Annexure 18: Photographs of Proposed Sites.....	100
Annexure 19: Google MAPs of Proposed Sites (OHSR & WTP).....	103

## EXECUTIVE SUMMARY

1. **Sub-project Scope.** Rajasthan Urban Sector Development Program (RUSDP) will complement the past and ongoing efforts of the government of Rajasthan (GOR) to improve water supply and wastewater services to the residents of the state of Rajasthan. It comprises (i) a program, financed by a policy-based loan, to support policy reforms, including institutional development and governance improvement in the urban sector in the state, and (ii) a project, financed by a project loan, to invest in water distribution network and sewerage systems in the six project cities in the state<sup>1</sup>.

2. This project is located in Pali which is the administrative headquarters of Pali District and is at about 70 km south of Jodhpur City and 300 km southwest of the state capital, Jaipur, extending to an area of 159 sq.km under the jurisdiction of Pali Nagar Parishad (Municipal Council), the population of the town is 230,075 (2011 Census). The town is divided into 45 municipal wards.

3. With the rapid urbanization, population is increasing day by day and many new areas have been developed where provision of basic amenities i.e. potable water supply is main task of Government. Water supply at present in Pali is intermittent, unreliable and suffers with huge losses and quality issues. This subproject is formulated to address gaps in water treatment and distribution infrastructure in a holistic and integrated manner.

4. Two Packages have been identified for Pali town, in the earlier subproject, **Package no. RUSDP/Pali/01** some of the components (Distribution Network) were taken for water supply improvement in the town.

### Works proposed under package RUSDP/Pali/01

S.No	Works proposed
1	Provision of bulk water meters
2	Provision of house service connections including consumer meters;
3	Distribution network improvement (249km new pipelines and 542km replacement)

5. **Proposed works under the package RUSDP/Pali/02 mainly-** The components proposed under package RUSDP/Pali/01 scheme, were not sufficient to cover the water demand of entire town. Thus under RUSDP, package RUSDP/Pali/02 have been identified and sized in order to bring completeness to the scheme. Under this package, planning, designing and execution of the water treatment-transmission-storage-bulk supply provision has been made (Transmission System - Storage). Details of works proposed under package RUSDP/Pali/02 are as below:-

---

<sup>1</sup> The six project cities are Bhilwara, Jhunjhunu, Sri Ganganagar, Hanumangarh, Tonk, and Pali.

### Works proposed under package RUSDP/Pali/02

S.No	Works proposed
1	Pipe laying of various diameters (150mm -700mm) of total length of 18567m from Manpura Bhakhri TWPS to SRs
2	Pipe laying of various diameters (150mm -500mm) of total length of 12692m for treated water transmission from TWPS at PHED Campus
3	Pipe laying of 250mm of total length of 5950m for transmission system from Mandli TWPS to Mandiya SR
4	Construction of 7 nos. of OHSRs of various capacities at various locations of town
5	construction of a new WTP of capacity 30 MLD at Manpura Bhakhri
6	Refurbishment of 3 nos. existing WTPs
7	Refurbishment of 19 nos. of existing OHSRs.

6. This Resettlement Plan (RP) document is prepared for proposed Bulk Water System for Pali (**RUSDP/Pali/02**) and is in line with the Resettlement Framework (RF) prepared for the implementation of social safeguards under RUSDP.

7. **Project Benefits and Impacts:** The Water Supply subproject will be beneficial to the citizens of Pali. The most noticeable long-term benefits due to the subproject are: (i) increased access to treated water supply; (ii) reduction in time and cost of collecting water; and (iii) reduction in vulnerability to water borne diseases. This subproject is aimed to plug existing gap and enhance access to water for community.

8. A single Contract has been awarded for this work on a single point responsibility basis. Under this contract, the contractor is responsible for final design, supply, installation, construction, testing, commissioning and operation as well as maintenance of the entire system. The contractor will be responsible to carry out the O& M activities for a period of 10 Year after the system has been commissioned.

9. **Summary of Resettlement Impact:** Consistent with the subproject selection criteria, rehabilitation is prioritized over new construction to avoid / minimize involuntary resettlement impacts. Construction of 1 no of Water Treatment Plant (WTP) will be undertaken in vacant land of WRD, which has already been transferred to PHED.(**See annexure 2 & 3**). Khasra record is attached in **annexure 4 & 5**. Construction of Overhead Service Reservoir (OHSRs)--6 no will be undertaken in the existing campus of PHED; While 1 no of OHSRs at Mandia Girdhara is to be constructed in Govt. land. The Commissioner, MC, Pali submitted proposal to district collector for transfer of land in the name of Pali M.C. for the construction of SR at Mandia at Jodhpur Road.

10. The main resettlement impacts will be due to laying of the transmission mains. Pipes will be laid within road rights-of-way (RoW), and will not require land acquisition or cause permanent displacement, but will cause temporary access disruptions and possible temporary losses in income during construction. It has been noted during site inspections that laying of pipeline may cause temporary loss of access/disruption to livelihood during civil works to 291 vendors/traders located at both sides of road and access loss may also be on one permanent shop. These are majorly non-titled movable /transitory structure (push

carts etc.)<sup>2</sup>owners. As per information from design engineers, maximum number of days the vendors will experience loss of access/disruption of livelihood is 14 days which can be further minimized by scheduling civil works at night time or non-market day and laying of pipeline in phases. Temporarily affected persons (APs) will be assisted in moving to the other side of the road and returning their structures after construction is completed. Where moving is not required, access will be ensured by the contractor through measures prescribed in bidding documents.

11. As per initial design, both side vendors/hawkers have been considered in this RP and RP will be updated after freezing of alignment by the contractor. It is pertinent to inform that out of total 292 DPs, 291 DPs (of current package) were also identified under Package-**RUSDP/Pali/01(Pali Water Supply and Sewerage Works)**. It is suggested that works under both the packages should be carried out together to minimize IR impacts on the identified DPs. Even though, two different contractors has been awarded and there would be possibility of different construction schedules (based on technical aspects etc.) it should be ensured by PIU that the work is carried out simultaneously. In case, DPs face dual impact (under both packages), they will be compensated twice. Resettlement budget for Pali has been prepared accordingly.

12. To further minimize construction impacts, work will be executed during the early hours of the day in order to avoid inconveniences to the public as well as traders and vendors. All safety norms would strictly be adhered to depending on the magnitude of work and the sensitivity of the location. The Project Implementation Unit (PIU) will also ensure that all the necessary rules related to safety and security of the public and residents are followed by the contractor. The actual dates of construction schedule with respect to rush hour, festival time, and special business days have been discussed with vendors, squatters, market committee members, and residents, and intimated to the contractor for planning construction activities. After laying of pipes the lane/road will be restored to its original condition (including bitumen, cement concrete (CC) and CC interlocking tiles as applicable).

13. **Categorization:** This subproject has been categorized as “B”<sup>3</sup> for Involuntary Resettlement (IR) impact as per the ADB’s Safeguard Policy Statement (SPS), 2009. This resettlement plan (RP) is developed as per Detail Project Report (DPR)<sup>4</sup>and as per agreed Resettlement Framework (RF).

14. **Public Consultations and Disclosure:** Consultations were carried out during RP preparation and will continue throughout the subproject cycle. The social safeguard team carried out preliminary consultations, through focus group discussions (FGDs) and meetings with the affected persons (APs) as well as the general public from August 2015 to July, 2016. FGDs were conducted with the DPs wherein policy related issues, i.e., displacements and other issues like compensation and assistance, input to alternative design were discussed. During consultation meetings, participants were of the view that this subproject is important and very much needed. All participants are pleased and committed to support the implementation of the project. There was no opposition for this subproject.

---

<sup>2</sup> Resettlement impacts based on the detailed survey

<sup>3</sup> A proposed project is classified as category B if it includes involuntary resettlement impacts that are not deemed significant.

<sup>4</sup> SIP (by contractor) is under preparation which includes finalization of Designs/ coverage area/alignment. This RP may be revised accordingly.

15. Final RPs will be made available near affected area, and PIU and PMU offices. The sub-project RPs will be disclosed in ADB's web site and the PMU websites. Leaflet prepared in local language(Hindi)has been distributed to the Affected Persons in the month of January (2016) for understanding the sub-projects scope, R& R provision and GRC system under this project. Cut-off-date for temporary impacts has been communicated to APs through NGO and disclosed in the project affected area on dated 24.02.2016.

16. **Policy Framework and Entitlements:** The policy framework and entitlements for the program are based on national laws: the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013<sup>5</sup>, (ii) National Rehabilitation and Resettlement Policy,(NRRP)2007 (iii) ADB SPS, 2009; and agreed RF.

17. **Compensation and Income Restoration:** The implementing agency will provide compensation in accordance with the entitlement matrix of the updated RF. As a policy, all affected persons will be provided 30 days advance notice to ensure minimal disruption of livelihood. Compensation will be completed prior to start of civil works. If required, they will also be assisted to temporarily shift for continued economic activity. For example they will be assisted to shift to the other side of the road where there is no construction. Ensuring thereisnoincomeoraccesslossduringsub-projectconstructionistheresponsibilityof contractors.

18. **Grievance Redress Mechanism.** Grievances of DPs/APs will first be brought to the attention of the Contractor, PIU and implementing NGO. They can immediately resolve issues on-site in consultation with each other, and will be required to do so within 3 days of receipt of a complaint/grievance. All grievances that cannot be redressed within 3 days at field/ ward level will be brought to the notice of Social Project Officer (SPO) of PMU. PMU SPO will resolve the grievance within 7days of receipt of compliance / grievance in discussion with the PIU, CAPC/ NGO and the Contractor. All the grievances that are not addressed by PMU within in 7 days of receipt will be brought to the notice of the Grievance Redressal Committee (GRC). The City Level Committee (CLC), which will be established in every project town, will act as GRC. The GRC will resolve the grievance within 15 days of receiving the complaint. An aggrieved person shall have access to the country's legal system at any stage, and accessing the country's legal system can run parallel to accessing the GRM and is not dependent on the negative outcome of the GRM.The PIU will keep records of all grievances received including: contact details of complainant, date of the complaint received, nature of grievance, agreed corrective actions and the date these were effected, and final outcome. All costs involved in resolving the complaints will be borne by the PMU. The GRCs will continue to function throughout the project duration.

19. **Institutional Arrangements:** The Local Self Government Department (LSGD), Government of Rajasthan (GoR) will be the Executing Agency (EA) of the Project and will be responsible for overall strategic approvals, guidance, monitoring the execution of the project. The current Project Management Unit of RUIDP, under the LSGD, will be the Implementing Agency (IA) for the project. IA will execute and monitor the RUSDP implementation. Six Project Implementation Units (PIUs), one each of in six project towns, shall be setup for implementation. PMU will support PIUs in implementation, management and monitoring of the project. PMU and PIUs will be assisted by Programme Management, Design and Supervision Consultants (PMDSC). At state-level an inter-ministerial Empowered Committee (EC) will be established to provide overall policy direction and City Level Committees(CLCs) will be established in each town to oversee the implementation at

---

<sup>5</sup> The Act has received the assent of the President on the 26 September 2013.

town level. The PMU will be assisted by a PMDSC social safeguards specialist (PMDSCSSS). For updating the resettlement plans, assist in the monitoring and supervision of ongoing subprojects and RP and IPP implementation, prepare resettlement plan and/or IPPs for new subprojects, where required, to comply with national law and/or ADB procedures; ensure all subprojects meet safeguard requirements as agreed in the loan covenant and in line with this resettlement framework .CAPC/NGO will be responsible for assisting in the RP implementation.

20. **RP Implementation and Monitoring:** All compensation is to be paid prior to start of civil works. RP implementation will be closely monitored by PIU with an effective basis for assessing resettlement progress and identifying potential difficulties and problems. The PIU, with assistance from PMDSCSSS, will prepare monthly and quarterly progress report in terms of physical and financial indicators. In addition, the monitoring process will also look into: the communication and reactions of affected persons; use of grievance procedures; information dissemination to affected persons on benefits; and options and implementation time table, livelihood and living standard of affected persons in pre and post-project situations. Report prepared by PIU will be compiled by the PMU on a semi-annual basis for its due submissions to ADB.

21. **Resettlement Budget:** The resettlement cost estimate for the Pali Bulk Water includes **resettlement** assistance, as outlined in the entitlement matrix, support cost for RP implementation and contingency provision amounting to be 5% of the total cost. Funds for resettlement will be released in a timely manner. The total resettlement cost for the subproject is INR **28,54,665/-**.The resettlement cost items and estimates are outlined in Table 13. The CAPC / implementing NGO will be involved in facilitating the disbursement process, and will facilitate opening bank accounts for the affected persons who do not have bank accounts. Payment of the compensation will be ensured before the start of civil works.

## RESETTLEMENT PLAN

### A. Sub-project Description

1. Rajasthan Urban Sector Development Program (RUSDP), building on the previous two ADB funded projects: RUIDP and RUSDIP (also referred as RUIDP I and II respectively), will support the Government of India (GOI) and the Government of Rajasthan (GoR) in their policy of balanced regional socio-economic development and poverty reduction through improvements in urban governance, management, and infrastructure and service provision in six selected cities<sup>6</sup> in Rajasthan. The selected cities are particularly district headquarters with more than 100,000 population and the ones which were not benefitted under the previous two ADB funded urban sector projects. With a main focus on improvement of water supply and sewerage services, proposed RUSDP will be implemented over a 6-year period beginning in 2014 through ADB's Sector Development loan (SDP).

2. This project is located in Pali which is the administrative headquarters of Pali District and is at about 70 km south of Jodhpur City and 300 km southwest of the state capital, Jaipur, extending to an area of 159 sq.km under the jurisdiction of Pali Nagar Parishad (Municipal Council), the population of the town is 230,075 (2011 Census). The town is divided into 45 municipal wards.

3. With the rapid urbanization, population is increasing day by day and many new areas have been developed where provision of basic amenities i.e. potable water supply is main task of Government. Water supply at present in Pali is intermittent, unreliable and suffers with huge losses and quality issues. This subproject is formulated to address gaps in water treatment and distribution infrastructure in a holistic and integrated manner.

4. Two Packages have been identified for Pali town, in the earlier subproject, **Package no. RUSDP/Pali/01** some of the components (Distribution Network) were taken for water supply improvement in the town (**See Table 1**).

**Table 1: Works proposed under package RUSDP/Pali/01**

S.No	Works proposed
1	Provision of bulk water meters
2	Provision of house service connections including consumer meters;
3	Distribution network improvement (249km new pipelines and 542km replacement)

5. **Proposed works under the package RUSDP/Pali/02 mainly-** The components proposed under package RUSDP/Pali/01 scheme, were not sufficient to cover the water demand of entire town. Thus under RUSDP, package RUSDP/Pali/02 have been identified and sized in order to bring completeness to the scheme. Under this package, planning, designing and execution of the water treatment-transmission-storage-bulk supply provision has been made (Transmission System - Storage). Details of works proposed under package RUSDP/Pali/02 are as below:-

<sup>6</sup> The selected cities include: Pali, Tonk, Sri Ganganagar, Jhunjhunu, Bhilwara, and Hanumangarh

**Table 2: Works proposed under package RUSDP/Pali/02**

S.No	Works proposed
1	Pipe laying of various diameters (150mm -700mm) of total length of 18567m from Manpura Bhakhri TWPS to SRs
2	Pipe laying of various diameters (150mm -500mm) of total length of 12692m for treated water transmission from TWPS at PHED Campus
3	Pipe laying of 250mm of total length of 5950m for transmission system from Mandli TWPS to Mandiya SR
4	Construction of 7 nos. of OHSRs of various capacities at various locations of town
5	construction of a new WTP of capacity 30 MLD at Manpura Bhakhri
6	Refurbishment of 3 nos. existing WTPs
7	Refurbishment of 19 nos. of existing OHSRs.

6. This Resettlement Plan (RP) document is prepared for proposed Bulk Water System for Pali i.e. **RUSDP/Pali/02** and is in line with the Resettlement Framework (RF) prepared for the implementation of social safeguards under RUSDP.

**Table 3: Proposed Components of Bulk Water Supply for Pali sub project**

SN.	Project component	Description	location																						
1.	Construction of new WTP	Construction of WTP of 30 MLD capacity (for year 2031) and clear water pumping station, (Detail design and layout of 41 MLD for year 2046)	Manpura Bhakhri, Pali																						
2.	Construction of OHSRs	Construction of 7 nos. OHSRs as following-																							
		3 nos. OHSRs of 1000 m <sup>3</sup> capacity	Labour Colony, Raiko Ki Dhani & Mandiya Village																						
		4 nos. OHSRs of 500 m <sup>3</sup> capacity	Housing Board, Industrial area, Shantinath (Mandiya road) and Jodhpur Road																						
3.	Pipe laying	<p><b>New Raw Water Transmission Pipeline of Length 3752m, Diameter 700mm, Material- DI K-9.</b> Pipe laying of various dia for transmission of treated water to different location as follows-</p> <table border="1"> <thead> <tr> <th>Pipeline Diameter (mm)</th> <th>Length(m)</th> </tr> </thead> <tbody> <tr> <td>150</td> <td>490</td> </tr> <tr> <td>200</td> <td>3996</td> </tr> <tr> <td>250</td> <td>13483</td> </tr> <tr> <td>300</td> <td>611</td> </tr> <tr> <td>350</td> <td>5603</td> </tr> <tr> <td>400</td> <td>2646</td> </tr> <tr> <td>450</td> <td>1444</td> </tr> <tr> <td>500</td> <td>1920</td> </tr> <tr> <td>700</td> <td>7964</td> </tr> <tr> <td><b>Total</b></td> <td><b>38157</b></td> </tr> </tbody> </table>	Pipeline Diameter (mm)	Length(m)	150	490	200	3996	250	13483	300	611	350	5603	400	2646	450	1444	500	1920	700	7964	<b>Total</b>	<b>38157</b>	Through existing ROW in Various location

<b>Total</b>	<b>38157</b>																								

SN.	Project component	Description	location
4.	Refurbishments of existing WTPs	Refurbishment of 3 WTPs as following- City Campus-IV (19.40 MLD) Mandli Head Works (7.35MLD) Mandli Head Works (3.7MLD)	Existing PHED headwroks at City Campus and Mandli
5.	Refurbishments of existing OHSRs	Out of existing 22 OHSRs in Pali, total 3 are recommended to abandoned and 19 are recommended for refurbishment	Various locations in the Pali city
6.	Raw Water Pump Station	Construction of 2 Nos. Working + 1No Standby, New Raw Water Pump Station (Electro-Mechanical Works and minor Civil Works) at Mandli	Mandli Head Works
7.	Clear Water Pump Stations	Construction of New Clear Water Pump Station with 2 Working + 1 Standby, Clear Water Pumps Construction of New Clear Water Pump Station at Mandli WTP Head Works	PHED campus  Mandli WTP Head works
8.	Electrical and Instrumentation works	Bulk meters, pressure sensors, Level sensors for ESRs and CWR, Water Quality Monitoring sensors at WTPs, communication RTUs through GPRS, SCADA and complete system for automation.	At various Head Works
9.	GIS works	Integration of proposed system of GIS of Phase II compatible with Pali Phase I including Preparation of GIS base map and GIS development of water supply infrastructure containing all water supply components under Pali Phase 2	All sites in Pali

7. **Project Benefits and Impacts:** The Water Supply subproject will be beneficial to the citizens of Pali. The most noticeable long-term benefits due to the subproject are: (i) increased access to treated water supply; (ii) reduction in time and cost of collecting water; and (iii) reduction in vulnerability to water borne diseases.

8. **Categorization.** This subproject has been categorized as “B” for Involuntary Resettlement (IR) impact as per the ADB’s Safeguard Policy Statement (SPS), 2009. This resettlement plan (RP) is based on Detail Project Report (DPR) and as per agreed Resettlement Framework (RF).

Figure 3: Proposed Schematic of Bulk Water System of Pali

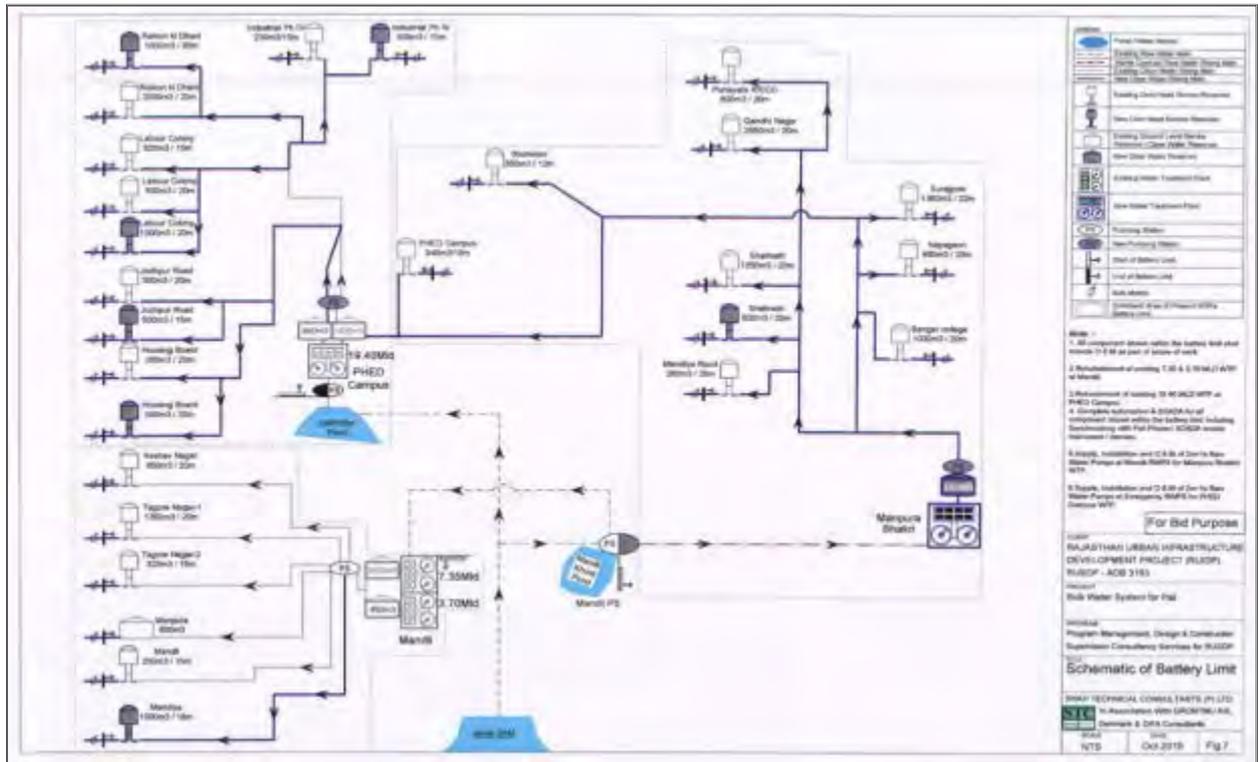

Figure 4: Layout for Proposed Transmission Main scheme of Pali

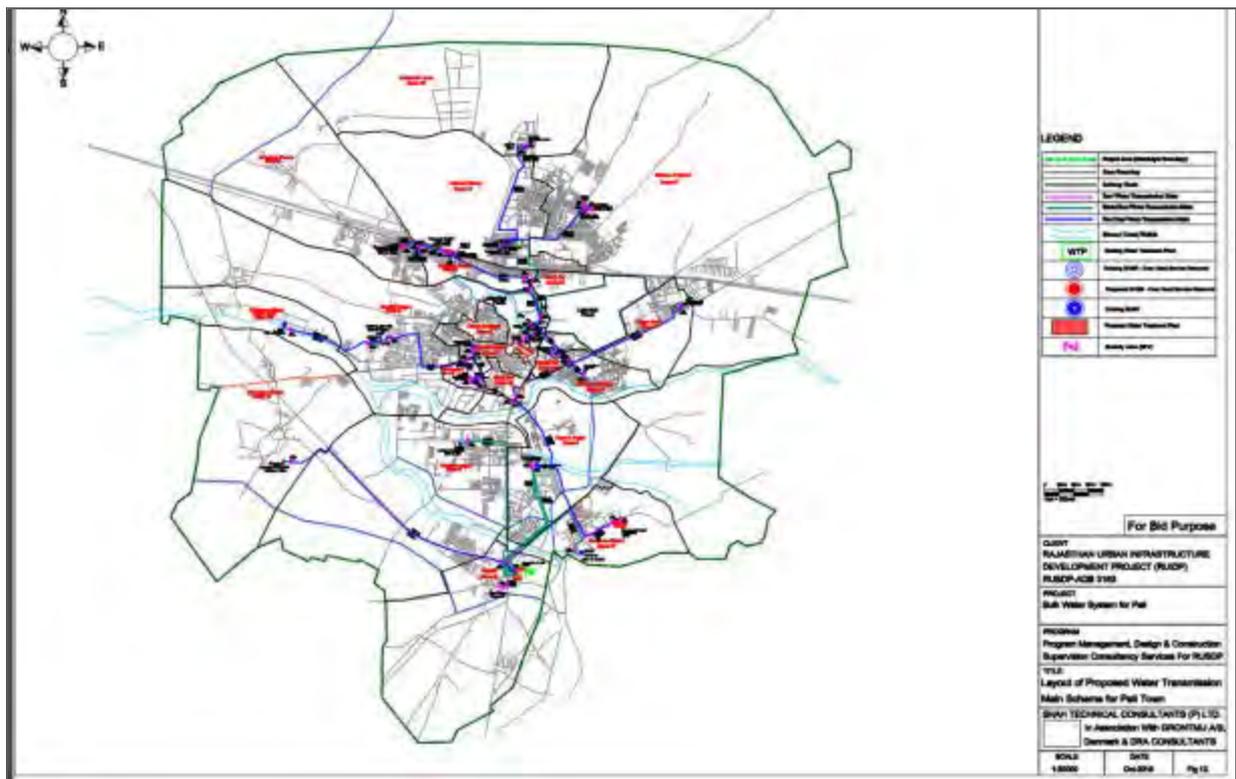

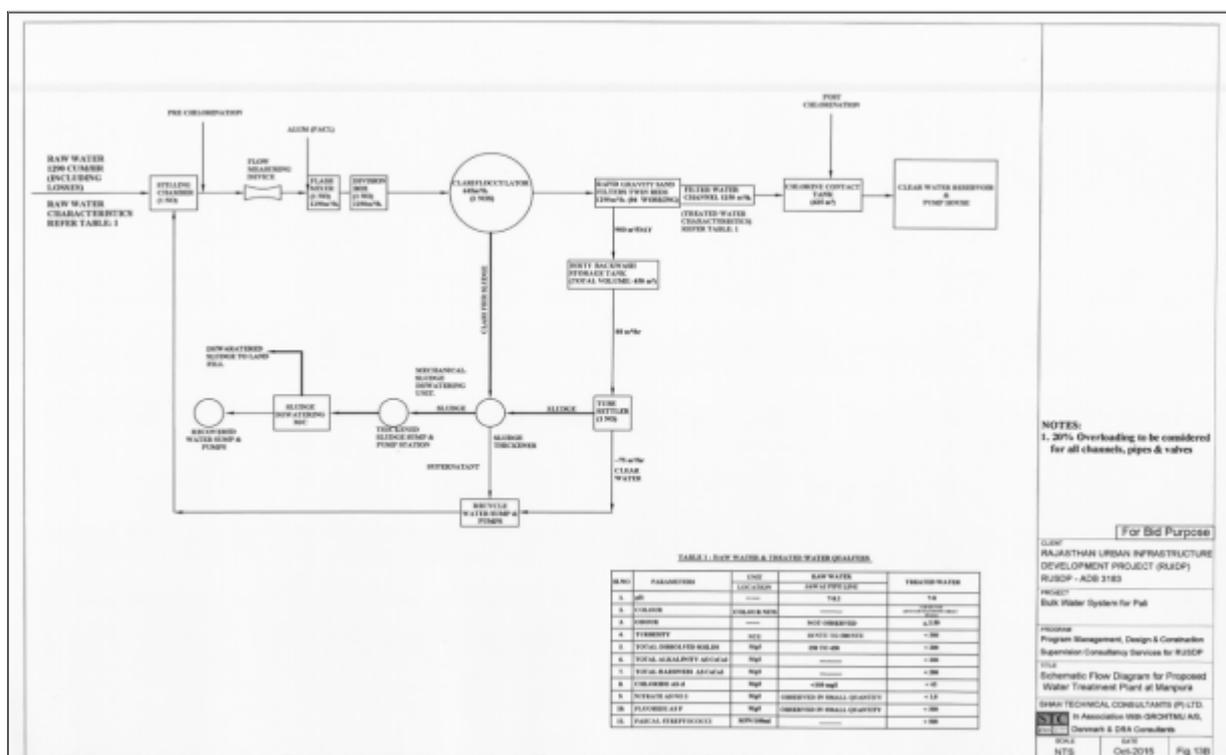

Figure 5: Proposed schematic Flow Diagram of WTP at Manpura Bhakhri

**B. Scope of Land Acquisition and Resettlement**

9. Summary of Resettlement Impact Consistent with the subproject selection criteria, rehabilitation is prioritized over new construction to avoid / minimize involuntary resettlement impacts. Construction of 1 nos of Water Treatment Plant (WTP) will be undertaken in vacant land of WRD, which has already been transferred to PHED. (See annexure 2&3). Khasra records are attached in annexure 4 & 5. Construction of Overhead Service Reservoir (OHSRs)--6 nos will be undertaken in the existing campus of PHED, while 1 no of OHSRs at Mandia Girdhara is to be constructed in Govt. land. The Commissioner, MC, Pali submitted proposal to district collector for transfer of land in the name of Pali M.C. for the construction of SR at Mandia at Jodhpur Road.

**Table 4: Subproject Components and its Impact on Land Acquisition and Resettlement**

S N	Name of the Components	Permanent Impact on Land Acquisition and Resettlement	Temporary Impact	Remarks
<b>WTP</b>				
1.	Construction of <b>WTP of 30 MLD capacity</b> (for year 2031) and clear water pumping station, (Detail design and layout of 41 MLD for year 2046)	No	No	<b>The land is completely vacant</b> and belongs to Ground Water Department (GWD).The land has already been <b>transferred to PHED.</b> (See <b>annexure 2&amp;3</b> ), <b>Khasra records are attached in annexure 4&amp;5.</b>

S N	Name of the Components	Permanent Impact on Land Acquisition and Resettlement	Temporary Impact	Remarks
<b>OHSRs</b>				
1	OHSRs of 1000 m <sup>3</sup> capacity- <b>Labour Colony</b>	No	No	<b>No IR Impact envisaged.</b> OHSR is proposed in the existing PHED campus.
2	OHSRs of 1000 m <sup>3</sup> capacity- <b>Raiko Ki Dhani,</b>	No	No	<b>No IR Impact envisaged.</b> OHSR is proposed in the existing PHED campus.
3	OHSRs of 1000 m <sup>3</sup> capacity- <b>Mandiya Village</b>	No	No	<b>No IR Impact envisaged.</b> OHSR is proposed in the vacant land of Nagar Parishad. The Commissioner, MC, Pali submitted proposal to district collector for transfer of land in the name of Pali M.C. for the construction of SR at Mandia at Jodhpur Road.
4	OHSRs of 500 m <sup>3</sup> capacity- <b>Housing Board.</b>	No	No	<b>No IR Impact envisaged.</b> OHSR is proposed in the existing PHED campus.
5	OHSRs of 500 m <sup>3</sup> capacity- <b>Industrial area.</b>	No	No	<b>No IR Impact envisaged.</b> OHSR is proposed in the existing PHED campus
6	OHSRs of 500 m <sup>3</sup> capacity- <b>Shantinath</b>	No	No	<b>No IR Impact envisaged.</b> OHSR is proposed in the existing PHED campus
7	OHSRs of 500 m <sup>3</sup> capacity- <b>Jodhpur Road</b>	No	No	<b>No IR Impact envisaged.</b> OHSR is proposed in the existing PHED campus
<b>Refurbishment Work</b>				
8.	<b>Refurbishment of 3 WTPs as following- City Campus-IV (19.40 MLD)Mandli Head Works (7.35MLD) Mandli Head Works (3.7MLD)</b>	No	No	<b>No IR Impact envisaged.</b> Existing PHED headwork at City Campus and Mandli.
9	Refurbishments of existing OHSRs. <b>Out of existing 22 OHSRs</b> in Pali, total 3 are recommended to abandon and <b>19 are recommended for refurbishment.</b>	No	No	<b>No IR Impact envisaged.</b>
<b>Pumping Stations</b>				
10	<b>Raw Water Pump Station.</b> Construction of			<b>No IR Impact envisaged.</b>

S N	Name of the Components	Permanent Impact on Land Acquisition and Resettlement	Temporary Impact	Remarks
	2 Nos. Working + 1 No. Standby, <b>New Raw Water Pump Station</b> (Electro-Mechanical Works and minor Civil Works) <b>at Mandli</b>			
11.	<b>Clear Water Pump Stations.</b> Construction of New Clear Water Pump Station with 2 Working + 1 Standby, Clear Water Pumps Construction of New Clear Water Pump Station at Mandli WTP Head Works			<b>No IR Impact envisaged.</b>

10. The main resettlement impacts will be due to laying of the transmission mains. Pipelines to be laid within road rights-of-way (RoW), and will not require land acquisition or cause permanent displacement, but will cause temporary access disruptions and possible temporary losses in income only during construction period. It has been noted during site inspections that laying of pipe line may cause temporary loss of access/disruption to livelihood during civil works to **291 vendors/traders** located at both sides of road **and** access loss **one permanent shops.**(**Map of impacted Areas are shown in figure 6**) These are majorly non-titled movable /transitory structure (push carts etc.)<sup>7</sup>owners. As per information from design engineers, maximum number of days the vendors will experience loss of access/disruption of livelihood is 14 days which can be further minimized by scheduling civil works at night time or non-market day and lying of pipeline in phases. Temporarily affected persons (APs) will be assisted in moving to the other side of the road and returning their structures after construction is completed. Where moving is not required, access will be ensured by the contractor through measures prescribed in bidding documents. Summary of Sub-project components and possible IR impact are shown in Table 5.

**Table 5: Subproject Components and its Impact on Land Acquisition and Resettlement**

S N	Name of the Components	Permanent Impact on Land Acquisition and Resettlement	Temporary Impact	Remarks
12	Raw Water Transmission Pipeline of Length 3752m, Diameter 700mm	No	Yes	The pipelines will be buried below in a trench on the edge of the road within the existing right of way (RoW). There are no impacts of pipe laying on

<sup>7</sup> Resettlement impacts based on the detailed survey

S N	Name of the Components	Permanent Impact on Land Acquisition and Resettlement	Temporary Impact	Remarks
				permanent/semi-permanent structures. <b>Temporary impacts on movable structures (291 Aps) within RoW and 1 nos of are Permanent Shops.</b>

11. During impact assessment, it was further observed that most of the street where pipeline will be laid is completely vacant and road width is also sufficient. Impact was identified in few stretches, where temporary loss of access/disruption to livelihood may occur to 291 vendors/traders located at both sides of road and one permanent shop during execution of civil works. These are majorly non-titled movable /transitory structure (push carts etc.)<sup>8</sup> owners.( see Table 6 &7)

**Table 6: Nos pf DP identified in Particular Stretches**

S.No	Starting point	Ending Point	Number of DPs Identified
1	Mastan Baba Chouraha	Naya Goan OHSR	90
2	Mastan Baba	Haider Colony	3
3	Anubrata Dwar	Mandiya Road	35
4	Mastan Baba Circle		6
5	Lohdiya Pal	Chungi Naka	9
6	Ambedkar Circle	Gandhi Circle	6
7	Gandhi Circle	Subhash Circle	12
8	Subhash Circle	Kheteshwar Circle	106
9	Over Bridge	CBI Choraha & railway under pass	24
10	Paniyari Circle		1(Permanent Shop)
<b>Total</b>			<b>292</b>

**Table 7: Type of Business**

Type of Business	Nos of DPs	Type of Business	Nos of DPs
Auto Repair	6	Plastic Item	2
Bangle	11	Potter	9
Barber	13	Rajka	7
Cigarette/Pan stall	11	Ready Made	15
Cobbler	4	Scrap	1
Cosmetic	9	Small Dhabha	2
Cycle Repair	2	Snacks	52
electric Item	1	Sweets	6

<sup>8</sup> Resettlement impacts based on the detailed survey

Type of Business	Nos of DPs	Type of Business	Nos of DPs
Flower	9	Tailors	2
Fruit and Vegetable	98	Tea Stall	22
General Store	6	Washer Man	1
Grocery	1	Welder	2

12. During subproject preparation, the engineering team and social team coordinated with each other and made all efforts to minimize impacts on people and assets. To further minimize construction impacts, work will be executed during the early hours of the day in order to avoid inconveniences to the public as well as traders and vendors. All safety norms would strictly be adhered to depending on the magnitude of work and the sensitivity of the location. The Project Implementation Unit (PIU) will also ensure that all the necessary rules related to safety and security of the public and residents are followed by the contractor. The actual dates of construction schedule with respect to rush hour, festival time, and special business days have been discussed with vendors, squatters, market committee members, and residents, and intimated to the contractor for planning construction activities accordingly. After laying of pipes the lane/road will be restored to its original condition (including bitumen, cement concrete (CC) and CC interlocking tiles as applicable).

13. It is pertinent to inform that out of total 292 DPs, 291 DPs (of current package) were also identified under Package- RUSDP/Pali/01(Pali Water Supply and Sewerage Works). It is suggested that works under both the packages should be carried out together to minimize IR impacts on the identified DPs. Even though, two different contractors has been awarded and there would be possibility of different construction schedules (based on technical aspects etc.) it should be ensured by PIU that the work is carried out simultaneously. In case, DPs face dual impact (under both packages), they will be compensated twice. Resettlement budget for RP has been prepared accordingly.

14. **Impact on Common Property Resources:** Extent of impacts on CPRs has also been assessed. There are some sensitive receptors in close proximity (**including but not limited to**) to the sub-project alignment (**Table 8**). The Contractor will be instructed to take due care during final designing so that impact on these CPRs could be avoided. (**Photographs of Identified CPRs are attached in annexure 7**)

Table 8: List of CPRs

SNo	Name of CPR	Location	Remarks
1	Temple(1 no)	Lohdiya Pal to Chunginaka	Effort will be made by the contractor to avoid the impacts of these CRPs during preparation of Safe implementation Plan. If the impact could not be avoided, CPR cost will be included in the RP.
2	Temple(2 nos)	Chunginaka to Transport Nagar	
3	Temple(2 nos)	CBI Chouraha to Under Pass Railway Station	
4	Public Hand Pump(1 no)	Over Bridge to Kheteshwar Circle

Socio-economic Profile	
1. Average family size	5.5
2. Average income /day (shops)	INR 230.66/day*
3. Average income /day (shops) on the basis of minimum wages <sup>9</sup>	INR 248/day

\* Based on Socio Economic Survey Feb, 2016

### C. Socio-economic Information and Profile

15. The following sections present socio-economic profile of the households likely to be affected by the proposed works. To estimate the temporary impacts initially a series of transect walks were conducted; this was followed by a 100 percent census and a socio-economic survey conducted in the areas, where the works is to be taken up (Sample format is attached in **Annexure 14**). The baseline information collected through survey provides the socio-economic conditions of affected households. A wide range of data including, social category, Type of losses, Type of Occupation, sources of income, choice of

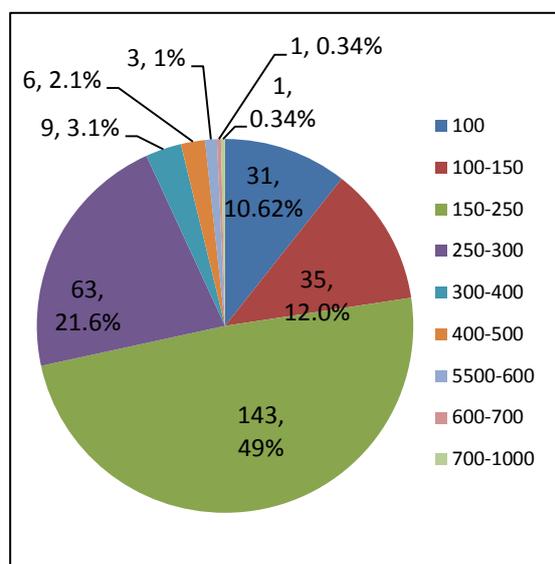

<sup>9</sup> In case, daily income of AP is less than Minimum Wages (as per Government of Rajasthan Minimum Wages Act), then Average income/day of AP will be calculated on the basis of minimum wage (unskilled labour), which is Rs.201/- (July 2016). The daily wage has been calculated on this basis. (Ref Annexure 19).

resettlement etc have been collected by conducting census and socio-economic survey among likely project affected households. (Summary of Socio-Economic profile is attached in **Annexure 1**).

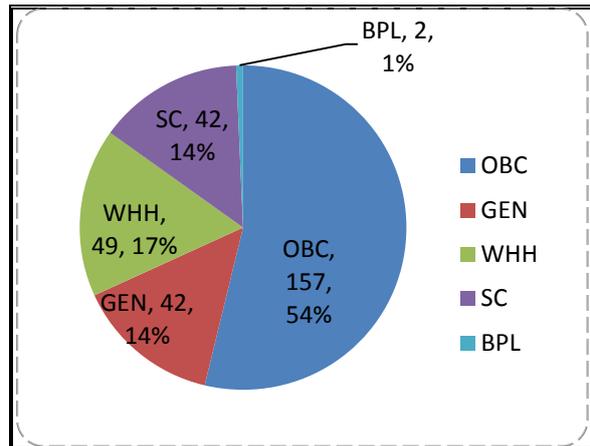

16. The data base provides broad understanding of social and economic conditions of project affected households and the likely impacts that people would experience due to proposed Works. A selected set of socio-economic information is discussed in the following sections to establish the profile of the project affected persons. The data base generated through household socio-economic survey would be used by the monitoring and evaluation consultant for evaluation of the resettlement plan objectives.

17. Respondents were asked to provide monthly income against business. For the purpose of analysis the income groups to which the households belong to are discussed below:-

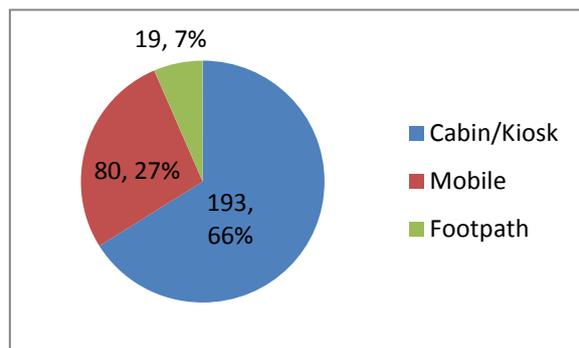

18. **Income:** No households with a monthly income of less than or equal to Rs. 2500/- per month was identified. 10.6 % of the households likely to be affected belong to the income category of Rs. 100/per day. 12 % of the households likely to be affected belong to the income category between Rs. 100-150 per day. 49 % of the households likely to be affected belong to the income category between Rs. 150-250 per day. 21.6% of the households likely to be affected belong to the income category between Rs. 250-300 per day. 3.1 % of the households likely to be affected belong to the income category between Rs. 300-400 per day. 2.1 % of the households likely to be affected belong to the income category between Rs. 400-500 per day. 1% of the households likely to be affected belong to the income category between Rs. 500-600 per day. 0.3 % of the households likely to be affected belong to the income category between Rs. 600-700 per day. 0.3 % of the households likely to be affected belong to the income category between Rs. 700-1000 per day. The average earning of these people is approximately 230.66/- per day and the average household income works out to be 6920/- per month. But taking into consideration the Minimum Wages in Rajasthan (as on date), the average per day income per AP comes to Rs. 248 /-. The Resettlement Budget has been prepared on the basis of minimum wages in vogue.

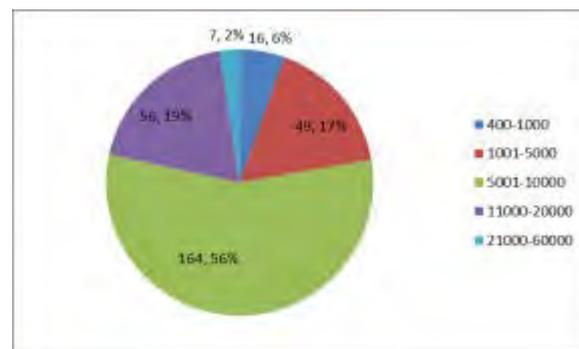

19. **Caste/Vulnerability:** Households likely to be affected as per social category have been presented in **Annexure 1**. General Caste Comprise 14%, Other Backward Castes (OBC) comprises 54%, SC comprises 14%, WHH Comprise 17%, while 1% Comprise BPL

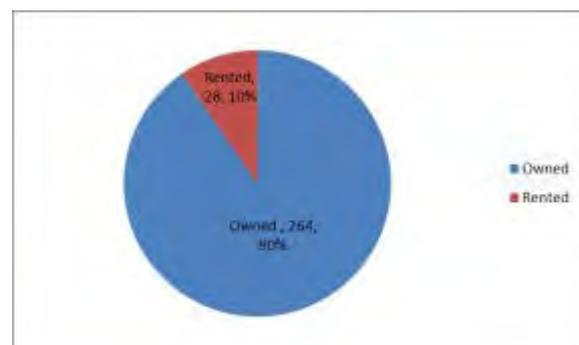

20. Around 27% have movable structures, while 66% have cabin/kiosk/Shops have constructed temporary sheds (can easily dismantled) and 7% sit on roads for selling their goods.

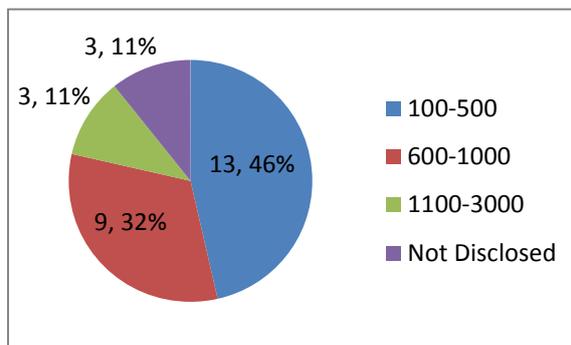

21. An average cost of their business unit/structure was estimated at Rs 9975 with minimum at Rs. 400 and maximum at Rs. 60000.

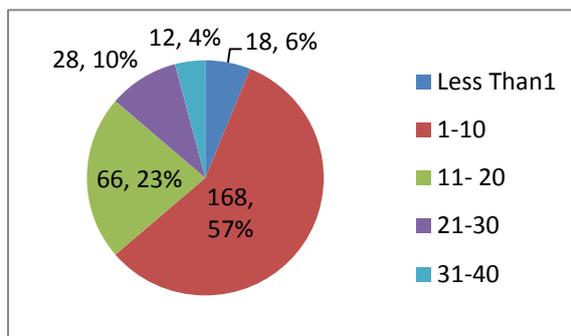

22. 90% of Aps (have their own structure, while 10% are paying rent for structures.

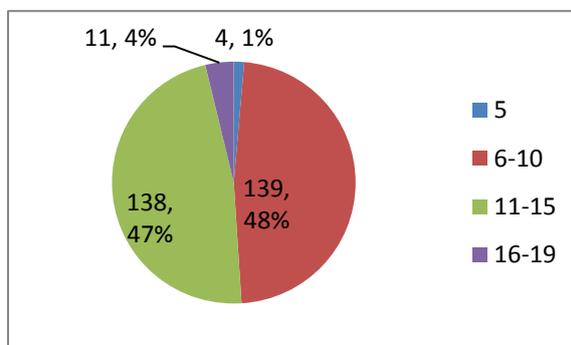

23. 46% APs are paying Rs 100-500/month, 32% are paying Rs. 600-1000/month, 11% are paying Rs. 1100-3000/month and 11% did not disclosed their rent.

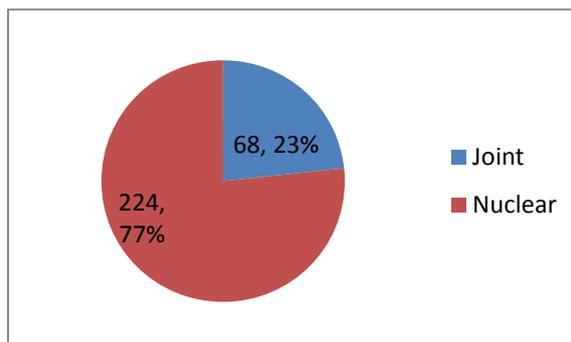

24. **Working in Towns in Years:** 57% APs are living/working in town since last 1 to 10 years, 23% APs are living/working in town since last 11 to 20 years, 10% APs are living in town / working since last 21 to 30 years, while 4% APs are living / working in town since last 31 to 40 years. 6% are living / working in town for less than one year.

25. **Working hours (Hrs/day) at Single Place:** 48% APs have indicated that they work at fixed location for 6 to 10 hrs/day, 47% APs have indicated that they have work at fixed location for 11 to 15 Hrs/day, 4% APs have indicated that they work at fixed location for 16-19 hrs/day, while 1% APs have indicated working at fixed location for at least 5 hrs/day.

26. **Type of Family:** Out of 292 APs, 77% have a nuclear Family, 23% have a Joint Family. Only one households have a extended Family

#### D. Information Disclosure, Consultation and Participation

27. The RP was prepared in consultation with stakeholders. The key stakeholders to be consulted during various stages of RP preparation include (i) all APs, including vulnerable households;(ii) program beneficiaries (iii) elected representatives, community leaders, and representatives of community- based organizations;(iv) local NGOs; (v) local government and relevant government agency representatives; and (vi) Program staff, PMU, PIU, and

consultants. Meetings and individual interviews were held involving stakeholders particularly, potentially temporarily Affected persons; and transect walks, survey and interviews were conducted from August 2015 to July, 2016 to determine the potential impacts of subproject. The issues like, awareness and extent of the project and development components, benefits of project, traffic disruptions and impacts on livelihood. It was informed to APs surveyed that appropriate measures will be undertaken during construction to minimize impacts. (Including scheduling of activities and reducing construction activities during the rush hour). It was also informed that, if despite mitigation measures, there would be any temporary impacts on livelihood; these would be compensated in accordance with the resettlement plan's entitlement matrix.

28. Public consultations were done near different site locations of water supply project in Pali to access the awareness of general public, present water supply situations, environmental and health conditions in town, their opinion about the proposed project and suggestions(if any). It was found that the sanitation conditions are very poor and no sewerage system exists in town. Most of the households are dependent on individual septic tanks and may dispose their sewer directly in to drains, which ultimately mix with river through municipal nallas. Water supply is provided only 1-2 hours daily in most of areas, whereas in some areas on alternate days. People shown keen interest in proposed water supply system and shown their full co-operation during execution. They were willing to bear the inconvenience caused due to proposed works for improved water supply system. Outbreak of infectious diseases; like malaria, diarrhea and stomach infections were also reported due to poor water supply and sewer system. Some movable shopkeepers were noted within ROW in market and residential areas and most of them were ready to relocate to other places during execution. **Consultations detailed are mentioned in below table and photographs are attached in annexure 9.**

**Table 10: Consultation with Stakeholders:-**

<b>Date</b>	<b>Name of Stakeholders</b>	<b>Issues Discussed</b>
<b>22.07.2015</b>	Mr. Ishwar Chand Jain, SE, PHED, Pali, Mr. Rajesh Kumar Agarwal, Executive Engineer, PHED, Pali, Mr. Hari Ram Choudhary, AEN, PHED, Pali	It was informed by PHED that land allotment for new (proposed) WTP at Manpura, Bhakri is under process and shall be available soon for construction of WTP. PHED officers assured of their full co-operation with RUIDP during planning and implementation of the project
<b>23.07.2015</b>	Mr. K.P. Vyas, Executive Engineer, Nagar Parishad, Pali, Mr. Manish Atre, JEN, Nagar Parishad, Pali, Mr. Shankar Lal, Executive Engineer, PIU (UIDSSMT), RUIDP, Pali, Mr. S.P. Mathur, Assistant Engineer, PIU (UIDSSMT), RUIDP, Pali, Mr. Dipak Parihar, Chief Executive Officer, Pali Water Pollution Control, Treatment and Research Foundation, CETP, Industrial Area, Pali, Mr. Adarsh Dwivedi, Site Incharge, STP (UIDSSMT), Industrial Area, Pali (ENVIRAD), Mr. A. K. Saxena, Regional Manager, RIICO, Pali	
<b>05.08.2015</b>	Mr. Ranawat, AEN, PHED, Pali, Ms. Shobha, J.En, Housing Board, PHED, Pali, Ms. Garima Rathor, J.En, Mandali, PHED, Pali, Mr. K.P.	Proposed works and requirement of Land Revenue record of Proposed WTP areas ADB Safeguard Policystreamline was also discussed

Date	Name of Stakeholders	Issues Discussed
	Vyas, Executive Engineer, Nagar Parishad, Pali, Mr. Manish Atre, JEN, Nagar Parishad, Pali, Mr. Shankar Lal, Executive Engineer, PIU (UIDSSMT), RUIDP, Pali, Mr. S.P. Mathur, Assistant Engineer, PIU (UIDSSMT), RUIDP, Pali, Mr. Naresh, Businessmen, Rakesh Kumawat, Businessmen, Maya ,Residents	in detailed.
<b>25.08.2015</b> (Manpura near WTP Site)	Bhagwan Ram (WRD), Bhura Ram (WRD), GulabJee (Villager), Kishore Meghwar (Villager)	During the discussion villagers were made aware about the benefits of the project and the villagers were quite happy about the project being initiated. They further insisted on providing employment during the construction phase of the WTP. Villagers were happy that now the government will focus on the village and the village will be benefited indirectly. There was no resistance on construction of the WTP in the village rather all the members of the village agreed to provide the required support in the construction of the WTP.
09-12.12.2015	Bhagwan Ram, Bhura Ram, Security guards WRD at proposed WTP site at Manpura Bhakhri, Kishor Meghwal, Hari Ram, residents of Manpura Bhakhri, Prema Ram, owner Jambheshwar Bhojanalaya, Paniyari Chouraha, Mohd. Rizwan, Biju, Narayan, shopkeepers, Haider Colony, Vinod Rao, H.No. 99, Manohar Vaishnav, H.No. 101, Mastan Baba Colony, Sohan Lal, Jamuna Devi, Shopkeepers near Surajpole Gate, Suresh, Kailash Ruparam, Shopkeepers near RICCO industrial area, Punnaita, Rajendra Singh, Kailash Chandra, Surendra Singh Sekhawat, employees of PHED at Labour colony, Narayan Ram, Helper, PHED, Industrial area IV phase, Laxmi Narayan, H.N. 523, Sikandar, residents of Raiko Ki Dhani	Proposed worksand ADB Safeguard Policy.
11.12.2015(Punayata Village)	Durga Ram, Sohan Ram, Sanshilal, Jagdish, Baira Ram, Narsingh Ram, Lunga Devi (F)	Villagers deliberated that :-Village has around 580-600 families, major occupation is Agriculture and labour work. The water supply is provided in 2-3 days. Old tanks are abandoned and no storage facility is available in the village. Villagers are paying around Rs. 58 as water

Date	Name of Stakeholders	Issues Discussed
		charges (2 months). Water extracted from hand pump is not suitable for drinking and outbreak of diarrhoea is common especially in children. Open defecation of human waste is prevalent in village as no latrines in individual houses are made. In depth understanding of the proposed work/ components/ADB Policy was provided. The entire villagers were convinced about the latent benefits of the project. Villagers are also ready to bear additional cost of water (if any) for treated water. Road width of the village was sufficient to lay pipes and villagers agreed to provide required support to the project.
10.02.2016	Vendors/traders located at both sides of road in the proposed areas.	Distribution of Leaflet and R&R provision under this project.
11.03.2016	Vendors/traders located at both sides of road in the proposed areas.	Cut off displaced and objective of cut off date.

29. The approved RP documents will be disclosed on ADB and local government's websites and will be available in key local/state government offices. During the subproject implementation, construction schedules will be informed to all residents (including APs) prior to the commencement of pipe laying through signboards. The signboards will be in local language and will include at minimum: (i) section to be affected, (ii) start and end dates, (iii) information on traffic rerouting if any, and (iv) Contact information for questions/grievances.

30. Information dissemination and disclosure is a continuous process since the beginning of the program. Information dissemination was carried out through printed leaflets/ information booklet that was prepared by the PMDSC in local language. The disclosure of Resettlement Plan has been circulated to the DPs and stakeholders through leaflet (Hindi script) on dated 28<sup>th</sup> Jan to 10<sup>th</sup> Feb, 2016. The same were circulated to the PMU & PIU office. Leaflets were distributed not only to APs but also to people (residents, businessmen and others) within the immediate project influence area in advance so that people could be aware about the project works and its benefit and also R&R provision under these project. **(See Annexure 10&11)**

31. The leaflet/ information booklet contained the following:

- Description of the project and its objectives;
- Summary of impacts (including land acquisition, and impacts on common property resources, etc);
- Resettlement & Rehabilitation provisions of the project and specific benefits available to vulnerable APs;
- Ways and means of involving local communities;
- Grievances redress mechanisms, suggestion and complain handling mechanism, etc.

Table 11: Consultation and Disclosure Activities

Program Phase	Activities	Details	Responsible Agency
Investment Program Initiation/ Bridging Phase	Mapping of the program areas	Area to be mapped, clearly showing survey numbers of titleholders of land/property proposed for acquisition.	PMU in coordination with DC's offices and other local bodies.
	Stakeholder identification	Cross section of stakeholders to be identified in order to facilitate their participation in the Program.	PMU and PIUs in consultation with stakeholders.
	Program/sub-project information dissemination; Disclosure of proposed land acquisition	Leaflets containing information on the Program and sub-project to be prepared. Public notice issued in local newspapers (and disclosed on PMU/PIU websites) including survey numbers and names of titleholders for land to be acquired concurrent with consultation with titleholders.	PMU SPO and PIU ASO. Notice will be issued from the DC's office. PMU SPO and PIU ASO to disclose on the web.
	Stakeholder consultations	Further consultations with affected titleholders and households. Consultations with non-titled APs and other stakeholders during subproject scoping.	PMDSC SSS and CAPC/ implementing NGO.
RP Preparation Phase	Disclosure of cut-off date	For permanent land acquisition as per the LARR, 2013 while for temporary impacts by PIU.	PIU with support from PMDSC SSS and CAPC / implementing NGO
	SIA surveys	Surveys to be conducted. Summary RF to be disclosed in local language through printed materials to APs particularly those who are vulnerable and other stakeholders.	PIU through PMDSC SSS to conduct surveys. PMDSC SSS to disclose RF to stakeholders (including making it available in PMU/PIU offices and government agency offices) PMU/PIU to disclose on the web.
	Formulating compensation and resettlement assistance measures	Conducting stakeholder consultations particularly APs in and reflecting issues raised in revised RP.	PMDSC SSS and CAPC/ implementing NGO.

Program Phase	Activities	Details	Responsible Agency
	Disclosure of final entitlements and rehabilitation packages	Provision of RPs to all stakeholders particularly APs. Conducting consultations and distributing local language versions of the summary RP.	PMU/PIU to disclose on the web. SSS of PMDSC and CAPC/ implementing NGO to conduct consultations.
RP Implementation Stage	Disclosure of RP	Review and approval of RP by EA. Review and approval of RP by ADB. Web disclosure of the RP.	PMU to provide ADB with RP for review and approval. PMU SPO to disclose on the web.
	Consultation with APs during RP implementation	Consultations with APs.	CAPC/ implementing NGO with monitoring from PIU/PMU and external agency.

32. For the temporary impacts the date/period of socio-economic surveys was considered as cut-off date. Cut-off-date for temporary impacts was communicated to APs through NGO and PMDSC on dated 24.02.2016, (**See Annexure 12&13**) and also by putting up printed information in project affected area at common advertisement place. Similarly, list of APs was published at common places with contact details of implementing NGO/PIU officials. The list was put up area wise and at a time for the entire city. The objective of the cut-off-date was to avoid APs moving into other areas and to identify any duplication of APs.

33. Finalized RPs will also be disclosed in ADB's website, PMU websites, and PIU or city websites; and information dissemination, through subproject specific leaflets and public announcements, and consultation will continue throughout program implementation.

## E. Grievance Redress Mechanism

34. The RP will follow the three-tier project-specific grievance redress mechanism (GRM) furnished in the RF. The GRM established will receive, evaluate, and facilitate the resolution of AP's concerns, complaints, and grievances about the social and environmental performance at the level of the Project. The GRM will aim to provide a time-bound and transparent mechanism to voice and resolve social and environmental concerns linked to the Project.

35. In case of grievances that are immediate and urgent in the perception of the complainant, the contractor, and supervision personnel from PIU the PMDSC on-site will provide the most easily accessible or first level of contact for quick resolution of grievances. Contact phone numbers and names of the concerned PIU Assistant Safeguards Officer, contractors, will be posted at all construction sites at visible locations.

- (i) **1st level grievance.** The contractors, PIU supervision personnel, PIU Assistant Safeguards Officer and implementing NGO/CAPC NGO<sup>10</sup> can immediately resolve issues on-site in consultation with each other, and will be required to do so within 3 days of receipt of a complaint/grievance.
- (ii) **2nd level grievance.** All grievances that cannot be redressed within 3 days at field/ward level will be brought to the notice of Social Project Officer (SPO) of PMU. PMU SPO will resolve the grievance within 7 days of receipt of compliance/grievance in discussion with the PIU, CAPC/NGO and the Contractor.
- (iii) **3rd level grievance.** All the grievances that are not addressed by PMU within 7 days of receipt will be brought to the notice of the Grievance Redressal Committee (GRC). The City Level Committee (CLC), which will be established in every project city, will act as GRC<sup>11</sup>. GRC will meet twice a month and determine the merit of each grievance brought to the committee. The PIU ASO will be responsible to see through the process of redressal of each grievance. The GRC will resolve the grievance within 15 days of receiving the complaint.

36. The project GRM notwithstanding, an aggrieved person shall have access to the country's legal system at any stage, and accessing the country's legal system can run parallel to accessing the GRM and is not dependent on the negative outcome of the GRM. Alternatively, if the grievance is related to land acquisition, resettlement & rehabilitation<sup>12</sup>, the APs can approach the Land Acquisition, Rehabilitation and Resettlement Authority (LARRA).

37. In the event that the established GRM is not in a position to resolve the issue, the affected person also can use the ADB Accountability Mechanism through directly contacting (in writing) the Complaint Receiving Officer (CRO) at ADB headquarters or the ADB India Resident Mission (INRM). The complaint can be submitted in any of the official languages of ADB's DMCs. The ADB Accountability Mechanism information will be included in the PID to be distributed to the affected communities, as part of the project GRM.

38. Records will be kept of all grievances received including: contract details of complainant, date of the complaint received, nature of grievance, agreed corrective actions and the date of these were effected, and final outcome. All costs involved in resolving the complaints (meetings, consultations, communication and reporting/information dissemination) will be borne by the concerned PIU at city level while costs related to escalated grievances will be met by the PMU.

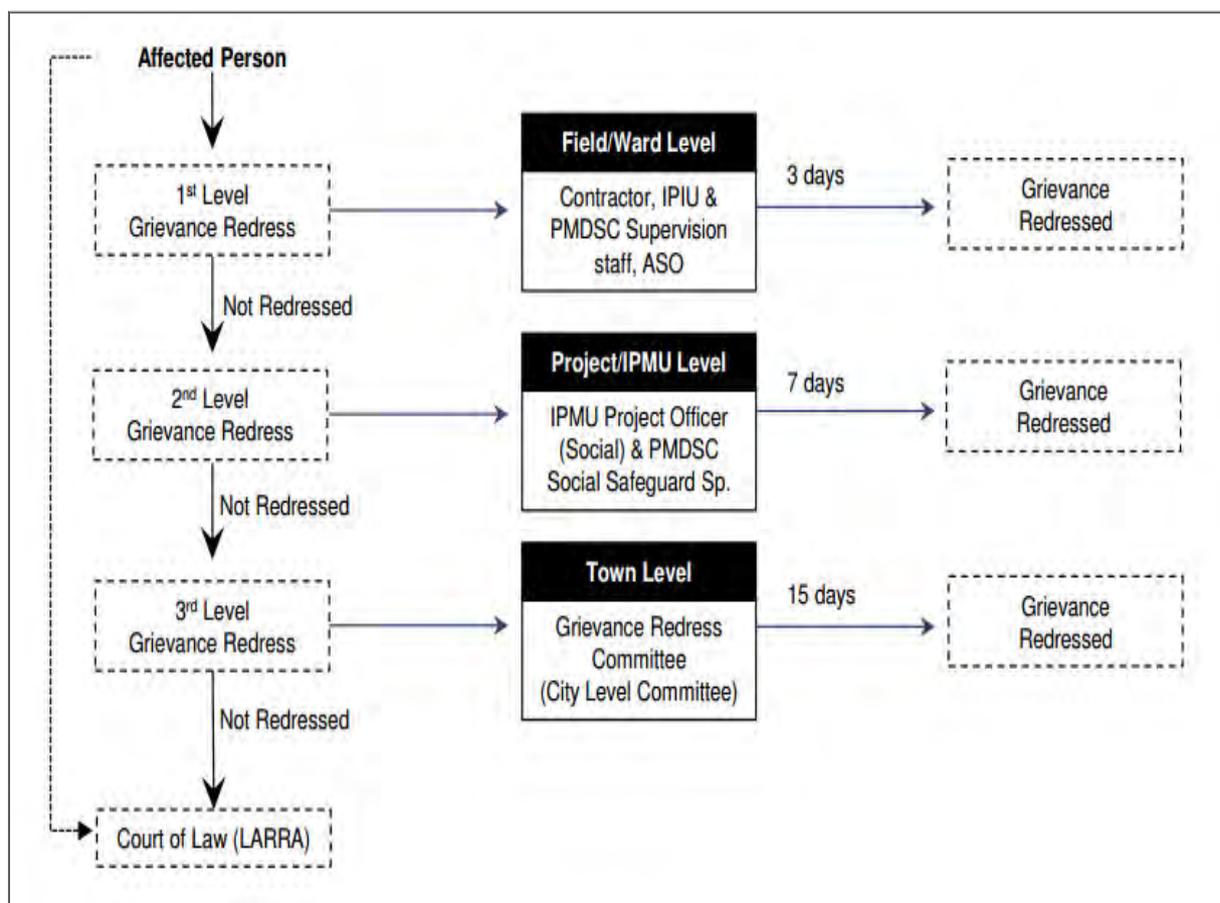

---

<sup>10</sup> Implementing NGO role will be confined up to validation of APs, Facilitating Opening of Bank Accounts. CAPC will oversee all other matters (income generation programs for APs.etc.) related to Implementation of Resettlement Plan (RP)

<sup>11</sup> City Level Committees (CLC)/ Grievance redress committees (GRC) will be formed at city-level with members composed of: District Collector (DC) as Chairperson, and following as members: ULB Commissioner; Assistant Safeguards Officer PIU; representative from RPCB regional office; and one representative each from relevant government departments as appropriate (PWD/PHED/DAM etc.). All city-level GRCs will have at least one woman member/ chairperson. In addition, for project-related grievances, representatives of APs, community-based organizations (CBOs), and eminent citizens will be invited as observers in GRC meetings

<sup>12</sup> The Authority admits grievance only with reference to the LA and R&R issues under the new LARR Act, 2013.

Figure 7: Grievance Redress Process

ASO - Assistant Safeguard Officer; IPIU - Investment Program Implementation Unit; PMU - Investment Program Management Unit; PMDSC - Project Management, Design & Supervision Consultant

## F. Legal Framework

39. The policy framework and entitlements for the RUSDP are based on:
- (i) The recently passed-The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act (RFCT in LARR), 2013.
  - (ii) National Rehabilitation and Resettlement Policy, (NRRP)2007; and
  - (iii) ADB's Safeguard Policy Statement (SPS), 2009. The salient features of Government and ADB polices are summarized below. The resettlement principles and procedures to be followed for social safeguards under RUSDP are detailed out in the RF document.
40. Core involuntary resettlement principles for the RUSDP to be followed for each sub-project, including sample sub-projects are:
- (i) Land acquisition, and other involuntary resettlement impacts will be avoided or minimized exploring all viable alternative sub-project designs;
  - (ii) Where unavoidable, time-bound resettlement plans (RPs) will be prepared and APs will be assisted in improving or at least regaining their pre-program standard of living;

- (iii) Full information and close consultations with APs including consultation with APs on compensation, disclosure of resettlement information to APs, and participation of APs in planning and implementing sub-projects will be ensured;
- (iv) Vulnerable groups will be provided special assistance<sup>13</sup>
- (v) Payment of compensation to APs including non-titled persons (e.g., informal dwellers/squatters, and encroachers) for acquired assets at replacement rates;
- (vi) Payment of compensation and resettlement assistance prior to the contractor taking physical acquisition of the land and prior to the commencement of any construction activities;
- (vii) Provision of income restoration and rehabilitation; and
- (viii) Establishment of appropriate grievance redress mechanisms.

41. APs will be entitled to a combination of compensation measures and resettlement assistance, depending on the nature of ownership rights of lost assets and scope of the impact, including social and economic vulnerability of the APs.

#### **G. Entitlements, Assistance and Benefits**

42. All DPs who are identified in the subproject areas on the cut-off date will be entitled to compensation for their affected assets, and rehabilitation measures (as outlined in the entitlement matrix below) sufficient to assist them to improve or at least maintain their pre project living standards, income-earning capacity and production levels. Compensation eligibility is limited by a cut-off date as set for this project on the day of the completion of the census survey which is **24.02.2016** in this case. APs who settle in the affected areas after the cut-off date will not be eligible for compensation and assistance. APs will be provided 30 days advance notice to ensure no or minimal disruption in livelihood. If required, they will also be assisted to temporarily shift for continued economic activity. For example they will be assisted to shift to the other side of the road where there is no construction. Ensuring there is no income or access loss during sub-project construction is the responsibility of contractors.

43. Work will be undertaken on one side of the road and temporarily affected person (APs) will be assisted in moving to the other side of the road and returning their structures after construction is completed. Where moving is not required, access will be ensured by the contractor through measures prescribed in bidding documents/environmental management plan (EMP). An alternate place in the vicinity will also be identified where more number of APs are affected at one place (e.g. vegetable market) so that they can continue with their livelihood activities.

44. The PIU and the NGO will provide the identity cards (ID) to each of the APs. The entitlement matrix for the subproject based on the above policies is in Table 12.

---

<sup>13</sup> Including poor households, households headed by women, the elderly, the physically handicapped, Schedule Caste and Scheduled Tribes considered vulnerable based on the Indigenous Peoples Planning Framework (IPPF).

45. If construction activities results unavoidable livelihood disruption, compensation for lost income or a transitional allowance for the period of disruption whichever is greater will be provided. Vulnerable APs will be given priority in project construction employment and provided with additional special assistance for income restoration support. Compensation and assistance to APs must be made prior to possession of land/assets and prior to the award of civil works contracts. Since most affected households have moveable stalls, ID cards should be distributed 30 days before compensation. In summary, temporarily APs will be provided with:

- (i) 30 days advance notice regarding construction activities, including duration and type of disruption.
- (ii) Contractor's actions to ensure there is no income/access loss consistent with the initial environmental examination. This includes: leaving spaces for access between mounds of soil, providing walkways and metal sheets to maintain access across trenches for people and vehicles where required, increased work forces to finish work in areas with impacts on access, timing of works to reduce disruption during business hours, phased construction schedule and working one segment at a time and one side of the road at a time.
- (iii) Assistance to mobile vendors/hawkers to temporarily shift for continued economic activity. For example assistance to shift to the other side of the road where there is no construction.
- (iv) For construction activities involving unavoidable livelihood disruption, compensation for lost income or a transitional allowance for the period of disruption whichever is greater.

Table 12: Entitlement Matrix

RF No.	Type of Loss	Application	Definition of Entitled Person	Compensation Policy	Implementation Issues	Responsible Agency
1	Temporary disruption of livelihood	Temporary impacts	Legal titleholders, non-titled APs	<ul style="list-style-type: none"> <li>30 days advance notice regarding construction activities, including duration and type of disruption.</li> <li>Cash assistance based on the minimum wage/average earnings per month for the loss of income/livelihood for the period of disruption Contractor's actions to ensure there is no income/access loss consistent with the IEE.<sup>14</sup></li> <li>Assistance to vendors/hawkers to temporarily shift for continued economic activity (Rs. 1,000 as one time assistance)<sup>15</sup></li> <li>For construction activities involving unavoidable livelihood disruption, compensation for lost income or a transitional allowance for the period of disruption whichever is greater.<sup>16</sup></li> </ul>	Identification of alternative temporary sites to continue economic activity.	Valuation Committee will determine income lost. Contractors will perform actions to minimize income/access loss. For temporary impacts during construction activities, PMDSC SSS with the help of implementing NGO will assess/verify impacts through structured surveys. Payment will be made by PIU through contractor.
2	Impacts on vulnerable APs	Temporary impacts	Vulnerable APs <sup>17</sup>	<ul style="list-style-type: none"> <li>Livelihood. Vulnerable households will be given priority in project construction employment and provided with income restoration support.</li> <li>Vulnerable persons/businesses will receive Rs. 7,000 as one time assistance under temporary impacts.</li> </ul>	Vulnerable households will be identified during the census.	PMDSC SSS and implementing NGO will verify the extent of impacts through a 100% survey of APs, determine assistance, verify and identify vulnerable households.
3	Loss and temporary impacts on common resources	Common resources	Communities	<ul style="list-style-type: none"> <li>Replacement or restoration of the affected community facilities – including public water stand posts, public utility posts, temples, shrines, etc.</li> </ul>	-	PMU and Contractor.
4	Any other loss not identified	-	-	<ul style="list-style-type: none"> <li>Unanticipated involuntary impacts will be documented and mitigated based on ADB's Safeguard Policy (SPS), 2009/RUSDP RF/EM.</li> </ul>	-	PMDSC SSS and implementing NGO will ascertain the nature and extent of such loss.

<sup>14</sup> This includes: leaving spaces for access between mounds of soil, providing walkways and metal sheets to maintain access across trenches for people and vehicles where required, increased workforces to finish work in areas with impacts on access, timing of works to reduce disruption during business hours, phased construction schedule and working one segment at a time and one side of the road at a time

<sup>15</sup> For example assistance to shift to the other side of the road where there is no construction. These will be however given to only non-movable businesses (which are not on wheels).

<sup>16</sup> Under this project it is suggested for 14 days of impact period during construction for both water supply and sewerage subprojects.

<sup>17</sup> Vulnerable households include female-headed households, physically handicapped-headed households, scheduled tribe and schedule caste households, Below Poverty Line households, and households with marginal land holdings, that are the only source of livelihood, and majority of that land is being acquired under the project.

## H. Resettlement Budget and Financing Plan

46. The resettlement cost estimate for the Pali Bulk Water Scheme subproject includes resettlement assistance, as outlined in the entitlement matrix, support cost for RP implementation and contingency provision amounting to be 5% of the total cost. The funds for resettlement will be released in a timely manner. The total resettlement cost for the subproject is **INR 28,54,665/-**. The resettlement cost items and estimates are outlined in **Table 13**. The implementing /CAPC NGO will be involved in facilitating the disbursement process, and will facilitate opening bank accounts for the affected persons who do not have bank accounts. Contractor will pay all the compensation before the start of civil works.

**Table 13: Resettlement Budget**

S.no	Item	Unit	Quantity	Unit Rate	Amount
<b>A. Resettlement Cost</b>					
1	Assistance for temporary livelihood impacts for 14 days	14 days	292	248	1013824
2	Assistance for the temporary disruption of livelihood to vulnerable households	Once	93	7000	651000
3	Shifting Assistance for Aps (one time)	Once	292	1000	292000
4	<i>Sub-Total A</i>				<b>1956824</b>
<b>B</b>	<b>Additional Contingency (5%)</b>				97841
<b>C.</b>	<b>Implementation Cost<sup>18</sup></b>				800000
	<b>Grand Total (A+B+C)</b>				<b>28,54,665</b>

## I. Institutional Arrangements and Implementation Schedule

47. The Local Self Government Department (LSGD) is the executing agency responsible for overall technical supervision and execution of all subprojects funded under the Program. The Implementing Agency is the Program Management Unit (PMU) of the ongoing Rajasthan Urban Infrastructure Development Project (RUIDP), to coordinate construction of subprojects and ensure consistency across the towns Project Implementation Unit (PIU) has been established. The inter-ministerial Empowered Committee provides LSGD with central policy guidance and coordination and City Level Committees (CLCs) established in Pali to oversee the implementation at city level. The PMU is assisted by: PMDSC who manages the Program and assure technical quality of the design and construction; managing the tendering of Contractors, and supervising construction.

<sup>18</sup> NGO costs for RP implementation activities (validation of APs, Facilitating Opening of Bank Accounts).  
**Ref Annexure 15** for RP implementation NGO TOR CAPC will oversee all the other matters.

48. PMU Social Project Officer (SPO) will perform responsibilities like: Addressing social safeguards issues; Implementing the resettlement framework/IPF; Liaising with district administration for land acquisition and resettlement plan implementation; Addressing any problems and/or delays in the land acquisition process including GRM management and monitor the overall complaint resolution status; Monitoring physical and financial progress on land acquisition activities and updating the PMU on the same; Monitoring implementation of safeguards plans (resettlement plan/IPPs); Guiding the PIUs as and when necessary; and Endorsing and submitting periodic semiannual social safeguard monitoring reports.

49. The PMU will be assisted by a PMDSC social safeguards specialist (PMDSC SSS). The SSS will (i) update the existing resettlement plans based on the detailed design; (ii) assist in the monitoring and supervision of ongoing subprojects and RP and IPP implementation; (iii) prepare resettlement plan and/or IPPs for new subprojects, where required to comply with national law and/or ADB procedure; (iv) ensure all subprojects meet safeguard requirements as agreed in the loan covenant and in line with this resettlement framework; (v) review and finalize all reports in consultation with the PMU SPO (RP updating and preparation, preparation of semi-annual social safeguard monitoring report for PMU submission to ADB, and support GRM implementation); In addition, SSS will assist the PMU in procurement needs and other project implementation aspects, and shall play a central role in ensuring capacity building on resettlement management of the PMU, NGO, and line departments through capacity development support and training. Refer **Figure 8** for the implementation arrangement of environment and resettlement safeguards.

50. PMU Social Project Officer (SPO) will receive support from Social Safeguard Specialist (SSS) of the PMDSC Team in implementation of social/land acquisition/resettlement related tasks at PIU level. At each PIU, an Assistant Engineer (AE) rank officer will be designated as Assistant Safeguards officer (ASO) who will assist PMU SPO in implementation of the social safeguards at the PIU level. The PIUs will be responsible for implementation of the resettlement plan. PIUs will undertake internal monitoring and supervision and record observations throughout the project period to ensure that the safeguards and mitigation measures are provided as intended. ASO will be responsible for (i) implementing and monitoring safeguards compliance activities, public relations activities, gender mainstreaming activities, and community participation activities; (ii) coordinating with district administration and NGO for land acquisition and R&R aspects and addressing any problems and/or delays; (iii) monitoring physical and financial progress on land acquisition and R&R activities including record keeping of the grievance and redress issues as reported by CAPC NGO/Contractor and prepare and submit monthly report on safeguards to be consolidated by PIU ASP; and (iv) organizing monthly meetings with the NGO to review the progress on R&R. Further details on agencies responsible for RP activities are in **Table 14** and a tentative implementation schedule is given in **Table 15**.

51. Apart from safeguard staff at PMU/PIU and PMDSC level, implementing NGO will be appointed for Pali to undertake various Community Awareness and Public Participation-activities including RP implementation. Key activities of the NGO in relation to resettlement planning and implementation will include: (i) conducting detailed survey of physically and economically displaced persons based on detailed design, and identifying poor, female-headed, and vulnerable households affected by land acquisition and resettlement; (ii) preparing the list of the potential affected persons and issue identification cards; (iii) facilitating the process of disbursement of compensation to the affected persons, coordinating with the revenue department and informing the affected persons of the compensation disbursement process and timeline; (iv) assisting affected persons in

opening bank accounts, explaining the implications, rules, and obligations of a joint account and how he or she can access the resources he or she is entitled to; (v) assisting the executing agency in ensuring a smooth transition (during the partial or full relocation of the affected persons), helping them to take salvaged materials and shift. In close consultation with the affected persons, the NGO shall inform the PMU about the shifting dates agreed upon in writing and the arrangements they desire with respect to their entitlements; (vi) organizing training programs for income restoration; (vii) conducting meaningful, ongoing consultation and ensuring disclosure of resettlement plans in an accessible manner to the affected persons; (viii) assisting PIUs in grievance redress mechanism; (ix) assisting PIUs in keeping detailed records of progress and establishing monitoring and reporting systems of resettlement; (x) acting as the information source for community interaction with the project, and liaising between community, PMDSC contractors, and project management and implementing units during the execution of the works; and (xi) providing advice and other support to PIUs as required.

**Table 14: Institutional Roles and Responsibilities**

<b>Activity</b>	<b>Responsible Agency</b>
<b>Sub-project Initiation Stage</b>	
Finalization of sites for sub-projects	PMU
Disclosure of proposed land acquisition and sub-project details by issuing Public Notice	PMU
Meetings at community/household level with APs	PIU/NGO
Formation of VCs	PMU/PIU
<b>RP Preparation and Updating Stage</b>	
Conducting Census of all APs	NGO/PMDSC SSS
Conducting FGDs/meetings/workshops	CAPC/NGO/ PMDSC SSS
Computation of replacement values of land/properties proposed for acquisition and for associated assets	VC//NGO/ PMDSC SSS
Categorization of APs for finalizing entitlements	PMU / PMDSC SSS
Formulating compensation and rehabilitation measures	PMU / PMDSC SSS
Conducting discussions/meetings/workshops with APs and other stakeholders	PMU / PMDSC SSS /NGO
Fixing compensation for land/property with titleholders	VC/ PMU
Finalizing entitlements and rehabilitation packages	PMU/ PMDSC SSS
Disclosure of final entitlements and rehabilitation packages	PMU/ implementing NGO
Approval of RP	PMU/ ADB
Sale deed execution and payment	EA/ PMU
Taking possession of land	EA/ PMU
<b>RP Implementation Stage</b>	
Implementation of proposed rehabilitation measures	PIU/ CAPC/implementing NGO
Consultations with APs during rehabilitation activities	PIU/ CAPC/implementing NGO
Grievances redressal	CAPC/implementing NGO / PMU /GRC
Internal monitoring	PMU / PIU
External monitoring	External Agency

## J. Monitoring and Reporting

52. Monitoring and evaluation are important activities of any infrastructure development project involving involuntary resettlement. It helps in making suitable changes, if required during the course of RP implementation and also to resolve problems faced by the DPs. Monitoring is periodical checking of planned activities and provides midway inputs, facilitates changes, if necessary and provides feedback to Project Authority for better management of project activities. Evaluation on the other hand assesses whether the activities have actually achieved intended goals and purposes. Thus monitoring and evaluation of resettlement action plan implementation are critical in order to measure the project performance and fulfillment of project objectives. Indicators and benchmarks for achievement of the objectives proposed under the Resettlement Plan are:

- i) Process indicators: indicating resettlement related project inputs and actions, expenditures, staff deployment, etc.
- ii) Output indicators: indicating results in terms of number of affected persons assisted, training held, assistance disbursed, etc,
- iii) Impact indicators: related to socio- economic status on people's lives, and
- iv) Complaints and Grievances received and resolved.

53. The benchmarks and indicators are limited in number, and combine quantitative and qualitative types of data. The first two types of indicators, related to process and immediate outputs and results, will be monitored to inform project management about progress and results, and to adjust the work programme where necessary, if delays or problems arise. Monitoring would be carried out for regular assessment of both processes followed and progress of the RP implementation.

54. RP implementation will be closely monitored to provide the PMU with an effective basis for assessing resettlement progress and identifying potential difficulties and problems. As per ADB guidelines, for category B projects only internal monitoring will be required. Internal monitoring for Pali will be undertaken by the PIU (through the PMDSC SSS) with assistance from the PMU SPO. Monthly progress reports will be prepared and submitted to the PMU. PMU will consolidate the same and will submit semi-annual monitoring reports to the ADB for approval.

## Annexure 1: Summary of Socio-Economic profile of APs

S.No.	Name of the Affected Person	Name of Husband/ Father	Daily Income in Rs.	Daily Income <sup>19</sup> in Rs (based on Wage Rate)	Start Point	End Point	Place of AP Left / Right	Type of Loss	Type of family (N/J)	No. Of family members	Vulnerable	Business

<sup>19</sup> If AP's daily income is less than Minimum Wages as per Government of Rajasthan Minimum Wages Act, then Compensation rate has to be calculated on the basis of minimum wage (unskilled labour), which is Rs.201/- (July 2016).The daily wage has been calculated on this basis.

An inflation of 7% (Flat) will be paid to APs (after a delay of 1 Year) to cover the time lag of survey and final implementation.

**Annexure 8: Proceedings of City Level Stakeholder Consultation Meeting At Pali on April, 28, 2014**

1. This stakeholder consultation meeting was organized on April 28, 2014 at Pali District collector's meeting hall. The meeting was organized by the Pali Nagar Parishad (PNP) with the support of RUIDP PMU and ADB PPTA Team. District Collector Pali chaired the meeting. The PNP Chairman (elected head of PNP), and Commission (administration head of PNP) participated in the meeting. In all 19 persons, representing various agencies, attended the meeting (List of persons attended the meeting is enclosed herewith).
2. The objective of the meeting was to appraise the stakeholders about the proposed Rajasthan urban Infrastructure Development Project III (RUIDP III). The subprojects proposed for Pali in water supply and sewerage sector, and the likely environmental and social issues, and the proposed mitigation measures were discussed during the meeting.
3. A detailed presentation on overall RUIDP III, and subprojects and components proposed in Pali was made to the stakeholders. Executive summary of Initial Environmental Examination (IEE)/RP conducted for the Pali subproject, Environmental Management Plan, proposed Grievance Redress Mechanism (GRM), draft Entitlement Matrix of the Resettlement Framework was displayed at the meeting, and were made available to the interested persons.
4. The comments, suggestions of the stakeholders are presented below:
  - All the stakeholders were supportive of the project and indicated their willingness to participate in the project to make it successful.
  - Stakeholders were of the view that these subprojects provide benefits to all the people by improving water supply and sewerage.
  - Most of the stakeholder, including the Collector, opined that drainage and solid waste management should also be taken up in the project. However, RUIDP PMU officials informed the meeting that this project's focus is on water supply and sewerage.
  - Most of the stakeholders advocated use of treated waste water for industrial purposes, and should be included in the sewerage project proposals.
  - Stakeholder also suggested to include in the project, development of Lakhotia Lake, located in the centre of the city. It was informed the RUIDP III focus will be on water supply and sewerage.
  - Stakeholders were concerned about the road restoration works after laying water and sewer lines. The concern was that normally road restoration is not taken up after the work. It was informed that road restoration works are part of sewer/water supply projects, and will be taken up.

### Annexure 14: Sample of Survey Format

**Format for Socio Economic Survey**  
**(Temporary Impact - For Street Shops/Vendors/ Encroacher/ Squatters / Crop loss/Access Loss)**

Date of Survey /Cutoff Date: ..... / .....

Name of the Surveyor .....

Polaroid Picture of the AP. Surveyed, front facing.

**1.0 General Information**

1-1 Name of Town: ..... Package (name) .....

1-2 Name of Affected Person: ..... S/o or W/o .....

1-3 Daily income\*/wage: ..... \* (income = sale – cost)

1-4 Address (Present): ..... Mobile No.: .....

1-5 Permanent Address ..... Contact No.: .....

1-6 Legal Title Holder {please (√)} Yes ( ) NO ( ) Specify if Tenant ( )

1-6.1 Is the affected person is encroacher ( ) or squatter ( ) please (√)

1-7 Location

Name of Street ..... Name of Locality .....

Start Point of Survey ..... End Point of Survey .....

Location of AP (Corresponding to start point) Left  Right

Ward ..... Chainage .....

Road Width (ROW)..... Distance from Center of the Road .....

Carriage Way (BT/CT) Road.....

1-8 Types of losses (to be √ for 1-5, 6 - to be specified)

1 Residential  4 Kiosks (Tadi, Gumti, Cabin) or

			Mobile Vendor (With fixed Business location)
2	Commercial <input style="width: 40px;" type="text"/>	5	Mobile Vendor/ ThelaWala (Moving Business area in whole day) <input style="width: 40px;" type="text"/>
3	Residential and commercial <input style="width: 40px;" type="text"/>	6	Others (Any other type of loss like crop loss, Trees, Access loss or any as per RF) <input style="width: 100px; height: 30px;" type="text"/>

Provide details of loss in brief from above:

1. Width (in mtrs) \_\_\_\_\_ 2. Length (in mtrs) \_\_\_\_\_ 3. Kiosk Cost (approx) \_\_\_\_\_

Additional information for 1-8 (4 & 5) - Moving /Fixed Vendors □

1-8.1 Since when staying in Town? Year

1-8.2 Does he stay continuously in one place? Yes [  ] No [  ]  
 If "Yes", stable period at a location.  
 .....  
 .....  
 .....

If "No", what are the other places?  
 .....  
 .....  
 .....

1-8.3 All through the Year deals with same goods/services? Yes [  ] No [  ]  
 If "No", what other goods/services s/he deals? When? .....

1-8.4 All through the day/ week/ month/ year, parks the mobile stall at the same place?  
 Yes [  ] No [  ]  
 If "No", what are the other places from which s/he vends the goods/services?

1-8.5 Is the mobile stall own or on rent? Own[  ] On Rent[  ]

1-8.6 How much rent per day/per month is paid? .....

1-8.7 For parking the mobile stall, is any parking fee paid? Yes[  ] No[  ]

If "Yes", to whom? .....

1-8.8 How much fee per day/per month is paid? \* .....

## Annexure 15: Draft Terms of Reference (TOR) For RP Implementing NGO

### A. Scope of Work

The objectives of the implementing NGO<sup>20</sup> appointed for the implementation of the Resettlement Plan are:

- Communicate closely with APs and provide them timely information of construction schedule, distribute identification cards, educate them on their entitlements under the Resettlement Plan;
- Assist the PIU in opening bank accounts of APs, disbursement of compensation and resettlement assistance
- Assist PMDSC SSS in preparation of internal monitoring reports.
- Organize consultation and discussion meetings with the APs, throughout RP implementation.
- Assist in preparation and update AP database, with reference to changed design/ alignment with respect to census cut-off-date.

The NGO will work as a link between the PIU/SDE PMDSC and the APs. The NGO will be responsible for assisting the APs during physical resettlement, if any and rehabilitation process and shall ensure that all of the provisions laid down in the RP are implemented appropriately and effectively. The NGO's task will be as follows but not restricted to these alone. To this effect the NGO will perform:

1. Develop coordination between the APs and the project implementation authorities. This will be achieved through regular meeting with the IPIU/PMDSC implementation staff and consultation with the APs. Meetings with the PIU will be held atleast fortnightly and regular consultation with APs will be held as and when necessary throughout the implementation. Documentation of AP related correspondence.
2. Assist PIU/PMU to undertake public information campaign (distribution of leaflets/ identification of location for information boards) in local language, during implementation of the project to inform the affected communities of:
  - The need for shifting of Squatters and Encroachers from temporary impact zone along construction sites;
  - The resettlement policy, Resettlement Framework and entitlement packages;
  - The likely consequences of the project on the communities/persons' economic livelihood.
  - Work schedule of Contractor
3. Identify and verify APs (already identified through survey) and distribute identity cards to the eligible beneficiaries only.
4. Assist APs in receiving resettlement assistances as per RP/ micro plan to be prepared by PMDSC SSS.
5. Third Party validation of voluntary refusal of compensation/ donation land with cost.

The CAPC<sup>21</sup> will also conduct AP related activities including the following but not restricted to these alone. CAPC will:-

1. Orient and link the APs to the respective vocational trainings for income restoration;

<sup>20</sup>Separate NGO will be mobilized for Survey of APs and for Implementation. Implementing NGO role will be confined up to validation of APs, Facilitating Opening of Bank Accounts, and facilitating Shifting of APs (if required).

<sup>21</sup> CAPC Consultant has been mobilized for 42 Months

2. Assist the APs in the redressal of grievances through the Grievance Redress mechanism established as part of the Resettlement Plan; and make the APs aware of GRM at several levels. Sort out grievances and assist the APs to have access to the several tiers of grievance redress mechanism, including the contractors at site and to the SPO at PIU, and finally town level GRC. If necessary will accompany the aggrieved APs, especially the vulnerable ones, to appropriate GRC members and see through the grievance redress mechanism till the APs get redressed.
3. Orientation for optimum utilization of the compensation money by the APs, particularly the vulnerable APs under the economic rehabilitation programme.
4. Assist APs in getting benefits from various government development programs particularly for income restoration/ generation, if desirable by the APs. The CAPC will co-ordinate the training programs for sustainable livelihood and assist in identifying the required skills for livelihood rehabilitation and the training institutes to impart skills. The CAPC shall coordinate with other government departments and other NGOs working in the area to ensure that all the skill development trainings are known to the APs to select from the list the appropriate training.

Monthly Information from the CAPC team will be collected and provided to PMDSC SSS by the implementation NGO.

## **B. Methodology**

In order to carry out the above tasks, employees of NGOs will be stationed in the sub-project area. Besides interaction with the APs on an individual basis to regularly update the baseline information, group meetings will be conducted by the NGOs during RP implementation. The frequency of such meetings will depend on the requirements of the APs but should occur at least once a month, to allow the APs to remain up to date on project developments. NGOs will encourage participation of individual APs in such meetings by discussing their problems regarding R&R. Such participation will make it easier to find a solution acceptable to all involved.

## **C. Reporting**

The NGO shall submit monthly progress reports to PIU on the activities carried out and proposed activities for the coming month.

The progress reports of CAPC will included at on (to be collected and forwarded to PMDSC SSS):-.

- Dissemination of information about the project and other activities conducted
- Status of Grievances
- Report on Orientation programs vocational trainings for income restoration conducted with Affected Persons APs.
- Reports on Orientation Programs for optimum utilization of the compensation money by the APs (vulnerable APs). Provide specific examples of community involvements in the process and local capacity building to deal with the issues.

On completion of the assignment the NGO shall submit a final report summarizing the actions taken during the sub-project implementation , the methodology and man power used to carry out the work, and a summary of assistance recommended/given to each AP under the sub-project and provide suggestions for improvements in future resettlement policy making and planning.

**D. Time Schedule**

It is estimated that the NGO services will be required for three years for implementation of RP. However, this may be rescheduled based on the exact nature of the activity and change if any in project plan and other project related activities (such as CAPC).

**E. Key Personnel**

Community Officer (with desired experience) will be required to carry-out the activities of Implementation NGO. The staffing requirements may be reviewed based on field requirement.

### Annexure 16: Copy of Identity Card

<b>R&amp;R IDENTITY CARD FOR RUSDIP</b>	
Name of AP	_____ Sex ___ Age ___
