

Social Monitoring Report

Project Number: 40648-034
November 2016
Period: January 2016 – June 2016
(Part B)

IND: Infrastructure Development Investment Program for Tourism (IDIPT) - Tranche 3

Submitted by

Program Management Unit, Punjab Heritage and Tourism Board, Chandigarh

This report has been submitted to ADB by the Program Management Unit, Punjab Heritage and Tourism Board, Chandigarh and is made publicly available in accordance with ADB's Public Communications Policy (2011). It does not necessarily reflect the views of ADB.

This social monitoring report is a document of the borrower. The views expressed herein do not necessarily represent those of ADB's Board of Directors, Management, or staff, and may be preliminary in nature. In preparing any country program or strategy, financing any project, or by making any designation of or reference to a particular territory or geographic area in this document, the Asian Development Bank does not intend to make any judgments as to the legal or other status of any territory or area.

A Report of

Training Programme on Environment, Social Safeguards and Gender Empowerment and Women Equality

On 8th January, 2016
At Ropar

Punjab Heritage and Tourism Promotion Board (PHTPB)

ABBREVIATIONS

ADB – Asian Development Bank
BOD – Biological Oxygen Demand
BoQ- Bill of Quantities
CO – Carbon monoxide
CPCB- Central Pollution Control Board
DSC- Design and Supervision Consultant
EA - Executing Agency
EAC - Expert Appraisal Committee
EARF-Environment Assessment and Review Framework
EIA - Environmental Impact Assessment
EMP- Environment Management Plan
ES – Environmental Specialist
FAM – Facility Administration Manual
GC - General Conditions
Gol – Government of India
GoP – Government of Punjab
IDIPT- Infrastructure Development Investment Program for Tourism
IEE - Initial Environmental Examination
IP - Indigenous People Plan
IR- Involuntary Resettlement
MoEF - Ministry of Environment and Forests
NGO – Non-Governmental Organization
NOx – Nitrogen oxide
PAM – Project Administration Manual
PUC- Pollution Control Certificate
PD - Project Director
PIU – Project Implementation Unit
PMU - Project Management Unit
RP – Resettlement Plan
RPM - Respirable Particulate Matter
SAUW -South Asia Urban Development and Water Division
SC - Scheduled Castes
SEAC – State Expert Appraisal Committee
SO₂ – Sulfur dioxide
SPM – Suspended Particulate Matter
SPS – Safeguard Policy Statement

| | Appendix-4 (f): Overview of ADB's Social Safeguards - Policy triggers, Requirements and compliance with the safeguards, Social Safeguards Performance and Current Status of Its Implementation | ii |
| | Appendix-4 (g): Gender Mainstreaming in Infrastructure Development Investment Program for Tourism, Capturing Gender Equality Results - Monitoring and Reporting of Project Gender Action Plan (GAP) | ii |
| | Appendix-4 (h): Integrating Community Development in projects of Infrastructure Development Investment Program for Tourism | ii |
| | Appendix-5: Feedback forms from Participants | |

1.1 BACKGROUND

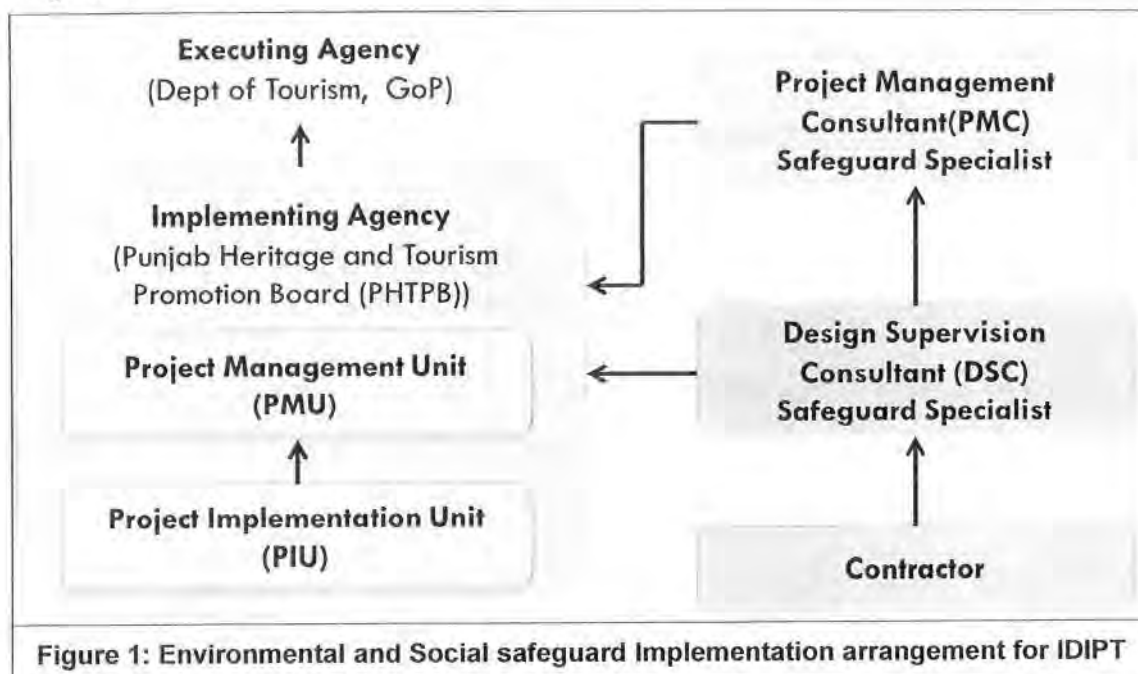

1. The India Inclusive Tourism Infrastructure Development Project (IDIPT) envisages an environmentally and culturally sustainable and socially inclusive tourism development in the state of Punjab. Based on the important tourist destinations within the state, the Department of Tourism, Punjab under the Punjab Heritage and Tourism Development Board, has chosen the following tourist destinations (**Table 1**) to renovate/ rehabilitate and to provide basic amenities to attract more tourists to visit the state.

Table 1 : Tourist destinations to be developed under IDIPT (Tranche -3)

| Sl.no | Package | Sub Projects | Location |
|-------|------------------------------|---|------------------------------------|
| 1 | PB/IDIPT/T3/08/09 (Lot 2) | Conservation at Gobindgarh Fort – Lot 2: Structures | Gobindgarh Fort, Amritsar |
| 2 | PB/IDIPT/T3/09/13 | Conservation and Adaptive Reuse of Town Hall, Rambagh Gate and Historic Buildings along Heritage Walk in Amritsar – Reuse at Rambagh Palace | Amritsar |
| 3 | PB/IDIPT/T3/08/09 (Lot 1) | Conservation at Gobindgarh Fort – Lot 1: Buildings | Gobindgarh Fort, Amritsar |
| 4 | PB/IDIPT/T3/09/11 | Conservation and Adaptive Reuse of Town Hall, Rambagh Gate and Historic Buildings along Heritage Walk in Amritsar – Conservation Works at Town Hall | Amritsar |
| 5 | PB/IDIPT/T3/10/14 | Last mile Connectivity to Cultural Sites in Western Circuit | Amritsar, Gurdaspur, |
| 6 | PB/IDIPT/T3/07/07 | Establishment of Tourism Facilities and Infrastructure showcasing of Sikh Culture, Chamkaur Sahib (Civil Works) | Chamkaur Sahib, Rupnagar, Amritsar |
| 7 | PB/IDIPT/T3/03-12/02 (Lot 1) | Imperial Highway Heritage Conservation and Visitor Facility Development – Lot 1: Conservation of Aam Khas Bagh in Fatehgarh Sahib. Mehtabi Bagh – 1. Internal & External Face Wall 2. Bastion 1, 2, 3 & 4 3. Western & Eastern Gateways 4. Northern Pavilion 5. Enclosure 3 - Boundary Wall 6. Enclosure 3 - Entrance Gate 7. Enclosure 3 - Br. & Stub walls 8. Naughara 9. Sheesh Mahal | Fatehgarh Sahib |
| 8 | PB/IDIPT/T3/03-12/02 (Lot 2) | Imperial Highway Heritage Conservation and Visitor Facility Development Lot 2: Conservation of Tombs and Rauza Sharif in Fatehgarh Sahib | Fatehgarh Sahib |
| 9 | PB/IDIPT/T3/04/03 | Eco-tourism Development at Ropar and Harike Wetlands (Civil Works) | Rupnagar and Kapurthala |
| 10 | PB/IDIPT/T3/05/04 | Eco-tourism Development of Wildlife Zoo | Zirakpur, Mohali |
| 11 | PB/IDIPT/T3/06/05 | Patiala Heritage Conservation and Tourism Development Project (Qila Mubarak) | Patiala |
| 12 | PB/IDIPT/T3/13/20 | Conservation and adaptive reuse of colonial heritage in Kapurthala - Darbar Hall | Kapurthala |

2. For implementing the given packages, Project Management Unit (PMU) and Project Implementation Unit (PIU) have been appointed by the Department of Tourism, which acts as an Executing Agency (EA). The key responsibility of the PMU and PIU is to initiate the project work as per the requirements of Government of India (GoI) rules and regulations and

Asian Development Bank (ADB) guidelines. To assist the PMU and PIU, Project Management Consultants (PMC) and Design Supervision Consultants (DSC) have been appointed to monitor the progress of the work performed by the contractor. The proposed environmental and social safeguard implementation arrangement is depicted in the following Figure 1.

3. The given sub projects (**Table 1**) are not under the ambit of Environmental Clearance (EC) from the State Environment Impact Assessment Authority (SEIAA), Government of Punjab or Ministry of Environment, Forest and Climate Change (MoEF & CC), Government of India. However, as per the ADB guidelines, all the projects are classified under 'B' category which mandates to implement the project with project specific Environmental Management Plan (EMP) as outlined in the Initial Environmental Examination (IEE).

1.2 NEED FOR TRAINING

4. The Contractors involved in implementing the sub projects under Tranche-3 lack awareness of the prevailing environmental rules & regulation and safeguard policies that are to be adopted during construction activities. Hence, a list of capacity building/training programs pertaining to safeguarding the environmental and social components have been identified and briefed in the Project Administration Manual (PAM), Project Preparatory Technical Assistance Report (PPTA), IEE and EMP (refer **Appendix – 1** Environmental Safeguard Training Programs suggested for IDIPT). The primary responsibility for conducting the capacity building/ training programs lies with PMC, hence in accordance to it, one day training program/ workshop was organised by PMU and PIU at Rupnagar, Punjab for the PMU staff, Amritsar PIU, Rupnagar PIU and Contractors (refer **Appendix – 2** Attendance sheet). PMC and DSC resource persons have also provided training to all the participants. The training program/ workshop have been conducted for various environmental and social safeguard topics (refer **Appendix – 3** Environmental and Social Safeguard Captions Covered under the Training Program) that are to be adopted during various stages of the project including planning, designing and implementation stages.

1.3 OBJECTIVES OF THE TRAINING

5. The objectives of the safeguard training includes;

- **Environmental Safeguard:**

- Highlighting the Environmental Rules and Regulations adopted by the Ministry of Environment, Forest and Climate Change (MoEF&CC) and the ADB policy SPS, 2009 its importance in project screening and categorisation and subsequent procedures/ methodology that needs to be adopted in framing/ preparing the safeguard documents for various site specific construction activities
- To explicate the potential environmental Impacts including activities causing pollutions during construction and operation stages and its mitigation / management measures
- Understanding the approach/ procedures that are to be adopted in implementing the project specific Environmental Management Plan (EMP)
- Understanding the roles & responsibilities and coordinating with other departments (various relevant stakeholders) in implementing environmental safeguard measures, including those requiring environmental clearances/ NoC's etc.
- Explaining the various environmental monitoring formats that are to be complied by the contractors during sub project construction
- Highlighting the provisions made in the contract agreement/ bid document for safeguarding the environment during the project construction and to provide quality in the project implementation with respect to the environment by adopting good engineering practices

- **Social Safeguard:**

- Understanding the ADB Social Safeguard Policy, requirements and compliance with the safeguard measures in Infrastructure development projects

- **Gender Requirements:**

- Gender mainstreaming as the key strategy for promoting gender equality and women's empowerment.
- To have an overview of Gender Action Plan in IDIPT, its compliance requirements, contractual arrangements and modalities to enforce gender and core labour standards.
- To highlight the gender related risks in infrastructure development projects and its mitigation measures through awareness campaigns.

- **Community Participation and Development**

- To highlight the importance of the community participation and development in conservation of natural and cultural heritage.
- To explicate the roles and responsibilities of the Self Help Group's (SHG) in local product identification and marketing skills.
- Sharing views in organising/ formation and sustaining local committees for assisting SHG's.

1.4 SCOPE OF TRAINING

6. The scope of the training includes;
- Organisation of stakeholder workshops to review the needs and options for implementing the Environmental and Social Safeguards in the IDIPT
 - To provide training on Environmental Rules and Regulations adopted by Ministry of Environment, Forest and Climate Change (MoEFCC), Government of India and Environmental Safeguard Policy (SPS, 2009) adopted by Asian Development Bank (ADB).
 - To illustrate the environmental impacts that are likely to arise during construction and operation stages and its mitigation measures.
 - To detail the necessity in implementing the project specific Environmental Management Plan (EMP).
 - To provide an overall understanding of roles and responsibilities and coordination approach in implementing the EMP's.
 - To train the stakeholders in the preparation of environmental monitoring and reporting system (EMR) at various stages of the construction.
 - To highlight the safeguard clauses in the contract agreement/ bid document and its implementation requirements in safeguarding the environment
 - To outline the social policies and frameworks adopted by Govt of India and ADB in conducting Social Impact Assessment (SIA).
 - To train the stakeholders in the preparation of social monitoring and reporting system (SMR) at various stages of the construction.
 - To explain the salient features of the ADB gender policy and gender mainstreaming in IDIPT.
 - To explain the need for the Gender Action Plan (GAP) its requirement and its preparation process by way of using various formats available in the Project Administration Manual (PAM).
 - To highlight the requirement for community participation and development in conservation of natural and cultural heritage; and the role of Self Help Group's (SHG).

1.5 TOPICS COVERED UNDER TRAINING

7. **Topic – 1: Basic Concept of environment, Environmental Regulations and Statutory requirements as per Government of India and ADB Guidelines on cultural resources, Environmental considerations in planning, design and implementing projects.**

- Aim: To create awareness / capacity building among the implementing agency (including Project Management Unit (PMU) and Project Implementation Unit (PIU)) and the Contractors regarding the fundamental requirements of Environmental Safeguard during the project implementation that are adopted by Government of India (GoI) and Asian Development Bank (ADB). The presentation slides are enclosed in **Appendix – 4 (a)** for ready reference.
- Key Words:
 - i. Environmental Rules and regulation adopted by Government of India (*Environmental Protection Act, Air Act and Rules, Water Act and Rules, Manufacture, Storage and Import of Hazardous Chemical Rules, Forest (Conservation) Act, Wildlife Protection Act, Biological Diversity Act, Environmental Impact Notification, National Policy on Resettlement & Rehabilitation and Ancient Monuments and Archaeological sites and Remains Act*)

- ii. Roles and responsibilities of The Ministry of Environment, Forests and Climate Change (MoEFCC) and Central Pollution Control Board (CPCB)
 - iii. Environmental Safeguard adopted by ADB (*Principles of ADB Environmental Safeguard, Policy Objectives, Environmental Category - Environmental Assessment Guidelines 2003*)
 - iv. Environmental Standards adopted by Central Pollution Control Board (CPCB)
- Discussion/ Outcome of the training: Various environmental acts and rules adopted in implementing the infrastructure projects in India as a whole has been discussed, from the prevailing acts and the rules, the IDIPT project specific/ related acts and rules has been identified/ chosen and detailed with its applicability towards the project requirement. The role of the MoEFCC and CPCB has also been illustrated with schematic diagram. The relevant environmental standards stipulated by CPCB including the Ambient Air Quality, Noise Quality and Drinking Water Standards have been discussed with the participants. The safety measure that needs to be adopted (including PPE's) during the project construction were also discussed. The project related environmental clearances have been listed and shared with the contractors as a guiding tool for obtaining clearance from the authorised agencies/ departments. A schematic sketch representing the use of acts and rules in formulating the EMP's were discussed. The presentation has given an overall understanding of the environmental legislations and its applications in the preparation of IEE's and EMP's.

8. Topic – 2: Environmental components impacted in construction and operation stages Activities causing pollution during construction and operation stages.

- Aim: To create awareness among the contractors and to train the implementing agency in addressing the various environmental components getting affected during the project construction and operation stages. The presentation slides are enclosed in **Appendix – 4 (b)** for ready reference
- Key Words:
 - i. Introduction to Initial Environmental Examination (IEE)
 - ii. Purpose of IEE
 - iii. IEE Methodology
 - iv. Environmental Impacts and Typical Issues
 - v. Environmental Mitigation Measures
- Discussion/ Outcome of the training: The need for the Initial Environmental Examination (IEE) has been detailed with suitable illustrations. A project categorisation flow chart has been presented for better understanding and to guide various stakeholders the need for IEE and its implementation mechanism. The methodology for preparing IEE, including screening, scoping, identification of impacts, preparation of Environmental Management Plan (EMP) and monitoring plan has been discussed exclusively. Under the environmental impact and typical issues, the key environmental factors/ parameters that would be impacted/ affected such as ambient air quality, water quality, noise quality, land environment (due to solid waste dumping, spillage of oil and grease etc.), flora and fauna has been discussed with suitable examples and other case studies. The Health and Safety requirements towards (i) Protection of workers/ labourers and the public, (ii) during structures and excavation works, (iii) Working at height, (iv) Manual handling of construction materials, (v) Electrical safety and (vi) use of PPE's at construction site has been illustrated. The environmental mitigation measures that are to be adopted during the project construction have been discussed. The presentation has given an overall understanding of the various environmental constructions related impacts and management measures that are to be adopted and the necessity of the use of PPE's in the construction site.

9. **Topic – 3: Environmental Management, Environmental Provisions, Implementation Arrangements, Methodology of Assessment, Good engineering practices to be integrated into contract documents.**

- Aim: To train the Implementing Agency (PMU & PIU), DSC and the Contractors in understanding their roles and responsibilities in implementing the project specific EMP's and good engineering practices for safeguarding environment that are to be included in the contract document. The presentation slides are enclosed in **Appendix – 4 (c)** for ready reference.
- Key Words:
 - i. Brief introduction to the methodology adopted in preparing project specific EMP's
 - ii. EMP Implementation procedure / approach at various stages of the project construction
 - iii. Roles and Responsibilities that are to be adopted by various stakeholders including PMU, PIU, DSC, PMC and Contractor in Implementing EMP
 - iv. Necessity for including the EMP Contract Clauses for safeguarding the environment in the Bid Document
- Discussion/ Outcome of the training: The importance of the EMP in a project implementation has been discussed with a schematic diagram for better understanding. The root cause for the EMP failure and the roles and responsibilities that lies with the implementing agencies (PMU & PIU), consultants and contractors that has failed to implement EMP has been discussed in detail. Based on the organisation structure adopted for the IDIPT Punjab, the Environmental and Social Safeguard Roles and Responsibilities for the implementing agency, PMC, DSC and Contractor has been formulated and discussed. The EMP contract clauses for safeguarding the environment have been discussed in detail. The necessity for obtaining valid certificate / license/ permits for the vendors/ agencies, where the contractor is planning to procure construction materials has been explained with suitable illustrations. The environmental monitoring procedures that are to be adopted by the contractor has been detailed and it has been advised to engage NABL accredited laboratories with valid certificates for performing the environment monitoring for key environs like ambient air, noise quality etc.

10. **Topic – 4: Improved Co-ordination with other Departments, Statutory Permissions – Procedural Requirements Co-operation & Co-ordination with other Departments.**

11. **Topic – 5: Roles and Responsibilities of Officials/ Contractors/ Consultants towards Protection of Environment and Implementation of Environment Mitigation Plan (EMP). Monitoring and Reporting System to the target audience such as Engineers and staff of implementing agencies, and PMU/PIU.**

- Aim: To train the Project Implementation Agency (PMU/ PIU) and the Contractors their roles and responsibilities in maintaining/ improved co-ordination with other government departments/ agencies for obtaining project related permissions/ NoC's/ clearances etc. and also in fulfilling the Environmental Monitoring requirements as an integral part of the EMP's and guiding them with appropriate reporting system. The presentation slides are enclosed in **Appendix – 4 (d)** and **Appendix – 4 (e)** for ready reference.
- Key Words:
 - i. Challenges in implementing environmental monitoring and reporting systems by the executing agencies and the Contractor
 - ii. Project specific environmental consents / permits/ NoC's required for construction activities

- iii. Environmental management & areas of concern
- iv. Implementation of Environmental monitoring and reporting approach
- Discussion/ Outcome of the training: The roles and responsibilities of the Executing Agencies (PMU/ PIU) and the Contractors in maintaining Co-operation & Co-ordination with other Government Departments/ agencies for obtaining statutory clearances has been discussed. The project specific Environmental Consents / Permits/ NoC's that are to be obtained by the Contractor has been discussed in detail. The environmental management & areas of concern including the Construction Camps, Construction Plants, Quarries/ Crushers, Borrow Areas, Debris Disposal, Air, Noise and Water Pollution, environmental enhancement and safety during construction has been discussed with suitable illustrations.
- The likely challenges that are to be faced by the Executing Agencies (PMU/ PIU) and the Contractors in implementing Environmental Safeguards Monitoring and Reporting system in IDIPT has been discussed based on experiences from other ADB funded projects. The Project Level Monitoring approach in fulfilling the environmental monitoring and reporting system has been discussed. The safeguard protection clauses indicated under the General Conditions (GC) and the Technical Specifications of the contract / bid document has been highlighted and discussed for better understanding of the Contractors. Various safeguard monitoring and reporting formats for Implementation of Environmental Management and Monitoring Plans has been discussed with timeframe for submission of the monitoring reports.

12. Topic – 6: Overview of ADB's Social Safeguards - Policy triggers, Requirements and compliance with the safeguards, Social Safeguards Performance and Current Status of Its Implementation

- Aim: To train and to familiarise the Project Management Unit (PMU) and the Project Implementation Unit (PIU) and the Contractors on ADB SPS 2009 and the compliance requirements that are required to be met throughout the project cycle (viz during the preparation, implementation and monitoring). The training is also aimed to explain the necessity of implementation of safeguards by the Implementation Agency as per the Resettlement Frameworks prepared for IDIPT. The presentation slides are enclosed in **Appendix – 4 (f)** for ready reference
- Key Words:
 - i. Policy and legal framework (ADB Safeguards Policy Statement (SPS) 2009, The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act (RFCT in LARR), 2013; National Rehabilitation and Resettlement Policy, (NRRP) 2007 and relevant state laws)
 - ii. Social categorisation of projects (as per ADB)
 - iii. Institutional arrangement defined with roles and responsibilities in implementing the social safeguard
 - iv. Set up of Grievance's Redressal Mechanism and its purpose
 - v. Necessity of Labor clauses in the bid document/ contract agreement
- Discussion/ Outcome of the training: The social safeguard policy as per ADB and the rules and regulations adopted in GoI (NRRP 2007, The RFCT in LARR Act 2013) and GoP for mitigating/ managing the social issues were presented and discussed. The other safeguard measures including the Gender Mainstreaming in IDIPT and preparation of Gender Action Plan (GAP) with suitable indicators including women participation in civil work, community participation, STI awareness program, consultation program etc were explained with suitable illustrations. Though the Tranche – 3 sub projects are not having any major social impacts, the social impact assessment with suitable management measures to counteract any unforeseen

impacts that are likely to arise during the project construction has been detailed with illustrations for better understanding. The Tranche – 3 subprojects like Qila Mubarak, Nabha Qila, Ropar wetland (Interpretation centre) to Mata Gujari ka Gurudwara approach road and tombs that are likely to cause social impacts like traffic jam, public space used for storage of material by the contractor, debris storage etc has been discussed and suitable mitigation/ management measures were suggested.

- The Non Compliance (NC) to the public consultation and disclosure of project information and Grievance Redressal Mechanism has not been furnished at site, this has been discussed with the Implementation agency and the Contractor and it is agreed to provide notice/ information boards at project sites
- The necessity for adopting the Labour Act 1951 provisions at site by the Contractor has been discussed in detail. The key requirements of the Act such as Minimum wages for the labourers, no to child labourers, equal wages for men and women has been discussed in detail. The other provisions of the Labour Act including Occupational, Health and Safety, use of personal protective equipments (PPE's), labour shelter's/ labour camp cleanness and hygiene, toilet facilities for men and women, crèche for children's, medical check-up for labourers, registration of labour from labour commissioner of concerned jurisdictions has been explained with illustrations.

13. **Topic – 7: Gender Mainstreaming in Infrastructure Development Investment Program for Tourism, Capturing Gender Equality Results - Monitoring and Reporting of Project Gender Action Plan (GAP)**

- Aim: To create awareness among the Contractors and Implementation Unit (PMU/PIU) in developing the IDIPT project as a community based tourism activities so has to promote Gender Equality through improved opportunities for women and to emphasise the need for the Capturing Gender Equality Results in IDIPT project implementation and specifying procedures/ approach for monitoring and reporting of Project Gender Action Plan (GAP). The presentation slides are enclosed in **Appendix – 4 (g)** for ready reference
- Key Words:
 - i. Gender equality/mainstreaming aspects for IDIPT
 - ii. Women empowerment through community-based tourism activities
 - iii. Strong institutional environment for gender mainstreaming
 - iv. Women to have equal opportunity to participate in and benefit from the project
 - v. Sex ratio and other aspects of gender differentiation
 - vi. GAP implementation, monitoring and reporting
- Discussion/ Outcome of the training: A brief introduction on the difference between sex and gender has been illustrated for better understanding of the participants. The reason behind gender inequality in the society including an imbalance in the political, economic, social and cultural power against women has been discussed with class exercises. The key factor behind the gender socialization and environment that induces differences among the men and women has been discussed with suitable illustration. Various kind of gender inequality (including mortality inequality, natality inequality, basic illustrated facility inequality, special opportunity inequality, professional inequality, ownership inequality and household inequality) were presented and discussed. A short film on gender inequality and gender mainstreaming has been shared with the participants for their better understanding. The following key benefits through the gender mainstreaming in Infrastructure Development Investment Program (IDIPT) for Tourism has been explicitly discussed.
 - Mechanisms to promote women's representation in decision-making processes;

- Inclusion of women's needs into relevant project components;
 - Quota / tangible targets for female staff in project implementation;
 - Capacity building of communities, government officials, and other stakeholders on gender issues and risks related to tourism (including HIV/AIDS, sexually transmitted infections, trafficking, and other social risks);
 - Effectively involving women in project monitoring and evaluation, including gender-disaggregated data for these purposes; and
 - Targeting at least 30% women in all capacity development and training activities
- The purpose of the GAP used as a tool in gender mainstreaming in the ADB funded project has been discussed. The following key points of the Gender Action Plans (GAP's) has been discussed explicitly
 - Preparatory work undertaken to address gender issues in the project
 - Quotas, targets, design features included in the project to address gender inclusion and facilitate women's involvement and/or ensure tangible benefits to women
 - Mechanisms to ensure implementation of the gender design elements
 - Gender monitoring and evaluation indicators

The outcome of the GAP implementation in the Tranche-1 has been discussed in detail and the Tranche -3 project contractors are requested to adopt the similar approach in their project to fulfill the Gender mainstreaming and women empowerment in IDIPT.

14. **Topic – 8: Integrating Community Development in projects of Infrastructure Development Investment Program for Tourism.**

- Aim: To create awareness among the participants (Implementing Unit (PMU and PIU) and Contractors) with respect to the necessity to have an Integrated Community Development in IDIPT project. The presentation slides are enclosed in **Appendix – 4 (h)** for ready reference
- Key Words:
 - i. Community Participation and Development in conserving the tourism destinations (natural, cultural etc.)
 - ii. Socio economic/ livelihood development among local communities through IDIPT
 - iii. Orientation program for stakeholders in community development and participation
 - iv. Self Help Groups (SHG's) and local committees roles and responsibilities in improving self employment opportunities through tourism projects
- Discussion/ Outcome of the training: The advantages of having an integrated community development in implementing the IDIPT have been discussed with suitable illustrations. The following integrated community development measures were explicitly discussed
 - Approaches/ methods by involving local community in conserving the natural and cultural heritages
 - Involving local and indigenous communities in its planning, development and operation contributing to their well-being
 - To create an enabling environment for tourists through Integrating Community development

- Development of village/ rural tourism by expanding the opportunities by increasing tourists inflow to villages and towns
 - Improving the social livelihood (by eradicating poverty through the supply of handicraft, agricultural and other products) of the community by engaging them in the IDIPT
 - Providing an opportunity to the local community to get engaged in the businesses and direct employment in the tourism area
- The need for the Self Help Group (SHG) and its defined roles and responsibilities (including creating employment opportunities from the production of tourism – related activities) in improving the village/ rural tourism has been discussed. It is also suggested to have dedicated committees at local level to maintain sustainability of the SHG's growth.

1.6 MAJOR ACHIEVEMENTS

15. The training topics for environmental and social safeguard as suggested in the Facility Administration Manual (FAM), Project Preparatory Technical Assistance Report (PPTA), IEE and EMP (refer **Appendix – 1** Environmental Safeguard Training Programs suggested for IDIPT) has been fully covered and completed through three successive training programs¹ held in the year 2013 and 2014 for Tranche – 1 projects. The fourth training program (21st August, 2015) on "Social, Environmental Safeguards and Gender Empowerment and Women Equality" was organized for the implementing agency (PMU & PIU), Consultants (DSC) and Contractors. The training topics on the Gender Empowerment and Women Equality and LARR Act 2013 have been presented by the safeguard specialist and gender specialist from the ADB, India resident mission (INRM).

16. Following the success of the safeguard training programs, it has been decided to conduct similar training program/ workshop for the Tranche-3 projects and it is also understood that most of the Contractors involved/ engaged in the Tranche -3 projects needs capacity building in implementing the environmental and social safeguard measures during project construction. Hence, the fifth safeguard training on "Implementation of Social, Environment Safeguards and Gender Equality & Women Empowerment (GEWE)" In Asian Development Bank (ADB) operations has been conducted on 8th January, 2016 at Rupnagar (Ropar), Punjab.

17. The conducted environmental and social safeguard training is the first training of this kind for the new Contractors in Tranche -3 works. At the start of the presentation, there were not much discussions/ interaction due to the lack of information/ awareness about the environmental issues/ impacts that are likely to arise during the project construction and operation. However, after understanding the concepts involved in preparing the IEE's and EMP's the discussion among the participants were over whelming.

18. Various clearances/ permissions/ NoC's that are to be obtained by the Implementation Unit (PMU & PIU) and the Contractor from other stakeholders departments which are applicable for this IDIPT project has been explained with case studies (representing various infrastructure projects). The requirement in having a close coordination with other stakeholders department was detailed to the participants. Query related to their roles and responsibilities in obtaining various clearances/ permissions/NoC's were discussed with case studies for better understanding. The discussions went on well with more queries pertaining to have a better understanding about their roles in coordinating with other departments.

¹The first training on the environmental and social safeguard was conducted on 10th and 11th June, 2013, the second training program was conducted on 20th and 21st August, 2013 and the third training program was conducted on 13th and 14th February, 2014.

19. The Environmental Management Plan (EMP) and the environmental safeguard clauses indicated in the bid document had been taken and discussed in detail. The purpose of the discussion is to create awareness among the participants (PMU/ PIU and Contractors) for mitigating various environmental impacts that are likely to arise during the project construction and operation. The provision for environmental budget has been highlighted to utilize it for safeguarding the environment in a better way. Necessary monitoring formats have been discussed with the participants (PMU/ PIU) for monitoring the Contractor while preparing the monthly/ bimonthly progress reports with environmental compliances.

20. To fulfill the Social Safeguard requirements, a training session on "Gender Empowerment and Women Equality in the IDIPT projects" has been conducted to cover the following topics (i) ADB's Gender Policy, (ii) Gender Mainstreaming in Infrastructure Development Investment Program for Tourism, (iii) Capturing Gender Equality Results - Monitoring and Reporting of Project Gender Action Plan. The aim of this session is to create awareness among the Implementing Unit (PMU & PIU) and the Contractors to have minimum 30% of the women labourers/ employees in the ongoing IDIPT project works. The outcome of the discussion shows an acceptance from the participants to have more women labors/ employees in their ongoing works.

21. The importance of having community participation and development in the IDIPT projects has been presented and discussed. The need for Self Help Group's (SHG's) and the formulation of appropriate committees to support the growth of the SHG's and their involvement in conserving the tourism destination (natural and heritage) has been explicitly discussed. The participants have raised queries on the roles and responsibilities to be adopted for conducting the community participation and development and accordingly suitable suggestion have been provided.

22. An interactive session had been conducted with all the contractors and project staff. The "Snake and Ladder Game" had been developed by PMU on the key activities to be implemented under Environment Management Plan of different Infrastructure Development Investment Program for Tourism (IDIPT) projects. The game had been developed in local language (Punjabi) and sensitized all the stakeholders to adopt appropriate safeguard measures under Asian Development Bank (ADB) assisted projects, in an interactive manner.

1.7 COMMENTS ABOUT TRAINING

23. The feedback forms collected from the participants are enclosed in **Appendix -5**. Few snap shots of the training session and the feedback are given below

Few Snap Shots of the Training Sessions

1.8 WAY FORWARD

24. The training provided an insight to the social and environmental safeguard/management measures covering the various topics suggested in the IEE, which in turn will give an overall idea for the project implementing agency (PMU&PIU) in addressing the various environmental impacts that are likely to arise during the project construction and operation phase. With this training, it shall be assured that the Contractors under the guidance/ supervision of the Design supervision consultants (DSC) and Project Management Consultants (PMC) can achieve better progress in implementing the project specific EMP's. However, their success shall be assessed through proper monitoring. The way forward for implementing the EMP shall be

- Conducting the environmental monitoring plan through analysis of the various environs like air, noise, water and soil as stipulated in the project specific EMP's.
- Preparation and submission of the monthly progress report with the duly filled in environmental monitoring formats that have been shared among the contractors.
- Conducting monthly training program for the implementing agencies and the Contractors in implementing and monitoring the proposed EMP's
- Discussion with the DSC and PMC for environmental non compliances during the project construction
- Utilisation of the environmental budget in safeguarding the environment during project construction and operation

Appendix

Appendix -1. Environmental Safeguard Training

Programs suggested for IDIPT

| S no | Training Program | Duration | Target Group | Responsibility |
|-------------|---|-----------------|---|---|
| 1 | Sensitization Workshop on Basic Concept of environment Environmental Regulations and Statutory requirements as per Government of India and ADB Guidelines on cultural resources, Environmental considerations in planning, design and implementing projects | ½ Working Day | Tourism / Forest / Roads / Culture Department Officials, Project Director (PD) and Environmental Specialist (ES) of the PMU/PIU | Environmental Specialist of the PMC |
| 2 | Environmental components impacted in construction and operation stages Activities causing pollution during construction and operation stages | ½ Working Day | PMU/PIU (including the ES) and Engineering staff of Tourism department | Safeguards Specialist of the PMC |
| 3 | Environmental Management, Environmental Provisions, Implementation Arrangements, Methodology of Assessment, Good engineering practices to be integrated into contract documents | ¼ Working Day | PMU/PIU (including the ES) and Engineering staff of Tourism department | Safeguards Specialist of the PMC |
| 4 | Environmental considerations in planning, designing and implementing heritage buildings and conservation projects | ½ Working Day | PMU/PIU (including the ES) and Engineering staff of Tourism department | Safeguards specialist and CHCS of the PMC |
| 5 | Improved Co-ordination with other Departments, Statutory Permissions – Procedural Requirements Co-operation & Co-ordination with other Departments | ½ Working Day | PMU/PIU (including the ES) and Engineering staff of Tourism department | Safeguards Specialist of the PMC |
| 6 | Roles and Responsibilities of officials/ contractors/ consultants towards protection of environment Implementation Arrangements Monitoring mechanisms | ½ Working Day | Engineers and staff of line depts. of GoP, and PMU/PIU (including the ES) | Safeguards Specialist of the PMC |
| 7 | Monitoring and Reporting System to the target audience such as Engineers and staff of implementing agencies, and PMU/PIU | ½ Working Day | Engineers and staff of implementing agencies, and PMU / PIU | PMU/PMC/DSC |
| 8 | Orientation of contractors at the time of issuing work orders on the implementation of the clause elaborating actions related to gender and core labour standards | ½ Working Day | Contractors | DSC/PIU |
| 9 | Training for Implementing Agencies on contractual arrangements and modalities to enforce GOI's commitment to gender and core labour standards provided | ½ Working Day | Engineers and other officials of Implementing Agency | DSC/PIU |
| 10 | Training programs on environment, culture, and tourism developed and implementation | ½ Working Day | Tourism Staffs | Safeguards Specialist of the PMC/PMU |
| 11 | Need and type of Information, education, communication and awareness campaigns to be carried out to mitigate | ½ Working | Contractors/ Women Labours, PIU, DSC | Social Safeguard Specialist |

| S no | Training Program | Duration | Target Group | Responsibility |
|------|--|---------------|--|-------------------------------------|
| | health, social, and gender-related risks associated with infrastructure development | Day | | PMU/PMC |
| 12 | Overview of National Rehabilitation and Resettlement Policy, 2007 | ½ Working Day | Engineers, Community Development Officer (PIU) and Revenue Official | Social Safeguard Specialist PMU/PMC |
| 13 | Overview of ADB's Social Safeguards - Policy triggers, Requirements and compliance | ½ Working Day | Engineers, Community Development Officer (PIU) and Revenue Official | Social Safeguard Specialist PMU/PMC |
| 14 | Training on Safeguards Procedure in IDIPT - Scope, eligibility and entitlement of displaced persons | ½ Working Day | Engineers, Community Development Officer (PIU), Revenue Official and NGO recruited for RP implementation | Social Safeguard Specialist PMU/PMC |
| 15 | Training on key elements of Resettlement Planning - Preparation of resettlement planning, institutional arrangement for implementation, monitoring & evaluation and grievance redressal process. | ½ Working Day | Engineers, Community Development Officer (PIU), Revenue Official and NGO recruited for RP implementation | Social Safeguard Specialist PMU/PMC |
| 16 | Training for workers to use protective gears, comply with health and safety procedures | ½ Working Day | Contractor/ Labours/Site Managers/Site Engineers (Contractors/PIU/DSC) | Social Safeguard Specialist PMU/PMC |

Appendix -2. Environmental and Social Safeguard Captions Covered under the Training Program

Date: 08th January, 2016

Venue: Water Lily Tourist Complex, Ropar

| 09:30 – 10:00 : Registration | | |
|--|--|--|
| Time | Session | Speaker/ Facilitator |
| Session I: Welcome session and Introduction to Environment Safeguards | | |
| 10: 00 – 10:15 | Welcome/ Inaugural Address | Mr. Basanta Rajkumar, Addl. Project Director, IDIPT, PHTPB |
| 10:15 – 10:45 | Basic Concept of environment, Environmental Regulations and Statutory requirements as per Government of India and ADB Guidelines on cultural resources, Environmental considerations in planning, design and implementing projects. | Mr. Pushpanathan, Environment Specialist, PMC |
| 10:45 – 11:15 | Environmental components impacted in construction and operation stages Activities causing pollution during construction and operation stages. | Mr. Pushpanathan, Environment Specialist, PMC |
| 11:15 – 11:30 Tea Break | | |
| Session II: Understanding Social, Environment Safeguards in Asian Development Bank (ADB) projects | | |
| 11:30 – 12:00 | Environmental Management, Environmental Provisions, Implementation Arrangements, Methodology of Assessment, Good engineering practices to be integrated into contract documents. | Mr. Pushpanathan, Environment Specialist, PMC |
| 12:00 – 12:30 | Improved Co-ordination with other Departments, Statutory Permissions – Procedural Requirements Co-operation & Co-ordination with other Departments. | Mr. Ranjan Kumar Mallick, Environment Specialist, DSC |
| 12:30 – 13:00 | Roles and Responsibilities of Officials/ Contractors/ Consultants Towards Protection of Environment and Implementation of Environment Mitigation Plan (EMP). Monitoring and Reporting System to the target audience such as Engineers and staff of implementing agencies, and PMU/PIU. | Mr. Ranjan Kumar Mallick, Environment Specialist, DSC |
| 13: 00 – 14:00 Lunch | | |
| 14: 00 – 14: 30 : Brief Interactive Session “Snake and Ladder Game” developed by IDIPT Coordinated by Mr. Kamaljeet Singh, CDO, PIU Ropar | | |
| Session III: Understanding Asian Development Bank (ADB) social safeguard and Gender Action Plan requirements | | |
| 14:30 – 15:00 | Overview of ADB's Social Safeguards - Policy triggers, Requirements and compliance with the safeguards. | Mr. Sangram Singh, Social Specialist, PMC |
| 15:00 – 15:30 | Gender Mainstreaming in Infrastructure Development Investment Program for Tourism Capturing Gender Equality Results - Monitoring and Reporting of Project Gender Action Plan. | Mrs. Reena Chadha, Environment Specialist, PMU. |
| 15:30 – 16:00 | Integrating Community Development in projects of Infrastructure Development Investment Program For Tourism. | Dr. Bharti Dangwal, Community Development Specialist, DSC |
| 16:00 – 16:15 Tea Break | | |
| 16:15 – 05:00 Concluding Session | | |
| 16:15 – 16:45 | Questions/ Discussion | |
| 16:45 – 17:00 | Concluding remarks & way forward | Mr. Basanta Rajkumar, Addl. Project Director, IDIPT, PHTPB |

Training on Environment, Social Safeguards and Gender Empowerment and Women Equality (GEWE)
On 8th January, 2016 at Water Lilly Hotel, Ropar.

| S.No | Name | Designation | Department | Signature | Remarks |

REPORTS
ON
WORLD DAY FOR SAFETY AND HEALTH AT WORK
(Log Hut, Ropar, on dated 28th April 2016)

IMPLEMENTED BY:-
PUNJAB HERITAGE AND TOURISM PROMOTION BOARD
INFRASTRUCTURE DEVELOPMENT INVESTMENT PROGRAMME FOR
TOURISM (IDIPT)
(Asian Development Bank Assisted Project)

Introduction:

The "**World Day for Health and Safety at Work**" was celebrated at **Log Hut, Ropar** on dated **28/04/2016** with Labourer employed in construction; site Engineers, Support Staff and Contractors. Program started at about 11:00 am with the objectives keeping in mind as below:-

- The prime objective is to make them understand about importance of Health and safety in life
- To take reasonable care for the safety and health of themselves and others as well.
- To make labourer understand and act in accordance with the safety rules, safe working procedures and emergency response procedures
- To spread Awareness on safety & health at workplace through appropriate means
- To take care of physical and mental health equally in daily life and ensure proper use of first aid box.

The prime motive of adopting safety measures is to minimise the risk to life and to ensure smooth and healthy working environment for the workers. Also to make proper use of first aid box being provided by the contractor for effective health care.

To ensure the implementation of ADB's guidelines on Environment and Social Safeguards, United Nation's enlisted "World Day for Safety and Health at Work" was celebrated at Log Hut, Ropar on 28th April 2016. Reduce injuries & illnesses at construction sites as much as possible.

Along with labourer, support staff, site engineers and members of self help group, following officials has also attended the celebration who shared information and their valuable experience of life regarding importance of safety and health at work:-

Mr. H.S.Dhillon, Forest Specialist welcomed all the participants and brief out the purpose of celebration of "World day for health and safety". He told that World Day for Safety and Health at Work is a UN international day which is celebrated every year on 28 April. It is concerned about safe work and awareness of the dimensions and consequences of work-related accidents and diseases, to place occupational safety and health (OSH) on the international and national agendas, and to provide support to the national efforts for the improvement of national OSH systems and programmes in line with relevant international labour standards. He also emphasis celebration theme for current year is "Workplace Stress: - A collective challenge".

Ms. Sumati Bhaskar (Gender Specialist, PIU Ropar) gave detailed information on safe and healthy work environment with the use of Power Point Presentation. In the presentation, she discussed about consequences of unsafe and unhealthy work environment and diseases linked to workplace hazards. She also told about different preventive measures can be taken to avoid accidents and violent acts at workplace. She focuses on how a safe and healthy work environment can be created for labourers at site.

Mrs. Saranpreet (Community Development staff, DSC) discussed about the various elements of the work environment, risks involved in the working process, interactions that exist between worker and the machine and the use of simple tools that may be a cause of accidents at work place. She also put emphasis on psychosocial environment of the worker. She told about the impacts of working in adverse conditions of temperature and humidity.

Mr. S.K.Soni, DTL, DSC Ropar discuss in detailed about different kind of preventive measures which are already in use at present at sites. He gave detailed information about the uses of different kind of "Construction Personal Protective Equipment (PPE)" such as Eye and Face Protection, Foot Protection, Hand protection, Head Protection and Hearing protection. He also focuses to organise Meditation camps for labourers to reduce their stress. On this occasion he also discusses the problem of water crisis the world is going to face and told different methods to save the water at individual level. He appealed to all the audience to save water.

Mr. Ashok Nanda, PM, PIU, Ropar told all the labourers about the importance of being fit and healthy to perform efficiently during their work at site. They gave information about different diseases which can be caused by construction materials. He also told about how a labourer can stay healthy by using the preventive equipments. The labourer can also complain to their contractors and doctor (coming for medical check-up), if they feel unhealthy or having some physical, mental difficulties.

Mr. Guraman Singh, Deputy DFO (Special guest invitee) discussed in details about the benefits of using safety equipment during the construction work and the hazards of not using the safety equipments. He also shares a personnel experience/accident, which happened because of not using the safety equipments during the work. He told that because of that accident some of workers lost their eyes, face and major body parts. So at last he again requested all the labourers not to play with their lives and be safe by using safety equipments during construction work.

Mr. Karamveer Singh, S.S.S, PMU concluded all the discussion sessions and made an appeal to all the labourers to make use of proper safety equipments as a habit during work. This improvement in life style will certainly reduce the chances of accidents and make their working environment safe and healthy. He told about the importance of rules and also quoted beautiful examples of real life to motivate the participants toward safe and healthy life styles.

Conclusion:

"World Day for Health and Safety at Work" was celebrated with approximately 60 no. of participants who became part of valuable discussion and exchange of information on Safety measures and health related precautions to be ensured especially at construction site. Influence of the discussion was observed from the discussion with labourer on safety rules and working procedures. The laminated posters carrying information about health and safety had been handed over to the PIU staff to be pasted on construction sites at visible locations. Contractor and site supervisor was instructed to take ensure proper measures for health and safety of labourer.

Thank You!

REPORT
ON
Five day Training-cum-Workshop on Phulkari & Phulkari
Products

At Project Implementation Unit (PIU) Office, Ropar

From dated 24th May 2016 to 28th May 2016

*Organized
BY
Project Implementation Unit (PIU)
Under
INFRASTRUCTURE DEVELOPMENT INVESTMENT PROGRAMME FOR TOURISM
Punjab Heritage and Tourism Promotion Board
(ADB Assisted Project)*

Introduction:

The five-day training program on “Phulkari & Phulkari products” was held at the office of Project Implementation Unit (PIU), Ropar. Traditionally, Phulkari garments were part of a girl's wedding, its motifs express her emotions and the number of phulkari design pieces defines the status of the family. Over the years, government has been working towards promotion of phulkari embroidery by organizing special training programs, fairs, and exhibitions. Since most of women artisan making phulkari are in the unorganized sector or work through agents, they do not earned much money compared to an actual market price of their product. To avoid this lacuna, Department of Tourism, Punjab started to form Self Help Groups (SHGs) from local village community and give them proper trainings to prepare various types of Phulkari products and start direct marketing.

So, for the above said training programme under IDPIT, ADB assisted projects, we involve the members of Self Help Groups (SHGs) formed in the villages namely Tibba Tapprian and Katli located in District Ropar.

Objective:

The objectives of the training workshop are as below:-

- ❖ Promote the traditional craft “Phulkari ”of Punjab.
- ❖ Capacity building of the women and alleviate rural poverty and empower women.
- ❖ Provide training to gain skills to enable economic-self-sustainability accomplishment.
- ❖ Developing new concepts of various techniques for traditional designs as free hand sketches and drawings.
- ❖ Providing work and employment of artisans of local markets.

This training programme is organized under the guidance of Mr. Ashok Nanda (PM, PIU).

Team attended the Five Day training workshop:

Resource persons/Trainers (Nabha Foundation)

1. Ms. Madhu Sharma (Field Coordinator, Nabha Foundation)
2. Ms. Lakhwinder Kaur (Phulkari trainer, Nabha Foundation)
3. Ms. Kiranpal Kaur (Phulkari trainer, Nabha Foundation)

Member of PIU

1. Mr. Ashok Nanda (Project Manager)
2. Mr. H.S.Dhillon (Forest Specialist)
3. Ms.Sumati Bhaskar (Gender Specialist)
4. Mr.Kamaljeet Singh (Community Development Officer)
5. Neerja (Office Assistant)
6. Mrs. Mamta (Social Mobilizer)
7. Mr. Gurpreet Singh (Social Mobilizer)
8. Mr. Baljeet Singh (Social Mobilizer)
9. Mr. Mukesh (Peon)
10. Mr. Kuldeep (Peon)
