30<sup>th</sup> January 2025

Ms. Rocio Medina Bolivar  
Country Representative - Belize  
Inter-American Development Bank  
1024 Newtown Barracks  
Belize City, Belize

Dear Ms. Medina Bolivar,

**Ref.: Request for non-reimbursable Technical Cooperations BL-T1197 “Support for the execution of BL-L1051 Wastewater Collection and Treatment System for Caye Caulker” and BL-T1179 Support the development of an IDB CLIMA pilot project in Belize “**

On behalf of the Government of Belize, I would like to request for Belize, through the Belize Water Services Limited (BWSL), to be the beneficiary of the non-reimbursable technical cooperations BL-T1197 “Support for the execution of BL-L1051 Wastewater Collection and Treatment System for Caye Caulker” and BL-T1179 Support the development of an IDB CLIMA pilot project in Belize”.

The objective of the TC is to support the execution of BL-L1051 Wastewater Collection and Treatment System for Caye Caulker operation. The specific objectives are: i) to update or complement feasibility technical studies and engineering designs; ii) to develop environmental, financial, socioeconomic, and institutional studies, iii) to provide technical assistance to the executing agency, and iv) to design the first project under the IDB CLIMA Pilot Program and implement the IDB CLIMA Roadmap. The Inter-American Development Bank (IDB) will be the executing agency for these cooperations.

These technical cooperations are highly relevant to the BWS’s ongoing efforts to provide access to sanitation services for all residents of Belize and to meet the UN’s Sustainable Development Goals of reducing the portion of people without access to adequate and equitable sanitation.

We look forward to our continued partnership with the IDB in this important sector.

Sincerely,

Mr Carlos Pol  
Chief Executive Officer  
Ministry of Economic Development
