

## Cambodia: Tonle Sap Poverty Reduction and Smallholder Development Project - Additional Financing

Project Name	Tonle Sap Poverty Reduction and Smallholder Development Project - Additional Financing	
Project Number	41435-054	
Country	Cambodia	
Project Status	Approved	
Project Type / Modality of Assistance	Grant Loan	
Source of Funding / Amount	<b>Grant 0542-CAM: Tonle Sap Poverty Reduction and Smallholder Development Project</b>	
	concessional ordinary capital resources lending / Asian Development Fund	US\$ 4.28 million
	<b>Loan 3570-CAM: Tonle Sap Poverty Reduction and Smallholder Development Project</b>	
	concessional ordinary capital resources lending / Asian Development Fund	US\$ 45.73 million
	<b>Loan 8331-CAM: Tonle Sap Poverty Reduction and Smallholder Development Project - Additional Financing</b>	
	International Fund for Agricultural Development	US\$ 10.00 million
Strategic Agendas	Environmentally sustainable growth Inclusive economic growth	
Drivers of Change	Governance and capacity development Partnerships	
Sector / Subsector	<b>Agriculture, natural resources and rural development</b> - Agricultural production - Irrigation	
Gender Equity and Mainstreaming	Effective gender mainstreaming	
Description	An additional financing to the Tonle Sap Poverty Reduction and Smallholder Development Project is proposed for seven provinces (Banteay Meanchey, Battambang, Kampong Cham, Kampong Thom, Prey Veng, Siem Reap, and Tboung Khmum) in Cambodia. The additional financing will enhance agricultural productivity and improve access to markets in 270 target communes through investments in climate-resilient productive infrastructure, building capacity in disaster risk management of the communities and commune councils, and creating an enabled environment for agricultural productivity, diversification and climate resilience.	
Project Rationale and Linkage to Country/Regional Strategy	Given the success of the current project, executing agencies have requested ADB support for an additional financing to scale up the current project activities. Demand for agricultural production infrastructure for poverty reduction in the Tonle Sap Basin is high; over 90% of the poor live in rural areas and are dependent on small-scale agricultural production for their livelihood. Frequency and intensity of disasters such as floods and droughts in the Tonle Sap Basin require interventions to enhance climate resilience and reduce disaster risk. The additional financing will also strengthen ADB's basin-scale strategic approach in the Tonle Sap basin by creating synergies with other projects, such as the Climate-Resilient Rice Commercialization Sector Development Program (Rice SDP). Further, by using the additional financing modality, momentum of successes can be built on, and use of the current project resources optimized.	
Impact	Livelihoods and climate resilience in target communes in seven provinces in the Tonle Sap Basin improved.	
<b>Project Outcome</b>		
Description of Outcome	Agricultural productivity increased, climate and disaster resilience strengthened, and access to markets improved in 271 communes in seven provinces in the Tonle Sap Basin.	

Progress Toward Outcome

**Implementation Progress**

Description of Project Outputs Rural productive infrastructure and livelihood improved with capacity in disaster risk management enhanced.  
Enabling environment for increased agricultural productivity, diversification and climate resilience created.  
Project management strengthened.

Status of Implementation Progress (Outputs, Activities, and Issues)

Geographical Location
