Description	Consistent with the Indonesia Country Partnership Strategy 2016-2019 priorities of improved infrastructure and better economic growth, the TA subproject will be options for more innovative regional cooperation and integration interventions on cross-border trade and investment for Indonesia. The TA subproject will provide critical inputs to the KSTA 9350: Implementing RCI Operational Plan which aims to support the RCI Operational Plan (RCI-OP) 2016-2020. Specifically, the subproject will provide Indonesia specific guidance and advice to inform the ERCD RCI operational plan output 2: <u>competitiveness through new opportunities supported</u> under which a thematic study on Timor-Leste (Eastern) Indonesia regional cooperation is being conducted. The subproject will focus on activities in Indonesia, linking with other policy and analytical work financed through the C-TA 0013, Sustainable Infrastructure Assistance Program.	
Project Rationale and Linkage to Country/Regional Strategy	In December 2016, Indonesian President Joko Widodo reiterated the Government's plan to develop seven areas bordering parts of Malaysia, Timor-Leste and Papua New Guinea to promote commerce, reduce poverty, improve general living standards, and attract workers and their families to help reduce severe agglomeration in Java's major urban centers. One area highlighted is to promote cross-border trade and investment to encourage the economic and social development of areas along the border, as cross-border cooperation opens opportunities for Indonesia's inclusive economic growth objectives and facilitates regional cooperation.	
Impact	Indonesia's cross-border connectivity and competitiveness in connected markets strengthened.
