#### 1. Introduction

#### 1.1 Objectives of the Project

The Project objective of the Floods Emergency Recovery Project (the "Project") is to meet critical needs and restore functionality of infrastructure essential for public services and economic recovery in Floods Affected Areas.

#### 1.2 Components and activities of the Project

The Project is comprised of the following three components:

#### Component 1: Emergency Disaster Recovery Goods

The recent floods have created significant strains on the supply chains for a variety of goods crucially needed to ensure the continuity of public services and economic opportunities. For example, some coal mines have been flooded, resulting in a restriction of supply to the main thermal power plants. The flooded areas traditionally have been oriented towards agriculture and agribusiness, which were severely affected by the floods, resulting in fodder and forage shortages and an urgent need for seeds and fertilizers for reseeding. The Project will therefore finance, through the use of a positive list, the purchase of goods urgently needed during the recovery phase. The positive list will include logistical goods, reconstruction goods, emergency goods, energy and power sector goods as well as agricultural recovery goods, with an initial priority set of fuel and food, agricultural and emergency goods. The positive list will include:

- Logistical goods: including water, land and air transport equipment, including spare parts; communications equipment.
- (ii) Reconstruction goods: including construction materials; construction equipment and industrial machinery (including trucks, dozers, excavators); prefabricated houses.
- (iii) Emergency goods: including emergency and medical supplies and equipment; food and water containers; chemicals and equipment for water purification and sanitation of land, buildings and other structures; basic food commodities; cleaning and hygienic supplies; mud and water pumping equipment; equipment and furniture for emergency shelters and accommodations; moisture removal equipment; emergency vehicles and supplies; waste management and disposal equipment.
- (iv) Energy and power sector goods: including petroleum and fuel products; power purchases; power transmission and distribution equipment; mining equipment and pumps to remove water from mines, controls, monitoring and measurement equipment; emergency power generators; and other electrical equipment.
- (v) Agricultural recovery goods: including agricultural equipment and immovable productions systems such as greenhouses, milking parlors and auxiliary installations, sorting or packaging equipment; inputs (excluding pesticides); such as seedlings for perennial crops, orchards and wine yards as well as seeds and fertilizer for reseeding of fields; as well concentrated animal forage and fodder stocks that were destroyed by floods; livestock.
- (vi) Other Essential Goods: any other goods or commodities essential to the Recipient's recovery from flooding, as agreed in advance by the Association.

#### 1. Introduction (continued)

#### 1.2 Components and activities of the Project (continued)

#### Component 2 Rehabilitation of Key Public Infrastructure

This Component will support the rehabilitation of both local and regional public infrastructure on the basis of the RNA. The impact of the floods was concentrated on around 60 municipalities in the central, northwest and northeast parts of the country; in many of these, public services delivery was severely impacted. This Component will therefore finance the rehabilitation or reconstruction of high priority, public service delivery infrastructure in the worst affected areas.

This component is designed under a framework approach in which activities will be identified in a demand-driven manner, based on the on-going RNA. The project will put particular emphasis on Rural Development, Energy, Transport and Water and Sanitation activities but other public services (education, health) will be considered on a case-by-case basis. The Component will be divided in two Subcomponents that will follow somewhat different project cycles, depending on whether the infrastructure is local or regional.

Sub-component 2.A: Regional Infrastructure Rehabilitation

The main activities include rehabilitating or reconstructing high priority, regional-level public infrastructure through Sub-projects in Floods Affected Areas.

Subcomponent 2.B: Local Infrastructure Rehabilitation.

The main activities include rehabilitating or reconstructing high priority, local-level public service delivery infrastructure through Sub-projects in Floods Affected Areas.

#### Component 3: Project Implementation Support and Capacity Building

This component will finance the management of the Project and any support needed for the identification and implementation of sub-activities. The component will also provide technical assistance and capacity building on ensuring future improved disaster resilience.

This Component includes two main Subcomponents:

Subcomponent 3.A.

The main activities include project implementation support through the provision of incremental operating costs of RS APCU and equipment for Project implementation.

Subcomponent 3.B.

The main activities include strengthening the institutional capacity of the RS and local authorities within the RS to a proactive approach of risk management, through the provision of technical assistance and training.

#### 1.3 Financing of the Project:

#### 1.3.1 IDA Credit No. 5529-BA

The State of Bosnia and Herzegovina ("B&H") is the borrower of the International Development Association (IDA) Credit No. 5529-BA amounting to the equivalent of XDR 65,000,000.

Under the terms of a subsidiary finance agreement between B&H and Republika Srpska ("RS") funds of the equivalent of XDR 30,875,000 have been lent to RS.

#### 1. Introduction (continued)

### 1.3 Financing of the Project (continued):

Categories of cost items to be financed out of the proceeds of the Credit, the allocation of the amounts of the Credit to each category and the percentage of expenditure for cost items so to be financed in each category are as follows:

Item	Amount of the Credit allocated (in XDR)	% of expenditure to be financed
(3) Eligible Essential Goods and Commodities for part	(III ABIL)	
B.1 of the Project	12,350,000	100%
(4) Goods, works, non-consulting services, consultants' services, Training and Incremental Operating Costs		
for Parts B.2 and B.3 of the Project	18,525,000	100%
Subtotal	30,875,000	

IDA Credit No. 5529-BA became effective on September 15, 2014. Planned closing date is December 31, 2018.

#### 2. Independent Auditor's Report

To the State of Bosnia and Herzegovina, Ministry of Finance and Treasury Attn. of Minister of Finance and Treasury H.E. Mr. Vjekoslav Bevanda

#### Report on the project financial statements

We have audited the accompanying project financial statements of the Republika Srpska part of the Floods Emergency Recovery Project (the "Project"), which comprise of Summary of sources and uses of funds, Balance sheet, Designated account statement, Statement of Credit withdrawals as of and for the years ended December 31, 2014 and December 31, 2015, and a summary of significant accounting policies and other explanatory notes for the years then ended, financed under the IDA Credit No. 5529-BA. These project financial statements have been prepared on the cash basis of accounting based on International Public Sector Accounting Standard ("IPSAS"), as described in Note 4.1.

#### Responsibility for the project financial statements

The State of Bosnia and Herzegovina, i.e. the management of the agricultural project coordination unit (the "Management") is responsible for the preparation and fair presentation of these project financial statements on the cash basis of accounting based on IPSAS, as described in Note 4.1, and on "Guidelines: Annual Financial Reporting and Auditing for World Bank – Financed Activities" issued by Financial Management Sector Board ("FMSB"), and for such internal control as the Management determines is necessary to enable the preparation of the project financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's responsibility

Our responsibility is to express an opinion on the project financial statements based on our audit. We conducted our audit in accordance with the International Standards on Auditing and "Guidelines: Annual Financial Reporting and Auditing for World Bank – Financed Activities" issued by FMSB. Those Standards and Guidelines require that we plan and perform the audit to obtain reasonable assurance about whether the project financial statements are free of material misstatement.

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special purpose project financial statements. An audit also includes assessing of the accounting principles used and significant estimates made by the Management, as well as evaluating the overall statement presentation.

We believe that our audit provides a reasonable basis for our opinion.

#### Report on the project financial statements (continued)

#### Opinion

In our opinion, the accompanying project financial statements present fairly, in all material aspects, the financial position of the Project as of December 31, 2014 and December 31, 2015 and of the funds received and disbursed during the years then ended, in accordance with basis of accounting described in Note 4.1.

#### Report on other requirements

In addition, with respect to the Statements of Expenditure, adequate supporting documentation has been maintained to support claims to the World Bank for reimbursements of expenditures incurred; and all expenditures included in withdrawal applications and reimbursed against are eligible for financing under the Project.

#### **Emphasis of Matter**

We draw your attention to the Appendix B to the project financial statements disclosing the fact that, during 2015, the World Bank made disbursements to the Ministry of Finance of the Republika Srpska with regard to the emergency goods purchased and paid directly from the Treasury account. The World Bank, conditionally to the contracting of separate, additional audit for all emergency goods purchased to review the compliance of actual processes and activities with reported ones, and to confirm the goods were indeed distributed to the intended beneficiaries, approved those disbursements.

Our audit opinion was not qualified with respect to this matter.

Project financial statements for the years ended December 31, 2014 and December 31, 2015

(all amounts in EUR, unless otherwise stated)

#### 4. Notes to the project financial statements

#### 4.1 Basis of preparation and accounting records

These project financial statements have been prepared in accordance with the International Public Sector Accounting Standard: "Financial Reporting under the Cash Basis of Accounting" issued by the Public Sector Committee of the International Federation of Accountants, and incorporate the accounting policies below, which have been consistently followed in all material respects and comply with the "Guidelines: Annual Financial Reporting and Auditing for World Bank – Financed Activities", issued by the Financial Management Sector Board.

#### 4.2 Accounting policies

The Project's fiscal year is January 1 to December 31 for the recording of all transactions.

#### Cash basis of accounting

All receipts and expenses under IDA Credit are recorded on actual receipt and payment basis of accounting as per approved categories.

Project expenditure is stated at original cost on the balance sheet.

#### Direct payments

Direct payments concern the amounts paid directly from the Credit account of the World Bank.

#### Statement of Expenditure (SoE)

Statements of Expenditure are used to state the expenditure under IDA Credit during a certain period. These statements are sent to the World Bank's disbursement specialist who authorises the payment of the expenditure through the Designated account.

#### Currency conversions

The reporting currency is EUR. Sources and use of funds (payments to suppliers and contractors) in currencies other than EUR have been converted to EUR using the currency rate at the moment of the transaction.

Bank balances, recorded on the balance sheet at year-end, have been converted at year-end rate.

#### Designated account

This is the total amount of the withdrawals from the Credit account for the Project. The Credit account is in XDR.

#### Interest on Designated account

Interest earned on the Designated account belongs to the Borrower.
