

## Viet Nam: Water Sector Investment Program PFR4

Project Name	Water Sector Investment Program PFR4				
Project Number	41456-044				
Country	Viet Nam				
Project Status	Closed				
Project Type / Modality of Assistance	Loan				
Source of Funding / Amount	<table border="1"> <tr> <td colspan="2"><b>Loan 3373-VIE: Water Sector Investment Program PFR4</b></td> </tr> <tr> <td>Ordinary capital resources</td> <td>US\$ 205.00 million</td> </tr> </table>	<b>Loan 3373-VIE: Water Sector Investment Program PFR4</b>		Ordinary capital resources	US\$ 205.00 million
<b>Loan 3373-VIE: Water Sector Investment Program PFR4</b>					
Ordinary capital resources	US\$ 205.00 million				
Strategic Agendas	Environmentally sustainable growth Inclusive economic growth				
Drivers of Change	Governance and capacity development Private sector development				
Sector / Subsector	<b>Water and other urban infrastructure and services</b> - Urban water supply				
Gender Equity and Mainstreaming	Effective gender mainstreaming				
Description	The proposed Project 4 to Hanoi Water Company Limited (HAWACOM) will improve water services for 3 million people, and provide piped water connections for 740,000 people for the first time, including about 23,000 poor. The Ministry of Planning and Investment is the coordinating agency for the MFF. HAWACOM is the project owner and implementing agency for Project 4, while the executing agency is the Ha Noi Peoples Committee.				
Project Rationale and Linkage to Country/Regional Strategy	While 98% Viet Nam's the urban population has access to improved water sources (exceeding Target 7c of the Millennium Development Goals), only 61% have a household connection. The remaining urban population (37%) is dependent on shared stand posts or protected wells for access to 'improved water sources'. Of the country's 774 towns and urban settlements, only one third has any form of piped water, serving 77% of the total urban population.				
Impact	Aligned with Prime Minister Decision 1929/2009 (Viet Nam Orientation Plan for Water Supply to 2025): Water supply development for urban and industrial areas to contribute to industrialization and urbanization of the country				

### Project Outcome

Description of Outcome	Improved efficiency of HAWACOM.
Progress Toward Outcome	

### Implementation Progress

Description of Project Outputs	Increased water supply coverage in Ha Noi Improved business planning, asset management and financial management of HAWACOM Effective non revenue water reduction in Ha Noi.
Status of Implementation Progress (Outputs, Activities, and Issues)	
Geographical Location	

### Safeguard Categories

Environment	B
Involuntary Resettlement	B
Indigenous Peoples	C

## Summary of Environmental and Social Aspects

Environmental Aspects	Project 4 is categorized B for environment, as environmental impacts are not irreversible and primarily related to construction works. These would be mitigated through environmental management plan (EMP), covering design, pre-construction, construction, and operations phases. Climate resilience measures have been integrated into the project primarily pertaining to site preparation. The final EMP, cleared by ADB, will form part of the contract bidding documents. An initial environment examination (IEE) report has been prepared and will be updated during detailed design
Involuntary Resettlement	Project 4 is categorized B for involuntary resettlement because the project is assessed to cause insignificant involuntary resettlement impacts. Permanent land acquisition is limited to 0.55 hectares for the construction of the booster pumping station. Project 4 includes 28 affected households (about 121 people) through loss of land, including 15 severely affected households (about 65 people). There are 15 severely affected households (about 65 people) that will lose more than 10% of their agriculture land. The main source of income of those severely affected people does not derive from agriculture; therefore their livelihood will not be significantly impacted. No main building structures and no residential land will be affected by the project. All unanticipated impacts will be mitigated in accordance to the MFF RF.
Indigenous Peoples	Project 4 is categorized C for indigenous peoples. Due diligence confirmed that there are no ethnic minority peoples in the project area, who may be considered indigenous peoples based on ADB's Safeguard Policy Statement. Nevertheless, the MFF's indigenous peoples planning framework will guide the application of indigenous peoples safeguards should any unanticipated impact on ethnic minority communities arise during Project 4 implementation

### Stakeholder Communication, Participation, and Consultation

During Project Design

During Project Implementation

### Responsible Staff

Responsible ADB Officer	Ishii, Satoshi
Responsible ADB Department	Southeast Asia Department
Responsible ADB Division	Viet Nam Resident Mission
Executing Agencies	<i>Ministry of Planning and Investment 6 B Hoang Dieu street, Ba Dinh district, Hanoi, Viet Nam</i>

### Timetable

Concept Clearance	-
Fact Finding	31 Jul 2015 to 31 Jul 2015
MRM	08 Oct 2015
Approval	16 Dec 2015
Last Review Mission	-
Last PDS Update	22 Dec 2015

### Loan 3373-VIE
