B. Project Development Objective(s)

The objective of this component is to improve citizen and government access to county data through open county portal and to facilitate the monitoring and evaluation of progress in service delivery and the progress in achieving the twin targets of poverty reduction and shared prosperity, at the county level.

C. Project Description

The constitution of Kenya 2010 has devolved power and resources to 47 counties. The counties started to operate in July 2013 with the allocation of budgets for the fiscal year 2013/14. Data are now needed on economic activity in each county to ensure that the devolution process supports economic growth. This project aims to (i) estimate the equivalent of GDP by county, which will provide a picture of the economic structure and relative size of the economy in each county (ii) to estimate the economic growth rates for the counties (iii) Measure the impact of devolution on service delivery using data from counties over the period 2010-2015 (iv) measure impacts of devolution at the household and individual level
