#### Implementation Status and Key Decisions

The Water Supply Augmentation Project has not yet been declared effective and is pending ratification by the Lebanese Parliament.

Progress is as follows: (i) while the Council of Ministers has approved the land expropriation decree, the expropriation has not started yet; (ii) the Dam Safety Panel of Experts has confirmed the final design, and the preparations for tendering of the dam works contract are underway; (iii) the prequalification process has been lauched; (iv) the Dam Safety Panel of Experts also remains on board to advise CDR and the design engineer on the detailed design and safety plans relating to the dam works; and (iv) a project director has been assigned to the PMU and is overseeing all aspects of the project preparation phase.

A follow up mission is planned for Mid-November, 2015.
