded urban sector projects. With a main focus on improvement of water supply and sewerage services, proposed RUSDP will be implemented over a 6-year period beginning in 2014 through ADB's Sector Development loan (SDP).

2. The sub-projects includes: **Water Supply:** (i) GIS based consumer, properties and asset mapping, surveys & Investigations, underground utility mapping, prepare consumer data base for total project area. (ii) Study, review, update hydraulic modelling and other designs and prepare service improvement plan for project area.(iii) Treated Water Transmission Mains: DI-K9 pipeline of 100-600 mm dia, about 19 km length.(iv) The old water distribution mains of AC, PVC and CI pipelines will be replaced by the new water mains of different sizes of 75 mm to 400 mm dia- 563 km length.(v) Water distribution Pumping station (6 nos) (City Campus, Colony campus, Islam nagar, Housing board, Beewani and Khetri Mahal).(vi) Clear Water Reservoirs-5(nos)- Colony campus-800 KL, Islam Nagar-300 KL, Housing Board-550KL, Khetri Mahal-300KL, Beewani-250KL (vii) Elevated Service Reservoir-1 nos (viii) Metered Consumer service connection-32650 nos (ix) Refurbishment and rehabilitation of existing infrastructure works of OHSR, PS, CWR tube well etc including replacement of mechanical and electrical equipments/appliances. (x) Bulk water meters, pressure sensors-As per design requirement (xi) Well equipped and staffed consumer relation management centres-4 nos and one Master Control Centre (xii) O&M of system, including water distribution service delivery with performance guarantee, meter reading, billing and collection system and consumer service for the completed DMAs including consumer service centres. **Sewerage:** (i) Sewerage network 124 kms including left over work of sewerage system of UIDSSMT scheme with construction of 5810 Manholes (ii) Cleaning,Hydro-testing and commissioning of laid sewer lines and constructed Manholes under left out packages-61 kms and 2522 Manholes(iii) House Sewer connection –About 20424 nos (iii) 2 nos of Intermediate Pumping station of capacity 3.5 mld and 1 mld.(iv) Construction of 7 mld STP with Primary Settling Tank followed by SBR technology, Effluent Disposal & Reuse works includes 1000 KL capacity of Reservoirs with pumping station& 1000 KL Capacity of OHT (v) Sewer suction cum jetting machine-2 nos of 4000 liters capacity and sewer jetting machine-2 nos each of 500 liters capacity (vi) Road restoration works (vii) Power and Gas generation from 15.5 Mld sewerage.Project scope also includes O&M of the created assets for 10 years.

3. This Resettlement Plan (RP) document is prepared for proposed Water Supply and Sewerage Subprojects in Jhunjhunu and is in line with the Resettlement Framework (RF) prepared for the implementation of social safeguards under RUSDP.

4. Categorization. This subproject has been categorized as “B” for Involuntary Resettlement (IR) impact as per the ADB's Safeguard Policy Statement (SPS), 2009. This

⁶The selected cities include: Pali, Tonk, Sri Ganganagar, Jhunjhunu, Bhilwara, and Hanumangarh

resettlement plan (RP) is based on Detail Project Report (DPR)⁷ and as per agreed Resettlement Framework (RF).

Figure 1: Proposed Treated Water Transmission Main

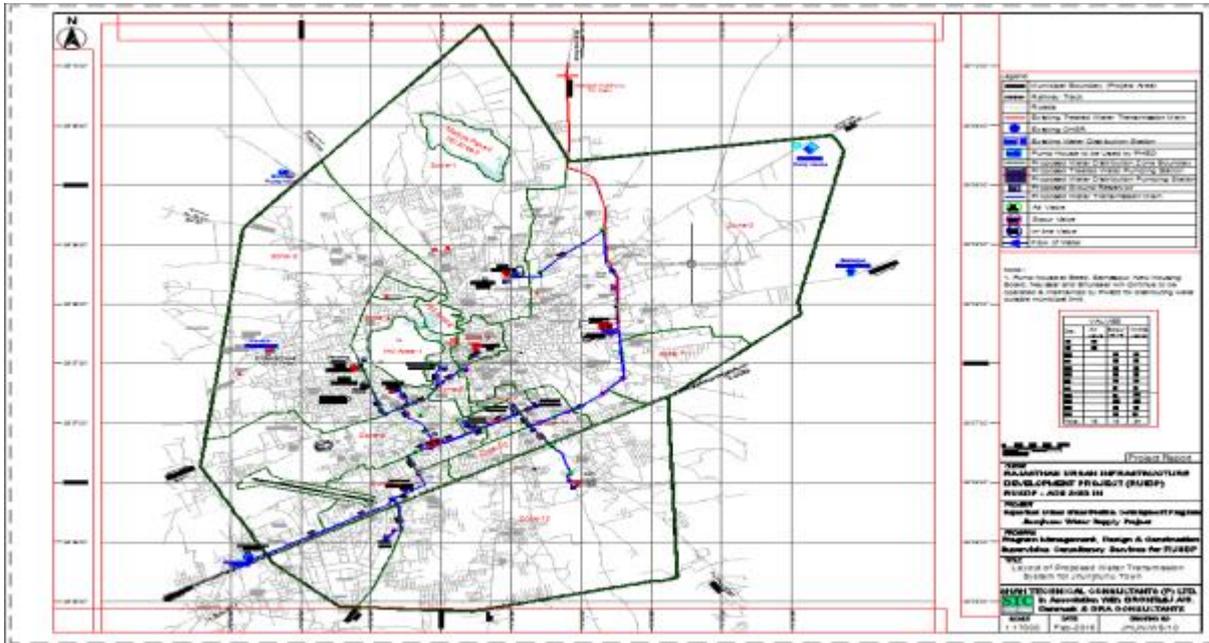

Figure 2: Proposed Layout plan of water distribution

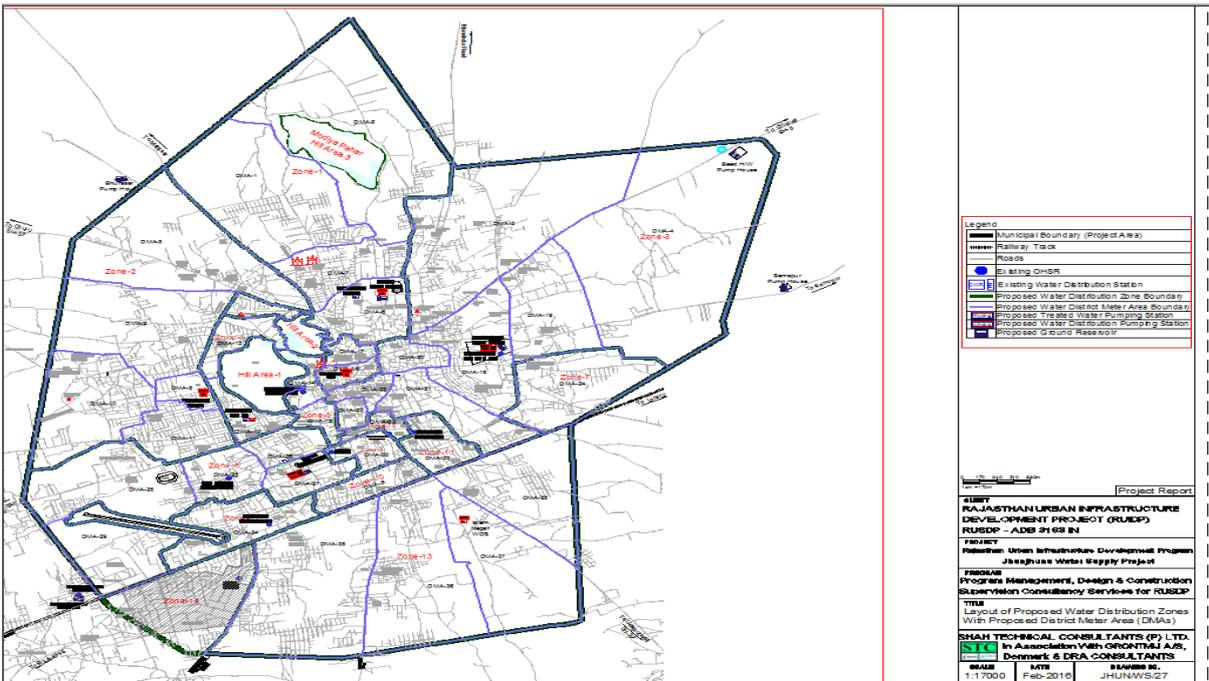

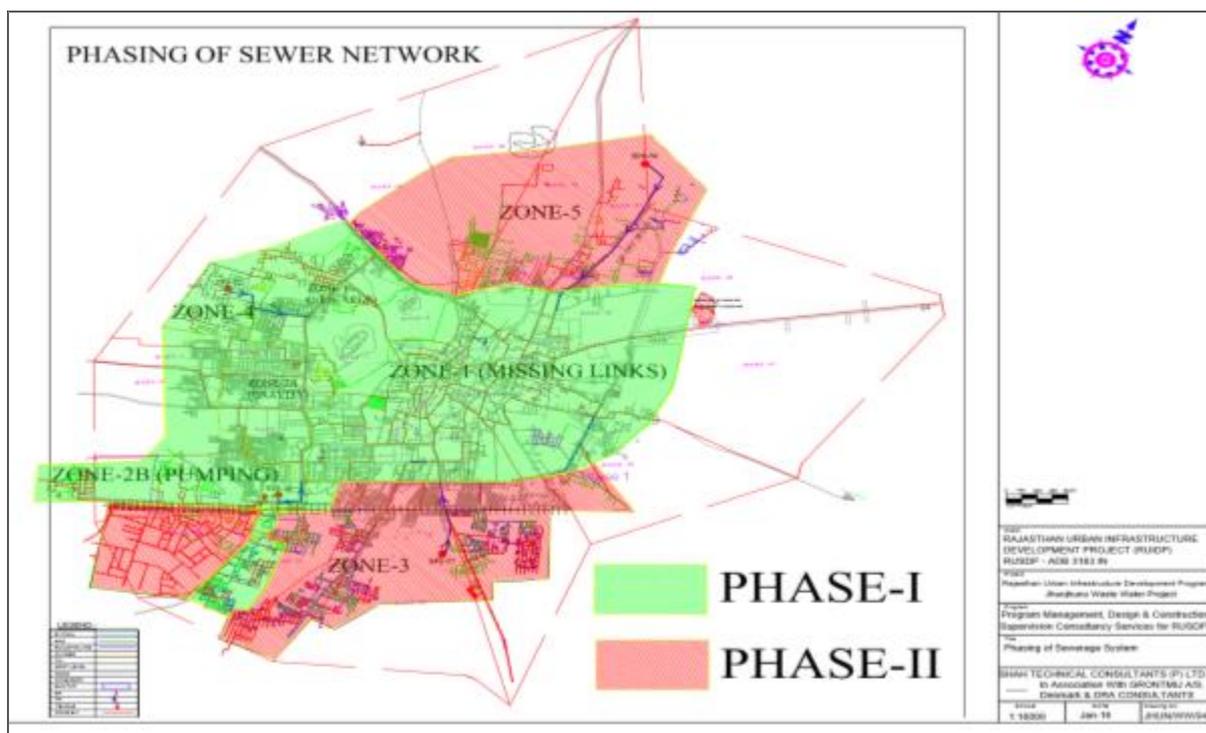

Figure 3: Proposed Layout of Sewer Network

⁷Initial design prepared by Project Management and Design Supervision constulatat, however, final design/alignment confirmation will be provided/ prepared by Contractor..

B. Scope of Land Acquisition and Resettlement

18. Consistent with the subproject selection criteria, rehabilitation is prioritized over new construction to avoid /minimize involuntary resettlement impacts. Construction of Water distribution Pumping station(6 nos), Clear Water Reservoirs (5nos), Elevated Service Reservoir(1 nos), Consumer relation management centres (4 nos), Master Control Centre(1 nos) ,Intermediate Pumping station(2 nos) of capacity 3.5 mld and 1 mld and Construction of 7 mld STP will be undertaken in existing PHED Campus and government land. No new land acquisition is required. **Details are in below table 1 and NoCs are attached in annexure 2 to 5.**

Table 1: Land allotment Jhunjhunu

Location	Work details	Land Requirement ⁸	Land ownership
City Campus	Water distribution Pumping station	50MX20M	Existing Campus of PHED
	CRMC	90Square Mtr	
	MCC	500 Square Mtr	
Colony campus	Water distribution Pumping station and Clear Water Reservoirs	40MX20M	Existing Campus of PHED
Islam nagar	Water distribution Pumping station and Clear Water Reservoirs	30MX40M	Existing Campus of Mahila Police Thana. NOC provided by Police

⁸ All the required land is available with the PHED and Municipal Council at above locations. All required NoCs have been taken.

Location	Work details	Land Requirement ⁸	Land ownership
			department is enclosed at Annexure 4.
Housing board	Water distribution Pumping station and Clear Water Reservoirs	20MX20M	Existing Campus of PHED
Beewani	Water distribution Pumping station and Clear Water Reservoirs	20MX20M	Existing Campus of PHED
Khetri Mahal	Water distribution Pumping station and Clear Water Reservoirs	25MX15M	Existing Campus of PHED
Lal Pahari	Elevated Service Reservoir	10MX10M	Municipal council
Panchayat Samiti	Intermediate Pumping station	30MX30M	Municipal council
Deendayal Nagar	Intermediate Pumping station	30MX40M	Municipal council
Existing Campus	Construction of 7 mld STP	7380 Sqm	Municipal council (at baggar road)
Gandhi Park	CRMC	90 Square Mtr	Municipal council
Municipal council office premises	CRMC	90 Square Mtr	Municipal council
Housing Board - 1	CRMC	90 Square Mtr	Municipal Council

5. To estimate the temporary impacts, transect walks were undertaken in roads/ pipeline alignments to confirm that there are no impacts on private/ public land, private properties like housing, shops, commercial buildings, and community infrastructure. It is ascertained that the main resettlement impacts will be due to laying of water supply and sewerage pipe networks. Pipes will be laid within road rights-of-way (RoW), and will not require land acquisition or cause permanent displacement, but will cause temporary access disruptions and possible temporary losses in income during construction. It has been confirmed through SIA followed by 100% Socio-Economic Survey that laying of pipeline may cause temporary loss of access/disruption to livelihood to 503 vendors/traders located at both sides of road (Ref **annexure 1**) during civil works. These are majorly non-titled movable /transitory structures (push carts etc.) owners (**Details are in Table 2 & 3**). As per information from design engineers, maximum number of days the traders/vendors may experience loss of access/disruption of livelihood is 14 days which can be further minimized by scheduling civil works at night time or non-market day and laying of pipeline in phases. Temporarily affected person (APs) will be assisted in moving to the other side of the road (if required) and returning their structures after construction is completed. Where moving is not required, access will be ensured by the contractor through measures prescribed in bidding documents and ensuring that there is no income or access will be the responsibility of contractors in this case.

Table 2: Summary of Resettlement Impacts and Socio-Economic Details

Impact	Quantity
1. Loss of land	
Permanent land acquisition	0
Temporary land acquisition	0
2. Loss of structures	

Impact	Quantity
Residential	0
Commercial	0
3. Loss of livelihood	
Permanent	0
4. Temporary	
Temporary loss of land	0
Temporary loss of access/disruption to livelihood	503 (These are majorly non-titled movable /transitory structures (push carts etc.)
5. Vulnerability	
Female Headed Households	31
Scheduled caste	61
Schedule Tribe	04
Physical Disabled	01
Socio-economic Profile

Flowers	5	Electrical Items	2

Fruit and Vegetable Vendors	175	General Items	13
Grocery Items	6	Washer man/ Laundryman	2
Others	19 (Shoes,CD,Watch Repair,Dairy,Spices etc)	Total	503

6. During transect walk, it was also observed that there are many narrow/congested street in the areas where pipeline is proposed. Meeting and discussions were made with project contractor and decision was taken that either trenchless work or night works will be taken up in these narrow / congested streets with all safety provision. Extensive consultations were made with the Residents and Shop Owners and they were informed about the upcoming works. They have given their consent for the works and are also ready for bearing temporary inconvenience during works (**See Annexure 14**). Consultation will continue with the Residents and Shop Owners throughout project implementation.

7. In addition to this, to further minimize construction impacts, work will be executed during the early hours of the day, this will avoid inconveniences to the public as well as traders and vendors. All safety norms will be strictly adhered to, depending on the magnitude of work and the sensitivity of the location. The Project Implementation Unit (PIU) will ensure that all the necessary rules related to safety and security of the public and residents are followed by the contractor. The actual dates of construction schedule with respect to rush hour, festival time, and special business days have been discussed with vendors, squatters, market committee members, and residents, and intimated to the contractor for planning construction activities accordingly. After laying of pipes, lanes/roads will be restored to its original condition (including bitumen, cement concrete (CC) and CC interlocking tiles as applicable). Summary of Sub-project components and possible IR impact are shown in **table 4**.

Table 4: Subproject Components and its Impact on Land Acquisition and Resettlement

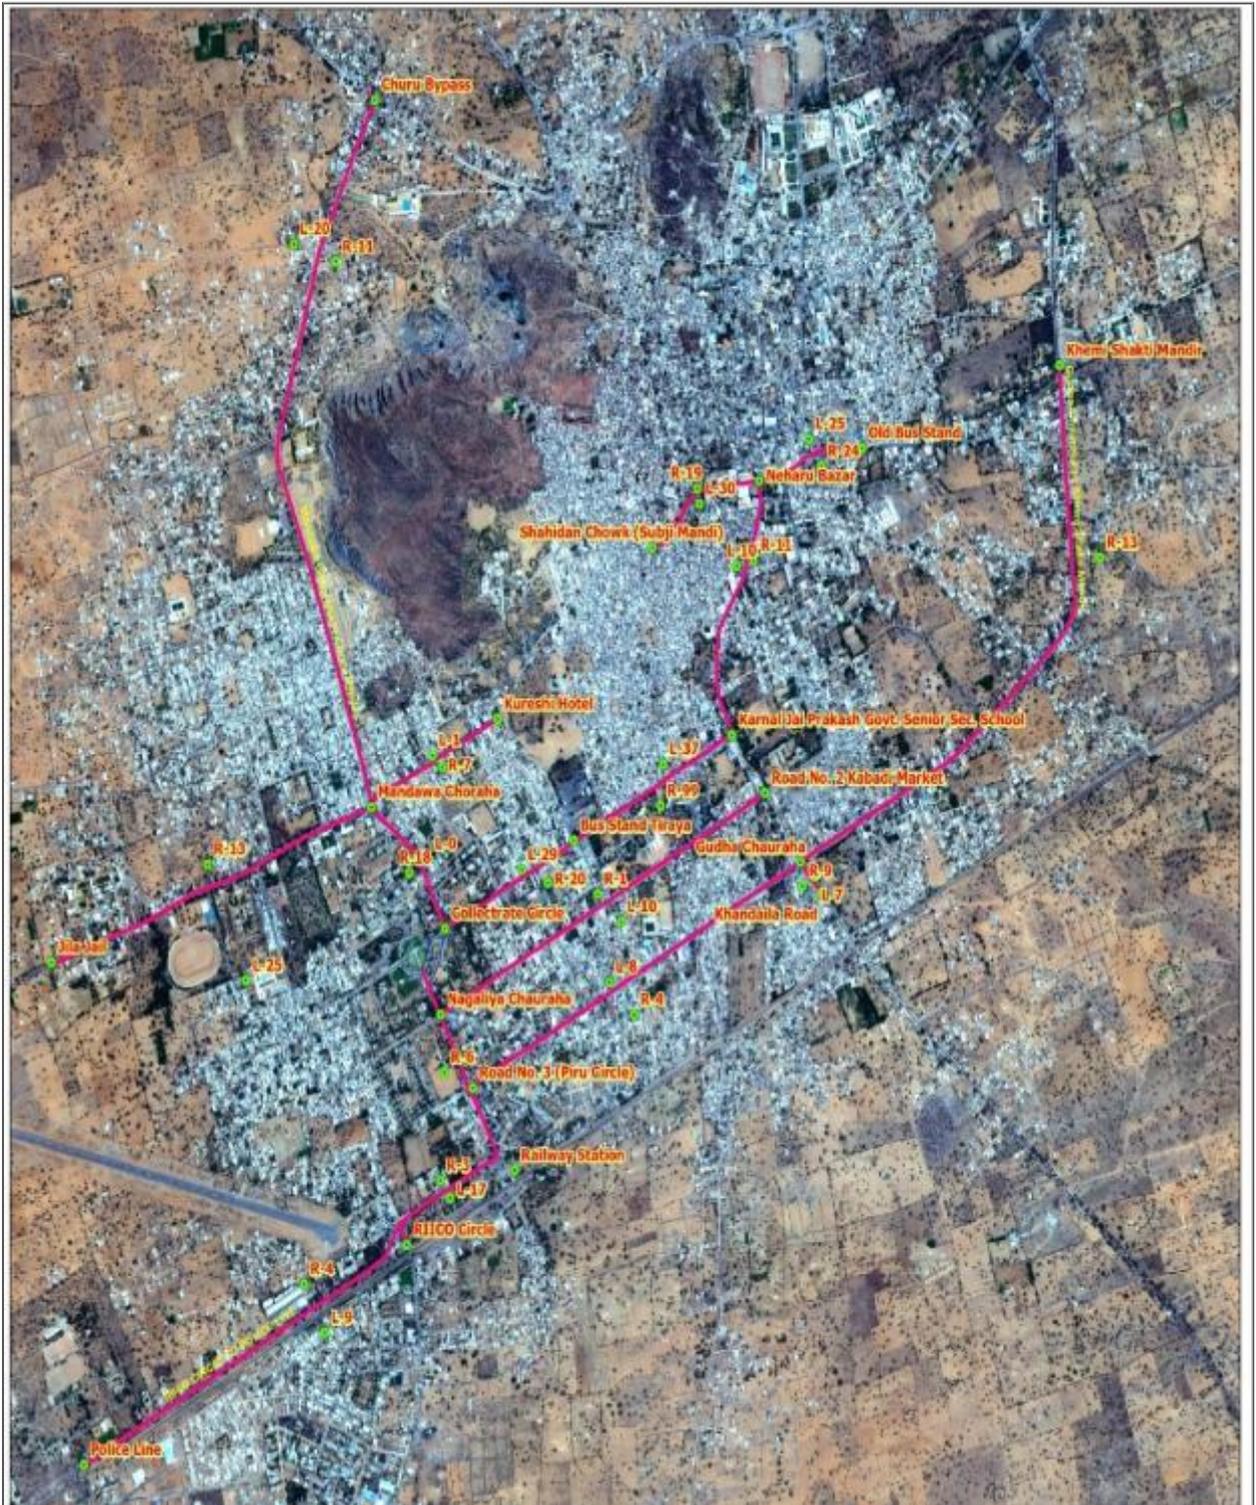

Work details	Location	Permanent Impact on Land Acquisition and Resettlement	Temporary Impact	Land ownership
Water distribution Pumping station	City Campus	NO	NO	Vacant land available in the premises of PHED Campus.
Water distribution Pumping station and Clear Water Reservoirs	Colony campus	NO	NO	Vacant land available in the premises of PHED Campus.
Water distribution Pumping station and Clear Water Reservoirs	Islam nagar	NO	NO	Vacant land available in the Police Station.
Water distribution Pumping station and Clear Water Reservoirs	Housing board	NO	NO	Vacant land available in the premises of PHED Campus.

Work details	Location	Permanent Impact on Land Acquisition and Resettlement	Temporary Impact	Land ownership
Water distribution Pumping station and Clear Water Reservoirs	Beewani	NO	NO	Vacant land available in the premises of PHED Campus.
Water distribution Pumping station and Clear Water Reservoirs	Khetri Mahal	NO	NO	Vacant land available in the premises of PHED Campus.
Elevated Service Reservoir	Lal Pahari	NO	NO	Municipal council
Intermediate Pumping station	Panchayat Samiti	NO	NO	Municipal council
Intermediate Pumping station	Deendayal Nagar	NO	NO	Municipal council
Construction of 7 mld STP	Existing Campus	NO	NO	Vacant land available in the premises of STP Campus, which is the property of Municipal council
CRMC (4 Nos) & MCC (1 No)	City Campus (CRMC & MCC) Housing board (CRMC) Gandhi Park (CRMC) Municipal council office (CRMC)	NO	NO	Vacant land available with PHED and Municipal Council
Treated Water Transmission Mains: DI-K9 pipeline of 100-600 mm dia, about 19 km length. Water distribution mains of different sizes : 75 mm to 400 mm dia- 563 km length Sewerage network 124 kms including left over work of sewerage system of UIDSSMT scheme with construction of 5810 Manholes		NO	Yes	The pipelines will be buried below in a trench on the edge of the road within the existing right of way (RoW). There are no impacts of pipe laying on permanent/semi-permanent structures. Temporary economic impacts on businesses (movable structures within RoW) are envisaged, and are likely to affect 503 APs.

8. It is pertinent to inform that this project is Design Build and Operation (DBO) contract and even though the DPRs are being prepared by consultants (PMDSC), the final design/alignment/confirmation has to be finally provided/ prepared by Contractor. Taking a

note of above SIA and census and socio economic survey (100%) of the entire town was conducted and now even if some minor changes are made by the contractor in final DPR there will be no change in categorization of RP as these minor changes (in case the impacts are further minimized by scheduling civil works at night time or non-market day and lying of pipeline in phases etc.) may at it maximum result in reduction of DPs. Letter has been issued to Contractor through ER, on dated **11.05.2017** for freezing of alignment of DP Areas. (**See annexure 6**)

Figure 4: Map of DPs areas (Google)

9. **Impact on Common Property Resources:** Extent of impacts on CPRs has also been assessed. As of now, there is no impact envisaged on any CPR however, there are some sensitive receptors in close proximity to the sub-project alignment (**Table 5**). The Contractor has been instructed to take due care during final designing.

Table 5: List of CPRs

S.No.	Start point to end point	left	Right	Remarks
1	Mandawa Chaurah to Kureshi Hotel	Public Toilet		Discussions on ADB policy for sensitive receptors made with the contractor, the design or alignment will be finalized accordingly.
2	Bus Stand to Jai Prakash Government Senior Secondary School		2Public Toilet	
3	Mandawa Chaurah to Churu Bypass	Temple Tree		
4	Jai Prakash Government Senior Secondary School to Gandhi Chowk		(1)Public Toilet (2)Temple Tree

C. Socio-economic Information and Profile

10. The following sections present socio-economic profile of the households likely to be affected by the proposed works. To estimate the temporary impacts initially a series of transect walks were conducted; this was followed by a 100 percent census and a socio-economic survey conducted in the areas, where the works is to be taken up (Sample format is attached in **Annexure 15**). The baseline information collected through survey provides the socio-economic conditions of affected households. A wide range of data including, social category, Type of losses, Type of Occupation, sources of income, choice of resettlement etc have been collected by conducting census and socio-economic survey among likely project affected households. (**Summary of Socio-Economic profile is attached in Annexure 1**).

11. The data base provides broad understanding of social and economic conditions of project affected households and the likely impacts that people would experience due to proposed Works. A selected set of socio-economic information is discussed in the following sections to establish the profile of the project affected persons. The data base generated through household socio-economic survey would be used by the monitoring and evaluation consultant for evaluation of the resettlement plan objectives.

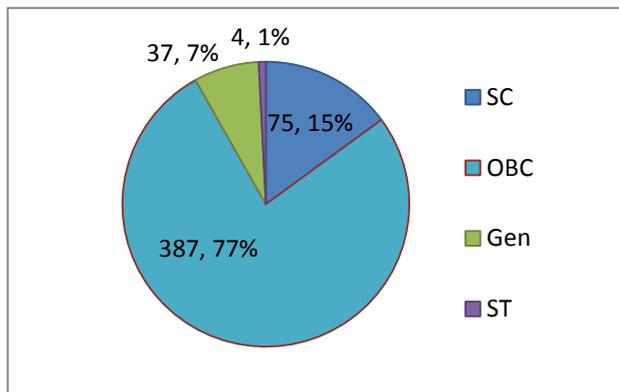

12. Respondents were asked to provide monthly income against business. Data collected have been compiled are presented in **Annexure 1**.

13. **Income:** No households with a monthly income of less than or equal to Rs. 2500/- per month was identified as minimum income of households is around Rs. 250/- per day i.e. 7500/- per month. 5.4 % of the households likely to be affected earn Rs.250/- per day. 63.8% of the households likely to be affected have income of Rs.300/- per day. 30.6% of the households likely to be affected earn around Rs 400 per day and 0.2% of the households likely to be affected earn Rs.500 per day. The average earning of these people is approximately 329/- per day and the average household income works out to be 9870/- per month. Thus Average Earning of all DPs identified is

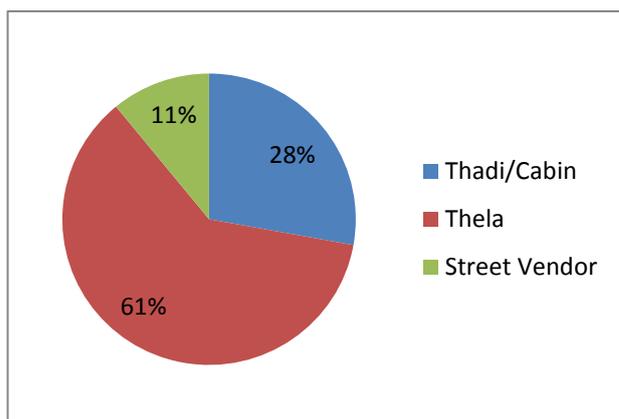

above Minimum Wages in Rajasthan (as on date minimum wage rate in Rajasthan is Rs. 201/-).

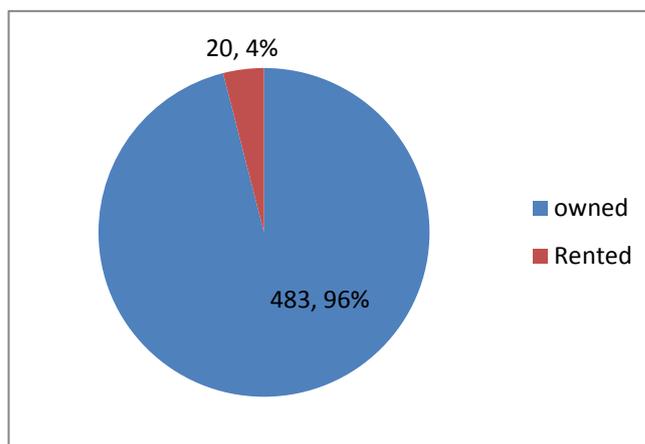

14. **Caste:** Households likely to be affected as per social category have been presented in Annexure 1. General Caste Comprise 7%, Other Backward Castes (OBC) comprises 77%, SC comprises 15% and ST Comprise 1% of the total households likely to be affected. It may be noted that OBC constitutes the majority in the overall social profile in the town, followed by the SC and General.

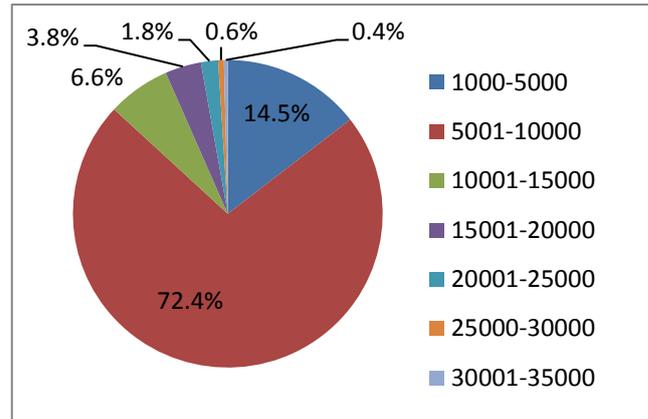

15. Around 61% have movable structures (thela/push carts), 11% sit on the floor and remaining 28% have constructed temporary sheds (eg. cabin/ kiosk which can easily dismantle).

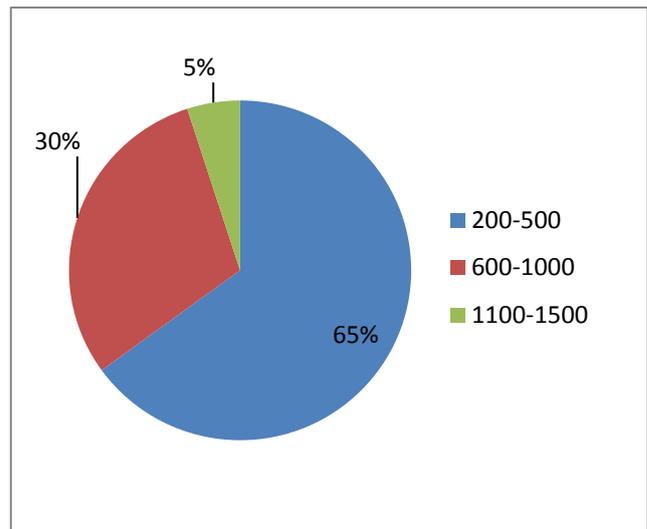

16. 96% of APs (483/503) donot pay any rent for their structures, carts or for sitting arrangements, while remaining 4% (20/503) are paying rent for structures, push carts or for equipments.

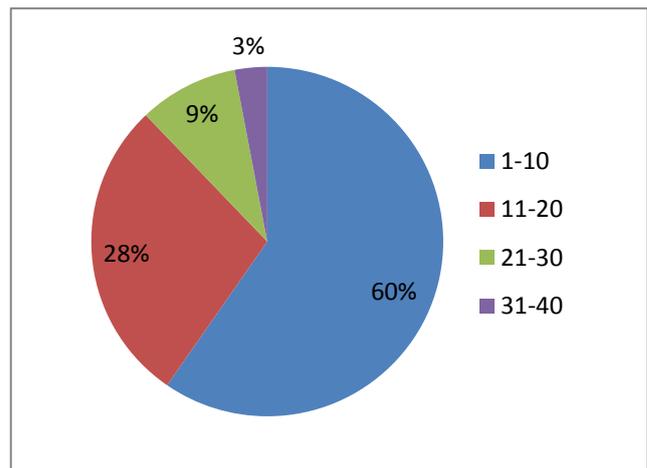

17. An average cost of business unit/structure is estimated to Rs.8788 with minimum at Rs. 1000/- and maximum of Rs. 35000/-.

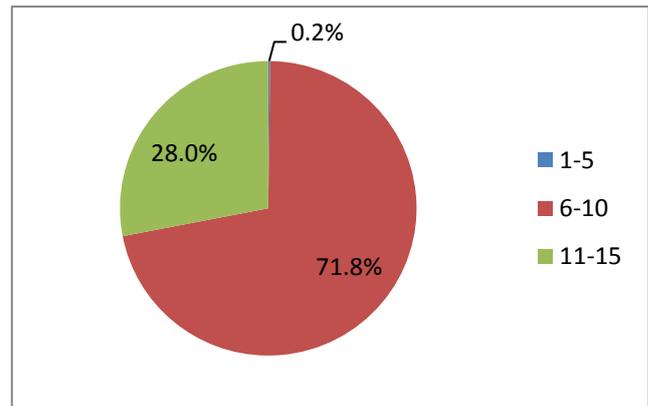

18. Out of total 20DPs, 65% of DPs are paying Rs200-500/- per month as rent, 30% are paying Rs. 600-1000/- per month as Rent and remaining5% are paying Rs. 1100 - 1500/- per month as rent for structures, push carts or for equipments.

19. **Working in Towns in Years:** 60% APs are living/working in town since last 1 to 10 years; 28% APs are living/working in town since last 11 to 20 years;9% APs are living in town / working since last 21 to 30 years; while 3% APs are living / working in town since last 31 to 40 years.

20. **Working hours (Hrs/day) at Single Place:** 0.2% APs have indicated that they work at fixed location for 1 to 5 hrs/day; 71.8% APs have indicated that they work at fixed location for 6 to 10Hrs/day; while 28% APs have indicated working at fixed location for 11-15hrs/day.

D. Information Disclosure, Consultation and Participation

21. The RP was prepared in consultation with stakeholders. The key stakeholders consulted during various stages of RP preparation include (i) all APs, including vulnerable households; (ii) program beneficiaries; (iii) elected representatives, community leaders, and representatives of community-based organizations; (iv) local NGOs; (v) local government and relevant government agency representatives; and (vi) Program staff, PMU, PIU, and consultants. Meetings and individual interviews were held involving stakeholders particularly, potentially temporarily Affected persons; from March-May, 2017 to determine the potential impacts of subproject. The issues like, awareness and extent of the project and development components, benefits of project, traffic disruptions and impacts on livelihood. It was informed to APs surveyed that appropriate measures will be undertaken during construction to minimize impacts. (Including scheduling of activities and reducing construction activities during the rush hour). It was also informed that, if despite mitigation measures, there would be any temporary impacts on livelihood; these would be compensated in accordance with the resettlement plan's entitlement matrix.

Table 6: Consultation with Stakeholders:-

Date	Location	Activity	Persons with consultation	Topic discussed
16.12.2015	PHED office	Meeting and Discussed about RUIDP work	Mr. Yogesh Trilota, EE, PHED	Proposed components of the project, Social and Environment requirement of ADB. Land availability with respect to all the components of the project.
01.02.2016	Panchayat Samiti	Meeting and Discussed about RUIDP work	Mr. Hazari Lal Meena (RFO)	Proposed components of the project Social and Environment requirement of ADB Land availability with respect to the proposed components
	Primary School Dhani Vyapariyan/ Deendayal Nagar		Ms Vimla Devi	
	Mahila Police Station		Mr. Kushal Singh (SI)	
05-04-2017	Mittal colony	Public Consultation on benefits of the project, Water Conservation, Property connection etc	1. Govind prashad 2. Ramesh 3. Hanuman 4. Ranveer 5. Vinod Kumar	Current Status of Water and Sewerage in the town 1. Project outcomes 2. Cooperation required 3. Willingness to pay 4. ADB policy 5. GRC mechanism of the project
11-04-2017	Maliyo ki Basti	Public Consultation on benefits of the project, Water Conservation, Property connection etc	1. Mrs. Geeta devi 2. Pramod . 3. Moti lal 4. Sunita 5. Kamlesh	Current Status of Water and Sewerage in the town 1. Project outcomes 2. Cooperation required 3. Willingness to pay 4. ADB policy 5. GRC mechanism of the project
15-04-2017	Vasasnt Vihar	Public Consultation on benefits of the project, Water Conservation, Property connection etc	1. Sanwar Mal 2. Prakash 3. Arvind 4. Purshotam 5. Rajpal	Current Status of Water and Sewerage in the town 1. Project outcomes 2. Cooperation required 3. Willingness to pay 4. ADB policy 5. GRC mechanism of the project

26-04-2017	Millat colony	Meeting with public & Discussed about RUIDP work and their benefits, Property connections, Water Metering	1.Aasma 2.Rahmat 3.Sajaad khan 4.Mohd. Rafik	Current Status of Water and Sewerage in the town 1. Project outcomes 2. Cooperation required 3. Willingness to pay 4. ADB policy 5. GRC mechanism of the project
29-04-2017	Immam Nagar	Meeting with public & Discussed about RUIDP work and their benefits, Property connections, Water Metering	1.Balkesh 2. Shabana 3.Shahida	Current Status of Water and Sewerage in the town 1. Project outcomes 2. Cooperation required 3. Willingness to pay 4. ADB policy 5. GRC mechanism of the project

22. The RP documents will be disclosed on ADB and local government's websites and final RP will be available in key local/state government offices. During the subproject implementation, construction schedules will be informed to all residents (including APs) prior to the commencement of pipe laying through signboards and leaflets. The signboards will be in local language and will include at minimum: (i) section to be affected, (ii) start and end dates, (iii) information on traffic rerouting if any, and (iv) Contact information for grievances/queries.

23. Information dissemination and disclosure is a continuous process since from the beginning of the project. Information dissemination will be carried out through printed leaflets/information booklets prepared in local language. The disclosure leaflets have already been circulated to the DPs and stakeholders (Hindi script) in the month of April - 2017 (**See Annexure 8&9**). During implementation phase, project information leaflets will be circulated not only to APs but also to people (residents, businessmen and others) within the immediate

project influence area in advance so that people could be aware about the project works and its benefit and also R&R provision under these project.

24. The leaflet/ information booklet contains (including but not limited to) the following:
- Description of the project and its objectives;
 - Summary of impacts (including temporary loss of livelihood ,impacts on common property resources, etc);
 - Resettlement & Rehabilitation provisions of the project and specific benefits available to vulnerable APs;
 - Ways and means of involving local communities;
 - Grievance redresses mechanisms, suggestion and complain handling mechanism, etc.

Table 7: Consultation and Disclosure Activities

Program Phase	Activities	Details	Responsible Agency
Investment Program Initiation/ Bridging Phase	Mapping of the program areas	Area to be mapped, clearly showing survey numbers of titleholders of land/property proposed for acquisition.	PMU in coordination with DC's offices and other local bodies.
	Stakeholder identification	Cross section of stakeholders to be identified in order to facilitate their participation in the Program.	PMU and PIUs in consultation with stakeholders.
	Program/sub-project information dissemination; Disclosure of proposed land acquisition	Leaflets containing information on the Program and sub-project to be prepared. Public notice issued in local newspapers (and disclosed on PMU/PIU websites) including survey numbers and names of titleholders for land to be acquired concurrent with consultation with titleholders.	PMU SPO and PIU ASO. Notice will be issued from the DC's office. PMU SPO and PIU ASO to disclose on the web.
	Stakeholder consultations	Further consultations with affected titleholders and households. Consultations with non-titled APs and other stakeholders during subproject scoping.	PMDSC SSS and CAPC/Safeguard implementing Staff.

Program Phase	Activities	Details	Responsible Agency
RP Preparation Phase	Disclosure of cut-off date	For permanent land acquisition as per the LARR, 2013 while for temporary impacts by PIU.	PIU with support from PMDSC SSS and CAPC / Safeguard implementing Staff
	SIA surveys	Surveys to be conducted. Summary RF to be disclosed in local language through printed materials to APs particularly those who are vulnerable and other stakeholders.	PIU through PMDSC SSS to conduct surveys. PMDSC SSS to disclose RF to stakeholders (including making it available in PMU/PIU offices and government agency offices) PMU/PIU to disclose on the web.
	Formulating compensation and resettlement assistance measures	Conducting stakeholder consultations particularly APs in and reflecting issues raised in revised RP.	PMDSC SSS and CAPC/ Safeguard implementing Staff.
	Disclosure of final entitlements and rehabilitation packages	Provision of RPs to all stakeholders particularly APs. Conducting consultations and distributing local language versions of the summary RP.	PMU/PIU to disclose on the web. SSS of PMDSC and CAPC/Safeguard implementing Staff to conduct consultations.
RP Implementation Stage	Disclosure of RP	Review and approval of RP by EA. Review and approval of RP by ADB. Web disclosure of the RP.	PMU to provide ADB with RP for review and approval. PMU SPO to disclose on the web.
	Consultation with APs during RP implementation	Consultations with APs.	CAPC/ Safeguard implementing Staff with monitoring from PIU/PMU.

25. For the temporary impacts the last date of socio-economic surveys was considered as cut-off date. Cut-off-date for temporary impacts was communicated to APs through Survey Agency and Safeguard Staff of PMDSC on dated 08.05.2017 (**See Annexure 10&11**) and also by putting up printed information in project affected area at common advertisement place. Similarly, list of APs was published at common places with contact details of PIU officials. The list was put up area wise and at a time for the entire city. The objective of the cut-off-date was to avoid APs moving into other areas and to identify any duplication of APs.

26. Approved RP will also be disclosed in ADB's website, PMU websites, and PIU or city websites; and information dissemination, through subproject specific leaflets and public announcements, and consultation will continue throughout program implementation.

E. Grievance Redress Mechanism

27. The RP will follow the three-tier project-specific grievance redress mechanism (GRM) furnished in the RF. The GRM established will receive, evaluate, and facilitate the resolution of AP's concerns, complaints, and grievances about the social and environmental performance at the level of the Project. The GRM will aim to provide a time-bound and transparent mechanism to voice and resolve social and environmental concerns linked to the Project.

28. In case of grievances that are immediate and urgent in the perception of the complainant, the contractor, and supervision personnel from PIU the PMDSC on-site will provide the most easily accessible or first level of contact for quick resolution of grievances. Contact phone numbers and names of the concerned PIU Assistant Safeguards Officer, contractors, will be posted at all construction sites at visible locations.

- (i) **1st level grievance.** The contractors, PIU supervision personnel, PIU Assistant Safeguards Officer and Safeguard implementing Staff/CAPC can immediately resolve issues on-site in consultation with each other, and will be required to do so within 3 days of receipt of a complaint/grievance.
- (ii) **2nd level grievance.** All grievances that cannot be redressed within 3 days at field/ward level will be brought to the notice of Social Project Officer (SPO) of PMU. PMU SPO will resolve the grievance within 7 days of receipt of compliance/grievance in discussion with the PIU, CAPC/Safeguard Implementation Staff and the Contractor.
- (iii) **3rd level grievance.** All the grievances that are not addressed by PMU within 7 days of receipt will be brought to the notice of the Grievance Redressal Committee (GRC). The City Level Committee (CLC), which will be established in every project city, will act as GRC⁹. GRC will meet twice a month and determine the merit of each grievance brought to the committee. The PIU ASO will be responsible to see through the process of redressal of each grievance. The GRC will resolve the grievance within 15 days of receiving the complaint.

29. The project GRM notwithstanding, an aggrieved person shall have access to the country's legal system at any stage, and accessing the country's legal system can run parallel to accessing the GRM and is not dependent on the negative outcome of the GRM. Alternatively, if the grievance is related to land acquisition, resettlement & rehabilitation¹⁰, the APs can approach the Land Acquisition, Rehabilitation and Resettlement Authority (LARRA).

30. In the event that the established GRM is not in a position to resolve the issue, the affected person also can use the ADB Accountability Mechanism through directly contacting (in writing) the Complaint Receiving Officer (CRO) at ADB headquarters or the ADB India Resident Mission (INRM). The complaint can be submitted in any of the official languages of

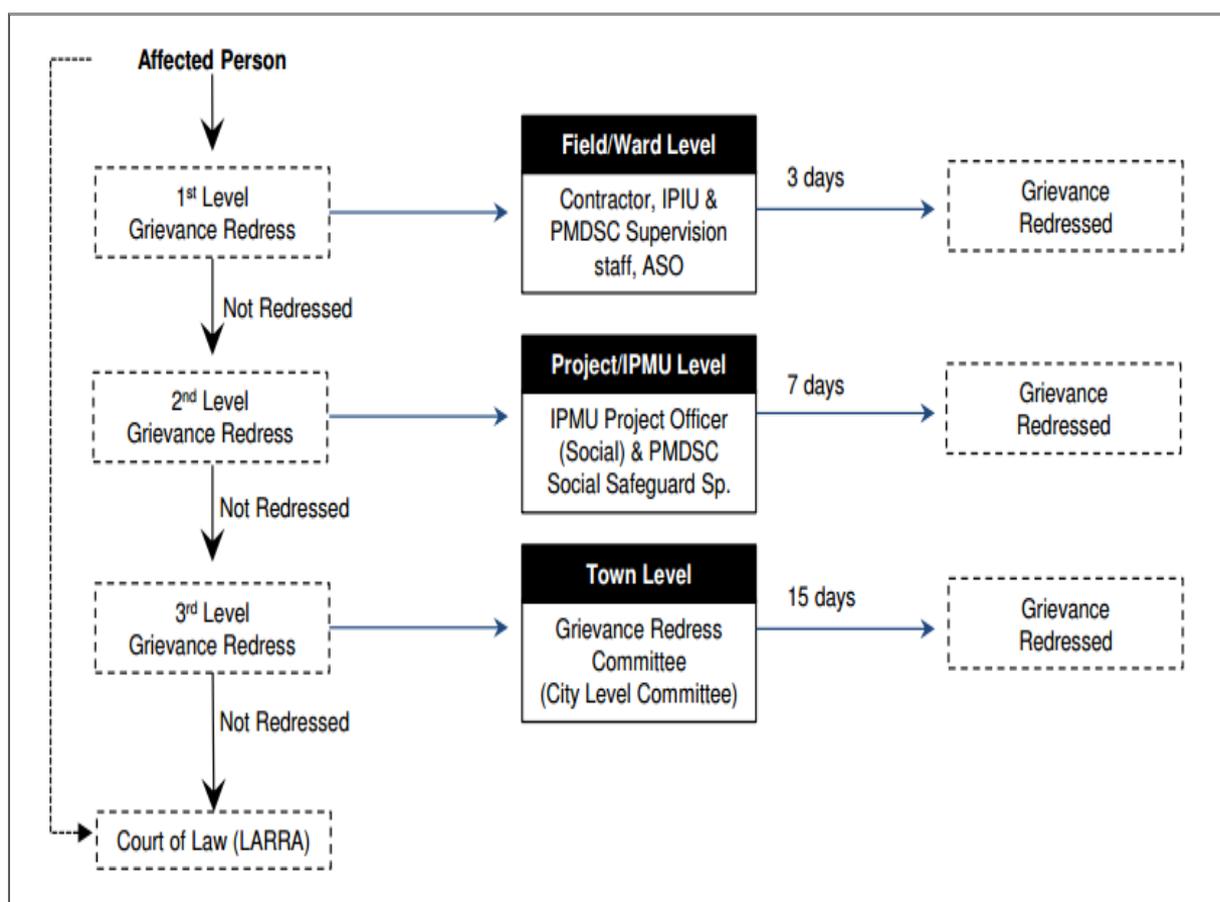

⁹ City Level Committees (CLC)/ Grievance redress committees (GRC) will be formed at city-level with members composed of: District Collector (DC) as Chairperson, and following as members: ULB Commissioner; Assistant Safeguards Officer PIU; representative from RPCB regional office; and one representative each from relevant government departments as appropriate (PWD/PHED/DAM etc.). All city-level GRCs will have at least one woman member/ chairperson. In addition, for project-related grievances, representatives of APs, community-based organizations (CBOs), and eminent citizens will be invited as observers in GRC meetings

¹⁰ The Authority admits grievance only with reference to the LA and R&R issues under the new LARR Act, 2013.

ADB's DMCs. The ADB Accountability Mechanism information will be included in the PID to be distributed to the affected communities, as part of the project GRM.

31. Records will be kept of all grievances received including: contract details of complainant, date of the complaint received, nature of grievance, agreed corrective actions and the date of these were effected, and final outcome. All costs involved in resolving the complaints (meetings, consultations, communication and reporting/information dissemination) will be borne by the concerned PIU at city level while costs related to escalated grievances will be met by the PMU.

Figure 6: Grievance Redress Process

ASO - Assistant Safeguard Officer; IPIU - Investment Program Implementation Unit; PMU - Investment Program Management Unit; PMDSC - Project Management, Design & Supervision Consultant

F. Legal Framework

32. The policy framework and entitlements for the RUSDP are based on:

- (i) The recently passed-The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act (RFCT in LARR), 2013.
- (ii) National Rehabilitation and Resettlement Policy, (NRRP)2007; and
- (iii) ADB's Safeguard Policy Statement (SPS), 2009. The salient features of Government and ADB policies are summarized below. The resettlement

principles and procedures to be followed for social safeguards under RUSDP are detailed out in the RF document.

33. Core involuntary resettlement principles for the RUSDP to be followed for each sub-project, including sample sub-projects are:

- (i) Land acquisition, and other involuntary resettlement impacts will be avoided or minimized exploring all viable alternative sub-project designs;
- (ii) Where unavoidable, time-bound resettlement plans (RPs) will be prepared and APs will be assisted in improving or at least regaining their pre-program standard of living;
- (iii) Full information and close consultations with APs including consultation with APs on compensation, disclosure of resettlement information to APs, and participation of APs in planning and implementing sub-projects will be ensured;
- (iv) Vulnerable groups will be provided special assistance¹¹
- (v) Payment of compensation to APs including non-titled persons (e.g., informal dwellers/squatters, and encroachers) for acquired assets at replacement rates;
- (vi) Payment of compensation and resettlement assistance prior to the contractor taking physical acquisition of the land and prior to the commencement of any construction activities;
- (vii) Provision of income restoration and rehabilitation; and
- (viii) Establishment of appropriate grievance redress mechanisms.

34. APs will be entitled to a combination of compensation measures and resettlement assistance, depending on the nature of ownership rights of lost assets and scope of the impact, including social and economic vulnerability of the APs.

G. Entitlements, Assistance and Benefits

35. All APs who are identified in the subproject areas on the cut-off date will be entitled to compensation for their affected assets, and rehabilitation measures (as outlined in the entitlement matrix below) sufficient to assist them to improve or at least maintain their pre project living standards, income-earning capacity and production levels. Compensation eligibility is limited by a cut-off date as set for this project on the day of the completion of the census survey which is **08.05.2017** in this case. APs who settle in the affected areas after the cut-off date will not be eligible for compensation and assistance. APs will be provided 30 days advance notice to ensure no or minimal disruption in livelihood. If required, they will also be assisted to temporarily shift for continued economic activity. For example they will be assisted to shift to the other side of the road where there is no construction. Ensuring there is no income or access loss during sub-project construction is the responsibility of contractors.

36. In majority of the cases, work will be undertaken on one side of the road at a time, and temporarily affected person (APs) will be assisted in moving to the other side of the road and returning their structures after construction is completed. Where moving is not required, access will be ensured by the contractor through measures prescribed in bidding

¹¹ Including poor households, households headed by women, the elderly, the physically handicapped, Schedule Caste and Scheduled Tribes considered vulnerable based on the Indigenous Peoples Planning Framework (IPPF).

documents/environmental management plan (EMP). An alternate place in the vicinity will also be identified where more number of APs are affected at one place (e.g. vegetable market) so that they can continue with their livelihood activities.

37. The PIU and the Safeguard Implementation staff will provide the identity cards (ID) to each of the APs. The entitlement matrix for the subproject based on the above policies is in **Table 8**.

38. The construction period will be minimized and is estimated to be less than 7 days and 14 days per section of work for water supply and sewerage pipelines, respectively. Though, the construction period is specified different for water supply and sewerage works, livelihood losses will be estimated for 14 days considering delays in works and road restoration (which force movable vendors to operate from different place). During orientation program with Contractor, It is suggested that water supply and sewerage works should be carried out at parallel to minimize impacts on stretches where both the works are proposed.

39. If construction activities results unavoidable livelihood disruption, compensation for lost income or a transitional allowance for the period of disruption whichever is greater will be provided. Under this project a 14 days of impact period during construction for both water supply and sewerage subprojects has been fixed¹². Vulnerable APs will be given priority in project construction employment and provided with additional special assistance for income restoration support. Compensation and assistance to APs must be made prior to possession of land/assets and prior to the award of civil works contracts. Since most affected households have moveable stalls, ID cards should be distributed 30 days before compensation. In summary, temporarily APs will be provided with:

- (i) 30 days advance notice regarding construction activities, including duration and type of disruption.
- (ii) Contractor's actions to ensure there is no income/access loss consistent with the initial environmental examination. This includes: leaving spaces for access between mounds of soil, providing walkways and metal sheets to maintain access across trenches for people and vehicles where required, increased work forces to finish work in areas with impacts on access, timing of works to reduce disruption during business hours, phased construction schedule and working one segment at a time and one side of the road at a time.
- (iii) Assistance to mobile vendors/hawkers to temporarily shift for continued economic activity. For example assistance to shift to the other side of the road where there is no construction.
- (iv) For construction activities involving unavoidable livelihood disruption, compensation for lost income or a transitional allowance for the period of disruption whichever is greater.

¹²As per RF

Table 8: Entitlement Matrix

RF No.	Type of Loss	Application	Definition of Entitled Person	Compensation Policy	Implementation Issues	Responsible Agency
1	Temporary disruption of livelihood	Temporary impacts	Legal titleholders, non-titled APs	<ul style="list-style-type: none"> 30 days advance notice regarding construction activities, including duration and type of disruption. Cash assistance based on the minimum wage/average earnings per month for the loss of income/livelihood for the period of disruption Contractor's actions to ensure there is no income/access loss consistent with the IEE.¹³ Assistance to vendors/hawkers to temporarily shift for continued economic activity (Rs. 1,000 as one time assistance)¹⁴ For construction activities involving unavoidable livelihood disruption, compensation for lost income or a transitional allowance for the period of disruption whichever is greater¹⁵ 	Identification of alternative temporary sites to continue economic activity.	Valuation Committee will determine income lost. Contractors will perform actions to minimize income/access loss. For temporary impacts during construction activities, PMDSC SSS with the help of implementing Staff will assess/verify impacts through structured surveys. Payment will be made by PIU through Treasury.
2	Impacts on vulnerable APs	Temporary impacts	Vulnerable APs ¹⁶	<ul style="list-style-type: none"> Livelihood. Vulnerable households will be given priority in project construction employment and provided with income restoration support. Vulnerable persons/businesses will receive Rs. 7,000 as one time assistance under temporary impacts. 	Vulnerable households will be identified during the census.	PMDSC SSS and implementing Staff will verify the extent of impacts through a 100% survey of APs, determine assistance, verify and identify vulnerable households.

¹³ This includes: leaving spaces for access between mounds of soil, providing walkways and metal sheets to maintain access across trenches for people and vehicles where required, increased workforces to finish work in areas with impacts on access, timing of works to reduce disruption during business hours, phased construction schedule and working one segment at a time and one side of the road at a time

¹⁴ For example assistance to shift to the other side of the road where there is no construction. These will be however given to only non-movable businesses (which are not on wheels).

¹⁵ Under this project a 14 days of impact period during construction for both water supply and sewerage subprojects has been taken.

¹⁶ Vulnerable households include female-headed households, physically handicapped-headed households, scheduled tribe and schedule caste households, Below Poverty Line households, and households with marginal land holdings, that is the only source of livelihood, and majority of that land is being acquired under the project.

RF No.	Type of Loss	Application	Definition of Entitled Person	Compensation Policy	Implementation Issues	Responsible Agency
3	Loss and temporary impacts on common resources	Common resources	Communities	<ul style="list-style-type: none"> Replacement or restoration of the affected community facilities – including public water stand posts, public utility posts, temples, shrines, etc. 	-	PMU and Contractor.
4	Any other loss not identified	-	-	<ul style="list-style-type: none"> Unanticipated involuntary impacts will be documented and mitigated based on ADB's Safeguard Policy (SPS), 2009/RUSDP RF/EM. 	-	PMDSC SSS and implementing Staff will ascertain the nature and extent of such loss.

H. Resettlement Budget and Financing Plan

40. The resettlement cost estimate for the Jhunjhunu Water and Sewerage subproject includes resettlement assistance, as outlined in the entitlement matrix and contingency provision amounting to be 5% of the total cost. The funds for resettlement will be released in a timely manner. The total resettlement cost for the subproject is **INR 36,73,759/-**. The resettlement cost items and estimates are outlined in **Table 9**. PIU will be issuing sanction order for payment of DPs/APs and for making ECS/NEFT transaction from bank through concerned Treasury from state share. The Safeguard Implementation Staff mobilized at town/PIU level, will facilitate the entire disbursement process and will assist affected persons in opening bank accounts (incase DP is not having an account).

Table 9: Resettlement Budget

S.no	Item	Unit	Quantity	Unit Rate	Amount
A.	Resettlement Cost				
1	Assistance for temporary livelihood impacts for 14 days	14	503	329	2316818
2	Assistance for the temporary disruption of livelihood to vulnerable households (one time)	LS	97	7000	679000
3	Shifting Assistance for 503 APs (one time)	LS	503	1000	503000
4	<i>Sub-Total A</i>				3498818
B	Additional Contingency (5%)				174941
	Grand Total (A+B+C)				3673759

I. Institutional Arrangements and Implementation Schedule

41. The Local Self Government Department (LSGD) is the executing agency responsible for overall technical supervision and execution of all subprojects funded under the Program. The Implementing Agency is the Program Management Unit (PMU) of the ongoing Rajasthan Urban Infrastructure Development Project (RUIDP), to coordinate construction of subprojects and ensure consistency across the towns Project Implementation Unit (PIU) has been established. The inter-ministerial Empowered Committee provides LSGD with central policy guidance and coordination and City Level Committees (CLCs) established in Jhunjhunu to oversee the implementation at city level. The PMU is assisted by: PMDSC who manages the Program and assure technical quality of the design and construction; managing the tendering of Contractors, and supervising construction.

42. PMU Social Project Officer (SPO) will perform responsibilities like Addressing social safeguards issues; Implementing the resettlement framework/IPF; Liaising with district administration for land acquisition and resettlement plan implementation; Addressing any problems and/or delays in the land acquisition process including GRM management and monitor the overall complaint resolution status; Monitoring physical and financial progress on

land acquisition activities and updating the PMU on the same; Monitoring implementation of safeguards plans (Resettlement plan/PPs); Guiding the PIUs as and when necessary; and Endorsing and submitting periodic semiannual social safeguard monitoring reports.

43. The PMU will be assisted by a PMDSC social safeguards specialist (PMDSC SSS). The SSS will (i) update the existing resettlement plans based on the detailed design; (ii) assist in the monitoring and supervision of ongoing subprojects and RP and IPP implementation; (iii) prepare resettlement plan and/or IPPs for new subprojects, where required to comply with national law and/or ADB procedure; (iv) ensure all subprojects meet safeguard requirements as agreed in the loan covenant and in line with resettlement framework; (v) review and finalize all reports in consultation with the PMU SPO (RP updating and preparation, preparation of semi-annual social safeguard monitoring report for PMU submission to ADB, and support GRM implementation); In addition, SSS will assist the PMU in procurement needs and other project implementation aspects, and shall play a central role in ensuring capacity building on resettlement management of the PMU and line departments through capacity development support and training. Refer **Figure 7** for the implementation arrangement of environment and resettlement safeguards.

44. PMU Social Project Officer (SPO) will receive support from Social Safeguard Specialist (SSS) of the PMDSC Team in implementation of social/land acquisition/resettlement related tasks at PIU level. At each PIU, an Assistant Engineer (AE) rank officer will be designated as Assistant Safeguards officer (ASO) who will assist PMU SPO in implementation of the social safeguards at the PIU level. The PIUs will be responsible for implementation of the resettlement plan. PIUs will undertake internal monitoring and supervision and record observations throughout the project period to ensure that the safeguards and mitigation measures are provided as intended. ASO will be responsible for (i) implementing and monitoring safeguards compliance activities, public relations activities, gender mainstreaming activities, and community participation activities; (ii) coordinating with district administration and NGO for land acquisition and R&R aspects and addressing any problems and/or delays; (iii) monitoring physical and financial progress on land acquisition and R&R activities including record keeping of the grievance and redress issues as reported by CAPC/Safeguard Implementation Staff/Contractor and prepare and submit monthly report on safeguards to be consolidated by PIU ASP; and (iv) organizing monthly meetings with the Contractor Outreach team and Safeguard Implementation Staff to review the progress on R&R. A tentative implementation schedule is given in **Table 10**.

45. Apart from safeguard staff at PMU/PIU and PMDSC level, Safeguard Implementation Staff of PMDSC has been appointed and Social Development Expert cum Gender Expert of CAPC will also be appointed for Jhunjhunu town to undertake RP implementation and to ensure compliance to ADB key objectives like public participation and gender sensitization. Key activities of the Safeguard Implementing Staff of PMDSC in relation to resettlement planning and implementation will include: (i) conducting detailed survey of physically and economically displaced persons based on detailed design, and identifying poor, female-headed, and vulnerable households affected by land acquisition and resettlement; (ii) preparing the list of the potential affected persons and issue identification cards; (iii) facilitating the process of disbursement of compensation to the affected persons, coordinating with the revenue department and informing the affected persons of the compensation disbursement process and timeline; (iv) assisting affected persons in opening bank accounts, explaining the implications, rules, and obligations of a joint account and how he or she can access the resources he or she is entitled to; (v) assisting the executing agency in ensuring a smooth transition (during the partial or full relocation of the affected persons), helping them to take salvaged materials and shift; after close consultation with the affected persons, the implementing Safeguard Staff shall inform the PMU about the shifting dates agreed upon in

writing and the arrangements they desire with respect to their entitlements; (vi) assist in organizing training programs for income restoration; (vii) conducting meaningful, ongoing consultation and ensuring disclosure of resettlement plans in an accessible manner to the affected persons; (viii) assisting PIUs in grievance redress mechanism; (ix) assisting PIUs in keeping detailed records of progress and establishing monitoring and reporting systems of resettlement; (x) acting as the information source for community interaction with the project, and liaising between community, PMDSC contractors, and project management and implementing units during the execution of the works; and (xi) providing advice and other support to PIUs as required.

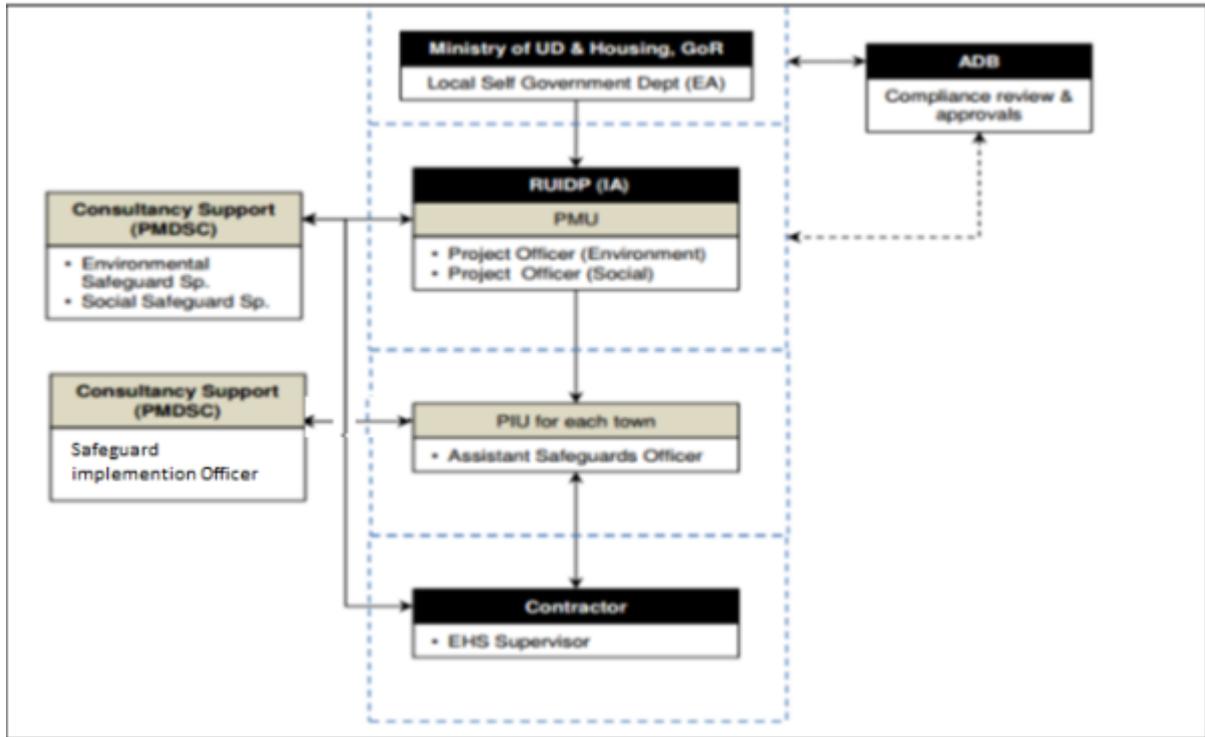

Table 10: Institutional Roles and Responsibilities

Activity	Responsible Agency
Sub-project Initiation Stage	
Finalization of sites for sub-projects	PMU
Disclosure of proposed land acquisition and sub-project details by issuing Public Notice	PMU
Meetings at community/household level with APs	PIU/Safeguard Implementation Staff
Formation of VCs	PMU/PIU
RP Preparation and Updating Stage	
Conducting Census of all APs	Safeguard implementation Staff/PMDSC SSS
Conducting FGDs/meetings/workshops	CAPC/ Safeguard Implementation Staff / PMDSC SSS
Computation of replacement values of land/properties proposed for acquisition and for associated assets	VC//NGO/ PMDSC SSS
Categorization of APs for finalizing entitlements	PMU / PMDSC SSS
Formulating compensation and rehabilitation measures	PMU / PMDSC SSS
Conducting discussions/meetings/workshops with APs and other stakeholders	PMU / PMDSC SSS /Safeguard Implementation Staff
Fixing compensation for land/property with titleholders	VC/ PMU
Finalizing entitlements and rehabilitation packages	PMU/ PMDSC SSS
Disclosure of final entitlements and rehabilitation packages	PMU/Safeguard Implementation Staff
Approval of RP	PMU/ ADB
Sale deed execution and payment	EA/ PMU
Taking possession of land	EA/ PMU
RP Implementation Stage	
Implementation of proposed rehabilitation measures	PIU/ Safeguard Implementation Staff
Consultations with APs during rehabilitation activities	PIU/ Safeguard Implementation Staff

Activity	Responsible Agency
Grievances redressal	CAPC/Safeguard ImplementationStaff / PMU /GRC
Internal monitoring	PMU / PIU

J. Monitoring and Reporting

46. Monitoring and evaluation are important activities of any infrastructure development project involving involuntary resettlement. It helps in making suitable changes, if required during the course of RP implementation and also to resolve problems faced by the DPs. Monitoring is periodical checking of planned activities and provides midway inputs, facilitates changes, if necessary and provides feedback to Project Authority for better management of project activities. Evaluation on the other hand assesses whether the activities have actually achieved intended goals and purposes. Thus monitoring and evaluation of resettlement action plan implementation are critical in order to measure the project performance and fulfillment of project objectives. Indicators and benchmarks for achievement of the objectives proposed under the Resettlement Plan are:

- i) Process indicators: indicating resettlement related project inputs and actions, expenditures, staff deployment, etc.
- ii) Output indicators: indicating results in terms of number of affected persons assisted, training held, assistance disbursed, etc,
- iii) Impact indicators: related to socio- economic status on people's lives, and
- iv) Complaints and Grievances received and resolved.

47. The benchmarks and indicators are limited in number, and combine quantitative and qualitative types of data. The first two types of indicators, related to process and immediate outputs and results, will be monitored to inform project management about progress and results, and to adjust the work programme where necessary, if delays or problems arise. Monitoring would be carried out for regular assessment of both processes followed and progress of the RP implementation.

48. RP implementation will be closely monitored to provide the PMU with an effective basis for assessing resettlement progress and identifying potential difficulties and problems. As per ADB guidelines, for category B projects only internal monitoring will be required. Internal monitoring for Jhunjhunu will be undertaken by the PIU (through the PMDSC SSS) with assistance from the PMU SPO. Monthly progress reports will be prepared and submitted to the PMU. PMU will consolidate the same and will submit semi-annual monitoring reports to the ADB for approval.

<p>Subject:- Jhunjhunu Water and Wastewater Project comprising of Design and Construction of Work Water Supply Distribution Network Improvement with House Service Connections for Non-Revenue Water Reduction and Continuous Water Supply, Constriction of Reservoirs and Pumping Stations, Water Transmission and all other allied works and Construction of Sewer Network with House Connection, Design and Construction of Sewage Pumping Stations, Sewage Treatment Plant, Effluent Reuse & Allied Works and Operation & Maintenance Services of the Entire System for 10 Years at Jhunjhunu. Regarding freezing of alignment of DP Areas (as per socio economic data)</p>	
<p>Dear Sir,</p>	
<p>As discussed with you during orientation by our R&R team, the Draft RP of all the projects towns including (Jhunjhunu Project) needs to be updated before start of civil work. For updating of RP, the socio economic survey of the entire Jhunjhunu Town (based on initial DPR) has been completed by a survey agency (under supervision of our R&R team) and all possible impacts have been identified (as per Resettlement Framework (RF) as agreed with ADB). However, since it is DBO contract, the final DPs and final impacts could only be determined upon the completion of detail engineering design from your end. So we are forwarding the list of identified potential displaced person along with details of Common Property Resources (CPRs) which are likely to be affected during civil work in the town and you are requested to kindly: -</p>	
<ol style="list-style-type: none"> 1) Freeze the alignment of all these identified DP areas with a confirmation that whether a relocation of these identified vendors/DPs will be required or not during execution of Water Supply and Sewerage work. 2) In Case relocation is not required, a confirmation needs to be provided that required access (at least a 2 metre access) will be made available to these DPs during execution of civil work and that there will be no negative impact on livelihood of these DPs. (Ref section 6 clause no. 6.14 and Annexure B of contract document)

Office of District Collector, Jhunjhunu

Minutes of consultation meeting held on dated 29.10.2015 for need assessment and identification of work to be considered in Jhunjhunu town under RUIDP Phase III.

A consultation meeting for need assessment and identification of work for consideration under RUIDP Phase III was held under the chairmanship of District Collector, Jhunjhunu in compliance to Project Director, RUIDP letter no. 15073 dated 16.10.2015. List of Stakeholders and Officials attended the meeting is enclosed as annexure.

Additional project director RUIDP appraised the key aspects of RUIDP project (RUIDP Phase III), RUIDP officials briefed the members on key aspects of Project i.e. (i) coverage of Water Supply and Wastewater sectors (ii) Single contract for wastewater and water supply (iii) DMA based execution and SCADA based monitoring (iv) NRW reduction strategy (v) Use of Recycled treated wastewater. All the stakeholders were requested to suggest the priority of works to be included in water and wastewater sector for the town. It was requested that ownership of created assets will be owned by Municipal Council, therefore, all possible support will be needed for finalization of priority works so that a realistic / necessity oriented Detailed Project Report is prepared by RUIDP Consultants (named as PMDSC) by January 2016 and tenders may be invited accordingly.

District Collector appreciated the concern shown by RUIDP team and agreed that for successful implementation of time bound projects it is necessary that all the stakeholders should take active participation and requested all the stakeholders to support the project. The discussions were held on Water & Waste water sector works as below:-

Water Supply Sector

The Municipal Council suggested that Water Supply sector should be taken in totality. It was brought to the notice by SE, PHED that the major source of water supply to the town is 130 nos. Tube wells and water distribution is through 9 pumping stations and Clear Water Reservoirs with 15 nos. service reservoirs. Present service level is 106 LPCD. Replacement of old transmission and distribution pipe lines and pumps is needed. The existing pipelines are of C.I., A.C. and P.V.C. The water supply system is commissioned in 1971. Rejuvenation of some Pumping stations along with replacement is required. So that existing water supply system could be strengthened to facilitate the entire distribution system and reduction of NRW.

Present ground water quality is not as per norms and Tube wells water has fluoride contents from 0.5 to 15 Mg. /liter. It was informed by EE

Kumbharam lift canal Project that Jhunjhunu town will get surface water @ 100lpcd from Clear Water Reservoir under construction at PHED campus by December 2016. The requirement for Jhunjhunu town is @135 lpcd +20% losses, to meet this demand reservation of water for designed population is required. Therefore, CE (Special Project) PHED be requested accordingly, so that sufficient surface water is available and dependency on ground water is gradually reduced.

Chairman, Nagar Parishad desired that the 17 villages which are outside the municipal limit should be included under upcoming RUIDP Phase III project. The issue was discussed in detail and was decided that RUIDP Phase III will cover area under municipal limit however, PHED officials were directed to determine the bulk demand of these adjoining villages so that a decision could be taken on this issue by the Administration jointly.

District Collector, directed to plan construction of new pump houses and OHSRs in existing boundary of pump houses as far as possible looking to the lesser availability of government land.

Sewerage Sector

It was informed by APD, RUIDP that the work under package UIDSSMT/JHUN/WW/Lot.1, Laying of sewer line in different area of Jhunjhunu was terminated on 27.04.2015. Total 61.7 Km sewer pipe is laid out of 105 Km and 2528 manhole were constructed and the remaining balance work will be included in RUIDP Phase III. Under package UIDSSMT/JHUN/WW/Lot.2 construction of 8.5 MLD sewerage treatment plant is under progress, till date 70% work is completed. Chairman, Municipal Council, Jhunjhunu suggested for treatment of sullage flowing in drain up to STP and coverage of remaining area of the city in the RUIDP project. It was informed by APD, RUIDP that since this water contains 600 BOD and STP is designed for treatment of sewerage up to 300 BOD therefore, it is not feasible. However, after completion of remaining work of sewer line and outfall decision will be taken as per analysis report of drain water. APD, RUIDP informed that in Phase III there is provision of 10 year O&M of STP by the contractor and for use of Recycled treated wastewater municipal council will be consulted as it is the propriety of Municipal Council. This water may be reused for agriculture around the disposal point and for industrial purpose as per requirement. This work may be carried out by PMDSC in consultation with Municipal Council.

The issue of public inconvenience during execution of laying of sewer line which is basically due to not taking up the required road restoration timely was discussed and APD, RUIDP assured that in the upcoming project all necessary steps will be taken so that these issues are minimized and better public participation is ensured. Due care should be taken at the DPR stage for utility shifting.

The issue of manholes on road No. 3 which are above road level and making accident prone zone on road was discussed and it was decided that road around the manholes will be raised in taper by PWD. An Estimate for the same will be submitted by PWD to RUIDP for transfer of funds.

It was suggested by Chairman, Municipal Council that the work should be taken up ward wise. After discussions, following directions were issued by the District Collector:

- 1) Municipal Council and PHED officials were directed to ensure regular inputs at this initial stage to facilitate the preparation of realistic DPR based on field conditions.
- 2) Field inputs from all stakeholders will be taken on regular basis by RUIDP Consultants and officials.
- 3) SE, RUIDP, Jhunjhunu & EE, Municipal Council will ensure coordination needed from local administration and will appraise to the District Collector time to time.

Meeting ended with vote of thanks

राजस्थान नगरीय आधारभूत विकास परियोजना (RUIDP)

परियोजना का नाम – झुंझुनू शहर में जलप्रदाय योजना के सुदृढीकरण एवं जल-मल निस्तारण (सीवरेज) प्रणाली के विकास का कार्य (Jhunjhunu Water Supply and Sewerage Works)

परियोजना के उद्देश्य
आपके शहर झुंझुनू में जल आपूर्ति पेयजल और सीवरेज परियोजना को शुरू किया जा रहा है। इस परियोजना के सफलता पूर्वक संचालन के लिए आप सब शहरवासियों से सहायता की आवश्यकता है। इस योजना के संचालन से शहर के लोगों को पेयजल व सीवरेज से सम्बंधित समस्याओं का निष्पादन होगा और पूरे शहर को नियमित रूप से प्रति दिन प्रयाप्त मात्रा में स्वच्छ पेयजल उपलब्ध होगा। सीवरेज परियोजना से पूरे शहर को स्वच्छता के नये आयाम मिलेंगे तथा पूरा शहर साफ-सुथरा और स्वच्छ नजर आयेगा।

जलप्रदाय योजना
(अ) वर्तमान क्षमताओं का पूर्ण उपयोग करना तथा जहाँ भी आवश्यक हो उत्पादन एवं वितरण व्यवस्था में अभिवृद्धि।
(ब) परियोजना के तहत जहाँ एक ओर क्षतिग्रस्त पाइप लाइनों को बदल कर छीजत को कम किया जायेगा वही वितरण में वृद्धि की जायेगी।

सीवरेज कार्य
(अ) पर्यावरण की गुणवत्ता में सुधार तथा स्वच्छता के लिए योजना का क्रियान्वयन करना जिसके तहत सीवरेज की विस्तृत प्रणाली स्थापित की जाएगी तथा घरों से होने वाले सभी प्रकार के निस्तारित जल को सीवर लाईन से जोड़ा जायेगा।
(ब) सीवरेज ट्रीटमेन्ट (जल मल निस्तारण) संयंत्र का निर्माण किया जायेगा।

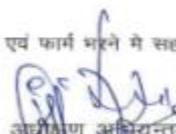

परियोजना घटक एवं सुधार के प्रस्ताव
जलप्रदाय योजना की अभिकल्पित आबादी लगभग 2.00 लाख (वर्ष 2046)
जलप्रदाय योजना
(अ) आवश्यक जल परिवहन पाईप लाइनें व वितरण पाईप लाईनों के कार्य (लगभग 581. K.M.)
(ब) 6 पंपिंग स्टेशन, 1 उच्च जलाशय, 5 स्वच्छ जलाशय का निर्माण
(स) पानी के अपव्यय को नियंत्रित करने हेतु जॉन यार्डज बल्क मीटरिंग व्यवस्था।
(द) घरों में जल कनेक्शन (प्रतिस्थापन लगभग 32650)।

सीवरेज कार्य
(अ) लगभग 127 km सीवर लाईन नेटवर्क
(ब) सीवरेज ट्रीटमेन्ट प्लांट 7 एम.एल.डी.
(स) दो सीवरेज पंपिंग स्टेशन का निर्माण 3.5 एम.एल.डी. एवं 1 एम.एल.डी

परियोजना की लागत – राशि रूपये 237.00 करोड़

निर्माण कार्य के दौरान संभावित अल्पावधि प्रभाव
जो लोग रोड़ के किनारे थड़ी-ठेला,फल-सब्जी, घाय कि थड़ी, फेरी अस्थाई दुकान लगाकर अपना व्यवसाय कर जीवनयापन करते है, कार्य के सफल क्रियान्वयन के लिए उन लोगों को अल्पावधि के लिए अन्यत्र स्थानान्तरित करने की आवश्यकता पड़ेगी। इस हेतु सर्वेक्षण के दौरान प्रभावितों से आधार कार्ड/फोटो परिचय पत्र भी लिया जा रहा है। ताकि पात्र प्रभावितों को आवश्यकता पड़ने पर नियमानुसार पुनः स्थापित करने आदि की कार्यवाही की जा सके।

अतः सभी अस्थाई दुकानदारों से अनुरोध है कि सर्वे कर रहे कार्मिक को फोटो परिचय पत्र एवं फार्म भरने में सहयोग करें।
सर्वे कार्य दिनांक 22.04.2017 से शुरू किया जा रहा है।

MINUTES OF MEETING

Subject of Meeting: Safeguard Orientation for PIU, Contractor & PMDSC staff for Jhunjhunu Water Supply and Sewerage Works

Date: 08.03.2017, **Place:** M/s L&T office

Objectives: - Orientation with the contractor on Social and Environment issues.

PMDSC Expert briefed about the documentation requirement {updating of Resettlement Plan (RP) and Initial Environment Examination Report (IEE), requirement Environment Management Plan (EMP) etc} under the project especially the Grievance Redress Mechanism.

Following issues were identified/ discussed during site visit:-

Orientation Program Conducted with the Contractor: - As Desired, an orientation was organized at L&T office (list of participants enclosed as annexure A) and the following issues were deliberated in detail:-

Issues	Topics covered
1. Environmental Safeguard	<p>1.1. Introduction of ADB's Safeguard Policy Statement (SPS -2009)</p> <p>1.2. Labour Accommodation and basic facilities required for labours was discussed in detail</p> <p>1.3. Requirement of Consent from RPCB for Crushers, Batching Plants, DG Sets etc.</p> <p>1.4. Requirement in Construction Camps</p> <p>1.5. Use of PPEs, Safety in Trench Work, road safety, Signage, barricading etc.</p> <p>1.6. Labour Insurance/Health Checkup of workers</p> <p>1.7. Documentation required i.e. various permission obtained prior to start of construction should be kept properly; Labour records should be kept handy and should be made available.</p> <p>1.8. IEE report update and its various components.</p> <p style="text-align: center;"><i>It was also informed that as a requirement L&T should submit its own EMP in line with draft IEE enclosed with Bid for review of Environmental Expert PMDSC. EMP should be implemented in the project and related activities.</i></p> <p>1.9. Approval of the employer/ IPIU should be taken in case contractor is planning for Night work. A night work plan developed was also discussed with contractor and it was advised that the points indicated should be considered while submitting the night work plan to PIU.</p>

Issues	Topics covered
2. Social Safeguard	<p>2.1. Introduction to SPS 2009</p> <p>2.2. Introduction to Agreed Resettlement Framework</p> <p>2.3. Introduction to requirement of Resettlement Plan update and requirement for 100% socio economic survey.</p> <p>2.4. Type of Impact (to be further envisaged in next visit before start of survey) and Mitigation strategy</p> <p>2.5. Contractor's role in minimization of involuntary resettlement during finalization of design and during execution</p> <p>2.6. Requirement of contractor to intimate about final scope/alignment/change of scope and mitigation plan for congested areas including liaison with concerned department</p> <p>2.7. Grievance Redress Mechanism/Grievance Redress Committee /City Level Committee</p> <p>2.8. Requirement of Coordination between contractor PIU and PMDSC</p> <p>2.9. Timely information about work schedule</p> <p>2.10. Mobilization of Implementation officer and role of outreach team in R&R implementation.</p> <p>2.11. Advance notice for start of work along with project information board should be provided.</p> <p>2.12. Desired documentation for Safeguard Compliance.</p> <p>2.13. Important issues like how to minimize or mitigate the impacts or in-case the impacts are unavoidable how the Resettlement Plan is to be implemented were discussed in detail.</p> <p>2.14. Importance of work schedule to maintain parity between civil progress and RP implementation.</p>

Annexure15: Scan copy of Survey Format

Format for Socio Economic Survey	
(Temporary Impact - For Street Shops/Vendors/ Encroacher/ Squatters / Crop loss/Access Loss)	
Date of Survey /Cutoff Date: /	
Name of the Surveyor	
1.0 General Information	
1-1	Name of Town: Package (name)
1-2	Name of Affected Person: S/o or W/o
1-3	Daily income*/wage: * (income = sale – cost)
1-4	Address (Present): Mobile No.:
1-5	Permanent Address Contact No.:
1-6	Legal Title Holder {please (√)} Yes () NO () Specify if Tenant ()
1-6.1	Is the affected person is encroacher () or squatter () please (√)
1-7	Location
Name of Street Name of Locality	
Start Point of Survey End Point of Survey	
Location of AP (Corresponding to start point) Left <input type="checkbox"/> Right <input type="checkbox"/>	
Ward Chainage	
Road Width (ROW)..... Distance from Center of the Road	
Carriage Way (BT/CT) Road.....	
1-8	Types of losses (to be √ for 1-5, 6 - to be specified)
1	Residential <input type="checkbox"/>
4	Kiosks (Tadi, Gumti, Cabin) or <input type="checkbox"/>

Polaroid Picture
of the AP
Surveyed, front
facina.

			Mobile Vendor (With fixed Business location)
2	Commercial <input style="width: 40px;" type="text"/>	5	Mobile Vendor/ThelaWala (Moving Business area in whole day) <input style="width: 40px;" type="text"/>
3	Residential and commercial <input style="width: 40px;" type="text"/>	6	Others (Any other type of loss like crop loss, Trees, Access loss or any as per RF) <input style="width: 100px; height: 30px;" type="text"/>

Provide details of loss in brief from above:

1. Width (in mtrs) _____ 2. Length (in mtrs) _____ 3. Kiosk Cost (approx) _____

Additional Information for 1-8 (4 & 5) - Moving /Fixed Vendors □

1-8.1 Since when staying in Town? Year

1-8.2 Does he stay continuously in one place? Yes [] No []
 If "Yes", stable period at a location.

If "No", what are the other places?
