1. INTRODUCTION

1. ADB is aiding India to develop tourism as a driver of sustainable and inclusive economic growth in four states. The first tranche of a multitranche financing facility will upgrade infrastructure and services, and support policy reforms in states, Himachal Pradesh, Punjab and Uttarakhand. It will enhance the quality of natural and cultural attractions and increase community involvement in tourism.
2. The Government of India has signed a loan with the Asian Development Bank (ADB) on 28-September-2015 for US \$ 123.51 million for tranche 3 of the Infrastructure Development Investment Program for Tourism (IDIPT) with an objective to continue upgrading tourism infrastructure and services. The loan is intended for development and conservation of places of tourist attractions as well as to improve basic tourism facilities, and to build the capacity of sector agencies and local communities in the three States. The third tranche loan is part of the \$250 million multi-tranche financing facility that ADB approved in 2010. The proposed interventions are located in SAS Nagar (Mohali) Ropar, Patiala, Fatehgarh Sahib, Kapurthala, Taran Taran and Amritsar districts of Punjab.
3. The total investment programme cost for Punjab is \$88.54 million where \$61.98 million will be financed by ADB in MFF over a period of 10 years and State Government financing will be \$26.56 million. The tranche 3, total investment cost will be \$59.51 million where \$41.66 million will be ADB loan component while \$17.85 million will be State counterpart.
4. The department of Tourism (DoT), Government of Punjab (GoP) is the Executing Agency (EA) and Punjab Heritage and Tourism Promotion Board (PHTPB) is the implementation agency (IA) for the IDIPT for Punjab and the PMU has been set up at the PHTPB. LEA Associates South Asia Private Limited, (LASA) in association with Simpson & Brown Architects (UK) and Addyman Archeology, UK (UK) has been retained as Project Management Consultant (PMC) for PHTPB. M/s Shah Technical Consultants Private Limited in association with Grassroots Research and Consultancy (India) has been engaged as Design Supervision Consultant (DSC) by the PHTPB (the Implementing agency (IA)).
5. The Social Monitoring Report (SMR) intends to monitor the social safeguards being implemented at all the sub-project sites as per ADB's guidelines in the Eastern and Western Circuit of Punjab state. The tourist clusters are proposed to enhance destination and site environment and tourist support infrastructure, and enhanced protection and management of key natural and cultural heritage tourism sites.
6. Proposed sub-projects under tranche 3 and the progress covering from January to June 2016 are presented in table 1.

2. DESCRIPTION OF SUB-PROJECT

7. The Infrastructure Development Investment Programme for Tourism- Punjab, covers State-wide circuit comprises a western component that extends from Amritsar to Gurdaspur, and an eastern component that extends from Patiala through Chandigarh to Rupnagar (Ropar) on the state border with Himachal Pradesh. These two circuits and the connecting Mughal Route link the most of the major rivers and wetlands, the major cultural heritage sites, as well as a significant proportion of rural village communities and their cultural heritage.

8. Tranche 3 destinations located in the eastern & western part of Punjab State bordering Pakistan and the Indian States of Jammu & Kashmir and Himachal Pradesh. The area covers the districts of Amritsar and Gurdaspur with Amritsar as the main domestic and international gateway centre. The destination is accessible by air to Chandigarh and Amritsar from New Delhi, and from major European points (daily flights from London, Birmingham, Dubai, Sharjah, Bratislava, Ashgabat, Singapore, Tashkent and Kabul) to Amritsar; as well as to Pathankot from New Delhi; by rail from New Delhi; and by National Highway 1 from New Delhi, NH 1A from Srinagar in Jammu & Kashmir via Pathankot, and NH 20 from Himachal Pradesh via Pathankot. The proposed sub-project location is shown in Figure 1 **Error! Reference source not found..**

9. The following section gives a brief account of 10 numbers of sub-projects being implemented.

10. **Conservation/Revitalisation of Aam Khas Bagh, Interpretation Centres, Visitor Amenities, Conservation of Historic landscape (lot 1).**

11. **Aam Khas Bagh** the project site called Bagh-I-Hafiz Rakhna locally known as Aam Khas Bagh is a Mughal garden situated approximately at a distance of 52 km from Chandigarh city. The structure was built during the reign of Akbar and further developed by Shahjahan and Jahangir. The garden complex was used as a Royal Sarai. There are a lot of

historical references mentioning about this place being used by the Mughal kings/ royal family.

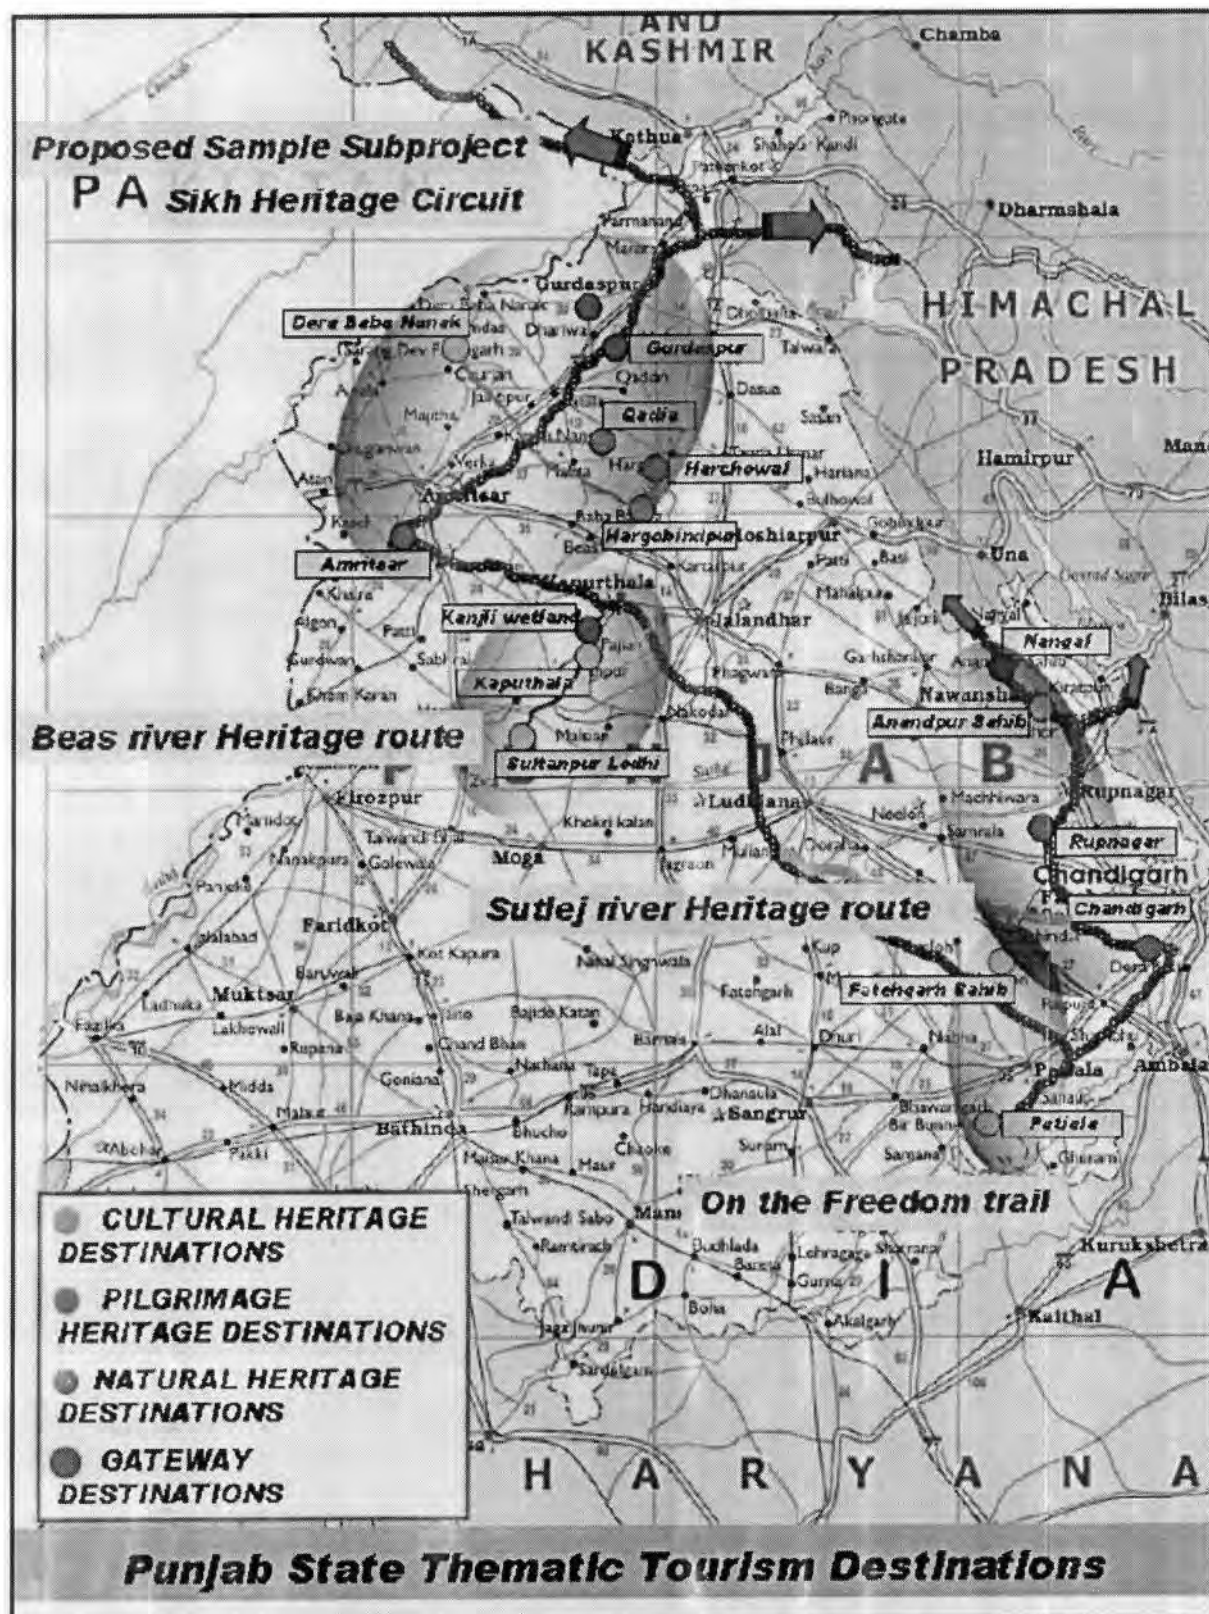

Figure 1: The Location Map of Project Area

12. Conservation/Revitalisation of Aam Khas Bagh, Interpretation Centres, Visitor Amenities, Conservation of Historic landscape (lot 2).

13. **Establishment of Tourism Facilities and Infrastructure showcasing of Sikh Culture, Chamkaur Sahib:** Chamkaur Sahib is a place of religious and historical importance for Sikhs. The town is situated on the banks of the Sirhind Canal at equal distance from Morinda and Ropar town. The project area is famous for the Battle of Chamkaur fought between the Mughals and Guru Gobind Singh. Chamkaur Sahib is steeped in history. There are a number of historical Gurudwaras located within the town which are interlinked by narrow roads. The presence of the Gurudwaras such as Katalgarh Sahib, Tarri Sahib, Garhi Sahib, Damdama Sahib and Ranjit Garh Sahib attract people in large number from all over. Upgradation of Saka Chamkaur Di Garhi at Chamkaur Sahib for display of Sikh history with facilities was envisaged for completion during the year 2007. The Saka Chamkaur Di Garhi was proposed as an interpretative centre to impart knowledge of Sikhism's rich history. The works proposed are not completed due to which the site has not realized adequate tourism potential and also fails to provide information about the area.

14. **Tomb of Rafuddin** the Tomb of Rafuddin is a 16th century tomb and is one of the oldest surviving examples of architecture from that period. Also known as Ghode ka Maqbara, it is located in Harnam Nagar at the outskirts of village Talanian. The tomb stands in middle of agricultural fields and is approached by a pathway from the road. Tomb of Raffudin stands on an elevated area with respect to its surrounding, however, its plinth is not visible. The base of the stone is constructed with basal (kankar) stone. The super structure

is constructed in traditional lakhori bricks set in mud mortar as the core masonry. It is faced with lakhori bricks set in lime mortar.

15. **Tombs of Alfsani:** Tomb of Mujadid Alfsani, commonly known as Hathi ka Maqbar. Tomb of Alfsani (also known as Tomb of Mujadid Alfsani/ Haathi ka maqbara) is one of the earliest surviving remains of Sirhind. It's Representative of 15-16th C AD tomb architecture, it is located. On the outskirts of the settlement Talanian, It presently stands in ruinous condition, with agricultural fields cutting into its base. The architectural style is similar to another monument in Ludhiana which was constructed in early 15th Century. These two tombs have unique details specific to Afghan architecture. This is one of the oldest constructions which survived destruction of Sirhind by Sikhs.

16. **Tomb of Bibi Taj:** Bibi Taj was the daughter of the Aqil, brother of Caliph Ali. Her tomb is locally known as Haj-O-Taj. The Most interesting feature of this structure is the exterior finish in blue glazed tiles. The tomb is representative of 15th century architecture. In the outskirts of the settlement Talanian (rural), this unprotected structure presently stands in ruinous condition surrounded by agricultural fields, along the main road, subjected to disuse and neglect. The selected tombs are all historic structures from the 14th to the 16th century and are the only surviving examples of their period. These tombs are constructed on a raised plinth, about 1 m higher than the surrounding area. The base is constructed in Basal stone while the structure itself is constructed in stone and nankshahi/ lakhori bricks. The core of these walls is built in mud mortar with two outermost layers in lime mortar. These are single cell, square in plan, symmetrical structures. The centrally located openings provide

access from each side. The roof of these dome placed on an octagonal drum. The Tomb of Bibi Taj is an exception it has minarets on all four corners along with the dome. The interior is beautifully decorated with niches and motifs.

17. **Rauza Sharif:** The Rauza Sharif Complex has more than one building to restore and a few site development works that are proposed. Sheikh Ahmed Sirhindi is recorded to have erected a mosque near his residence in 1008/1599-1600. On the same site a larger mosque is recorded to have been built by Tarbiyat Khan in 1064/1636-37. Most probably, the older part of the mosque that we see today was built by Tarbiyat Khan. As it has always been a living mosque, additions and alterations were made to it from time to time.

18. **Eco-tourism development at Ropar Wetlands – Infrastructure development including upgradation of Interpretation Centre, construction of Bird Watch Tower, creation of nature trails, visitor facilities like toilets, rain shelters, sitting benches etc.:** Ropar district has many historical places and religious places including Gurudwaras such as Bhhatha Sahib, Tibbi Sahib and Sadabarat Sahib. Ropar possess a very rich historical background and is considered to be one of the oldest towns in Punjab. Ropar town in itself is a tourist destination exhibiting diversity of unique tourist products. The remains obtained from an excavation reveal that Ropar is one of the major sites of Indus Valley Civilization. Ropar wetland is located adjoining to Ropar town. Ropar is district headquarters and located at an approximate distance of 42 Km from Chandigarh city. There are 12 villages along the Wetland. The total area of wetland is 1365 ha, of which 800 ha is under river and reservoir.

The wetland is characterized as manmade freshwater riverine and lacustrine wetland.

19. **Infrastructure Development for Promotion of Rural Tourism including last Mile Connectivity from skew bridge Ropar to Gurudwara Mata Gujri:** The project area is located adjacent to the Ropar town at a distance of 3 km from town and lies along the banks

of river Sutlej. The villages can be approached through narrow road. In order to promote the rural tourism, the Ropar District Rural Tourism Cluster is formulated which cover the villages of Katli, Bahadurpur, Ranjitpura Bas Tibba Taprian and Gardolian. These villages in Ropar district have traces of ancient civilization and natural scenic environment.

20. **Eco-tourism development at Harike Wildlife Sanctuary – Infrastructure development including upgradation of Interpretation Centre, construction of tourist reception complex, creation of nature trails and boardwalks, visitor facilities like toilets, dustbins etc:** Harike Wildlife Sanctuary is one of the largest bird sanctuaries of North India which lies in south-west of Punjab. It covers total area of 86 sq. km and is managed by wildlife division of Ferozepur. It is part of manmade reservoir created by

impounding water below the confluence of Beas and Sutlej rivers at 150 Km south-west of Chandigarh city. The head-works controls the flow of these rivers water and throw back barraged into large lake called Harike Lake which touches three districts of Punjab State namely Kapurthala, Tarn Taran and Ferozepur. The final notification of the wetland as a Sanctuary, as per provisions of the Wild Life Protection Act, 1972, came in the year 1999. As

a wetland it gained status of international importance by the "Ramsar Convention"¹ in 1990. The National Committee on Wetlands, Mangroves and Coral Reefs of the Ministry of Environment & Forests, Government of India has also identified it as one of the special wetlands for conservation action and management.

21. **Conservation of Main Gate of Quila Androon and Art Conservation works with Adaptive Reuse, Landscaping and utility works at Quila Mubarak:** Quila Mubarak (Fort of triumph) was established by Baba Ala Singh, The founder of the Patiala dynasty in

1763CE. Quila Mubarak is an outstanding and exemplary architectural delight located in Patiala. The fort has elements of both Mughal and Rajasthani architecture, the imposing facade of Quila Androon is marked by monumentality with the facade slightly leaning inwards. The sprawling Quila Mubarak complex is spread on a 10-acre land in the heart of Patiala. The complex comprises a main palace building known as Quila Androon, the guesthouse called Ran Bass as well as a Darbar Hall. The red sandstone gateway with latticed multiple arched opening is the only entrance to the Fort complex and leads to an open space popularly known as the Quila Androon Chowk. The Fort is laid out on a square plan, with monumental bastions at the corners. The fort wall is plain with some elaborative stucco work still surviving.

22. **Nabha Quila (Fort) Conservation and Adaptive Reuse as community resource centre:** Nabha Fort complex is located in the centre of Nabha town with the complex facing north-west. The open space towards the front is ceremonial by design, the entrance to both the Quila Androon and the Kacheri (now Tehsil) being from this space. The south eastern edge of the complex has adequate open ground behind it to provide a grand view of the rear of the Quila complex (the outer fortification wall on that edge having collapsed many years ago). The Bastions and the existing fort wall define the edge of the cultural edifice. The fort is flanked by residential buildings on its three edges and a commercial spine on the north-western edge. The built grain size suggests that most of the north western and north-eastern edge have retained the historic fabric size, whereas the plot sizes on the south-eastern and

¹ The Ramsar Convention is one of the oldest intergovernmental treaty that symbolize the commitments of its member countries to maintain the ecological character of their Wetlands of international importance and to plan for the "wise use" or sustainable use, of all of the wetlands in their territories. The convention was signed on February 2, 1971 in a place called Ramsar in Iran. Since then the day is celebrated as "World Wetlands Day". It marks the date of signing of the convention on wetlands.

south-western edge have larger plot sizes which might be evidence of a change in historic fabric texture.

23. The foreground of the Quila Androon (towards the main entrance) is scattered with small-sized temporary built components which are later additions. In 2007 the State Government of Punjab decided to lease out the complex for 66 years to the Nabha Foundation (a family trust). A PIL was lodge against this decision. In the final verdict the Punjab High Court decided to have a Public Private Partnership for conservation and sensitive reuse of the fort under the Nabha Foundation. The Nabha Foundation, registered in 2003 under the Indian Charitable Trust was established to undertake philanthropic activities in Nabha region. It has been consistently working in the field of education, heritage conservation, community health, training and capacity building of the villagers. The

foundation has submitted the restoration and reuse plan to the state government, and has committed an investment of INR 15 crore on the project over seven years. The project aims conservation and preservation of the building layers from all distinct historic periods including its revitalization as a vibrant and socially meaningful cultural hub.

24. **Upgradation/Strengthening of Last Mile Connectivity including Culverts and Bridges to the Samadh of Jarnail Sardar Shyam Singh Attariwala & Parking from Amritsar – Attari Road.** Attari is approximately at a distance of 600 m from NH-1 and is about 25 km from Amritsar on the Amritsar- Wagah Border Road. Sardar Shyam Singh Attariwala (1785-1846) was a Sikh general in Sikh army of the Lahore Darbar who belonged

to a Jatt family of the Sidhu clan. He was first in line to convert to Sikhism in the early days of Sikh political ascendancy and joined the Jatha or band of Sardar Gurbaksh Singh of Roranwala. He soon established his protection over an area around Attari, a village he founded some 25 km west of the holy city of Amritsar. This component is linked to subprojects taken up in Tranche 1 and proposed to be taken up in Tranche 3 in Amritsar as well as other projects being funded under other schemes / plans of state government or GOI.

25. **Widening and improvement of Chheharta Dhand Bir Baba Buddha Sahib road (2.40 Km) Chheharata - Dhand – Bir Baba Buddha Sahib Road-** Gurdwara Bir Baba Buddha Sahib is situated on Chabal - Amritsar road near village Chabal Kalan in district Amritsar Punjab India. Guru Arjan Dev also visited this place at some stage. Baba Buddha ji spent many years looking after the Bir, a reserved forest used for cattle grazing, said to have been offered to Guru Arjan by Chaudhari Langah of Patti out of his private lands. The shrine honours and commemorates Baba Buddha ji (1506 - 1631), the venerable Sikh of the time of Guru Nanak who lived long enough to anoint five succeeding Gurus. This component is linked to subprojects proposed to be taken up in Tranche 3 in Tarn Taran District as well as other projects being funded under other schemes / plans of state

government or GOI. Besides the daily prayers and the celebration of important anniversaries on the Sikh calendar, largely attended divans take place on the first of each Bikrami month. The biggest function of the year is a religious fair held on the 21st day of Assu, corresponding with 5-7th October. Also, it is believed that the tourists on the pilgrim tour who visit the Golden Temple also visit Gurudwara Bir Baba Buddha for the pilgrimage is believed to be incomplete otherwise. During the fair, devotees in lakhs visit the place which leads to traffic Jams which becomes inconvenient for the tourists.

26. **Conservation of Inner and Outer Moat Walls:** The Gobindgarh Fort is one of the most striking edifices in Punjab. It is located outside the walled city, at an approximate distance of 3 km from Golden Temple (Harmandir Sahib). It was previously known as Bhangian Da Kila. The fort was built in 1760, and occupied a unique place in the Indian military history. The Grand Trunk Road lies on the northern side of the fort. The fort covers a total area of 42.26 acres. The ramparts of the fort are 8 m high while a moat about 5.5 m deep surrounds it on all sites. The imposing height of the inner walls of the fort has been laid in a concentric pattern. Four grand bastions surmount the four corners of the fort, giving it a formidable form.

27. **Conservation of Darbar Hall (Central Building only)** The Darbar Hall is an enormous and majestic building of national importance, which dominates the central part of the city of Kapurthala. It is a place where Indian Kings had their formal and informal meetings. Constructed in Mughal style, Darbar Hall is one of the spectacular pieces of art. A portion of the Hall was built in 1889. The simplicity and grace that adorns its doors and

windows, typical of almost all the mosques, are its characteristics. The central hall namely Darbar Hall is vacant and need conservation.

3. PROJECT OBJECTIVES AND SCOPE

28. IDIPT envisages an environmentally and culturally sustainable and socially inclusive tourism development in Punjab with the objective of economic growth and provision of livelihood opportunity for local community through Tourism Infrastructure Development with the focus of preservation and development of natural and cultural heritage and incidental services. The expected impact of the Project is sustainable and inclusive tourism development, in priority, State tourism sub circuits divided into marketable cluster destinations that exhibit enhanced protection and management of key natural and cultural heritage tourism sites, improved market connectivity, enhanced destination and site environment and tourist support infrastructure, and enhanced capacities for sustainable

destination and site development with extensive participation by the private sector and local communities. The main objectives of the IDIPT are:-

- i) Improving connectivity between the main gateway centres and main tourist sites,
- ii) Improving the quantity and quality of environmental, tourist support infrastructure as well as village-based tourism infrastructure
- iii) Restoring and improving the conservation and management of cultural heritage sites
- iv) Ensuring that the investment in tourism infrastructure is operated and maintained at a high standard.
- v) Strengthening key institutional arrangements and capacities among the State executing and implementing agencies to plan the development of marketable destinations along the priority circuits of the state, provide and ensure the sustained operation and management of tourism infrastructure investments in partnership with the private sector, and where feasible local communities, and to underpin market demand through public-private partnership-based marketing and promotion of destinations within the framework of an overall State marketing and promotion program; and
- vi) Preparing local communities and their supporting NGOs to participate more effectively either directly or indirectly in the tourism value chain in their destination, as well as participating in the operations and maintenance of village and community-based connectivity, environmental and tourist support infrastructure, and conservation of local heritage assets.

29. The ensuing Project is intended to address both the physical infrastructure development and regulatory, institutional and capacity building issues identified above. The investment program outputs will be:-

- i) Improved basic urban infrastructure (such as water supply, sanitation, road and public transport, solid waste management, and environmental improvement) and incidental services (such as public toilets, street signage and lighting) at existing and emerging tourist destinations and gateways;
- ii) Improved connectivity to tourist attractions focusing on the improvement of last-mile connectivity;
- iii) Enhanced quality of natural and cultural tourist attractions to ensure convenience and safety for visitors;
- iv) Greater participation by local communities in tourism-related economic and livelihood activities; and
- v) Strengthened capacity of concerned sector agencies and local communities for planning, development, management, and marketing of tourist destinations and attractions, and promoting
- vi) Private sector participation and small businesses.

30. After Project Completion, in the Project areas it is expected that:

- i) Easy access for tourists to find and travel between the main gateway centres and the main tourists attraction sites in the destinations.
- ii) Effective site conservation and management systems will be in place for all main cultural heritage buildings and landscapes in the destinations.

- iii) Sustainable site management arrangements for sustainable management and operations and Maintenance of tourism infrastructure investments will be in place in all destinations including policy based support for natural and cultural heritage sites, activities and themes.
 - iv) Around 150 site managers spread over 21 sites, 750 individuals spread over 75 communities, and 200 public sector officials in state and district tourism offices and related agencies will have undergone training on heritage management, tourism service skills, and tourism destination planning, development, marketing and regulation.
 - v) Increased investment by the private sector in tourist facilities and services will have taken place.
 - vi) 21 local community clusters (75 villages) will be linked to the tourism value chain in partnership with the private sector; and;
 - vii) About 1,24,900 direct and indirect jobs will be created in the tourism industry.
31. The monitoring of the social issues is being carried out by PMC with the help of DSCs in view of ADB Safeguard Policy Statement and the Resettlement Framework agreed upon by PHTPB, Government of Punjab as part of the loan agreement. The methods followed for the monitoring included (i) review and appraisal of sub-project reports and documents such as IEE reports, Contracts documents, (ii) consultations with PMU/PIU (iii) on-site observations and interactive meetings and discussions with the community and other stakeholders.

4. PURPOSE OF THE REPORT:

32. The purpose of Social Monitoring Report basically looked into the physical as well financial progress of sub-projects and analysed the compliance with the approved Resettlement Framework, Involuntary Resettlement (IR) and SPS (2009) of ADB.
33. The ADB Public Communications Policy (PCP 2011) refers the Safeguard Policy Statement (SPS 2009) with respect to information disclosure related to project safeguard documentation states that ADB shall post on its website the safeguard documents submitted by the borrower and/or client. These safeguard documents include Resettlement & Indigenous Peoples Plan (RP & IPP), and the social safeguard and environmental monitoring reports. To comply with the PCP of ADB, the PHTPB shall submit semi-annual monitoring report periodically over the total implementation period of the project, covering Environment, Resettlement and social safeguard issues. This also has been spelled out in the project document & loan covenant of IDIPT that the borrower/client shall submit the aforesaid reports to ADB.
34. The current report is the 2nd Semi-Annual Social Safeguard Monitoring Report prepared to comply with the loan covenants covering the period from January to June 2016 in a cumulative process. This report covered social safeguard monitoring results to comply with the spirit of ADB policy to “enhance stakeholders trust” in and ability to engage with ADB, and thereby increase the development impact [of projects]” in which disclosure of safeguard monitoring is a prominent aspect.

5. SOCIAL SAFEGUARD/RESETTLEMENT CATEGORIZATION

5.1 ADB's classification system

35. Prior to civil works implementation, all the subprojects selected for construction or development to be Screened and Classified using ADB's classification system as follows:

- **Category- A:** Subprojects proposed for construction or development, will fall under this category, if, it caused a significant involuntary resettlement impacts with a physical displacement of 200 or more persons from their residences, or 200 or more persons lose 10% or more of their productive or income generating assets, or more persons or 200 or more persons experience a combination of both.
- **Category- B:** Any proposed subproject that includes involuntary resettlement impacts but are not deemed significant considering loss of shelter/houses or productive or income generating assets will be considered for category B.
- **Category- C:** A proposed subproject that has no involuntary resettlement impact.

5.2 Subprojects Categorization under IDIPT

36. The PHTPB projects are classified as category B for involuntary resettlement and category C for Indigenous Peoples in considerations of the ADB Safeguard Policy Statement. However, none of the Subprojects selected for implementation are likely to have any adverse Involuntary Resettlement (IR) impacts. Most land parcels/Interventions are owned by local governments; however, some subprojects, if require any minor land acquisition and involuntary resettlement involving either physical or economic displacement, or temporary restrictions to land use that will be duly complied with the IR and SPS of ADB.

6. POLICY AND LEGAL FRAMEWORK

37. The resettlement principles adopted for this Project recognize the Government of India's Land Acquisition Act (1894), National Rehabilitation and Resettlement Policy (2007), and 'Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013, and the relevant Asian Development Bank's (ADB) policies and operations manuals, in particular the Safeguard Policy Statement (2009), and Operations Manual F1 (2010).

7. PROJECT ORGANIZATION STRUCTURE

7.1 State Level Project Empowered Committee.

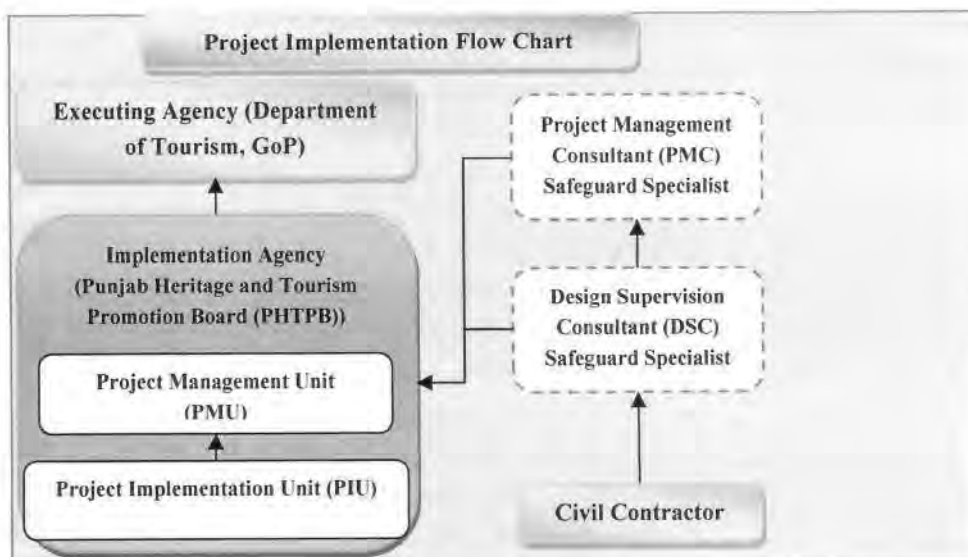

38. State-Level Empowered Committee (SLEC) have been established in Punjab, chaired by Chief Secretary, Govt. of Punjab with Principal Secretary/Secretary of the Department of Tourism as member secretary and comprised of secretaries from relevant line departments as indicated in the Facility Administration Manual (FAM). The SLEC have been empowered to take all decisions on behalf of the State and will (i) act as a policy making body, (ii) provide overall advice and guidance to the State's executing agency and project management unit (PMU), and (iii) accord all approvals under the Project.

39. The members of SLEC for the Punjab are as follows: Chief Secretary (Chair); the Principal Secretary / Secretary of the Department of Tourism; the Principal Secretary / Secretary of Finance; Finance Commissioner, Department of Forests and Wildlife

Preservation; Principal Secretary / Secretary, Public Works Department; Principal Secretary / Secretary, Department of Local Government; Secretary, Department of Rural Development and Panchayat; Principal Secretary / Secretary, Irrigation; Director, Department of Cultural Affairs, Archives, Archaeology and Museum; Representative, Archaeological Survey of India; Principal Secretary / Secretary, Department of Fisheries; Director, Department of Tourism; and Principal Secretary/Secretary, Department of Housing and Urban Development.

7.2 Executing Agencies:

40. The Department of Tourism (DOT), Government of Punjab is the executing agencies of the Punjab. All necessary powers to: (i) assume overall responsibility for the execution of the tranche; (ii) engage adequate permanent or fixed-term staff to implement the tranche; (iii) setup a state-level PMU and project implementation units (PIUs); (iv) provide overall strategic guidance on technical supervision and project execution; and (v) ensure overall compliance with the loan covenants, will be delegated to the respective executing agencies. The Project Implementation flow chart showing the reporting lines and key agencies involved in implementation is shown here.

7.3 Implementing Agency:

41 The Punjab Heritage and Tourism Promotion Board (PHTPB) is the implementing agency in Punjab

7.4 Project Management Unit:

42. PHTPB have a PMU, headed by a full-time Program Director (PD), and consisting of personnel drawn from relevant line departments and market. The PMU are being supported by a team of consultants including Social and Environmental safeguard specialist. The PMU is the nodal agency for overall management of all program activities and are responsible for: (i) project planning and budgeting; (ii) providing day-to-day assistance, supervision and guidance for the project implementation units (PIUs) and their consultants; (iii) reviewing subprojects to satisfy ADB's due diligence requirements and approving subproject proposals submitted by PIUs and line departments; (iv) bidding, evaluation and contract award; (v) managing and disbursing funds; (vi) reviewing compliance with loan covenants, contract

specifications, work plans and quality control; (vii) consolidating and submitting progress reports, finance and accounting/audit reports, and matters requiring higher-level decision, to the SLEC and ADB.

43. The State shall ensure that (i) specific divisions in the Project management units is staffed for financial management; (ii) transparent procedures are established for financial transactions; (iii) the PMUs follow government rules and procedures for all expense and revenue items including cash and for proper and accurate maintenance of financial records; and (iv) a project website remains established to provide information on Project implementation including procurement.

7.5 Project Implementation Units:

44. The implementing agency had already established two PIUs, one for each circuit (Eastern and Western) at Rupnagar (Ropar) and Amritsar respectively for the implementation and monitoring of subprojects. It comprises the personnel drawn from relevant line departments and outsourced, and each headed by a project manager and supported by Community Development Officer (CDO) for effectively implementation of the RF and ensures the safeguard compliance provisions of the investment program. The PIUs are responsible for: (i) prioritizing and preparing subproject proposals; (ii) providing day-to-day assistance, supervision and guidance to the design and supervision consultants (DSC); (iii) conducting detailed assessments and surveys including public consultation and input from stakeholders; (iv) preparing detailed designs, specifications, schedule of quantity, bidding documents, and related documentation; (v) implementing civil works and related activities; (vi) reporting to PMU; (vii) preparing regular progress reports for the SLEC, the executing agency and ADB through PMU; (viii) supervising construction, conducting quality control, approving progress payments to contractors; and (ix) maintaining records and accounts on an up-to-date basis and making these available to ADB, its missions, or auditors for inspection.

45. Presently Ropar and Amritsar PIU is responsible for the sub-projects in Tranche 3 & Tranche 1 (Eastern/Western Circuit) functioning and monitoring safeguards activities, the team comprising, the overall responsibility of safeguards implementation is Project Manager in assistance with Community Development Officer (CDO) and reporting monthly to PMU. Social and Environment Safeguards Specialist PMU further reporting to GoP and ADB as per agreed reporting schedule. Social Safeguards Specialist from DSC and PMC have been mobilised.

7.6 Grievance Redressal Mechanism

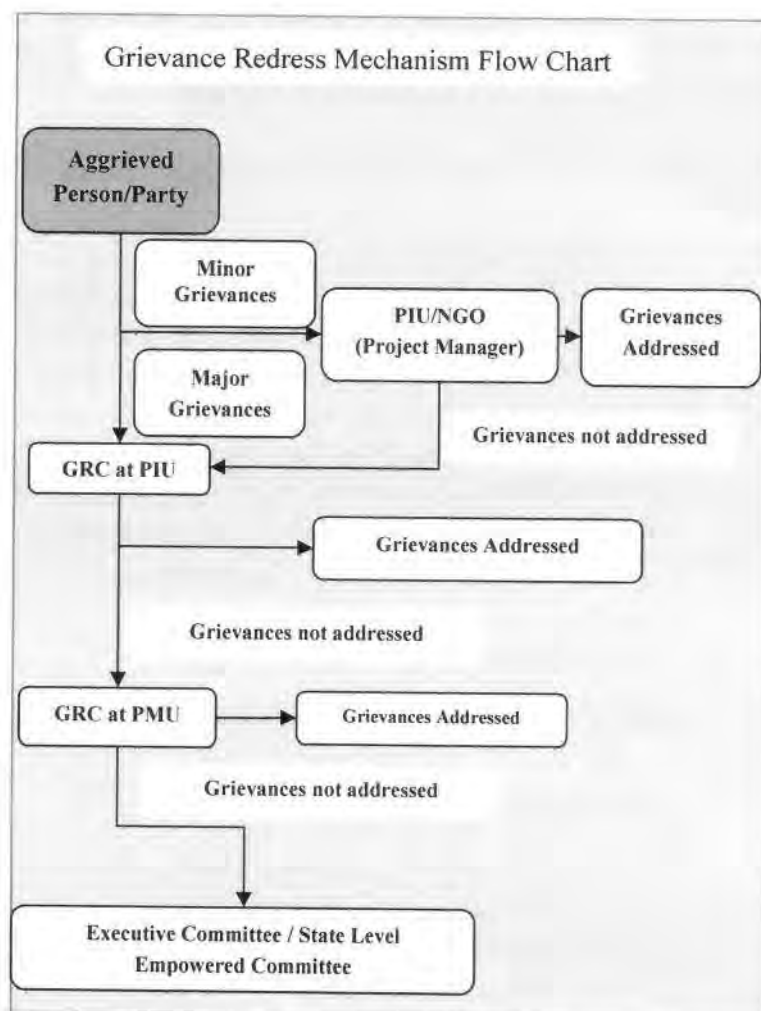

46. It would be pertinent here to refer the Asian Development Bank's policy, which requires proper mechanisms for resolution of disputes that may arise from any aspect of the project and development process. The mechanisms should be "affordable and accessible," and third parties independent of the implementers should be available at the appropriate point in the process. The grievance procedure need to be simple, administered in the first instance at the local project level to facilitate access, flexibility and open to various proofs taking into account the need for speedy, just and fair resolution of any grievances.

47. The structure suggested of Grievance Redress Committee (GRC) in RF at PIU as follows. For all the IDIPT sub projects, the affected person/aggrieved party can give their grievance verbally to Site Engineer or in written to the Project Manager of PIU. Grievances of affected person will first be brought to the attention of the site Engineer PIU, who can

resolve the issue at site level. If the matter is not solved within 7 days period at site, it will be brought to the Grievance Redress Committee (GRC) constituted for the purpose in PIU. This GRC shall discuss the issue in its monthly meeting and resolve the issues within one month of time after receiving the grievance. If the matter is not resolved by GRC at PIU level within stipulated time, it shall be referred to GRC at PMU level by Project Manager PIU. If the matter is still not addressed, the same may refer to Executive Committee / State Level Empowered Committee (SLEC).

48. In each PIU, there shall be one GRC, which will include mentioned members;

1. Project Manager (PIU) , Chairperson
2. District Tourist Officer of Department of Tourism, Govt. Of Punjab,
3. Community Development Officer of PIU,
4. Nominated representative of Deputy Commissioner and
5. Nominated representative of Municipal Commissioner.

49. The committee required to meet at least once in every month. Agenda of meeting shall be circulated to all the members and affected persons/aggrieved party along with venue, date and time; informed in written at least 7 days in advance of meeting. The matters shall remain with GRC at PIU level for one month and if grievance is not resolved within this time period, at the matter shall be referred to GRC at PMU.

50. Grievance Redress Committee (GRC) at PMU. The matters not resolved by the GRC at PIU level within one month shall come under GRC at PMU. GRC at PMU will include:

1. Additional Project Director (APD)
2. Forest Conservation Specialist (PMU)
3. Social Safeguard Specialist (PMU)
4. Community Development Specialist (PMU)

51. The Committee shall be headed by APD of PMU. This committee shall look the matters, which are referred to and not resolved by GRC at PIU level.

52. GRC at PMU shall discuss the issue and try to resolve it and inform the PIU accordingly. If the matter is not resolved by the GRC at PMU level within one month of time, the aggrieved person/party can bring the matter to The SLEC. The PIU shall keep records of all grievances received including contact details of complainant, date of receiving the complaint, nature of grievance, agreed corrective actions and the date these were affected and final outcome. Regarding grievance or complaint, GRC formation is in process. However, during the monitoring period no grievance has been received.

8. ASSESSMENT OF SOCIAL IMPACTS AND INVOLUNTARY RESETTLEMENT

53. The Tranche-3 sub-projects have been categorized as "C" for involuntary resettlement (IR) as well as Indigenous People Development as per ADB's Safeguard Policy Statement (SPS-2009). As the undertaken sub-projects being a conservation / renovation and strengthening project, all will be executed within the existing boundaries of interventions. Therefore, no additional land will be required resulting no impact on land acquisition and involuntary resettlements. Hence, there was not any affected household. The construction activities have been started in the month of June in last mile connectivity and subsequently in other sub-projects. Regarding the execution of projects, permissions have already been acquired through departmental linkages and NOCs / undertaking from linked agencies have been obtained.

8.1 Details of Land Acquisition

54. As per DPR, there is no land acquisition (temporary or permanent) required for Tranche 3 sub-project.

8.2 Transfer of Government Land: Process

55. The proposed sub-projects are being conservation of old historical building, hence the work is not involves any land acquisition etc. Further, the subprojects which are proposed for new construction are being constructed in the government land. The land/area belongs to the mainly, Department of Cultural Affairs, Archaeology and Museums, Punjab, Punjab Mandi Board (approach road last mile connectivity), wetland, Forest and Wildlife, R&B, PWD and other agencies. NoC's from the department and undertaking regarding no new Land acquisition and not affecting any of squatter and encroachers have been obtained.

8.3 Compensation for PAPs

56. It has been ensured during the selection of subprojects that safeguard impacts will be avoided or minimized. There is no impact has been identified on any category like title holder / squatter / encroachment. Hence preparation of RP has not been envisaged and no matter of any compensation involved in this programme.

57. **Details of affected properties:** There will not be any impact on built-up structure of other properties.

58. **Impact on Trees:** there are no major impact on trees apart from sub-projects like, one tree in last mile connectivity (Attari approach road) and total 43 trees in skew bridge to Gurudwara Mata Gujari approach road. Necessary permissions from forest department have been obtained and removal of trees is in progress. Tree affected in Attari approach road has been removed and construction is in progress.

8.4 Impact on Scheduled Tribe population

59. Discussions with the project authorities reveal that the project will not affect any ST Households. Districts where Tranche 3 sub-projects falling are not part of the notified Fifth Schedule area². As per the Article 342 of the Constitution, no indigenous peoples or scheduled tribes have been identified in subproject; hence The Indigenous Peoples safeguards are not triggered under the project. Further, as mentioned in the Indigenous Peoples Planning Framework of ADB (July 2010) Scheduled tribes are in all States and Union Territories except in the States/Union Territories of Haryana, Punjab, Delhi, Pondicherry, and Chandigarh. No tribe has been notified as scheduled tribe in Punjab, according to the Constitution (Scheduled Tribes) Order, 1950 as amended by the Scheduled Tribes Orders (amendment) Act, 1976.

8.5 Public consultation, HIV/AIDS, Health and Safety awareness etc

60. Since the tranche 3 sub-projects are in now under implementation, the necessary consultation with the various stakeholders including labourers, women workers, line agencies such as Forest Department, Punjab State Aids Control Society (PSACS) by Community Development Specialist, Gender Specialist, PIU Ropar have been conducted. Community Development Staff, DSC and Community Mobilizers are helping in organising the consultations. Social Safeguard Specialist, PMC and DSC has also attended some consultations, discussed their views and ADB's safeguard requirement. These consultations were organized at sub-project sites, PIU office and village sites. During formal/informal consultation, it was revealed that the conservation and development of these heritage and tourist destinations and tourist information centres / interpretation centres will attract to the tourists resulting the business opportunities and employment, local goods etc. will be sold. Project wise specific discussion held at different sites are summarised below. Detailed reports on training workshop, Fulkari etc are appended as Appendix-1.

² Fifth Schedule under Article 244(1) of Constitution defines "Scheduled Areas" as such areas as the President may by order declare to be Scheduled Areas after consultation with the Governor of that State. The criteria for declaring any area as a "Scheduled Area" under the Fifth Schedule are; (a) preponderance of tribal population, (b) compactness and reasonable size of the area, (c) a viable administrative entity such as a district, block or Taluka, and (d) economic backwardness of the area as compared to the neighbouring areas.

8.6 Training Workshop Conducted

61. As part of the safeguard, the training / workshop programme were organized for all the project contractor, DSC, PMC, PMU technical team along with stakeholders regarding Social and Environmental consideration / aspects in IDIPT works. Summary of the training workshops are presented in the table below and detailed report on Workshop and photos are annexed at Ap 8 Table 12: Workshop Details (total participants M/F)

Table 6: Summary of Training Workshops Organised

Sl. No.	Training	Date & Time	Number of Participant	Issues Discussed
1.	Training on "Social, Environment Safeguard and Gender Empowerment & Women Equality (GEWE)"	08/01/2016 11:00 a.m.	60 (9 women)	<ul style="list-style-type: none"> • Issues on Social, Environment Safeguards • Gender Disparity • Need of Gender Equality & Empowerment • Capturing Gender Equality results in ADB funded projects
2.	Workshop on World Day on Safety and Health at Work	28-04-2016	38 (19 women)	<ul style="list-style-type: none"> • Sensitize the labour on the safety and health measures at site. Also aware them about the use of PPEs.

3.	Training on Implementation of Social Safeguards and Gender Equality & Women Empowerment (GEWE) in Asian Development Bank operations	24-05-2016	56 (10 women)	<ul style="list-style-type: none"> • Introduction to Social and Environment Safeguards, regulations and statutory requirements as per GOI and ADB guidelines. • Training for workers to use PPEs to comply with health and safety procedures. • Roles and Responsibilities of Officials/Contractors and Consultations towards implementation of Environment Management Plan (EMP) • Understanding ADB and Social Safeguard and Gender Action.
4.	Phulkari Training	24-05-2016 to 28-05-2016	39 (32 Women)	<ul style="list-style-type: none"> • Train the local SHGs members in Phulkari embroidery and also train to make some phulkari products also.
5.	Training of Trainers on HIV/AIDS	17-06-2016		<ul style="list-style-type: none"> • Awareness on HIV/AIDS, STIs, STDs, causes, symptoms and prevention.

Table 7: A glimpse of Training workshops

9. GENDER ISSUES

62. Approximately 460 women³ labourers are engaged in constructions work; however the most of women workers are not technical work. Contractors have been advised to engage more women worker at construction sites and the minimum 30% women engagement target should be achieved throughout project period. Women will be able to benefit from the project through improved access throughout the year especially during the festivals. The necessary mitigation measures have been suggested in order to avoid any discrimination against women during the project implementation in the contract agreement.

10. GAP IMPLEMENTATION

63. The Gender Action Plan provides the status of gender – related activities conducted, progress updates and details of issues and challenges in sub-projects falling in tranche 3. The projects consider gender issues at all appropriate stages of the project, and that the project activities are being carried out in accordance with ADB's Policy on Gender and Development (1998) and the Gender Action Plan developed for the Investment Program. In compliance of ADB's policy on Gender and implementation of GAP, Five day Phulkari training programme was organised for Self Help Group (SHG) / local community members to promote local handicraft and up gradation of Phulkari skills with the objective of Income generation. Resource person provided training to new members of SHG who are the interested to work. Gender Speciality helped in organising the event and arranged the facilities for trainees.

5 day Phulkari Training organized by PIU Ropar from 24-05-2016 to 28-05-2016 at Ropar

³ Source is labour register maintained by contractors at all the sites.

11. OTHER SOCIAL ISSUES

64. The project is expected to generate employment opportunities for local communities' semi-skilled and unskilled during the construction, operation & maintenance phase. EA/IA had regular instructions during construction and has been conducted information and education campaigns on the risks of HIV/AIDS, health & hygiene targeting construction workers at campsites time to time.

65. Also, EA/IA has instructed time to time to the contractors to ensure the followings during civil works (i) not to employ or use children for labour; (ii) to disseminate information at worksites on risks of sexually transmitted diseases and HIV/AIDS as part of health and safety measures for those employed during construction; (iii) organize monthly medical check-up camp for labour and (iv) to follow and implement legally mandated provisions on labour (including equal pay for equal work), health, safety, sanitation, and working conditions.

11.1 Action on HIV/AIDS Awareness/ Prevention Campaigns

66. Though infrastructure development projects emphasizes more on engineering aspect like technical and economic viability of the project but in ADB's assisted project, social responsibility becomes important. Prevention and control of HIV/AIDS transmission is one of the important social responsibility. Hence prevention and control of transmission of STD & HIV/AIDS have become important social responsibility of IDIPT projects.

67. The RF suggested conducting regular awareness campaign, training and workshops etc. on the issue. The same have been included in the civil contract document in the form of IEE report and 'GCC clause no. 2.3 (j)' says that the provision and suggestion made in IEE reports must be complied with by the contractor. Accordingly, the contractors are ensuring the safety of all workers, materials, plant and equipment belonging to him or to others working at the site through effective and practicable safety management systems.

68. **Medical Check-up Camp** shall be organised in all the interventions to ensure regular examination of all the labourers engaged in construction sites. The camp organization is the responsibility of Contractor and DSC's Social Safeguards Specialist along with the CDO from PIU.

12. SUMMARY MONITORING RESULTS AND KEY FINDINGS:

69. In order to identify the IR Impacts, if any, during the Project implementations, site visits and consultative inspections in the project areas have been monitored by the PIU/PMU and it has been confirmed that the implementation of the above mentioned projects would not have been any resettlement impact. Site visits by CDO is being conducted on regular basis to observe the site conditions, engagement of female workers and basic facilities (lodging, drinking water, sanitation etc.) available for them at the site. Orientation and training were given to the staff & labourers on health and safety management at site. The nearby residents were aware about the work and duration of construction. Table 3 are presented the indicators being monitored w.r.t. RF and other social issues respectively.

Table 3: Monitoring Indicators and Findings

Sl. No.	R&R Activities (Indicators)	Safeguard Applicability	Status of Compliance
1	Impact	The selected sites are mainly under	Complied with

	minimization measures	conservation and no impact noted. Livelihood pattern of the any person/villagers is not affected due to the project. The project categorized as "C" for involuntary resettlement (IR) as well as Indigenous people development as per ADB's Safeguard Policy Statement (SPS-2009).	
2	Public consultation and disclosure	Public consultation has been carried during the project preparation / implementation stage	Complied with
3	Implementation arrangement	Social safeguard implementation is part of the contract of IDIPT. PMU along with the PIU personnel is the core group responsible for social safeguard implementation at the project site. PMU and PIU is assisting in overall implementation of social safeguards.	Complied with
4	Grievance Redress Mechanism	The GRM provides redress for grievance arising from resettlement, Compensation and environmental impact during subproject implementation.	Complied with

70. All the measures were taken to minimize the IR impacts at all sites by the design team. No private land acquisition and resettlement impact is envisaged in any of the sub project where the conservation or new civil work is in progress.

- Informative signage about the project, its components and the project cost has been placed at the project sites for maintaining the transparency.
- The works are being done with minimum inconvenience to the local community and the tourists. During IEE preparation, PIU/PMU team has explained the importance of short inconveniences and long term benefits of the program to the public and people. Their cooperation is obtained as they understand that the tourist flow will be increased as an outcome of the sub projects. The visitors will spend more time to see the natural sites and to know importance of cultural and heritage sites, use the facilities and pay for them, which will help in improving economy of the holy town Amritsar. It will also be a good income source for Punjab.
- Consultation, informal discussion, awareness generation and information dissemination is regularly done by PIU / PMU. Meeting and FGD have been carried out by Community Development Officer of PIU also in the respective villages, where works are proposed.
- All the institutional arrangements have been established for compliances of ADB's safeguard policy. Safeguard Specialists of PMC/DSC have been mobilised for review and implementation of safeguard procedures.
- State level meetings are being organized on schedule basis to review the progress of the work and its timely completion etc.

- Considering the Gender aspect, women representation is visible in the project units.
- Grievances Redress System has been established. Works are going on systematically and till date No grievances have been reported by the local people during the project implementation. Necessary instructions have been issued for maintaining the by the contractors /support engineer on the site for registering grievances, if any.
- Frequent visits of the construction sites are being conducted by the project team.

13. FOLLOW UP ACTIONS, RECOMMENDATION AND DISCLOSURE

71. In implementation of ADB funded project, safeguard compliance is an important and highly valued aspect. The key observations of the monitoring on the social safeguards in general and implementation of ADB's IR Policies in particular are summarised as follows:

- No social impact in any sub-project, apart from temporary impact like parking facilities, narrow road access, storage of construction material etc.
- NOCs and undertaking from parent department with countersigned by district administration regarding working permission and no involvement of any land acquisition and private structures have been obtained.
- Institutional arrangements followed the guidelines of Resettlement Framework. PMU and PIU with support from Social Safeguards Specialist and Community Development Officer respectively has regularly monitored the social related issues. Joint site verification, preparation of monitoring report, were done with due adherence to the agreed Framework.
- The communities are aware of the project and have positively participated in the project activities.
- Contractor's staffs along with labour, supervisor and women labours needs to sensitize the ADB's policy on social safeguard.
- Project and Grievance Redressal related information must be displayed at each subproject site.
- Disclosure of safeguards documents shall be made available on PIUs/PMU and website.

Community Development Activities Report

Mrs. Sharanpreet, CDO-DSC, Ropar.</p> <ul style="list-style-type: none"> We interact with the local community members and told them about our ongoing project at Chamkaur Sahib our purpose of visit and formation of SHGs. The community members opined that they are interested to upgrade their skills in Phulkari work, Stitching and embroidery and Beauty Parlor to form Self Help Group. There is need to visit village regularly.
19.	29.03.2016 Village- Tiba Taprian, Ropar	<p>Visited By:-</p> <p>1.Ms. Sumati Bhaskar, Gender Spl. PIU, Ropar</p> <p>2. Mr. Kamaljeet Singh, CDO-PIU, Ropar.</p> <p>3. Mrs. Sharanpreet, CDO-DSC, Ropar.</p> <p>4. Mr. Baljeet Singh, Social Mobilizer, PIU-Ropar.</p> <ul style="list-style-type: none"> We held the meeting with group women and some other women. Two groups Rajpoot and Rana with 10 (each) members are finalized. All the group members elected their president, secretary and cashier with combine

		<p>consent.</p> <ul style="list-style-type: none"> We told them about overall process and documents required for opening a bank account.
20.	30.03.2016 Village- Katli, Ropar	<p>Visited By:- Mr. Kamaljeet Singh, CDO-PIU, Ropar.</p> <ul style="list-style-type: none"> Guru Kirpa and Sukhmani both the groups opened their accounts in Gramin Bank, Ropar. (Copy Attached)
21.	30.03.2016 Village- Tiba Taprian, Ropar	<p>Visited By:- Mr. Kamaljeet Singh, CDO-PIU, Ropar.</p> <ul style="list-style-type: none"> Rana group opened their account in Gramin Bank, Ropar. Rajpoot group's account opening is under process due to some documentation.
22.	30.03.2016 Village- Dhingi, Nabha	<p>Visited By:- Mr. Kamaljeet Singh, CDO-PIU, Ropar.</p> <ul style="list-style-type: none"> The village Sarpanch Mr. Jagsheer Singh Chandi approached, but he was not present at that time, so door to door field visit and interaction with the local community members took place. We visited the house of Panchayat Member Mr. Lalchand and discuss about our purpose of visit, ongoing projects at Nabha Fort and Formation of SHGs for skill development of local villagers. He told us that he need some time to discuss this matter with sarpanch and other panchayat members or local villagers. At last, he referred us to Mrs. Mahinderpal Kaur village anganwadi worker. We visited the anganwadi centre and met to Mrs. Mahinderpal Kaur village anganwadi worker and discuss about our purpose of visit and Formation of SHGs for skill development of local villagers and ask her about some interested women for SHGs training in different activities like Phulkari, Food Processing and Bee Keeping. She told us that there are most of the population belongs to labour class and need regular visits and counseling to motivate them regarding this programme. We also had a discussion meeting with local village women. We told them in detail about the running projects in the Nabha Fort. We educated the local people about the need and of making these types of Self Help Group. Also explained to them that how can these Self Help Groups are helpful to uplift their economic status. During the discussion group members are opened and showed interest in different activities i.e. Phulkari, embroidery, stitching, Food processing and making of Jute products. After a long discussion, they requested us to visit again, so that other women can also participate in meeting. At the last it was felt that subsequent discussions should be held to consider or sought out their confusions/doubts and completion of SHG registration process.
23.	30.03.2016 Village- Paharpur, Nabha	<p>Visited By:- Mr. Kamaljeet Singh, CDO-PIU, Ropar.</p> <ul style="list-style-type: none"> We visited the house of Village Sarpanch Mr. Mishra Singh but he is not present at home at that time. Then we had a discussion with the wife of Sarpanch Mrs. Paramjeet Kaur and told them in detail about the running project at Nabha Fort. We explain the need of making Self Help Groups and how these Groups are helpful to uplift the economic status of local villagers. After that she told that there are many women who are interested to take these types of trainings.

		<ul style="list-style-type: none"> • Then we visited some local villager's houses alongwith Mrs. Paramjeet Kaur and had a small discussion on SHGs. But most of the women were not available due to agriculture work. • So, she told us to organize a meeting in next week for both Paharpur and chhota paharpur villages. So that all the local villagers can participate in meeting and will make a SHG. 	
24.	30.03.2016 Village- Rampur, Mohali	<p>Visited By:-</p> <ol style="list-style-type: none"> 1. Mr. Karambir Singh, Social Safeguard Spl.PMU 2. Ms. Sumati Bhaskar, Gender Spl. PIU, Ropar 3. Mr. Kamaljeet Singh, CDO-PIU , Ropar. 4. Mrs. Saranpreet, CDO-DSC, Ropar. <ul style="list-style-type: none"> • We interact with the local community members along with the Sarpanch and told them about our ongoing project at Chhatbir Zoo (Mohali), our purpose of visit and formation of SHGs. • The community members opined that they are interested to upgrade their skills in Phulkari work, Stitching and embroidery, Making Jute Products and food processing to form Self Help Group. • There is need to visit village regularly. 	
25.	30.04.2016 Village- Paharpur, Nabha	<p>Visited By:- Mr. Kamaljeet Singh, CDO-PIU, Ropar.</p> <ul style="list-style-type: none"> • We had a discussion meeting with local village women. We told them in detail about the running projects in the Nabha Fort. We educated the local people about the need and of making these types of Self Help Group. Also explained to them that how can these Self Help Groups are helpful to uplift their economic status. • During the discussion group members are opened and showed interest in different activities i.e. Phulkari, embroidery, Karoshia Work, stitching, Food Processing and Making of Jute products. • At last it was felt that subsequent discussions should be held to consider or sort out their confusions and doubts. 	

26.	05-05-2016 Village- Harike Pattan.	<p>Visited By:- Mr. Kamaljeet Singh, CDO-PIU, Ropar.</p> <ul style="list-style-type: none"> • A meeting was held at village Harike Pattan and formed the SHG named Saheed Bhagat Singh (Resolution attached) • All the member of the group is promised to put their 100% make this SHG successful.
27.	06.05.2016 Village- Rampur, Mohali	<p>Visited By:- 1.Ms. Sumati Bhaskar, Gender Spl. PIU, Ropar 2. Mr. Kamaljeet Singh, CDO-PIU, Ropar. 3. Mrs. Saranpreet, CDO-DSC, Ropar.</p> <ul style="list-style-type: none"> • We interact with the local community members along with the Sarpanch. • All the community members form two groups namely Gurukripa and Happy Girls. (Copy of Resolution and Bank Account attached) • Both the group members are interested to take training in Phulkari, Food processing and stitching work. • After discussion, a resolution was passed and members choose their group's President, Secretary and Cashier. • Both the groups decided to open their account in nearby Punjab Gramin Bank at tomorrow.
27.	03.06.2016 Village- Rampur, Mohali	<p>Visited By:- 1.Ms. Sumati Bhaskar, Gender Spl. PIU, Ropar 2. Mr. Kamaljeet Singh, CDO-PIU, Ropar. 3. Mrs. Saranpreet, CD staff-DSC, Ropar. 4. Mr. Gurpreet, Social Mobilizer, PIU-Ropar.</p> <ul style="list-style-type: none"> • We interact with the local community members along with the Sarpanch. • Members of Gurukripa and Happy Girls told that due to some technical problem in resolution there bank account cannot open in the bank. • They also told some new members are there to join the group. • Again a resolution is passed with a voting process of President, secretary and Cashier with the overall consent of all members of Gurukripa Self Help Group and Happy Girls Self Help. • Both the groups decided to open their account in nearby Punjab Gramin Bank on Monday dated 06-06-2016.
