Implementation Status and Key Decisions

Despite some progress achieved in project implementation, the procurement processes for most on-going activities have suffered certain delays, mainly due to delayed decisions taken by the evaluation committees and, in few cases, changes of the members of the evaluation committees. As a result, procurement of some main TA activities, including: (i) design for the physical rehabilitation of the Pediatric hospital under the QSUT, (ii) revision of the Hospital Rationalization Plan, and (iii) preparation process for the e-Health Master Plan and Health Data Dictionary (HDD) are not yet finalized. Delays are also noted with regards to the preparation of the e-Health Master Plan and Health Data Dictionary (HDD). Agreement was reached with the leadership of the Ministry of Health and the Health Insurance Fund to intensify their efforts for accelerating project implementation.
