SEMI ANNUAL SOCIAL MONITORING REPORT

1. INTRODUCTION

1. The North East State Roads Investment Program (NESRIP) is to assist eight states of the Region to develop their road network and establish reliable road connectivity. Improvement and upgrading of road section Tupul to Bishnupur km 0.000 to km 50.800 as Package MN06-CW1 and Thoubal to Kasom Khullen km 81.450 to km 128.575 as Package MN06-CW2 in Manipur has been taken up by the PWD, Manipur under MDONER with assistance from ADB vide Loan No. 3073-IND.
2. This will lead to easy accessibility of the local people to essential socio-economic and health care services such as education, administrative services and trade centres enhancing quality of life of local people. The project is also to address the institutional capacity building of road sector at the state level to ensure effective and efficient management of the road assets.

2. BACKGROUND OF THE PROJECT ROAD AND SCOPE

3. The State roads in Manipur have deteriorated over the years due to heavy rains and floods in some areas, failure of sub-grade and sub-base courses under increasing traffic load and paucity of maintenance funds and resources for the timely and adequate maintenance of such roads. Development in the State is, therefore, hindered by the low quality of existing transport infrastructure, unreliable services, restriction on traffic through neighboring states, and largely hilly and rolling terrain besides excessive rainfall and floods in the area resulting in damages to the existing roads.
 - ***Project Road - Tupul to Bishnupur (MN06-CW1)***
4. The project road traverses through hilly terrain throughout and passes through Lamdangmei, Shangji, Dollang, Zouzangtek, Laimaton and Ngariyan villages. The land use is of forest and some agricultural land. Various road sections particularly those passing through hilly terrain have very poor road condition. The excavation of earthwork has been completed in the stretch between km 0+560 to km 14+000, km 16+000 to km 20+100 and km 21+800 to km 48+230. Construction of GSB 1st Layer have been completed in 15.680 km and Construction of GSB 2nd Layer have been completed in 11.100 km. Construction of WMM have been completed in 10.950 km and 8 Nos. of Hume Pipe Culvert has been completed.

- **Project Road - Thoubal to Kasom Khullen (MN06-CW2)**

5. The project road stretch from Km. 96+015 (Mayai Keithel) to Km. 128+575 (Kasom Khullen) of length 32+560 Km. falls in Senapati and Urkhul District. The total length of the contract package is 47.125 km. The project road takes off from Thoubal (approx. 23 km from Imphal) at the junction with NH-39 (renamed as NH-102 which is a portion of AH-1) and ends at Kasom Khullen which is a Sub-Divisional Head Quarter. There are Trucks, Buses, Light Commercial Vehicles, Jeeps, Cars and Auto Rickshaw plying on the project road. The valley portion of the project road is intermediate double lane, bituminous surface and it is in fair condition. Land use along the road is generally for agriculture and the road passes through built up areas scattered all along in plain terrain. The earthwork excavation has been completed in 44.125 km. Construction of GSB has been completed in 30.160 km, Construction of WMM has been completed in 25.000 km, Construction of DBM has been completed in 16.800 km.
6. The negative impacts on the community due to improvement of proposed road have been mentioned in the Resettlement Plan (RP). The RP is being implemented with the help of NGO, Sai International Sansthan. The Project implementation Unit (PIU) appointed this NGO on 22 April 2014 to assist in RP implementation.
7. In order to ensure smooth and effective implementation of RP, the Construction Supervision Consultants (CSC) has been entrusted with the responsibility of monitoring and evaluating the implementation process to ensure compliance with the procedure as stipulated in the RP and loan covenant. This report outlines the project road, type of impacts along the road and status of implementation of RP.

3. OVERVIEW OF THE SOCIAL IMPACTS

3.1 Verification of Affected Households

8. The NGOs, appointed for RP implementation, successfully working on the assignment as per TOR. Resettlement Plan Report, prepared at the time of detailed design of the project, keeping in mind the impact on population as per final design. As per the Resettlement and Indigenous Peoples Plan of the project, 51 households along MN06-CW1 and 49 households along MN06-CW2 would be affected; and there is no additional land acquisition is required. At the time of updating of RP, verification of affected households was done by the NGOs for finalization of impact. Accordingly, the final list of affected households was prepared in the process to update the list of affected people. It was observed that there was sharp diminution in the number of affected households from approved Resettlement and Indigenous Peoples Plan to final updated list. As per updated list of APs, which will form the basis of preparation of Micro Plan, the details of affected households are presented in **Table-1**.

3.2 Verification of Affected Community Structures (CPRs)

9. Impact on CPRs is a very critical issue for the point of view of community. The community feeling is attached with the community properties especially with the religious structures. The details of CPRs mentioned in approved RP report and actual impact on CPRs at the time of implementation stage is reduced as presented in **Table-2**. There are 8 CPRs (6 Nos. on MN06-CW1 and 2 Nos. on MN06-CW2) that are likely to be affected. The verification process is carried out and the valuation of affected CPRs has been calculated.

3.3 Preparation of Micro Plan and Compensation Schedule

10. In accordance with the updated RP and after joint verification of affected people, a Micro Plan was prepared by the NGO. The prepared micro plan was duly verified by the R&R Specialist of CSC and RO of the PWD. The Micro plan of MN06-CW1 and MN06-CW2 is approved by Project Director, EAP, PWD, Manipur. The summary of micro plan, which has all the details of affected households with compensation and assistance, is presented in **Table-3**.

4. PROJECT ENTITLEMENTS/ RESETTLEMENT FRAMEWORK

11. The social impact in MN06-CW1 and MN06-CW2 considered non-titleholders. But according to ADB guidelines, their legal status is not a determining factor for livelihood entitlement. The RF is an agreement between Government of Manipur and ADB. No changes shall be made to the RF without prior approval from ADB. RF has been prepared based on applicable legal and policy frameworks of the government and ADB's Safeguards Policy Statement (SPS), 2009 and applicable laws and policies of government. Thus provision of compensation and assistance for affected persons was made in the RF.
12. The RP has provisions for compensations to the DPs for all types of losses. In addition to the compensation for affected assets, the DPs will also receive other resettlement assistance such as; shifting allowance, income restoration and additional financial assistance to the vulnerable DPs; such as household headed by women, disabled persons, ethnic groups, and household living below poverty

level. The DPs under the project will be compensated at full replacement cost based on Entitlement Matrix of RPs.

5. INSTITUTIONAL ARRANGEMENTS FOR IMPLEMENTATION OF RESETTLEMENT PLAN (RP)

13. Public Works Department (PWD), Govt. of Manipur is the implementing agency whereas MDONER is the Executing Agency of the Project. The PWD-PIU established has own the responsibility for proper implementation of Resettlement Plan. Implementation of Resettlement Plan of the project is being carried out by the Project Implementation Units (PIU), Manipur. The PIU headed by Project Director (PD), has overall responsibility for policy guidance, coordination and planning, monitoring and overall reporting of the Project.
14. A Resettlement Officer (RO) of the rank of Assistant Engineer has been placed at to coordinate the process of RP implementation and to address the adverse impacts on the people along the project roads, if any, for the duration of resettlement activities. A NGO was appointed by the EA to assist the PIUs in the effective, timely and efficient implementation of RP.

6. IMPLEMENTATION ARRANGEMENTS - AN OVERVIEW

15. For resettlement activities the Executing Agency (EA), Ministry of Development of North Eastern Region (MDONER) has the responsibility of overall coordination, planning, implementation, and financing. The MDONER has established a resettlement cell to ensure timely and effective implementation of RPs. The MDONER will coordinate with State PWD/PIU for project level RP related activities.

The Project Director (PD) at PIU is responsible for overall implementation of R&R activities according to the Plan. The PIU has a Resettlement Unit with a full-time Resettlement Officer (RO) for the duration of resettlement activities. Sai International Sansthan is engaged as an NGO to assist the PIU in implementing the RP. The CSC has a Land Acquisition and Resettlement specialist and a Socio-Economic Monitoring Specialist.

7. ACTIVITIES OF SOCIAL SECTOR DURING THE PERIOD

16. The works in the state of Manipur are being implemented under Tranche-II. This is the consolidated report on implementation of activities of social sector components safeguard up to June 2016 and is prepared in compliance with the ADB Policies.

7.1 Social Issues

17. In order to identify any social impact, due to the project implementations, the PIU and CSC Consultant have carried out several site visits and consultative assessments in the project areas during the preparation of this document. Based on this and discussions held with the local residents in the project locations, it has been reconfirmed that both MN06-CW1 and MN06-CW2 are Category B Projects.

In fact efforts are being undertaken to further reduce the impacts on structures and land holdings than what was originally envisaged. Public consultation is continuous throughout the project implementation period to confirm that no social/resettlement issues remain unaddressed.

18. An awareness programme on HIV/AIDS for the contractor's team and local people as well, was organized under Social Safeguards activities which is an important sector for the Project. The HIV/AIDS Awareness campaign has been organized on MN06-CW02 Thoubal to Kasom Khullen Road by the contractor M/s DRAIPL-ABCI (JV) at Somrei village base camp. The programme was inaugurated by the concerned engineer and was attended by the local residents, workers; staff of the contractors and staff of the CSC. Participants were documented and photographed during campaign are attached as **Annexure-8**

9. STAKEHOLDER CONSULTATIONS

20. Stakeholders may be defined as groups or categories of people who directly and demonstrably gain or lose rights and/or resources through development operations, and this includes government agencies, nongovernmental organizations and donor organizations. Groups or individual stakeholders can be determined by a number of criteria (e.g. by class, gender, ethnicity, race, age, occupation, etc.). A necessary condition for successful community consultation is sound stakeholder analysis, in order to identify and understand within the population to be consulted, relations of power among these, and the extent to which community organizations represent all interest groups.
21. The concerned NGO along with the CSC organized several meetings with affected families for hearing of any issues regarding project implementation. In these meetings people were made aware about Resettlement and compensation issues, redressal of grievances, if any, advantages of the project and documented their suggestion regarding project. The PWD officials are also undertaking intensive consultation meetings with the affected families as well as with the affected population in general. These consultation sessions were done on both individual levels as well as in groups.
22. Major findings related to key issues such as: compensation for structures, general perception about the project, suggestions to mitigate hardships resulting from dislocation and loss of livelihood, resettlement options, perception about HIV/AIDS awareness, CPR requirement etc. are presented with highlights of important consultations. The list of consultations held with date, location and number of participants are presented in **Table-7** and the list of the participants were documented and photographed during consultation are attached as **Annexure-6**.

MN06 CW1	374278	20000	20000	0	20000	434278
MN06 CW2	5856815	150000	0	15750	150000	6172565
Total	6231093	170000	20,000	15750	170000	6606843

26. Similarly, the details of CPRs mentioned in approved RP report and actual impact on CPRs at the time of implementation stage is reduced. There are 8 CPRs (6 Nos. on MN06-CW1 and 2 Nos. on MN06-CW2) that are likely to be affected. The verification process is carried out and the valuation of affected CPRs has been calculated. The calculation includes the cost of CPRs are **Rs. 3,72,480.00**.

Table-10: Resettlement Budget for CPRs

Project Road	No. of Affected CPRs	Compensation for CPRs as per Micro Plan
MN06 CW1	6	2,42,608
MN06 CW2	2	1,29,872
Total	8	3,72,480

27. In accordance with the involuntary resettlement principles set forth above, the identified Displaced Persons will be entitled to a combination of compensation packages and resettlement assistance depending on the nature of ownership rights on lost assets, and scope of the impacts including socioeconomic vulnerability of the Displaced Persons and measures to support livelihood restoration if livelihood impacts are envisaged. The distribution of compensation/assistance is in progress of CW-01 and CW-2 the details are presented in **Table-11**. The signed copy of Receipt Memo is attached in **Annexure-4** and photographs during disbursement are attached in **Annexure-5**.

MN06-CW1	7	434278	7	-	0.0%	Target for completion on 31 st January 2017

11. GRIEVANCE REDRESS

28. It would be pertinent here to refer the Asian Development Bank's policy, which requires proper mechanisms for resolution of disputes that may arise from any aspect of the compensation and development process. The mechanisms should be "affordable and accessible," and third parties independent of the implementers should be available at the appropriate point in the process. The grievance

procedure need to be simple, administered in the first instance at the local level to facilitate access, flexibility and open to various proofs taking into account the need for speedy, just and fair resolution of their grievances.

29. The Grievance Redressal Committee (GRC) has been notified constituted at PIU level in order to assist the Displaced Persons (DPs) in resolving queries and complaints. The GRC has been constituted with vide MO No. 8/PS/NESRIP/RRP/2013/142 on 05th September 2014 for MN06-CW2 and MO 8/PS/NESRIP/RRP/2013/451 on 11th December 2015 for MN06-CW1, letters is attached in **Annexure-7**.
30. The Grievance Redressal Committee (GRC) has to be notified at PIU level in order to assist the APs in resolving queries and complaints. GRC for CW2 has been constituted in the month of September 2014 and GRC for CW1 has been constituted in the month of December 2015. The first tier of Grievance Redressal Committee (GRC) for the project comprise of Project Director, EAP, PWD as Chairman, Resettlement Officer, EAP, PWD as Member Secretary, Project Co-Ordinator of nominated NGO and Displaced Persons as Members. The GRC is expected to meet at least once in fortnightly to resolve any pending grievances. During this reporting period, no any grievances were received from any of the community. Since, the Resettlement Officer, PIU are in constant touch with the people along the project road, issues and concerns if any, is resolved during their visits to the project road.

12. ISSUES AND ACTION PLAN

31. According to Joint verification with NGO, relocation issue was identified at T. Natyang village of 16 residential structures and 4 CPRs are affecting in Chainage 113+900 to 114+100. Nominated NGO and CSC conducted consultations with PAPs, Based on consultations PAPs are accepted and given consent to relocate to nearby village. Reports submitted to PIU for further action. PIU submitted the DPR to allocate the relocation cost to the Chief Engineer, PWD, Manipur.
32. Alternative designing of road alignment is in process and the RP is being updated accordingly. This process and its implementations are being attended by the Land Acquisition and Resettlement Team of PIU and CSC.
33. Disbursement of compensation amount to the NTHs.
34. Relocation of CPRs.
