

Social Monitoring Report

Bi-annual Social Monitoring Report
January 2017

PAK: MFF – Power Distribution Enhancement Investment Program (Tranche 3)

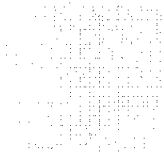

Prepared by Faisalabad Electric Supply Company, Punjab for the Asian Development Bank.

NOTES

- (i) The fiscal year (FY) of the Government of the Islamic Republic of Pakistan and its agencies ends on 30 June.
- (ii) In this report “\$” refer to US dollars.

This social monitoring report is a document of the Borrower. The views expressed herein do not necessarily represent those of ADB’s Board of Directors, Management, or staff, and may be preliminary in nature.

In preparing any country program or strategy, financing any project, or by making any designation of or reference to a particular territory or geographic area in this document, the Asian Development Bank does not intend to make any judgments as to the legal or other status of any territory or area.

Re: Fw: FESCO Bi-Annual Social Report Tranche-III

Co: Ehtesham Z. Khattak, Zhang Lei, Muhammad Zeeshan, Ashfaq Khokhar

Dear Liaqat sb,

I have reviewed the revised internal SMR for Tranche 3 prepared by FESCO and I endorse its acceptance by ADB and uploading on the ADB website for disclosure. Please advise us when this has been disclosed so we can reflect in our records.

I noted the efforts being made to make the compensation payments on time, increase awareness of the contractors on the safeguards requirements and engagement/communication with DPs. Please advise FESCO to continue with such efforts and reflect progress in the subsequent monitoring reports.

I fully support the recommendations made in the report and would suggest that ask the FESCO management to provide the needed support by the ESU to enable them to continue with the community engagement and act on these recommendations. Recommendations related to social safeguards as mentioned in the report are listed below:

- aggressively maintain the process of communication and consultation with community representatives
- plan construction work of new T/lines in accordance with LARPs and DDRs to minimize the affect of construction activities
- properly restore sites after the completion of construction activities
- timely compensate APs to avoid any hindrance and lead towards timely execution of the project
- strengthen the newly established Environmental & Safeguard Cell by providing requisite staff, equipments and road worthy vehicles so that cell could work more efficiently
- recruit/deploy the Assistant Manager for Social Safeguards, which has remained vacant since 01-09-2015

Regards,

Tito S. Nicolas

Subject: Bi-Annual Social Report Tranche-III

Dear Sir, AOA

As per guidelines imparted by Tito S. Nicolas & Your E-Mail, I have revised the subject Bi-Annual and requested Sociologist of FMC Lahore for review.

FMC Sociologist reviewed the report and ask to submit the report of ADB which is enclosed for your further necessary action

Regards

Muhammad Sharif,

1.0 Revised Social Sageguard T-3 reviewed FMC 2016 .docx

FAISALABAD ELECTRIC SUPPLY COMPANY (FESCO)

FESCO

SOCIAL SAFEGURAD MONITORING REPORT

For the Period: July to December 2016

NAME OF PROJECT:

**ASIAN DEVELOPMENT BANK PDEP-MFF
(Power Distribution Enhancement Investment Program-Multi
Tranche Financing Facility (Tranche-3))**

**Office of the Chief Engineer (Development)
PMU (Project Management Unit) FESCO**

ABBREVIATIONS

ADB	Asian Development Bank
DISCO	Distribution Company
EPA	Environmental Protection Agency
EIA	Environment Impact Assessment
EMMP	Environmental Management & Monitoring Plan
FESCO	Faisalabad Electric Supply Company
GOP	Government of Pakistan
GSC	Grid Station Construction (Department)
GSO	Grid Station Operation (Department)
GWh	Gega Watt Hour
IEE	Initial Environmental Examination
Km	Kilometer
KV	Kilo Volts
KWh	Kilo watt hour
LAA	Land Acquisition Act (of 1984)
LARP	Land Acquisition and Resettlement Plan
LARF	Land Acquisition and Resettlement Framework
Leq	Equivalent sound pressure level
MVA	Mega Volt Ampere
MW	Mega Watts
NTDC	National Transmission & Distribution Company
NIBGE	National Institute of Biotechnology & Genetic Engineering
NEQS	National Environmental Quality Standards
PB	Chemical Symbol for Element Lead
PEPCO	Pakistan Electric Power Company
PCB	Poly Chlorinated Biphenyl
PEPA	Punjab Environmental Protection Agency
PEPAct	Pakistan Environment Protection Act 1997 (as regulated and amended)
PMU	Project Management FESCO
ROW	Right of Way
STG	Secondary Transmission & Grid
TDS	Total Dissolved Solid
WAPDA	Water & Power Development Authority

Definition of Terms

Affected Person (Household)	Peoples (households) affected by project related changes in use of land, water or other natural resources
Compensation	Money or payment in kind to which the people affected are entitled in order to replace the lost asset, resource or income
Expropriation	Government's action in taking or modifying property rights in the exercise of sovereignty
Eminent domain	Regulatory measure by government to obtain land
Entitlement	Range of measures comprising compensation, income restoration, transfer assistance, income substitution, and relocation which are due to affected people, depending on the nature of their losses, to restore their economic and social base
Host population	Community residing in or near the area to which affected people are to be relocated
Income restoration	Reestablishing income sources and livelihoods of people affected
Involuntary resettlement	Development project results in unavoidable resettlement losses, that people affected have no option but to rebuild their lives, incomes and asset bases elsewhere
Relocation	Rebuilding housing, assets, including productive land, and public infrastructure in another location
Rehabilitation	Re-establishing incomes, livelihoods, living, and social systems
Replacement rates	Cost of replacing lost assets and incomes, including cost of transactions
Resettlement effect	Loss of physical and non-physical assets, including homes, communities, productive land, income-earning assets and sources, subsistence, resources, cultural sites, social structures, networks and ties, cultural identity, and mutual help mechanisms
Resettlement plan	A time-bound action plan with budget setting out resettlement strategy, objectives, entitlement, actions, responsibilities, monitoring and evaluation
Social Preparation	Process of consultation with affected people undertaken before key resettlement decisions are made, to build their capacity to deal with resettlement
Usufruct	The right to use and profit from land belonging to others or to a larger entity, e.g., to a tribe, community or collective

2. FESCO INTRODUCTION

1. Faisalabad Electric Supply Company Ltd. (FESCO) is a Public Limited Utility Company, established in 1998 under Companies Ordinance 1984 as result of WAPDA restructuring and is responsible for distribution of Electric Power within its territorial jurisdiction and presently serving approximately **3.63** Million Customers (Domestic, Commercial, Agricultural, Industrial and others) in the eight (08) districts of Province Punjab (Faisalabad, Toba Tek Singh, Jhang , Chiniot , Bhakkar, Sargodha , Khushab & Mianwali). Location map of FESCO is appended at Figure 1.1. The key Technical Data of FESCO's System is as under:

Table 1.1:- FESCO's Technical Data

1.	Area Jurisdiction	Sq. Km	44,247
2.	132 KV Grid Station	No	65
3.	66 KV Grid Station	No	21
4.	Private Grid Stations	No	18
5.	Peak load demand (June 30,2016)	MW	3,056
6.	Units Purchased Upto November 2016	MLN Units	5,547.71
7.	Units Sold Upto November 2016	MLN Units	5,148.87
8.	Technical & Distribution losses	Percentage	7.73
9.	Transmission Lines 132 KV	Km	2,242
10.	Transmission Lines 66KV	Km	1,283
11.	HT Line	Km	39,346
12.	LT Line	Km	26,346
13.	HT line Feeders	Nos	650
14.	Domestic consumption Upto Nov:- 2016	Million Unit	2,788
15.	Domestic consumers	No.	3,178,615
16.	Commercial consumption Upto Nov:- 2016	Million Unit	290.54
17.	Commercial consumers	No.	359,513
18.	Industrial consumption Upto Nov:- 2016	Million Unit	1505.84
19.	Industrial Consumers	No.	48,662
20.	Agricultural consumption Upto Nov:- 2016	Million Unit	298.38
21.	Agricultural consumers	No.	40,343

3. BRIEF DETAIL OF PROJECT

2. The conditions of the power transmission system in Pakistan (FESCO too) are inadequate to meet rapidly growing demand for electrical power. This situation limits national development and economic growth. To cope with the constraints, the existing power transmission infrastructure has to be improved, expanded and upgraded. The overall contribution of power infrastructure also requires institutional arrangements and capacity that support strategic management of the sector, and planning and management of investments. Overall the proposed Power Distribution Enhancement Investment Programme-Multi-Tranche Financing Facility (PDEMFF) has been designed to address both investment and institutional aspects in the electrical power sector. Basic data of the Tranche –III Project is given in section 1.

4. OBJECTIVES OF PROJECT

3. The overarching objectives of “**Power Distribution Enhancement Investment Program Tranche-3**” subproject are to increase the efficiency, reliability and quality of electric supply. The project aims to achieve:-
 - Strengthening of electricity transmission network to reduces bottle necks and improves system reliability or quality.
 - Strengthening electricity distribution network to reduce losses and improvement in supply.
 - To upgrade the existing power infrastructure.
 - Objectives will be achieved by extension/augmentation of grid station, provision of capacitors, 11kv incoming/outgoing couplers, circuit barkers & other relevant electric equipment.

5. SCOPE OF WORK

4. During the entire duration of the loan period, construction of two (02) new Grid Stations at the locations of City Grid Faisalabad near Jhal Khanuana and Shahbaz Khel Mianwali, Conversion of four (04) number 66Kv existing Grid Stations (18-Hazari, GM Raja , Rakh Dagan & Kalabagh) into 132Kv and 05 new 132Kv Transmission Line (D/C & SDT) covering 109.25 km (total length) are proposed to be executed under Power Distribution Enhancement Investment Project (PDEIP) – Tranche-3” on Turn Key Basis. Tranche-3 FESCO Subprojects consist of:

Sr. No	Category of Project	Location
1.	Construction of 132 KV Grid Stations	i. GIS Grid Station Faisalabad City, near Jhal Khanuana Faisalabad ii. AIS Grid Station Shahbaz Khel District Mianwali
2.	Conversion of Existing 66 KV to 132 KV Grid Stations	i. 18-Hazari (District Jhang) ii. Garh Maharaja (District Jhang) iii. Rakh Dagan (District Bhakkar) iv. Kala Bagh (District Mianwali)
3.	Construction of New 132 KV Transmission Lines	i. 48.53 Km Double Circuit (DC) 132Kv Transmission Line (T/L) from 220 KV Grid Station TT Singh to 132 KV Grid Station Havelli Bahadar (HB) Shah ii. 21.10 Km D/C 132 KV T/Line from HB Shah Grid Station to 18- Hazari Grid Station iii. 35.22Km SDT 132 KV T/Line from 18- Hazari Grid Station to GM Raja Grid Station , iv. 1.35 km D/C 132 KV T/Line from Piplan Bhakkar In & Out Rakh Dagan v. 3.1 Km D/C 132 KV T/Line from Jinnah Hydropower-220 KV Daud Khel In & Out Kala Bagh

5. Proposed Multi Financing Facility (MFF) Under ADB Loan 2972-PAK Tranche-III, has been designed to address both investment and institutional aspects of Electric Power Sector. Envisaged Development objectives will be fully achieved after the completion of the proposed sub-projects.

6. DESCRIPTION OF WORK

6. The Power Distribution System of FESCO network is generally heavily loaded resulting in low voltage, high distribution losses and high rate of transformer failure. The quality of the power supply to the consumers particularly at the tail end of the feeders is relatively poor. The reasons for high distribution transformer failure include over loading due to increasing number of consumers and electricity demand. The lengthy feeders particularly, in the rural areas, are also a reason for high distribution losses and low voltage. In order to solve above problems, power distribution system needs strengthening by construction of new grid stations, conversion of 66 KV existing Grid Stations to 132 Kv status and construction of 132 KV Transmission lines. Tranche-III under ADB loan proceeds is designed for this purpose.

6.1 CONSTRUCTION OF NEW SUBSTATIONS

A. Construction of 132KV Grid Station at Faisalabad City, near Jhal Khanuana Faisalabad

7. In Faisalabad City Area, 132Kv Grid Stations (a) Nishatabad (b) Old Thermal Power Station and (c) Factory Area (d) Sammundri Road are operational. In this area, many residential colonies/commercial areas have been developed. Industrial Units (mostly the Textile oriented) are erected. As such, power supply demand is increasing day by day. Power Transformers installed at aforementioned Grid Stations are overloaded and have no provision for future development. If above mentioned Grid Stations fail to transmit the load, a vast area shall suffer from power outage, as has happened frequently in the past.
8. To overcome this situation, construction of a New Grid Station in the vicinity of WASA Compound is proposed. Railway line and adjoining Canal Bank (Rakh Branch) and Sammundri Road/Khalil Ahmad Naintee Lal Wala Road will provide a special corridor for outgoing feeders. Govt of Punjab had agreed to sell the premises measuring to about 09-Kanals, 10 Marlas & 88Sq.ft @ Rs.2,200,000/- per marla plus 10% surcharge(@ Rs.220,000 on account of sale by private treaty in favor of FESCO. Board of Revenue Lahore issued a Demand Notice. After the due approval of BOD FESCO during its meeting dated 16-06-2016, a purchase/payment proceeds was processed. Accordingly payment has been made to Govt of Punjab through **counterpart funding**. After due payment, the land has been transferred to FESCO. With the execution of this subproject, no one will be disturbed; as such no LARP is prepared and implemented for this sub-project.

B. Construction of 132Kv Grid Station at Shahbaz Khel District Mianwali

9. In the Tehsil of District Mianwali, there is only one 132Kv Grid Station on Rawalpindi Road Mianwali, which remains overloaded. If grid station fails to transmit the load, the entire tehsil will suffer a power outage. The local community demonstrated frequently against power failures and many casualties were recorded in the recent past. Moreover, there is strategic point in the city i.e. PAF Base which warrants reliable power supply source.
10. To overcome this situation, construction of a new 132Kv Grid Station in Shahbaz Khel Colony FESCO at Bannu- Esa Khel Road is proposed. No Land Acquisition will be involved for proposed construction as sufficient land is available for new Grid Station within walled boundary of Shahbaz Khel Colony, Mianwali. As such no LARP is prepared and implemented for this sub-project.

6.2 CONVERSION OF SUBSTATIONS AND CONSTRUCTION OF TRANSMISSION LINES SUBPROJECTS

- A. Conversion of Existing 18-Hazari & Garh Maharaja and & Construction of D/C 132Kv T/Line from 220 KV Toba Tek Singh to Garh Maharaja
11. Power supply source for right side of Chenab River from Kot Shakir to Ahmad Pur Sial being southwestern part of FESCO territory, is through 66KV Transmission Line emanating from Choubara MEPCO. Three 66Kv FESCO's Grid Stations i.e. Ahmad Pur Sial, Garh Maharaja & 18-Hazari are fed through this 66KV Transmission Line. These 66Kv Grid Stations feed Electric Power Supply to 120km x 30Km wide strip on right side of River Chenab downstream of Trimmu Barrage. These Grid Stations are overloaded beyond their designed capacity. As such there is no chance of further development in the area due to overloading of distribution system. Peoples of the area demonstrated several time against the overloading of distribution system and requested to provide the independent power supply other than MEPCO because they are prone to forced load shedding.
12. There is no independent source of supply in the area except a proposed Transmission Line from 220 KV Grid Toba Tek Singh. Under Tranche-3, FESCO has proposed construction of 132 KV Transmission Lines (i) From 220 KV Grid Station Toba Tek Singh to Haveli Bahadar Shah (48.53 Km)(Package 4) (ii) Haveli Bahadar Shah to 66Kv Grid 18-Hazari (21.10Km) (Package 3) (iii) 66 KV Grid 18-Hazari to 66 KV Grid Garh Maharaja (35.22 km) (Package 3). These Transmission Lines are included in Package-4 & Package 3 of Tranche-III.

13. Aforementioned Transmission Lines are under different phase of executions. Crop Compensation in respect of Foundations & Erections has mostly been made to Affected Persons (AP) and assessment has been made for stringing works. Upon completion of Payment Activities, Draft LARP will be updated as per actual and will be sent to ADB for approval.
 14. Conversions of 66 KV 18-Hazari & Garh Mahraja to the level of 132 KV have been included in Package 2 Tranche-III and are under different phases of implementation. Conversion works are being carried out within walled boundaries of existing grid stations and no one is affected due to execution of subprojects. As such no LARP was prepared and implemented. DDR for the Conversion Grid Station has already been prepared and sent to ADB
- B. Conversion of Existing Rakh Dagan (Tehsil Darya Khan District Bhakkar) DGS from 66 KV to 132Kv DGS & Construction of 1.3 km D/C 132Kv T/Line from Piplan Bhakkar In & Out Rakh Dagan
15. Existing Grid Station Rakh Dagan District Bhakkar being 66 Kv System, is over loaded. To overcome over loading position, Conversion of 66Kv Existing Grid Station Rakh Dagan (Tehsil Darya Khan District Bhakkar) into 132Kv Grid Station & Construction of 1.35 km Double Circuit 132Kv Transmission Line from 132 KV Piplan Bhakkar Line . In & Out feed for Rakh Dagan Grid station, is included in the PDEMFF, Tranche-III. The scope of work involves the installation of power transformers of higher capacity i.e. 20/26MVA & 10/13MVA along with appurtenant structure. Conversion of this Grid Station is included in Package 2 Tranche-III subproject which is under execution. The subproject works are to be carried out within walled boundary of existing grid stations which has ample space for the new transformers bay and associated equipment. Therefore no additional land will be required for the conversion of existing grid stations. As such no LARP is prepared and implemented for conversion sub-project. DDR for the Conversion Grid Station has already been prepared and sent to ADB
 16. To feed Rakh Dagan Grid Station, 1.3 Km long 132 KV Transmission Line has been constructed under Package 3 Tranche-III. Crop Compensation for foundation, erection & stringing has been assessed and payment will be made shortly. After making payment to Affected Persons (AP), Draft LARP will be updated as per actual.

- C. Conversion of Existing Kala Bagh DGS from 66 KV to 132KV DGS & Construction of 2.9Km D/C 132Kv T/Line from Jinnah Hydropower-220Kv Daud Khel In & Out Kala Bagh
17. Existing Kalabagh being 66Kv System is overloaded. To overcome over loading position , conversion of 66Kv Existing Grid Station Kala Bagh into 132Kv Grid Station & Construction of 3.5 km long Double Circuit 132Kv Transmission Line from Jinnah Hydropower 220Kv Daud Khel in & out Kala Bagh is included in the PDEMFF, Tranche-III. The scope of work involves Power Transformers of higher capacity i.e. 20/26MVA & 10/13MVA along with appurtenant structure is to be added at grid stations. The subproject works are to be carried out within walled boundary of existing grid stations which has ample space for the new transformers bay and associated equipment. Therefore no additional land will be required for the conversion of existing grid stations. As such no LARP is prepared and implemented for conversion sub-project & DDR for the Conversion Grid Station has already been prepared and sent to ADB.
 18. To feed Kalabagh Grid Station, 3.5 Km long 132 KV Transmission Line has been constructed under Package 3 Tranche-III. Crop Compensation for foundation & erection has been made to affected persons while for & stringing assessment has been made and payment will be made shortly. After making payment to Affected Persons (AP), Draft LARP will be updated as per actual.

7. PRESENT STATUS/PROGRESS OF WORK

7.1 Procurement of Works

19. Project components are divided into four contract package which are proposed to be executed through Turn Key Projects. The detail of which is as under:-

TRANCHE-III SCOPE OF WORK AND STATUS OF PROCUREMENT

Package No	Contract No	Description	Name of Contract or	Effective Date	Completion Period	Remarks
1	ADB- III-01-2013	Construction of Grid Stations	GIS Faisalabad AIS Shahbaz Khel M/S FEPEC-CCCE-Sieyuan JV	28-03-16	27-3-17	No LARP prepared and implemented
2	ADB- III-02-2013	Conversion of 66 KV To 132 KV Status	18-Hazari GM Raja Rakh Dagrah Kalabagh M/S Pingao Group	14-9-16	13-9-17	No LARP prepared and implemented
3	ADB- III-03-2013	Construction of New 132 KV T/Lines	HB Shah to 18-Hazari (21.10 Km) 18-Hazari to GM Raja (35.22 Km) Feed for Rakh Dagrah (1.35 Km) Feed for Kalabgh (3.10Km) M/S POTENTIAL TBEA JV Lahore	24-3-15	27-11-16 (extended) Further EOT in Pipe Line	Most of Crop Compensation for Foundation & Erection has been made to AP Most of Crop Compensation for Foundation & Erection has been made to AP Crop Compensation assessed Compensation payment for foundation and stringing made
4	ADB-T-III-04-2013	Construction of New 132 KV T/Line	220 KV Toba Tek Singh to HB Shah (48.53Km) M/S ICC (Pvt) Limited Lahore	22-4-15	21-04-16 (EOT in pipe line)	Most of Crop Compensation for Foundation & Erection has been made to AP

7.2 Present Status/Progress of Work

Package wise progress of work is as under :

i. Package 1:- Construction of GIS Grid Station Faisalabad

20. Contractor M/S FEPEC-CCCE-Sieyuan JV has carried soil investigations, being a Turnkey Contract , Contractor had prepared the Construction Drawings which has been approved by FESCO. GIS Hall , Double Storey Control House Building (CHB) , triple Storey Flats had been completed upto roof level. Finishing works & flooring of aforementioned structures is under progress. Relevant Foundations of equipment including Gantry, Transformer Foundation are being taken. Procurement of GIS Equipment & Power Transformers is under process which will be erected on the arrival of the same on the constructed foundations. Construction of GIS Grid Station is being taken up within walled boundaries of FESCO's own land. No one is affected due to execution of these works; as such no LARP was prepared and implemented.

ii. Package 1:- Construction of AIS Grid Station Shahbaz Khel Mianwali

21. Contractor has arranged Soil Investigation on both the sites and on the basis of soil investigation, prepared the GLOs, Construction Drawings. Construction Drawings of Civil Works has been approved by Chief Engineer Development FESCO. At AIS Grid Station Shahbaz Khel Mianwali , Control House Building , Boundary Wall , Approach Road and other appurtenant foundations like Transformer Bays, Gantry , CT/PT & Lightning Arrestors has been completed. Procured Structures has been erected. Procurement of AIS Equipment & Power Transformers is under process which will be erected on the arrival of the same on the constructed foundations. Construction of AIS Grid Station is being taken up within walled boundaries of FESCO's own premises. No one is affected due to execution of these works, as such no LARP was prepared and implemented.

iii. Package 2:- Conversion of Four (04) No. Existing 66 KV to 132 KV Grid Stations i.e 18-Hazari, GM Raja, Rakh Dagan & Kalabagh

22. Contract Agreement for conversion of four (04) No existing 66 KV to the level of 132 KV has been signed with M/S Pinggao Group on May 24, 2016. Approved GLO has been handed over to Contractor. FESCO had arranged the approval of Civil Drawing from Design NTDC. Design Data of Electrical Equipment has been approved by Design NTDC.
23. Contractor had taken up the Civil Works construction activities at all sites. Contractor Camp and offices has been established all sites. Construction of

Control House Buildings (CHBs), and other appurtenant foundations like Transformer Bays, Gantry, CT/PT & Lightning Arrestors are under different stages of completion. Conversion works are being executed within walled boundaries of existing 66 KV grid stations. No one will be disturbed; as such no LARP is required.

iv. Package 3:-Construction of Four (04) No 56. Km New 132 KV Transmission Lines

24. Contract for construction of following four (04) No 132 Transmission Lines has been awarded to Ms POTENTIAL TBEA J/V with an effective date of 24-03-2015 :-

- I. 1.35 km D/C 132 KV T/Line from Piplan Bhakkar In & Out Rakh Dagan
- II. 3.10 Km D/C 132 KV T/Line from Jinnah Hydropower-220 KV Daud Khel In & Out Kala Bagh
- III. 21.10 Km D/C 132 KV T/Line from Havelli Bahadar Shah Grid Station to 18-Hazari DGS,
- IV. 35.22 Km D/C 132 KV T/Line from 18- Hazari Grid Station to GM Raja Grid Station

25. Rout Plan & Profile of all T/Lines have been approved by NTDC and handed over to Contractor for implementation. Contractor M/S POTENTIAL –TBEA J/V had carried pre construction survey, Field Stacking /spotting. Soil Investigation for foundation has been carried out by the contractor for T/Lines and design of foundation has been approved Design NTDC.

26. Status of completion of above transmission lines is as under :-

Sr. No	Description	Tower Foundation	Total Towers Erected	Stringing	Payment Made	Payment in Process
1	HB Shah to 18-Hazari (21.10 Km) 94 Towers	89/94	77/94	15.65/21.10	1,179,411	1,090,579
2	18-Hazari to GM Raja (35.22 Km) 142 Towers	142/142	138/142	32.54/35.22	4,284,317	0

3	Feed for Rakh Dagan (1.35 Km) 4 Towers	4/4	4/4	1.3/1.3		127,575
4	Feed for Kalabgh (3.10Km) 14 towers	14/14	14/14	3.1/3.1	154,410	
	Total	249/254	233/254	52.59/60.72	5,536,928	1,260,365

27. Above payments has been made to affected persons (APs) in presence of Additional Chief Engineer E&S PMU FESCO Faisalabad through proper verification and record of Payment to this effect is maintained in PMU. M/s SMEC FMC Lahore during their external monitoring visits from December 26, 2016 to January 03, 2017 exercised spot checking by making interviews with AP and calling the APs on Cell Phones from the record maintained by PMU. After due payments as per actual route, Land Acquisition and Resettlement Plan (LARP) will be updated.
28. PMU FESCO has launched the Social Awareness Campaign in the area , distributed leaflets/broachers among the stakeholders. Social and Environmental Team of M/S SMEC also visited below mentioned sites during social awareness campaign.
29. Contractor M/S POTENTIAL TBEA JV Lahore was asked to make sure the provision of all relevant documents at site and all requirement laid in contract agreement must be fully implement.
- Contractor was also asked to make sure the use of all safety gadgets/PPEs. They were also instructed to take into the account of local norms and values.
 - Contractor has been provided, Summary of LARP, complaint register both in English and Urdu. He has also been provided public awareness material/literature and format of information for the disclosure at project site.
 - For the public awareness summary of LARP and some basic questions related to the project impacts, process and methodology of crops compensation and rehabilitation program for the project had been discussed with the Affected Persons during public consultation

v. Package 4:- Construction of One (01) No 48.53 Km New 132 KV Transmission Line from 220 Kv Grid Station Toba Tek Singh to Havell Bahadar Shah District Jhang

30. Contract on Turn Key basis for construction of 48.53 Km 132 KV D/C from 220 KV Grid Station Toba Tek Singh to HB Shah has been awarded to **M/S ICC Lahore** with an effective date of April 22, 2015. Rout Plan & Profile of all T/Lines have been approved by NTDC and handed over to Contractor for implementation. Contractor M/S ICC Lahore had carried pre construction survey, Field Stacking /spotting. Soil Investigation for foundation has been carried out by the contractor for T/Lines and design of foundation has been approved Design NTDC.
31. PMU FESCO has launched the Social Awareness Campaign in the area , distributed leaflets/broachers among the stakeholders. Social and Environmental Team of M/S SMEC also visited below mentioned sites during social awareness campaign.
32. Status of completion of above transmission lines is as under :

Sr. No	Description	Tower Foundation	Total Towers Erected	Stringing	Payment Made	Payment in Process
1	220 KV G/Station TT Singh to HB (48.53 Km) 226 Towers	221/226	213/226	39.8/48.53	4,822,730	1,175,770
	Total	221/226	213/226	39.8/48.53	4,822,730	1,175,770

33. Above payments has been made to affected persons (APs) in presence of Additional Chief Engineer E&S PMU FESCO Faisalabad through proper verification and record of Payment to this effect is maintained in PMU. M/s SMEC FMC Lahore during their external monitoring visits from December 26, 2016 to January 03, 2017 exercised spot checking by making interviews with AP and calling the APs on Cell Phones from the record maintained by PMU. After due payments as per actual route, Land Acquisition and Resettlement Plan (LARP) will be updated.

34. Contractor M/s ICC Pvt Lahore was asked to make sure the provision of all relevant documents at site and all requirement laid in contract agreement must be fully implement.
- Contractor was also asked to make sure the use of all safety gadgets/PPEs. They were also instructed to take into the account of local norms and values.
 - Contractor has been provided Summary of LARP, complaint register both in English and Urdu. He has also been provided public awareness material/literature and format of information for the disclosure at project site.
 - For the public awareness summary of LARP and some basic questions related to the project impacts, process and methodology of crops compensation and rehabilitation program for the project had been discussed with the Affected Persons during public consultation
35. After due payments as per actual routes, Land Acquisition and Resettlement Plan (LARP) will be updated.

8. Provisions of Land Acquisition & Resettlement Plan (LARP)

36. 132 KV GIS Faisalabad City Grid Station is proposed to be constructed on Govt land . Punjab Revenue Department issued demand notice. Purchase proceeds have been approved by BOD FESCO in its meeting dated 16-06-2015. Payment is being made to Revenue Department in June 2015 and accordingly possession will taken. With the execution of this subproject , no one will be disturbed.
37. 132 KV AIS Shahbaz Khel Mianwali is proposed to be constructed within walled boundary of FESCO Shahbaz Khel Colony Mianwali. Premises are owned by FESCO.
38. Conversion of 66 KV existing grid stations of 18-Hazari (District Jhang) , Garh Maharaja (District Jhang) , Rakh Dagrán (District Bhakkar) & Kala Bagh (District Mianwali) . No one will be disturbed due to execution of these subprojects.
39. Almost all the transmission lines of tranche-3 are proposed to pass through rural area, away from settlement, Schools, Hospitals and Mosques. On the basis of Reconnaissance Survey carried out in September to **October 2012**, Land Acquisition and Resettlement Plans (LARPs) with following description had been prepared and got concurrence of funding agencies. Below mentioned data will be updated as per actual. Details of LARPs prepared on the data of **October 2012** is as under:-

Sr. No	Description of 132 KV Transmission Lines	Length of T/L Km	Total Towers No	Total Villages No	House Hold (DHs) No	T/Line Corridor Area Hectors	No of Trees		Katcha House No	Cost of LARP Rs. Million
							Wood No	Fruit No		
1	D/C T/L from 220 KV Grid Station Toba Tek Singh to H. B. Shah	48.53	226	9	180	132	283	82	4	25.42
2	D/C T/L L from H.B Shah to 18-Hazari	21.1	94	4	99	45	120	63	0	9.03
3	S/C T/L from 18-Hazari to GM Raja	35.22	142	7	150	101	136	137	3	19.07
4	D/C T/L from Piplan Bhakkar T/ Line (In & Out Rakh Dagrán)	1.35	04	1	10	7	18	0	1	0.91
5	D/C T/L from Jinah (In & out Kalabagh)	3.1	14	1	18	11	15	15	1	2.171
	Total	109.25	480	22	457	296	572	297	9	56.601

40. Detail of Payment made to affected persons (AP) is placed at annexes A to G of this report having following brief description:-

Sr. No	Annex	Pack age	Name of T/L	Foundation Payment		Erection		Stringing Pipe Line
				Made	Pipe Line	Made	Pipe Line	
1	A & B	4	220KV to HB Shah	3,043,281		1,779,449	1,175,770	
2	C&D	3	GM Raja to 18-Hazari	2,085,745		2,198,572		
3	E	3	18-Hazari to HB Shah	1,179,411			1,090,579	
4	F	3	Feed for Rakh Dagan		33,165		30,750	51,496
5	G	3	Feed for Kala Bagh	73,200		54,375		
Total				6,381,637	33,165	4,032,396	2,297,099	51,496
Total Payment Made				10,414,033				
Total Payment in Pipe Line				2,381,760				
Grand Total				12,795,793				

9. Institutional Arrangement & Environmental and Social Safeguard Cell

41. To effectively plan, execute and monitor the Power Distribution Enhancement Investment Program , a Project Management Unit (PMU) has been established in FESCO under Chief Engineer (Development) comprising of five sections i.e. (i) Planning, Scheduling & Coordination (PS&C),(ii) Procurement, (iii) Project Financing (PF), (iv) Grid System Construction (GSC) and (v) Environment & Social Safeguard (E&SS).
42. The key objectives of E&SS Cell PMU FESCO are as under:
- To identify and document all applicable environmental, social laws and other relevant requirements (ADB Involuntary policy and guidelines, international treaties/ laws etc).
 - Preparation and implementation of Environmental Management and Monitoring Plan (EMMP).
 - Ensure all project activities to be carried out/ executed without superseding Health and Safety of employees, local community and contractor staff.
 - Create environmental and social awareness among all project key stakeholders (GSC, Procurement & Contractor staff).
 - Effectively contribute towards "better environmental and social compliance."
 - **Launching Social Awareness campaign for Power Distribution Enhancement Investment Program (PDEIP)**
 - **Preparation of Draft Land Acquisition Resettlement Plan (LARP) , arranging review of FMC Consultant and approval of ADB thereof.**
 - **Implementation of LARP including Assessment of damages ,arranging payment to Affected Persons**
 - **Preparation of updated Land Acquisition Resettlement Plan (LARP) , arranging review of FMC Consultant and approval of ADB thereof.**
 - **Preparation of Due Diligence Reports (DDR) for the subprojects involving Extension & Augmentation which are proposed to be carried out within walled boundaries of existing grid stations and arranging review of FMC Consultant and ADB thereof.**
43. Apart from E&SS Cell PMU FESCO , Revenue Staff of GSC under PMU FESCO including Assistant Land Acquisition Officer, Qanoogo & Patwari are deputed for assessment, preparation of Compensation Payment & disbursement of compensation to Affected Person.
44. Presently activities of E&S Cell are being supervised by Additional Chief Engineer Environment & Social Safeguard. Mr. Yasir Iftikhar while working as Assistant Director Environment in E&S Cell has been promoted as Senior

Engineer and relieved from PMU on 11-8-2016. As such post of Assistant Manager Environment is vacant since 11-08-2016.

45. On the advice of ADB, BOD FESCO in its 131st /19th meeting held on 22-10-2014 has approved the appointment of Mr. Muhammad Saleem Sociologist having 26 year experience in social sector. Mr. Muhammad Saleem was engaged as Social Safeguard Expert on 6 months contract basis, vide o/o No 16529/A-13 /E&S dated 01-01-2015. However Mr. Muhammad Saleem resigned from the services of Social Safeguard Expert w.e.f 31-08-2015. As such post of Assistant Manager Environment is lying vacant since 01-09-2015.
46. For recruitment of Assistant Manager Environment & Assistant Manager Social Safeguard from market, FESCO has taken up the case with Ministry of Water & Power Islamabad for granting NOC.

10. EFFECTS OF PROPOSED WORKS ON COMMUNITY & ENVIRONMENTS

47. No Land Acquisition and Resettlement Plans (LARPs) are involved for construction of new grid stations and conversion of existing grid stations. However for construction of Transmission Lines, LARPs has already been prepared. As these works are to be executed on Turn Key Basis, contractor have prepare rout plan and arranged its approval from Design NTDC and thereafter the Employer. After execution of works as per approval of route plan and design, already prepared LARPs will be updated as per actual accordingly.
48. Following considerations were checked during appraisal of the project: -
- Proposed areas of work are not in environmentally sensitive area.
 - No Reserved or Protected Forest areas exist in the vicinity / proximity of existing/new Grid Stations/132 KV Transmission Lines.
 - There are no wetlands & estuaries near to Grid Stations sites and proposed Transmission Lines.
 - Proposed works have minimal effects on Water Quality & Ambient Air quality & Noise naissance.
 - In view of modified nature of the habitats, there exists no environmental hot spot.
 - Projects sites are not in modified flood plains
 - No blasting is carried out during project execution
 - No hospital & school are located within the vicinity of proposed existing grid stations
 - No soil erosion is expected during execution
 - Public Awareness & Consultation Campaign already launched, reveals the positive gesture of interviewed public.

11. Grievance Redress Mechanism

49. In order to receive and facilitate the resolution of affected peoples' concerns, complaints, and grievances about the project's environmental/social performance an Environmental Grievance Redress Mechanism (GRM) was established for the sub-projects. The mechanism has to be used for addressing any complaints that arise during the implementation of projects. In addition, the GRM includes a proactive component whereby at the commencement of construction of each project (prior to mobilization) the community was formally informed about project implementation details by Environment & Social Safeguard Cell FESCO, regarding designs, scheduled activities, access, constraints etc. so that all necessary project information are communicated effectively to the community and their immediate concerns can be addressed. This proactive approach with communities was pursued throughout the implementation of each project.
50. The GRM addresses the affected people's concerns and complaints proactively and promptly, using an understandable and transparent process that is gender responsive, culturally appropriate, and readily accessible to all segments of the affected people at no costs. The mechanism will not impede the access to the Country's judicial or administrative remedies.

11.1 Redress Committee, Focal Points, Complaints Reporting, Recording and Monitoring

51. The Grievance Redress Mechanism (GRM), has been established in FESCO comprising of following:-
- i. Project Director GSC
 - ii. Director E&S
 - iii. Contractor Representative
 - iv. ALO/Qanoogo
 - v. Community Representative
52. E&SS Cell FESCO has a role to assist Grievance Redress Committee (GRC) and to assist affected communities/villages to identify local representatives to act as Grievance Focal Points (GFP) for each community/village. As per envisaged roll, GRC will hold meeting to address concerns and grievances of the local communities and affected parties .
53. Following the pre-mobilization public consultation meeting, environmental and Social complaints associated with the construction activity will be routinely handled through the GRM as explained below :-
- i. Individuals will lodge their environmental/ Social complaint/grievance with their respective community's nominated GFP.

- ii. The GFP will bring the individual's complaint to the attention of the Contractor.
 - iii. The Contractor will record the complaint Complaints Register (maintained at site) in the presence of the GFP.
 - iv. The GFP will discuss the complaint with the Contractor and have it resolved;
 - v. If the Contractor does not resolve the complaint within one week, then the GFP will bring the complaint to the attention of the Environmental & Social Safeguard Cell of FESCO. The FESCO's Environmental & Social Specialist will then be responsible for coordinating with the Contractor, in solving the issue.
 - vi. If the Complaint is not resolved within 2 weeks, the GFP will present the complaint to the GRC.
 - vii. The GRC will have to resolve the complaint within a period of 2 weeks and the resolved complaint will have to be communicated back to the community. The Contractor will then record the complaint as resolved and closed in the Environmental Complaints Register.
 - viii. Should the complaint not be resolved through the GRC, the issue will be adjudicated through local legal processes.
 - ix. In parallel to the ECR placed with the Contractor, each GFP will maintain a record of the complaints received and will follow up on their rapid resolution.
 - x. E&SS Cell FESCO will also keep track of the status of all complaints submitted by the Contractor to FESCO and will ensure that they are resolved in a timely manner.
54. As conversion subprojects under Tranche-III are being executed within walled boundaries of existing grid station , no one was disturbed and no complaint from community was received which otherwise required to be redressed. However for Transmission Lines subprojects under Tranche-III , some complaints regarding crop compensation were received and were dealt accordingly

12. MONITORING & FIELD SURVEYS

12.1 Internal Monitoring

55. Purpose

- a. **At initial stage** , Field Surveys were conducted for
 - Social Awareness Campaign
 - Collection data for preparation of LARP
 - Supervision of Sub Soil Investigation
- b. **At the time of physical execution**, Field visits are being carried out for :-
 - Conduct social assessments in confirmatory to ADB requirement
 - Initial screening of indigenous and vulnerable people.
 - Project resettlement categorization.
 - Updation of LARPs as per actual
 - Implementation of LARPs & compensation payments

12.2 - Project Sites Visits

56. PMU FESCO has launched the Social Awareness Campaign in the area, distributed leaflets/broachers among the stakeholders. For which Manager Environmental & Social Safeguard and Social Safeguard Expert paid visits to all sites of Transmission Lines. During these visits , almost all owner/tenant of the area where foundation of towers are to be erected , made aware of project components, execution modalities. During physical execution, compensation payment to affected persons will be made as per actual damages on the govt rates and LARPs will be updated.

12.3 External Monitoring

57. M/S SMEC International Pty Limited on Facility Management Consultant (FMC) for Power Distribution Enhancement Investment Program (PDEIP) is deputed for External Environmental, Social and OHS Monitoring. A team of Environmentalist & Sociologist visited project area from December 26, 2016 to January 03, 2017.
58. Environmental & Social Monitoring Team of M/S SMEC emphasized over the contractors as under :-
- Contractors should ensure that Complete Personal Protective Equipment (PPE) are provided and no field staff should work at site without proper PPE.

- For safety & Emergency, Fire extinguishers in sufficient quantity at appropriate places are made available. Labour be trained for proper usage of Fire extinguishers in case of emergency.
- At Camp sites, Solid waste is stored at designated places for disposal at designated places. Moreover Waste Management Plan should be pasted on Notice Board.

13. CONCLUSION AND RECOMMENDATIONS

15.1 Conclusions

59. Assessment of crops damages along with the concrete works is being carried out however partial compensation has been paid to the affected persons. Efforts are being made to pay the crops compensation to the affected persons before the start of erection/stringing works.
60. Contractor was also directed to make sure the provision and use of all safety gadgets/PPEs. Onsite orientation/training session was arranged for the use of PPEs. They were also instructed to take into the account of local norms and values.
61. Overall attitude of the communities towards the Project was positive. Communities' main concerns during the scoping sessions/consultations were as under
 - i. The height of current proposed T/L will not affect the health of community
 - ii. The route of the T/L will not pass through the housing area of the community. In case some new housing facility has been developed recently, Transmission Line is rerouted to avoid housing facility.
 - iii. Affected Persons requested for prompt payment for damaged crops

15.2 Recommendations

62. From the findings of the Monitoring Visits, the following mitigation measures are proposed to be implemented in order to minimize any potentially significant impacts:
 - It is recommended that the process of communication and consultation with the community representatives is aggressively maintained.
 - Construction work of new T/lines should be planned in accordance with LARPs and DDRs to minimize the affect of construction activities.
 - Site should restore properly after the completion of construction activities.
 - Proper housekeeping can avoid littering.
 - To avoid any accident contractor should make the use of PPEs compulsory.
 - Timely compensation to the affected persons can avoid any hindrance and may lead towards in time execution of the project.
 - It is also observed that contractor(s) does not give value to environmental and social aspects and considered it unnecessary burden over them

- Newly established Environmental & Safeguard Cell need strengthening by providing requisite staff, equipments and road worthy vehicles so that cell could work more efficiently.
- The post of Assistant Manager Social Safeguard is vacant since 01-09-2015. Efforts are required to remove hurdles in recruitment/deployment of Assistant Manager Social Safeguard against the vacant post
