### Project Development Objectives

Project Development Objective (from Project Appraisal Document)

The project development objective is to increase the utilization of reproductive health and nutrition services in Targeted Areas.

The PDO will be achieved by implementing: (i) high impact interventions which increase the supply and quality of Reproductive, Maternal, Newborn and Child, Adolescent Health Nutrition (RHN) services especially in remote and underserved communities; and (ii) Social and Behavior Communication Change (SBCC) and women and girls' empowerment activities to overcome demand-side constraints.

Has the Project Development Objective been changed since Board Approval of the Project Objective?

No

## Implementation Status and Key Decisions

Project implementation is progressing with all implementation manuals and technical support staff in place within the two implementing line ministries. Capacity building of staff and relevant stakeholders on the project implementation procedures as well as technical aspects continue with the support of the IDA project team.

The project team is working closely with the regional project on Women's Empowerment and Demographic Dividend and the Social Safety Nets Project to maximize synergies and results on the ground. A Draft Memorandum of Understanding has been prepared and will be finalized and signed earlier in September 2016 in order to support the implementation of the girl's stipend program.

The Rapid Results Approach is being used to accelerate progress on the disbursement linked indicators (DLIs). Since this is a new process, it is taking place in a phased manner. Two DLIs have been selected: family planning uptake and skilled birth attendance. The recruitment of Technical Assistant has been delayed by the procurement process. The two hired staff will be on board in September 2016.
