Global Development Objectives

Global Environmental Objective (from Project Appraisal Document)

The Project's Global Environmental Objective (GEO) is the same as the Project's Development Objective (PDO), namely, (a) to support the expansion of globally significant, representative and effective Marine and Coastal Protected Area System in Brazil, and (b) to identify mechanisms for its financial sustainability.

Has the Global Environmental Objective been changed since Board Approval of the Project Objective?

No

Implementation Status and Key Decisions

Marine Protected Areas Project (GEF Mar) was approved by the Bank's Board of Directors on September 19, 2014 and became effective on December 18, 2014. This 5-year Project, with an estimated cost of US\$ 117.86 million, including GEF financing of US\$ 18.20million, supports investments to expand a globally significant, representative and effective Marine and Coastal Protected Area System in Brazil and to identify mechanisms for its financial sustainability. The Project is expected, inter alia, establishing new MPA to achieve 5% of areas under protection (increasing the formally protected marine and coastal area from 1.57% to 5%) and strengthen biodiversity protection in at least 9,300km of selected MCPAs. Project design draws upon lesson learned with the establishment of MCPA system in other parts of the world.
