## 1.0 INTRODUCTION

1. **Overall Project Description:** The Infrastructure Development Investment Program for Tourism (IDIPT) targets enhanced economic growth and provision of livelihood opportunities for local communities through tourism and infrastructure development with a focus on preservation and development of natural and cultural heritage and incidental services. The Project will support the States of Himachal Pradesh, Punjab and Uttarakhand, to develop the tourism sector as a key driver for economic growth.
2. **Project Objectives:** As part of the Investment Program, the Project aims to enhance the tourism environment of States of Himachal Pradesh, Punjab and Uttarakhand through subprojects under 5 different components of the Investment Program as below
  - Component 1: Enhanced quality of natural and cultural attractions.
  - Component 2: Greater participation by local communities in tourism-related economic and livelihood activities.
  - Component 3: Improved basic urban infrastructure and incidental services at tourist destinations and gateways.
  - Component 4: Improved connectivity to tourist attractions.
  - Component 5: Strengthened capacity of sector agencies and local communities.
3. **Environmental Category:** The investment program uses a sector approach which requires preparation of an Environmental Assessment Review Framework (EARF) that sets out specific procedures to be followed for subprojects, and for implementation of the project as a whole. The EARF is in accordance with Government of India (the Government) rules and Asian Development Bank ADB) safeguards policies. The EARF reviews the types of subprojects anticipated under the project and summarizes potential environmental impacts. The EARF provides an overview of the regulations of the Government, as well as the states and ADB (as per its Safeguards Policy Statement, 2009 [SPS, 2009]) related to environmental assessment, specifically concerning project environmental classification, review and clearance requirements. In accordance to REA checklist prepared for all the subprojects falls under "Category B".
4. **Environmental performance indicators, if any:** Environmental Monitoring Results as per EMP.
5. **Overall project progress, agreed milestones and implementation schedules:** Nine following subprojects have been awarded. The required NOCs have already been taken prior to start of work and are part of IEE uploaded by ADB on their website. The construction work is in progress under subprojects as per implementation schedule and requisite measures as per EMP is being monitored by Safeguard Specialists. Since HP-PCB is unable to conduct testing as per our time frame, private NABL laboratories were engaged for some projects and environmental testing is in process. Details of the sub-projects progress are given in **Table 1**:

Table 1: Project Progress Status

Sr. No.	Name of project	Scope of work	REA Categorization / IEE Status (Approved Date)	Contract Signed/ NTP Date/ Completion Date	Project Progress (%) till June, 2017	Work Status/ Remarks
<b>WORK AWARDED &amp; ONGOING</b>						
1	Upgrading the Historic Urban Precincts & Creating a Heritage Circuit, Jwalaji Town No. (Package HPTDB/13/1)	<ul style="list-style-type: none"> <li>Community Hall.</li> <li>Multipurpose Parking.</li> <li>Tourist Reception Centre.</li> <li>Improvement of Gates, Paths.</li> <li>Restoration of ponds.</li> <li>Improvement of roads.</li> <li>Illumination.</li> <li>Provision of street furniture</li> <li>Improvement &amp; additional provision of toilet facilities.</li> <li>Drinking water facilities</li> <li>Rest sheds/ pause points where required.</li> <li>Landscaping area as to provide pleasant repose.</li> <li>Provision of directional, informative and instructive signages</li> </ul>	Environmental Category B  Approved on August, 2015  (Uploaded on ADB Website)	Contract signed on 23 <sup>rd</sup> Sept, 15  NTP Date- 7 <sup>th</sup> October, 2015  Completion date- 17 <sup>th</sup> October, 2017.	14.55%	IEE and EMP is part of contract agreement   Parking work under construction
2	Conserving Prominent Temple Precincts & Upgrading Urban Infrastructure for Tourism in Dharashala, Mcleodganj No. (Package HPTDB/13/2)	<ul style="list-style-type: none"> <li>Bhagsu Cultural Centre</li> <li>Upgradation of Bhagsu Nag Temple precincts</li> <li>DC Office parking. ## 5.0 APPROACH AND METHODOLOGY FOR ENVIRONMENTAL MONITORING OF THE PROJECTS

### A. Monitoring Basis

- To monitor project impact each worksite under each subproject has been selected as the ambient air/ambient noise sampling/ surface water monitoring locations. Water of natural source near to the subproject has been considered for the water sampling.
- Selection of environmental receptors /attributes for monitoring is based on the site location and anticipated impact due to construction activity.
- Environmental monitoring mechanism consist all three phases of project i.e. design, construction, operation and most of mitigation measures have been complied at design stage like storm water run-off, drainage etc. Further IEE defines overall monitoring mechanism.

### B. EMP Implementation arrangement for IDIPT, Himachal Pradesh

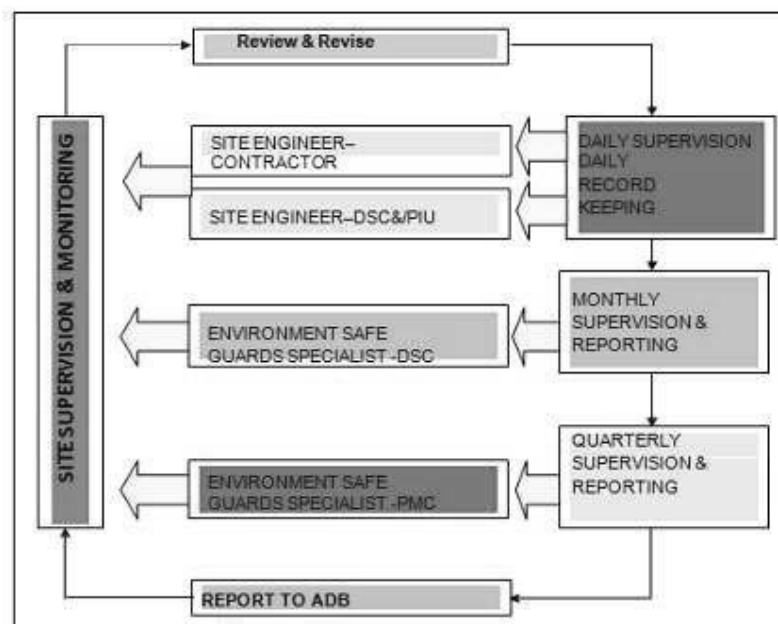

#### 9. The following agencies shall be responsible for EMP implementation:

- The Department of Tourism and Civil Aviation (DoTCA), Government of Himachal Pradesh, is the Executing Agency.
- The implementing agency is the Himachal Pradesh Tourism Development Board (HPTDB).
- The Project Management Unit (PMU) has been established in Shimla for the overall project management and
- Project Implementation Unit (PIU) has been established in Dhaliyara at Distt. Kangra, Shimla and Kullu.
- Environmental Specialist has been deputed by the PMU, who will be responsible for implementation of the environmental safeguard provisions. The Project Management Consultants (PMC) and Design and Supervision Consultants (DSC) have been recruited to provide assistance to the PMU/PIUs in project implementation.
- Within the PMC team, an Environmental Specialist provides overall direction for management of environmental issues, and provides technical support to the PMU including implementation of the environmental safeguards according to ADB requirements, and assist in monitoring impacts and mitigation measures associated with subprojects.
- The Environmental Specialist of the DSC team is responsible for preparation of the Environmental assessment documents in line with the EARF and supervises the implementation of the EMP provisions in the subprojects. The DSC Safeguards specialist supports environmental management functions including updating IEEs with respect to sub-project Environmental Management Plans, and assist in monitoring impacts and mitigation measures associated with subprojects. He/she will be required to include mitigation measures in designs where appropriate, and to specify other

measures in construction contracts. Contractors will be required by their contracts to implement all specified mitigation, monitoring, and reporting assigned to contractors as presented in the EMP.

- The PMU, oversees the implementation of the environmental provisions related to subproject implementation, its responsibilities include preparation and updation of IEEs consistent with the ADBs Safeguards Policy Statement and the environmental compliance requirements of the Government of Himachal Pradesh and the Government of India. Environmental monitoring will be undertaken by the PMU supported by the DSC - Safeguards Specialist.
- The project includes upfront and on-going supervision and training assistance for environmental monitoring reporting in project management structures. The effective implementation of the measures proposed will be ensured through the building up of capacity towards environmental management within the PMU supplemented with the technical expertise of a Safeguards Specialist as part of the PMC/DSC.

10. The following diagram indicates the proposed monitoring mechanism for IDIPT, HP.

### C. Monitoring Quality Control

- Technical Specifications being followed.
- Safeguard file being maintained.
- Regular follow up of labour camps, drinking water quality, toilet cleanliness etc.
- Regular orientations.
- Constant Vigil.

## 6.0 MONITORING OF ENVIRONMENTAL RECEPTORS/ATTRIBUTES

11. Monitoring of environmental receptors/ attributes (e.g. ambient air, surface water, ground water, land, noise, hazardous/toxic wastes, etc.)
- Baseline environmental monitoring for ambient air quality, ambient noise levels, and water quality has been generated through NABL accredited laboratory by the Project Management Unit/Contractor prior to commencement of civil works in Manali, Mandi, Jwalaji, Dharamshala, & Markandeya subprojects. HPPCB data being collected regularly for Shimla Mall Road Extension subproject.
  - Environmental monitoring for ambient air quality, ambient noise levels, and water quality has also been generated during construction stage as per EMP in Manali, Mandi, Jwalaji & Dharamshala subprojects.
  - The monitoring frequency of ambient air quality, ambient noise levels and surface water quality shall be done at construction sites. (as per IEE)
  - The monitoring frequency of ambient air quality, ambient noise levels and surface water quality during construction phase is quarterly except monsoon period at all construction sites. (as per IEE)
  - The monitoring frequency of ambient air quality, ambient noise levels and surface water quality during post-construction phase may be once except monsoon period. (as per IEE)
  - Reporting shall be given in tabular format with analysis as results obtained.
  - Results obtained for Shimla Mall Road Extension, Manali, Mandi, Jwalaji, Dharamshala and Markandeya sites are given at Anneure-36, Anneure-37 & Anneure-38 respectively. The analysis of the data is given in **Table 4, Table 5, Table 6, Table 7, Table 8 and Table 9.**

**Table 4: Environmental monitoring analysis conducted at Shimla Mall Road extension  
Year 2014-2015**

Environmental Monitoring	Results (Average)	Analysis
Ambient Air (Tekka Bench)		
RSPM $\mu\text{g}/\text{m}^3$	46.1	Results are within prescribed limits
SO <sub>x</sub> $\mu\text{g}/\text{m}^3$	2.0	Results are within prescribed limits
NO <sub>x</sub> $\mu\text{g}/\text{m}^3$	9.9	Results are within prescribed limits

## 7.0 ANY OTHER ENVIRONMENTAL ASPECTS NOT COVERD EARLIER

12. None of the other environmental aspects, impacts observed during implementation which were not covered earlier

## 8.0 DETAILS OF GRIEVANCES AND ACTIONS

13. Details of Grievance Redress Committee and complaints received from public and actions taken thereof to resolve
- Grievance redressal committee's already formed at PMU and PIUs level (Copy attached at Annexure-35)
  - No complaints received so far from any ongoing subprojects

## 9.0 FOLLOW UP ACTIONS & CONCLUSIONS

14. The details and job responsibilities are clearly stipulated in the EARF and there is a strong need for transforming these stipulations into actions so that environmental monitoring can lead to preventive measures rather than curative and now actions are in place. The sites are being visited regularly by the Safeguards' Specialists since commencement of the work.
15. The field staff such as the site engineers/support engineers and the respective Contractors on site being advised and oriented time to time on maintaining a constant vigil in respect of all environmental parameters to be monitored and adherence to record keeping on site.

**Annexure 1****NOC from the Municipal Corporation, Shimla vide order No. 315 (AP) dated 18<sup>th</sup> September, 2015.**MUNICIPAL CORPORATION SHIMLACommissioner's Order No. 315 (AP)Dated: 18/9/15

The Project Director, IDIPT-HP has submitted the proposal for Shimla Mall Road Extended Portion vide their office letter No.IDIPT-HP/2676-IND/HPTDB/Tranche-III/2014/3000 dated 04.10.2014 for consideration of approval.

The plan submitted by the applicant department have already been approved in the 8<sup>th</sup> meeting of Heritage Advisory Committee held on 12.06.2015. The approval for Shimla Mall Road Extended Portion is hereby conveyed for the following set of drawings.

1. Drawings of Stretch -1 CTO to Advance Study approved. Drawing Nos. S1/00, S1/02, S1/08, S1/09, S1/10, S1/12, S1/13, S1/17, S1/23, S1/24, S1/25, S1/31, S1/32, S1/33, S1/34, S1/38, S1/39, S1/49 & S1/50
2. Drawings of Stretch-2 High Court to Mall Road approved. Drawing Nos. S2/00, S2/01 & S2/02
3. Drawings of Stretch-3 Oak over to Bede's Chowk approved. Drawing Nos. S3/00, S3/22, S3/28, S3/29, S3/32 & S3/33
4. Drawings of Stretch-4 Kali Bari to Scandal Point approved. Drawing Nos. S4/00, S4/01, S4/02, S4/03, S4/04 & S4/07
5. Drawings of Stretch-5 Scandal Point to Ritz approved. Drawing Nos. S5/00 to S5/07 & S5/09
6. Drawings of Stretch-6 Ritz to Sanjauli approved. Drawing Nos. S6/00 to S6/09, S6/12, S6/13, S6/15, S6/16, S6/17, S6/21, S6/24, S6/25, S6/29, S6/30, S6/33, S6/36, S6/42, S6/45, S6/46, S6/49, S6/54, S6/55 & S6/56
7. Drawings of Stretch-7 Chalet Day School to Chhotta Shimla approved. Drawing Nos. S7/00, S7/01, S7/03, S7/04, S7/09, S7/12, S7/13, S7/14, S7/15, S7/17, S7/19, S7/21, S7/22, S7/23, S7/25, S7/27, S7/28, S7/30, S7/31 & S7/32
8. Drawings of Stretch-8 Ritz to Chalet Day School via U.S. Club approved. Drawing Nos. S8/00, S8/01, S8/05, S8/07, S8/10, S8/16, S8/19, S8/20, S8/24 & S8/25
9. Drawings of Stretch-9 Ramchander Chowk to U.S. Club Gate. Drawings Nos. S9/00, S9/01, S9/03, S9/07, S9/08, S9/11, S9/20, S9/21, S9/22, S9/29, S9/33, S9/35, S9/36, S9/37, S9/38, S9/39, S9/42 & S9/43

10. Designs and drawings of Railings to be provided on benches and along the path/road approved. Railing-1 Drawing Nos. R1(12)/09, R1(15)/10 & R1(16)/11, Railing-2 Drawing Nos. R2(5)/12, Railing-5 Drawing Nos. R5/13 approved.
11. Designs and drawings of U-shaped and V-shaped drains provided along the path/roads approved subject to the condition that steps may be provided in the drains to break the velocity of water. Drain Type-8 Drawing No. 8/04 & Type-9 Drawing No.9/05 approved.
12. Designs and drawings of Rain Shelters Type No.1 Drawing No.1/14, Type No.5 Drawing No.5/15 & Type No.6 Drawing No.6/10 and Rain Shelter At Shastri Chowk, Drawing Nos 80L & 80A(R-2) approved.
13. Design of Lamp post having British elements as suggested by Mr. Malhan INTACH Shimla and shown in the presentation during the meeting approved.
14. Designs and drawings of Pedestals of the Lamp post and directional sinages approved subject to the condition that the font size, colouring and lettering of the sinages shall be as per British specifications as suggested by Dr. Balvinder Singh & Mr. Malhan. Pedestal Type -1 Drawing No.1/06, Type 3(i) Drawing No.1/07 & Type 3(iv) Drawing No.3/08, Sinage 1/17 (for directional sinage only) & 1/18 (for directional sinage only) approved.
15. Designs and drawings of benches Type-1, Type-2 & Type-3, Drawing No. Pic/32, Type-4 Drawing No. Bench 4/01, Type-5 Drawing No. Bench 5/02 & Type-6 Drawing No. Bench 6/03 approved.
16. Designs of Traffic nodes at Sanjauli and Victory Tunnel approved with slate roof canopy as shown in the presentation, subject to the condition that at the time of the execution M.S. Railing may be provided around it. Drawing No.Chhatra/30 approved.
17. Designs and drawings of paving pattern below the benches provided along path and roads and at various rest places approved subject to the condition that open space below arched portion be kept clean and people may not use this space as dust bin. Pattern Drawing No. pattern/26 approved.
18. Renovation/restoration of existing toilet blocks approved in principle subject to the condition that if any addition is to be made it should be in harmony with the existing structures and Rain Water Harvesting System should be provided to tap the roof water and recycle it for the use in the toilets, as suggested by Mr. Malhan which may be got approved from Heritage Advisory Committee.

19. For Façade treatment of eleven high priority structures, the drawings and images should show more details and comparison of the existing Façade and how it will look after the treatment. Comparison of existing sinages and proposed sinages may be also shown for all the structures/shops on the Mall Road. Similarly, the case of all the 150 Buildings should be brought for approval of Heritage Advisory Committee after incorporation of suggestion given by Dr. Balvinder Singh, as this is the most important component for the conservation of character of the area. Sinage Type-3 Drawing No.3/19, Type 4(i) Drawing No.4/20 & Type 4(iv) Drawing No.4(iv)/21 approved.
20. Drinking water spouts as per Drawing No. Spout/25 approved.

The Chairman advised that the study made by Kamla Raheja be sent to the Government for its approval and the recommendations made in the study may be dovetailed in the drawings by the Tourism and Civil Aviation Department.

- The conditions imposed by Heritage Advisory Committee in its sanction should be strictly adhered to during construction.
- You will exhibit details/information of this sanction/approval on a signboard, which will be affixed at conspicuous location at the site of construction till completion of the project as per annexure "A" enclosed.
- Sanction is granted subject to the final decision in CWP No.4595/2011 titled as Rajeev Verma & others v/s State of H.P. pending before the Hon'ble High Court.

### Status of Air Quality /Water Quality/Noise level at Manali site (Construction Period)

ISO 9001 : 2008

## Industrial Testing Laboratory & Consulting House

(A Govt. Approved Laboratory)

Analysis Report

**AMBIENT AIR QUALITY MONITORING REPORT**  
 Test Report No. : ITL/ED/03  
 Dispatch Date : 05/06/2017

1.	Laboratory Sample No.	ITL/05-17/43/03
2.	Issued to	M/S PMDSC- IDIPT-HP DEPTT. OF TOURISM & CIVIL AVIATION, HERITAGE BUILDING, SHIMLA, (H.P.)
3.	Name of sample collecting officer	By Lab Representative
4.	Type of sample	Ambient air quality monitoring
5.	Date of sample collection	20/05/2017
6.	Date and time of sample receipt in lab.	23/05/2017 at 10.00 pm
7.	Location of sample collection	Project Site Near Badagan (Kullu)
Date of receipt of Job		24/05/2017
Date of completion of Job		05/06/2017

**Observations**

SN	Particulars	PM <sub>10</sub>	PM <sub>2.5</sub>
1.	Actual duration of sampling (minutes)	1440	1440
2.	Flow rate, (m <sup>3</sup> /min for PM <sub>10</sub> & m <sup>3</sup> /h PM <sub>2.5</sub> ), average	1.39	1.0
3.	Total volume of air sampled, (m <sup>3</sup> )	2001.6	24

**Test Results**

SN	Parameters	Results	Regulatory Standards (NAAQS)*	Test Method followed
1.	Particulate Matter, (size <10 µm), or PM <sub>10</sub> , µg/m <sup>3</sup>	85.48	100	IS: 5182 (Part-23) 2006, (RA2009)
2.	Particulate Matter, (size <2.5 µm), or PM <sub>2.5</sub> , µg/m <sup>3</sup>	53.19	60	IS: 5182 (Part-23) 2006, (RA2009)
3.	Sulphur Dioxide, (SO <sub>2</sub> ), µg/m <sup>3</sup>	14.55	80	IS: 5182 (Part 2) : 2001, (RA 2012)
4.	Nitrogen Dioxide, (NO <sub>2</sub> ), µg/m <sup>3</sup>	21.60	80	IS: 5182 (Part 6) : 2006, (RA 2012)
5.	Carbon Monoxide, (CO), mg/m <sup>3</sup>	BDL	2.0	IS: 5182 (Part 10) 1999, (RA 2003)

## Analysis Report

### NOISE LEVEL MONITORING ANALYSIS REPORT

Test Report No. : ITL/EO/13

Dispatch Date : 05/06/2017

1.	Laboratory Sample No.	ITL/05-17/43/16
2.	Issued to	M/S PMDSC- IDIPT-HP DEPTT. OF TOURISM & CIVIL AVIATION, HERITAGE BUILDING, SHIMLA, (H.P.)
3.	Name of sample collecting officer	By Lab Representative
4.	Type of sample	Noise Level
5.	Date of sample collection	20/05/2017 To 22/05/2017

### Test Results

Location Code	Near Badagran(Kullu)
Monitoring Date	20/05/2017
	Noise Level (dBA)
Time	Hrly. Leq
9:00	60.2
10:00	60.5
11:00	60.9
12:00	61.4
13:00	61.8
14:00	61.6
15:00	61.0
16:00	60.7
17:00	60.4
Maximum	62.2
Minimum	61.8
Average/Results	61.0
Regulatory Standard	75

dB (A) Leq: denotes the time weighted average of the level of sound in decibels on scale (A) which is relative to human hearing.

\*\*Leq: It is energy mean of the noise level over the specified period.

Test Method IS: 9989:1981 R-2002

Note: Day time shall mean from 6.00 a.m. to 10.00 p.m. Night time shall mean from 10.00 p.m. to 6.00 a.m.

## Annexure 40

## PUBLIC CONSULTATION

**Project Name:** Creation of Centre for Traditional Arts & Crafts at Badagran near Manali

**Package No-** Package No. HPTDB/14/1

**Date of Visit:** 13<sup>th</sup> January, 2017

**Project Phase:** During Constriction

**Consultation Done By:** Dr. Seema Srivastava (Safeguard Specialist, Environment, PMC) & Dr. Basobi Sheel (Safeguard Specialist, Social, PMC)

<b>Place:</b> Individual residents nearby Manali Premises	
<b>Participants:</b> House owners residing in nearby site premises.	
<b>Objective:</b> The objective of consultation was to share the information related to project and seek their views in strengthening the safeguard document to maximize the project benefits.	
1.	<p><b>Issues Discussed:</b></p> <p>Following issues pertaining to Social/Environmental safeguards and existing direct and indirect impacts have been discussed for the improvement options.</p> <ul style="list-style-type: none"> <li>Impact on the local environment due to construction activities of the project.</li> <li>Scope of employment generation for the local people during construction phase.</li> <li>Construction activity whether causing any type of hazard or not?</li> <li>Any loss of land or property due to construction activity?</li> <li>Any damage to historical or cultural monuments?</li> <li>Problems faced by the local people in their daily activities due to improper amenities?</li> </ul>
2	<p><b>House Owners Response:</b></p> <ul style="list-style-type: none"> <li>People are interested in amenities development and there will be enhanced environment.</li> <li>Local community being benefitted by employment in construction and shall be benefitted through development of local area.</li> <li>There is negligible impact on environment during construction and being mitigated by suitable measures</li> <li>There is no tree cutting.</li> </ul>
3	<p><b>Recommendations &amp; Suggestions:</b></p> <ul style="list-style-type: none"> <li>House owners requested that boundary wall construction of the site may be shifted a little to avoid their unauthorized building part demolition.</li> </ul>

## Analysis Report

### NOISE LEVEL MONITORING ANALYSIS REPORT

Test Report No. : ITL/ED/11  
Dispatch Date : 05/06/2017

1.	Laboratory Sample No.	ITL/05-17/43/11-14
2.	Issued to	M/S PMDSC- IDIPT-HP DEPTT. OF TOURISM & CIVIL AVIATION, HERITAGE BUILDING, SHIMLA, (H.P.)
3.	Name of sample collecting officer	By Lab Representative
4.	Type of sample	Noise Level
5.	Date of sample collection	20/05/2017 To 22/05/2017

### Test Results

Location Code	Visco Resort (Mandi)	Bhim Kali Temple	Near Chauhatta Bazar	Near Tarna Mata Temple
Monitoring Date	20/05/2017	20/05/2017	21/05/2017	21/05/2017
	Noise Level (dBA)	Noise Level (dBA)	Noise Level (dBA)	Noise Level (dBA)
Time	Hrly. Leq	Hrly. Leq	Hrly. Leq	Hrly. Leq
9:00	64.5	62.3	63.0	55.8
10:00	65.0	62.8	63.6	56.0
11:00	65.3	63.1	64.1	56.4
12:00	66.2	63.7	64.7	56.7
13:00	67.7	64.5	65.8	57.5
14:00	67.1	64.0	65.4	57.1
15:00	65.9	63.8	64.6	56.5
16:00	65.4	63.3	64.3	56.1
17:00	64.8	62.6	63.2	55.9
Maximum	64.5	62.3	63.0	55.8
Minimum	67.7	64.5	65.8	57.5
Average/Results	66.10	63.40	64.40	56.65
Regulatory Standard	75	75	75	75

dB (A) Leq: denotes the time weighted average of the level of sound in decibels on scale (A) which is relatable to human hearing.

\*\*Leq: It is energy mean of the noise level over the specified period.

Test Method IS: 9989/1981 R-2002

Note: Day time shall mean from 8.00 a.m. to 10.00 p.m. Night time shall mean from 10.00 p.m. to 6.00 a.m.

## Analysis Report

### SURFACE WATER SAMPLE ANALYSIS REPORT

Test Report No. : ITL/ED/07  
Dispatch Date : 05/06/2017

1.	Laboratory Sample No.	ITL/05-17/43/07
2.	Issued To	M/S PMDSC- IDIPT-HP DEPTT. OF TOURISM & CIVIL AVIATION, HERITAGE BUILDING, SHIMLA, (H.P.)
3.	Name of Sample Collecting Officer	By Lab Representative
4.	Type of Sample	Project Site water Sample from Victoria Bridge OR Near Ghat (Mandi)
5.	Date & Time of Sample Collection	21/05/2017
6.	Date & Time of Sample Receipt in Lab.	23/05/2017 at 10.00 pm
7.	Date of receipt of job	24/05/2016
	Date of completion of job	05/06/2017

### Test Results

SN	Parameters	Result	Test method followed
1.	pH	8.28	IS: 3025 (Part-11) 1983(RA 2012)
2.	TSS , mg/l	23.8	IS: 3025 (Part-17) 1984(RA 2012)
3.	TDS ,mg/l	48.3	IS: 3025 (Part-16) 1984 (RA2012)
4.	Total Hardness (as CaCO <sub>3</sub> ),mg/l	45	IS:3025 (Part 21) 2009, (RA 2009)
5.	Oil and Grease ,mg/l	0.9	IS: 3025 (Part-39) 1991(RA 2009)
6.	Total Coli form, MPN/100 ml	<2	IS: 1622, 1981(RA 2009)
