## DEFINITION OF SELECTED TERMS

The various terms used in this SRAP are briefly defined below for clarity and consistency:

**Affected Persons or Project Affected Person (AP/PAP):** Persons affected *directly* or *indirectly* by the project-induced changes in use of land, water, or other natural resources are called PAPs. In other words, a person who as a consequence of the changes sustains (a) damages by reason of severing land, or (b) loss of immovable property in any manner, or (c) experience loss of income and livelihood. Such impacts may be temporary or permanent in nature and most often occurs through land expropriation and clearing existing land for construction.

**Compensation:** Payment made in cash to the affected persons/households for the land, structures, **loss of income**, immovable properties which have to be shifted for construction works of the subprojects.

**Cut-off Dates:** Date of notification under Section 3 of 1982 Ordinance is the cutoff date for title owners. The commencement date of Census will be considered cutoff date for all others, including non-titleholders for resettlement benefits. Cut-off dates for the three UZR of this SRAP **showed in Table 5.8 (page 28)**

**Census Survey:** A survey covering 100% households being affected by the project, irrespective of their ownership to the land.

**Occupiers:** Project affected person who have built structures, planted trees, opened business on the UZR land reserves. They have own land attached to the road or nearby. Occupiers are informal settlers encroached into the road reserve or into public land.

**Community Participation and Consultation:** The active process of sharing information seeking inputs from community about the project, seeking community-wide inputs, and integrating those in the project design as well planning mitigation measures.

**Displacement:** Refers to physical displacement in terms of physical dislocations as well as economic displacement due to loss of land, access to land as well as forest resources, commercial establishments and any other impacts such as severance that adversely affects lives and livelihood sources.

**Displaced Persons:** Project affected person due to the involuntary taking of land resulting in (i) relocation or loss of shelter; (ii) loss of assets or access to assets; or (iii) loss of income sources or means of livelihood, whether or not he/she must move to another location; or a person affected by the involuntary restriction of access to legally designated parks and protected areas resulting in adverse impacts on the livelihoods.

**Entitlements:** Range of measures comprising of compensation resettlement benefits, including shifting allowance, subsistence, and relocation, which a displaced person is entitled to, depending on the nature of losses, to restore and/or improve the living standards.

**Household:** A household unit includes family members who share food from the same kitchen. In the project area, it consists of parents with children living together as an economic and production unit.

**Relocation:** Rebuilding housing, assets –including productive land, and public infrastructure, in a new location.

**Rehabilitation:** Re-establishing incomes, livelihoods, living and social systems.

**Resettlement Action Plan (RAP):** A time bound action plan with budget setting out resettlement impact strategy, objectives, entitlement, actions, implementation responsibilities, monitoring and evaluation.

**Replacement Cost:** The costs of replacing lost assets (e.g., land, houses/structures, trees and crops) and income, including cost of transaction.

**Vulnerable Person:** The vulnerable group/persons may include (i) persons below nationally defined poverty line; (ii) indigenous people or *adibasis*; (iii) poor women-headed households; (iv) landless and marginal farmers; (v) people with disability (vi) elderly and (vii) any other groups or persons found to be disproportionately affected by project impacts.

# Executive Summary

## **Project objectives**

The Second Rural Transport Improvement Project (RTIP-II) is being implemented by the Local Government Engineering Department (LGED) under the Ministry of Local Government, Rural Development & Cooperatives with co-financing from the World Bank (IDA). The Project aims overall improvement of rural transportation system by rural roads, boat landing sites/ghat, river dredging and rural market centers. The project will facilitate easy and cost effective transportation of goods, marketing of agricultural products with reducing transport cost, developing the market system, impact on increasing agricultural products and creation of short and long-term employment opportunities for the rural people. Finally, the project will contribute in poverty reduction.

## **Rationale for Social and Resettlement Action Plan (SRAP) with acquisition of lands**

This SRAP has been completed based on Social Impact Management Framework (SIMF) for implementation of the 3-UZR where land acquisitions require in between a total of 13 UZR subprojects for execution in Region-1 and a total of 17 UZR subprojects for execution in Region-2 under the third year. Twenty five of these subprojects have been designed avoiding any acquisition of additional private land. Acquisition of private land has been decided at least in three subprojects; 1 sub-project from each of the following districts- Jamalpur, Sirajgonj and Sunamgonj. About 17.05 acres of land (6.90 ha, 1 Acre = 2.4711 ha) has been proposed for acquisition in these **three** districts following the Land Acquisition and Requisition of Immovable Property Ordinance II (1982) of Bangladesh. The Ordinance provides certain safeguards for the owners and has provision for payment of “fair compensation” for the property acquired through the office of Deputy Commissioner (DC). Acquisition of private land has been considering for one more UZR in Brahmanbaria district and another UZR in Mymensingh district has been dropped.

Moreover, this SRAP has been designed to (i) address and mitigate the impacts of UZR development; (ii) comply with the safeguard requirements of the World Bank (WB); and (iii) be able to pay compensation to the households affected by UZR development in order to meet the project development schedule.

## **Scope and objectives of the SRAP**

The primary goal of the SRAP is to plan adequate mitigation measures and provide compensation and resettlement assistance to those physically and economically affected persons through appropriate mitigation measures. These include (i) provision for compensation payments for land acquisition, structures, trees and standing crops; (ii) payment of additional grant to the affected persons to reach at replacement costs (recommended by Market Price Valuation Committee); (iii) Transfer and reconstruction assistance for displacement during site development (if any); (iv) Special assistance for the poor, particularly vulnerable women who will not be able to go back at least to their pre-project standard of living with normal compensation; and (v) provision for implementation framework, monitoring and evaluation.

## **Disclosure and Consultation**

During SRAP preparation, disclosure and consultation has been followed through community people participatory mechanism. All subprojects have been identified and designed through disclosure of information to the community and consultation with the local peoples. RTIP-II has established Consultation and Participation Plan for addressing the requirement of community

including needs assessment. In this regard 155 FGDs and 203 hot-spot discussions were conducted in the mainstream areas for 4233-participants.

In addition, women were specially consulted through 49 FGDs along the 30 roads in the 12 project districts. Rate of participation of women in these FGDs were moderately. So, FGD was conducted with only female beneficiaries of mainstream population area of each UZR. A total of 390 women participated in these FGDs.

Community consultation was done in each Kilo Meter of the road or in important public gathering places at the time of Social and environmental screening.

### **Summary of the Property Loss**

All the possible measures were taken to avoid acquisition of private land and loss of other properties. But it could not avoid acquiring of 17.05 acres of land to implement the three UZR. Most of the land will be required for widening the existing road area. Two of these three roads crossed open field and another UZR in Sunamgonj goes through Haor (land remains under water for 7 months in the year). There were no structures by the side of the UZR. So, no structure will be affected for implementation of these UZR. 88 owners will lose 765 numbers of trees (63 large trees, 404 medium trees and 298 small trees). Among these 88 owners 34 owners will lose 192 fruit trees. Standing crops of 7.22 Acres of land will be affected for construction of the UZR. The census report shows that there are 241 number of affected land owners will lose standing crops, where 231 are male and 10 are Female. Total project affected persons (HH members) are 2512 where 1173 (46.7%) are male and 1339 (53.3%) are female. Main profession of most the affected HH is agriculture (86.93%). Among 421 affected land owners there are only 13 business man and 16 are housewife. These 16 women will be assisted to recover rapidly from the impact of acquisition. There are no squatters or illegal occupiers along the UZR. No indigenous people or any kind of indigenous interests will be hampered due to implementation of UZR works.

### **SRAP Implementation and Cost Estimation**

A Compensation and Entitlement Matrix has been prepared for the affected persons under the UZR with acquisition of private lands. The affected persons are eligible for compensation/assistance according to this SRAP. An amount of Tk 4,26,71,123 (\$538981) has been proposed to LGED for providing compensation and assistance to the affected persons. The project considered compensation for affected property according to their type, extent and severity. LGED will review the recommendations and approve for delivery of compensation and assistance to the eligible affected persons.

This Compensation and Entitlement Matrix constructed on the basis of SIMF where the views of Operational Policy 4.12 of the World Bank has been reflected.

This Social and Resettlement Action Plan has been reviewed and agreed by LGED and the Government of Bangladesh. The SRAP will be shared with the Bank for review and clearance. The SRAP will be disclosed locally before implementation. The impacts and entitlements along with implementation arrangements will be translated in Bangla and placed in the LGED offices in the Upazila and District level. The SRAP will be uploaded in the LGED website immediately after its clearance from the Bank along with its Bangla translation.

**SOCIAL AND RESETTLEMENT ACTION PLAN (SRAP)**  
**Third Year UZR Subprojects in RTIP-II with Private Land Acquisition**

## **1 INTRODUCTION**

### **1.1 Project Background**

The Second Rural Transport Improvement Project (RTIP-II) is being implemented by the Local Government Engineering Department (LGED) under the Ministry of Local Government, Rural Development & Cooperatives with co-financing from the World Bank (IDA). The Project aims overall improvement of rural transportation system by rural roads, boat landing sites/ghat, river dredging and rural market centers. The project will facilitate easy and cost effective transportation of goods, marketing of agricultural products with reducing transport cost, developing the market system, impact on increasing agricultural products and creation of short and long-term employment opportunities for the rural people.

The project is financing improvement of the following components.

- i. 750 Km Upazila Road (UZR);
- ii. 500 km Union Road (UNR) ;
- iii. Rehabilitation of 3550 km rural roads under Rehabilitation and Periodic Maintenance (RPM);
- iv. Maintain 450 km rural roads under Performance Based Maintenance Work (PBMC);
- v. 50 nos. Growth Center Market (GCM) and
- vi. The project is also financing for dredging of about 44 km river routes as the 20 River jetties/ boat landing stations.

The Project will be implemented over 5 (five) years in 3 (three) phases. Only some UZR's will require acquisition of land from private ownership and resumption of public land from authorized and unauthorized private uses. Accordingly, the project has been preparing Social and Resettlement Action Plan (SRAP) to mitigate the adverse impact of acquisition or displacement of the people following the Social Impact Management Framework (SIMF) of the project.

### **1.2 Project Area**

The 26 project districts covered under RTIP-II have been grouped into two regions; Region-1 and Region-2, each containing 13 districts. The project area covers 60,000 sq.km. Total area of Region-1 (R1) is 25,201 sq.km where 66,217,965 people are living. Total land area in Region-2(R2) is 34,710 sq.km with a population of 21,918,041 persons. Ratio of male and female in the project districts are 1.04 male(s)/female. Indigenous people are living in some of the project districts of both regions. High percentage (from total population) of indigenous people live in the project districts as follows- in Mymensingh and Netrokona 1.42%, in Sherpur 1.24%, in Tangail 1.13%, as per Population Census, 2011 by Bangladesh Bureau of Statistics (BBS).

There are 70.63 Km of UZR under Region-1 and 148.2 Km under Region-2 (SUN/UZR-32 of 10.06 Km included from Second year program) where project activities have been proposed under the Third year program (Phase-III). Proposed improvement works for three<sup>3</sup>rd year UZR with acquisition covers an influence area of 787.24sq.km where about one million people are living. Population density varies significantly from 579 people (Derai) to 1527people (Kamarkhanda) per sq.km in the sub-projects influence area.

Upazila wise area, population and rate of literacy in the three third year UZR with land acquisition are given below in Table 1.1.

Table 1.1 Population and literacy rate of three Upazilas with acquisition.

SL	Upazila & District	Population			Literacy Rate			Area (sq. km <sup>2</sup> )	Population Density/ Sq-km
		Male	Female	Total	Total (%)	Male (%)	Female (%)

**Figure 1: Map of the Project Area (RTIP-2)**

### 1.3 Third Year UZR Subprojects in RTIP-II

The Third year subprojects are located in the Central and North-East to South-East Districts of the country. There are 30 UZR (30-packages), 17 UNRS, 129 RPM Roads, and 15 GCMs proposed for improvement under Third year work program in RTIP-II. Only three of the UZR subprojects involve acquisition of additional private land including two in Region 1 and one in Region 2.

### 1.4 Social Implication of Third Year UZR Subprojects with Land Acquisition

Land Acquisition Plan (LAP) has been prepared by LGED with the assistance from Design and Supervision Consultant (D&SC). LGED will place funds for acquisition of land to the DCs based on their requisition. The DCs will complete all the procedural requirements for land acquisition. Among 29 UZR under 3<sup>rd</sup> year program, acquisition completely avoided for 25 UZR (one subproject dropped in Region 1) and subsequently list of the UZR can be seen in Appendix 2. Land acquisition could not be fully avoided in three subprojects, this SRAP has prepared for these 3 UZR subprojects. One UZR under Nasinagar Upazila of Brahmanbaria District is under process of land acquisition. The civil works components of the Project requiring acquisition of land are presented in Table-1.

Table 1.2: UZR Subproject with Length and Land Acquisition

Sl. #	District	Road	Length (km)	Land requirements (Decimal)		
				Agri-land (Decimal)	Vity Land (Decimal)	Total Land requirement (Decimal)
Region - 1						
1.	Jamalpur	Bagharchar-Sananadabari Via Goalkanda Rd.	4.80	272.49	20.15	292.64
2.	Sirajgonj	Alokdiar (jamtoli)-Someshpur (Belkuchi Upazila) GC Road	3.25	455.64	48.48	504.12
Region - 2						
3.	Sunamgonj	Derai- Jagannathpur via Jagdol, Bhurakhathi Road	10.06	908.42	-	908.42
Total			18.11	1636.55	68.63	1705.18

Source: Census of Project Affected Persons, 2016

421 private owners in 421 households will be losing 17.05 acres of land in three Upazilas. There are no structures by the side of these three UZR and no private owner of structures will be affected and no encroachers of existing land reserve will have to shift their structures back in their land. The owners of land to be acquired are the units of entitlement under this SRAP called entitled person (EP) under SRAP and those losing land due to acquisition are awardees in the legal process of land acquisition.

Most of the cases additional lands will be required for widening or correcting alignments of the UZR. No households will be physically displaced due to project works. So, no affected person will be required to relocate.

## **1.5 Measure to Minimize land acquisition**

Activities for improvement of UZR have largely been limited to existing available land of the roads. Acquisition of private land has been proposed only at critical requirements for ensuring road safety including curve correction and widening. To avoid or minimize land acquisition RTIP-II has taken different measures from the beginning of project activities. LGED has taken the following steps to minimize impacts:

Through detail survey, social screening and consultation with stakeholders, land acquisition has been minimized by using alternative design measures as follows;

1. Pala siding
2. Toe wall, etc

## **1.6 Social and Resettlement Action Plan (SRAP)**

This SRAP has been prepared for the Third year UZR subprojects under RTIP-II requiring land acquisition, to deal with compensation and resettlement assistance to the persons losing land and other assets and income. The SRAP deals with the social and resettlement issues resulting from land acquisition and population displacement. This SRAP includes a social management plan and contains measures for social development and safeguards compliance, monitoring and evaluation, budget and implementation arrangement. Tribal peoples are not living in group or individually by the side of these three UZR and no tribal people are among the affected persons. These three subprojects, therefore did not trigger Bank OP 4.10 on Indigenous Peoples. The SRAP indicates responsibility and timeline for implementation of actions so that project activities can be implemented in the stipulated timeframe.

These roads are selected for improvement after conducting Social Screening and detail field survey. There are private land owners along these 3 roads out of 30 to claim for loss of lands or other properties for the implementation of RTIP-II program. Impacts of subproject interventions have been assessed to mitigate unavoidable adverse impacts, these affected persons will be compensated for their land and their other assets. Methodology of assessing current price of affected properties is mentioned in another paragraph.

## **1.7 Approval and Disclosure**

This SRAP with land acquisition has been prepared by the consultants for the LGED PMU. PMU will share the SRAP with the World Bank for their review and prior consent. After getting the consent from the Bank, LGED will take necessary steps for local disclosure and implementation. The SRAP will be translated into Bangla language prior to local disclosure. LGED has already informed the communities of the provisions of the SIMF on compensation and assistance and of the mechanism to hear and resolve grievances of the affected persons and others. The SRAP will be uploaded in the LGED website immediately after its clearance from the Bank including a Bangla translation.

## 2 SOCIO-ECONOMIC INFORMATION

### 2.1 Sub-project Areas

List of the Upazilas and Districts where land acquisition required for improvement of third year UZR is given below

<u>SL. No.</u>	<u>Upazila</u>	<u>District</u>
01.	Dewanganj	Jamalpur
02.	Kamarkhand	Sirajgonj
03.	Derai	Sunamgonj

### 2.2 Brief Socioeconomic Profile of Subproject Areas

Socio-economic conditions of three third year sub-projects area where of lands acquisition will be required for improvement of the UZR is given below.

#### 2.2.1 Dewanganj Upazila

Dewanganj is an Upazila of Jamalpur District in the Division of Dhaka, Bangladesh. RTIP-2 has been developing 4.8 km long UZR- Bagharchar-Sanandabari Hat via Goalkanda Rd, under Package no: JAM/UZR-64 in this Upazila.

#### Geography

Dewanganj Upazila is located at 25°06' and 25°26' N 89°40' and 89°51' E . There are 60,716 units of household in the Upazila and total area of the Upazila is 267.51 sq. km.

#### Demographics

As of the Bangladesh census, 2011 population of Dewanganj Upazila is 2,58,133. Males constitute 49.05% of the population, and females 50.95%. Average literacy rate in the Upazila is 32.5% where 35.0% males and 30.1% females are literate.

#### Administrative

Deawanganj town area is under Dewanganj Pourashava (Municipality) including 9 wards. There are 8 Unions 42 Mouzas and 166 villages in the Upazila.

Figure : 2 Dewanganj Upazila

## Economy

One of the largest sugar factories in Bangladesh Zeal-Bangla sugar Mill is in Dewanganj. Main crops of the Upazila are Paddy, jute, sugarcane, mustard seed, wheat, potato, garlic, cabbage, cauliflower, brinjal, varieties of pulse and vegetables. There are many fisheries, dairies, poultry firms, 1 Cattle breeding farm, 1 hatchery, 1400 Cottage Loom industries, 39 handicraft, 72 blacksmith, 11 potteries, 71 bamboo and cane work, 159 wood work, 96 jute and cotton work firms in Dwanganj.

Main professions are Agriculture (39.34%), fishing (1.81%), agricultural labourer (28.77%), wage labourer (3.76%), business (9.44%), service (5.69%) and others 11.19%.  
Structure

of agricultural Land in the Upazila is, total cultivable land 16385.27 hectares, fallow land 2554.03 hectares; single crop 16.67%, double crop 45.86% and treble crop 9.81%; land under irrigation 771.35 hectares. Land control Among the peasants 14.04% are landless, 40.96% marginal, 27.82% small, 13.58% intermediate and 3.60% rich; cultivable land per head is 0.18 hectare.

Hats and bazars are 33, most important markets in the Upazila is Dewanganj Bazar, Bahadurabad Bazar, Zalorchor Bazar under Bahadurabad Union.

Upazila health complex is the main Health center in the Upazila. Other notable health services in the Upazila are 8 nos. family planning centre, 2 nos. satellite clinic.

## 2.2.2 Kamarkhanda Upazila

Kamarkhanda is an Upazila of Sirajganj District under Division of Rajshahi Division. . RTIP-2 has been developing 3.254 km long UZR- Alokdiar (Jamtoil)-Shomeshpur (Belkuchi Upazila) GC Road, under Package no: Sirajganj/UZR-76 in this Upazila.

### Geography

Kamarkhanda Upazila is located at 24°18' and 24°27' N 89°35' and 89°42' E . Total area of the Upazila is 90.80 sq. km.

### Demographics

Population of Kamarkhanda Upazila is 1,38,645. Males constitutes 49.34% of the population, and females 50.66%. Average literacy rate in the Upazila is 46.2% where 48.9.0% males and 43.7% females are literate.

Figure : 3 Kamarkhanda Upazila

### Administrative

Kamarkhanda Upazila consists of 4 Unions, 55 Mauzas, and 93 villages. The average Population of each Union Mauzas and village are 34661, 2581 and 1491 respectively.

### Economy

Main sources of income in the Upazila is agriculture (47.06%), non-agricultural labourer (4%), industry (1.14%), business (16.57%), transport and communication (3.87%), service (8.70%), construction works (0.87%), religious service (0.27%), rent and remittance (0.26%) and others 17.26%. There are a number of dairies and artificial breeding centre in the Upazila.

Private agricultural Landowner is 57.74%, landless 42.26%; agricultural landowner: urban 39.18% and rural 59.17%. Main crops in the Upazila are Paddy, wheat, jute, sugarcane, mustard, vegetables. Main exports are Mustard seed, molasses, vegetables, bamboo and cane products.

All the unions of the Upazila are under rural electrification net-work. However 17.26% of the dwelling households have access to electricity.

Communication facilities in Kamarkhanda is Pucca road 55 km, mud road 208 km; railway 10 km; waterway 4.58 nautical miles. There are 85 Bridges, 97 culverts, 1 Railway station.

There are 16 notable Hat-Bazars (markets) in Kamarkhanda Upazila. The most important markets in the Upazila are Jamtail Bazar, Kamarkhanda Bazar, Bhadraghat Bazar; Baradhul Hat, 'Balarampur Hat.

Upazila health complex is the main Health centre in the Upazila. Other health services are 4 family welfare centre and 2 satellite clinic.

### 2.2.3 Derai Upazila

Derai is an Upazila of Sunamganj District under the Division of Sylhet, Bangladesh. RTIP-2 has been developing 10.06 km long UZR Derai-Jagannathpur via Jagdol, Bhurakhali Road under Package no. SUN/UZR-32 in this Upazila.

#### Geography :

Derai is the third biggest Upazila of Sunamganj District in respect of area, Total area of Derai is 420.93 sq. km. It is located between 24°39' and 24°53' north latitudes and between 91°10' and 91°28' east longitudes.

#### Demography

Population of Dewanganj Upazila is 243690. Males constitute 50.32% of the population, and females 49.68%. Average literacy rate in the Upazila is 37.1% where 38.5% males and 35.8% females are literate.

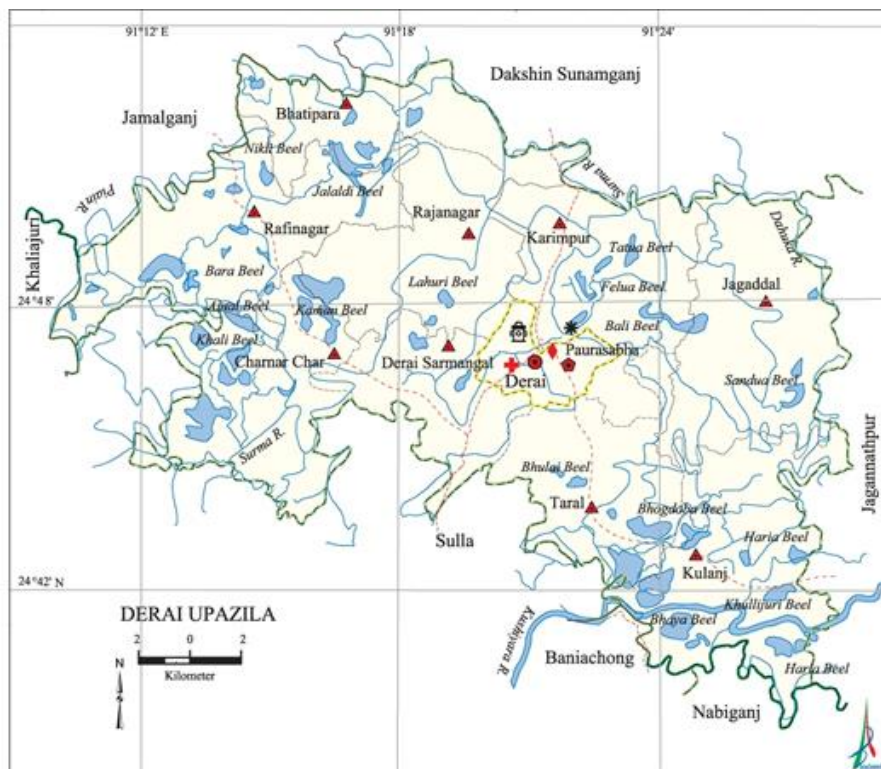

Figure : 4 Derai Upazila

#### Administrative

There is a Pourashava (municipality) including 9 Wards in Derai. There are 9 Unions, 137 Mouzas and 232 villages.

## **Economy**

Main sources of income Agriculture 74.85%, non-agricultural labourer 5.30%, industry 0.24%, commerce 8.14%, transport and communication 0.26%, service 3.19%, construction 0.64%, religious service 0.38%, rent and remittance 0.70% and others 6.30%.

Ownership of agricultural land in the Upazila is Landowner 49.11%, landless 50.89%; agricultural landowner: urban 43.25% and rural 50.04%. Main crops Paddy, chilli, potato, onion, vegetables. Jute is an extinct or nearly extinct crop in the Upazila. Main fruits are Mango, jackfruit, wood-apple, banana, litchi, blackberry, guava.

There are 150 numbers of Fisheries, 5 hatcheries and 120 poultry firms in the Upazila. Communication facilities in Deari Upazila is Pucca road 20 km, mud road 520 km; waterway 46 nautical miles.

Access to electricity All the wards and unions of the upazila are under rural electrification network. However 9.93% of the dwelling households have access to electricity.

Noted factories are Rice mill 12, flour mill 2, saw mill 8, brick-field 5, ice factory 3, pipe factory 1. There are also cottage industries on weaving and bamboo work.

There are about 20 markets in the Upazila. The important hat-bazars (markets) are Derai, Rajanagar, Tanakhali, Ratanganj, Bhatipara, Shyamar Char, Banglabazar and Dhalbazar and Dhal Mela. Fishermen of Derai get a good quantity of fish from haor (big water bodied area). Main exports Fish.

### **2.3 Gender and Vulnerability**

Women constitute about half of the national population in Bangladesh. They are now increasingly recognized to play an effective and critical role in the process for sustainable and equitable development for men and women in the country. The subprojects under RTIP-II in each phase will therefore include a gender analysis for gender inclusive design, implementation and operation.

The gender policy of RTIP-II is to promote women's participation in project planning and implementation and Minimize social vulnerability. A Senior Sociologist at the PMU assist the PD in the process of land acquisition and resettlement of affected persons and in managing social issues including gender and vulnerability and Tribal peoples Issues

### **2.4 Ethnic Composition and Tribal Peoples**

The tribal peoples of Bangladesh refer to native ethnic minorities in southeastern, northwestern, north-central and northeastern regions of the country. These regions include the Chittagong Hill Tracts (CHT), Sylhet Division, Rajshahi Division and Mymensingh and Sherpur District. They are diverse ethnic communities including Australoid, Tibeto-Burman and Sino-Tibetan races. RTIP-II covers 26 plain districts outside the CHT. The tribal peoples living in the plain areas make up about 0.6% of the project area population, lower than the national figure of over 1.1%.

However, none of the three UZR subprojects involving acquisition of land is through any settlement of the tribal communities and no tribal people will be displaced or affected with land acquisition or improvement of the road. These three subprojects, therefore did not trigger Bank OP 4.10 on Indigenous Peoples and therefore, Tribal Peoples Plan (TPP) for the Third Year UZR Subprojects is not required.

## **2.5 Consultations and Feedback**

Stakeholder consultations, especially the FGDs, and Hot-Spot Discussions (HSDs) were focused on the need for private land acquisition and other public lands along the roads. As to the potential adverse impacts, LGED explained the impact mitigation provisions adopted in the SIMF and the details of the implementation arrangements and compensation procedure.

### **2.5.1 Objectives of Consultation and Participation:**

The main objective of consultation and participation in RTIP-II is to disseminate project objectives and obtain feedbacks from the communities, beneficiaries and affected persons. It ensures easy accessibility of the project beneficiaries into project activities to provide timely disclosure of relevant and adequate information that is understandable and readily accessible to affected people. RTIP-II has been conducting Community consultation in different stages of project activities to enable the project to incorporate all relevant views of affected people and other stakeholders into decision making, such as project design, mitigation measures, the sharing of development benefits and opportunities, and implementation issues.

### **2.5.2 Consultation Process**

Public consultations, especially the FGDs were focused on the need for resuming public lands along the roads. As to the potential adverse impacts, LGED explained the impact mitigation provisions adopted in the SIMF and the details of the implementation arrangements and compensation procedure. During physical verification of the roads, hot-spot discussions were conducted to gather stakeholder's feedback to minimize displacement in general and especially to avoid acquisition of homesteads, commercial establishments, community facilities and so on. Consultation includes project beneficiaries, local public representatives, and local elite persons from civil society, local women groups and others with direct and indirect stakes in the project. FGDs were conducted in scheduled places where the potential participants were invited and FGDs were open for everybody. Consultations were carried out at each kilometer roads during social screening of UZR sub projects.

The following Table 2.1 shows District wise consultations sessions in different stages of 3<sup>rd</sup> year work implementation of RTIP-II.

The following table (2.1) shows District wise consultations and participants in different stages of the Third Year Work Program of RTIP-II. Totally 2257 (men and women) persons consulted through 167 FGDs along the 30 roads and 343 persons consulted were female. In addition 1797 men from the roadside communities consulted in hot spots.

**Table 2.1: Consultation and Participation Status**

	No. of Roads	No. of FGDs	Number of FGD Participants In the mainstream area			No. of key informants interviewed	No. of Hotspot discussion	Partici-pants in hot spot discussions

Source: Social Screening Reports of Phase-III UZR

In addition, women specially consulted through 49 FGDs along the 30 roads in the 14 project districts. Rate of participation of women in these FGDs were low. To convey the message of development to more female project beneficiaries and to gain feedback from them, at least one separate FGD conducted with only female beneficiaries of mainstream population area of each UZR. A total of 390 women participated in 49 FGDs (Table 2.2).

**Table 2.2 District-Wise FGDs with Women Groups**

SL No.	Districts	No. of Roads	No. of FGDs	Number of female participants

### 2.5.3 Summary of Community Feedback and Project Response

Different issues were raised in the consultation process. Summary of the issues raised in the consultations were as follows:

- i) Marking the road area by accurate measurement to avoid unnecessary displacement.
- ii) Avoiding displacement as far as possible.
- iii) Allowing sufficient time to transfer land..
- iv) Arranging government land for replacement.
- v) Avoiding cutting down trees as far as possible.
- vii) Giving preference to the affected people in construction works.
- viii) Arranging compensation as early as possible.
- ix) Considering market value at the time of fixing Compensation.

- x) Considering vulnerability.
- xi) Using proper materials for construction of the UZR.
- xii) Supervising with responsibility.

### **Project Response:**

The D&S Consultant appointed survey firms for detailed engineering survey on ground. The survey firms collected Mauza Map (cadastral map) and arranged engineering survey based on the maps. The survey reports were reviewed by LGED for acceptance through site verification. So, requirement of land area were identified accurately. Measures were taken to acquire minimum quantity of land. The affected 62 persons will get Tk 1281,875 as transition allowance equivalent to price of three years crops of their land and 241 owner of private land will get Tk.494661 for their standing crops in the land. They will get compensation for their affected land. 62 persons will loss their agricultural lands due to acquisition amounts 20% or more of the total agricultural land of affected person. They will get Transition Allowance. Transition allowance @ BDT 1500 per decimal of acquired agricultural land ( if acquisition amounts 20% or more of agricultural land of affected person/s) has been mentioned in the loss category 5 (Loss of agricultural, business, employment & rental income) of Entitle Matrix (Page 21) in the SIMF. Special assistance will be provided to the vulnerable affected persons including the vulnerable women head of households. LGED, D&S Consultant, and Management Consultant have arrangement to monitor the quality of the construction works and activities for social impact management.

## 3 LEGAL AND POLICY FRAMEWORK

### 3.1 Legal Framework

The principal legal instrument governing land acquisition in Bangladesh is the Acquisition and Requisition of Immovable Property Ordinance, 1982 (Ordinance II of 1982 including amendments up to 1994) and other land laws and administrative manuals relevant to alluvion/deluvion land, char and khas land administration in Bangladesh. The 1982 Ordinance requires that compensation be paid for (i) land and assets permanently acquired (including standing crops, trees, houses); and (ii) any other damages caused by such acquisition. The Deputy Commissioner (DC) determines (a) market value of acquired assets on the date of notice of acquisition (based on the registered value of similar property bought and/or sold in the area over the preceding 12 months), and (b) 50% premium on the assessed value (other than crops) due to compulsory acquisition.

The Ordinance in Bangladesh directs the Government to pay compensation to only titled owners for their acquired assets. The Ordinance does not cover project affected persons without titles like informal settler (squatters), occupiers, and informal tenants and lease-holders (without registered agreements). So, social and economic impacts as a consequence of land acquisition are not dealt by this Ordinance. The affected persons without titles in Phase II operation for improvements of UZR in Region-1 are covered under the guidelines and policy framework adopted in the SIMF.

### 3.2 The World Bank Policy

Social safeguards compliance issues are generally expected to relate to the World Bank's Operational Policies on Involuntary Resettlement (OP 4.12) and Indigenous Peoples (OP 4.10). The WB policy is to anticipate and avoid or where avoidance is not possible, minimize adverse social and economic impacts from land acquisition or restrictions on land use by (i) providing compensation for loss of assets at replacement cost and (ii) ensure that resettlement activities implemented with appropriate disclosure of information, consultation and informing properly the affected persons. The World Bank policy on Involuntary Resettlement is to improve livelihoods or restore livelihoods of displaced person at least up to the pre-project condition considering gender, vulnerability and disability issues.

The Bank's broad objective towards indigenous people, as for all the people in its member countries to ensure that the development process fosters full respects for their dignity, human rights, and cultural uniqueness. More specifically, the objective at the center of this directive is to ensure that indigenous peoples do not suffer adverse effects during the development process, particularly from Bank-financed projects, and that they receive culturally compatible social and economic benefits.

### 3.3 Project Policy Framework

#### 3.3.1 Basic Policy Principles

LGED will select the subprojects and consider alternative designs with an emphasis on avoiding or minimizing adverse impacts on private landowners and those who have been using its own and other public lands with and without authorization. To minimize adverse impacts, LGED will use the following principles:

- Avoid or minimize acquisition of private lands;
- Use as much public land as possible;
- Avoid or minimize displacement from homesteads,
- Loss of land valued higher in terms of productivity and uses,
- Loss of buildings/structures that are used for permanent business/commercial activities.
- Dislocation of squatters/encroachers; and
- Impacts on community facilities, such as educational institutions, places of worship, cemeteries, etc., and buildings/structures that are socially and historically important.
- Sections of the roads will be realigned only where it is necessary to meet the required technical and safety standards, or to avoid affecting concentrations of commercial activities.

Where adverse impacts are found unavoidable, LGED will adopt appropriate mitigation measures as per the SIMF.

#### 3.3.2. Impact Mitigation Principles

LGED will follow Impact Mitigation Principles stated as guidelines in the SIMF during implementation of this SRAP. Guidelines to mitigate impacts are as follows

- Resettlement of the project affected persons will be planned and developed as an integral part of the subproject design.
- Project affected persons will be given sufficient time and assurance of compensation for their affected properties. They will be compensated for their land and other assets before transferring their land to LGED **and before any civil works on their land begin..**
- All affected non-land assets, trees, seasonal and perennial crops, orchards and other immovable items of value, will be compensated at replacement costs fixed **at the time of cut-off-date**
- Absence of legal titles in cases of public land users will not be considered a bar to resettlement and rehabilitation assistance, especially for the socio-economically vulnerable groups.
- Affected persons will be compensated for their crops in the land, fruits in the trees and severity of losses.

- Vulnerability, in terms of socio-economic characteristics of the affected persons/ households, will be identified and mitigated according to the provisions as per the SIMF.
- Plan and implement the construction works in a manner to avoid/minimize inconvenience and disruption to the road users, and to business/trading activities where applicable.
- Where the project activities cause community-wide impacts affecting community facilities, access to common property resources, etc., LGED will rebuild them with its own resources and/or provide alternatives in consultation with the user communities.

### 3.3.3 Eligibility for Compensation and Assistance

Regardless of their tenure status to the lands used for a subproject, the affected persons/households will be eligible for compensation and assistance. According to the PAP Census, LGED has identified the following impacts for mitigation:

Private Landowners	:	Persons who have legal rights to the affected lands and other assets, such as houses, other structures, trees etc. grows or built on them. (There are no affected persons without title in the sub-project areas).
Owners of Trees businesses	:	Owners of trees will be compensated in consideration of their size, maturity and other characteristics that influence in market price. The owners of trees will be allowed to keep the fell own trees.

## 4. SOCIAL MANAGEMENT PLAN

The Social Management Plan addresses all non-safeguards social issues related to implementation of the 03 UZR subprojects. The sub-projects are located in three project Districts of RTIP-II. List of the subprojects with acquisition of private land are given below:

**Table 4.1 : List of the UZRS in three districts with acquisition**

Sl. #	Package No.	Location	Name of the UZR	Length (km)
Region- 1				
01.	JAM/UZR-64	Jamalpur	Bagharchar-Sananadabari Via Goalkanda Rd.	4.80
02.	SIR/UZR-76	Sirajgonj	Alokdiar (jamtoli)- Someshpur (Belkuchi Upazila) GC Road	3.25
Region-2				
03.	SUN/UZR-32	Sunamgonj	Derai- Jagnathpur via Jagdol, Bhurakhathi Road	10.06
`Total				18.11

### 4.1 Ensuring participation of local people and transparency of the resettlement plan

At the time of preparation of LAP & SRAP, participatory consultation approaches were followed for acquisition of private land where required. The list of Project Affected Person (PAPs) titled and non-titled and properties were reviewed in the concerned stakeholder consultation meetings. As a part of the SRAP preparation, the PAPs were informed in details about the compensation policies adopted in the SRAP, the payment process, the documents required to claim the 'Compensation-Under-Law' (CUL) and the arrangements for 'spot payment' by the acquisition officials, and the procedure to bring grievances to the Grievance Redress Committees (GRCs) before making payment.

The SIMF has been made available to the communities in local Bangla language and all social management instruments have been developed in Bangla including the SCM and GRM.

### 4.2. Grievance Redress Mechanism (GRM)

#### 4.2.1. Introduction and Objectives

LGED has adopted a Suggestion and Complaint Mechanism (SCM) for addressing project related complaints and grievances on procurement, contract management, land acquisition, resettlement and environmental impact management. SCM suggested forming committees in district level and at Upazila level including LGED, local people who have connectivity with mass people and project affected persons. Main objective of these committees is to solve grievances in initial stage. The committees ensure easy accessibility of the project beneficiaries. This will help to avoid lengthy legal procedure to mitigate problems and public unrest which would delay the commencement and completion of project activities.

#### **4.2.2. Grievance Redress Focal Points**

A Suggestion and Complaint Committee (SCC) at the district level already active for receiving and settlement of complaints and suggestions from local communities on procurement, contract management, corruption and fraud, financial management, social, environmental, health safety. A Grievance Redress Committee (GRC) at the Upazila level already active to ensure accessibility by the affected persons for resolving land acquisition and resettlement related grievances. If the resolution attempt at the local level fails, the GRC refers the complaint to District level SCC. It is responsibility of GRC to inform the PAPs fully about their rights to offer suggestion and make complaints including grievances related to resettlement process. GRC arrange investigations and hearing of the complaints. Where tribal people are among the affected persons, the membership composition of the GRCs will take into account any traditional conflict resolution arrangements that the tribal communities may practice.

The Executive Engineer at the district level will be the focal point for SCCs and the Upazila Engineer will be the focal point for GRCs at the Upazila level.

#### **4.2.3. Formation of GRC and SCC:**

SCC is consisting of a seven members committee. LGED Executive Engineer is convener and District Sociologist is Member Secretary of SCC for the concerned project District. The other members of SCC are Upazila Engineer of respective Upazila, District Administration level first class officer, two local civil society member, and representative of Contractors.

GRC is at the Upazila level committee for redressing grievances. Upazila LGED Engineer is the Convener and LGED Community Organizer is the Member Secretary of GRC. The other GRC members are Local UP Member/Ward Councilor, Teacher from local educational institution, Representative of Local NGO, Representative from Local Women's Group and Representative from the PAP Group.

All the GRCs and SSCs are subject to prior approval of Project Director.

#### **4.2.4. Orientation and Disclosure of GRC and SCC**

Orientation and disclosure sessions on SCC and GRC arranged at district level. XENs, Upazila Engineers, Assistant Engineers and Community Organizers attended the sessions and facilitated by the Senior Sociologist of RTIP-II PMU, Social Development and Resettlement Specialist from MS Consultants, Social Development and Resettlement Specialists from DS Consultants of Region 1 & 2. All of these sessions were presided over by Senior LGED Officials.

Disclosure meetings on SCC and GRC arranged at district level. All the SCC and GRC members including XENs, Upazila Engineers, Assistant Engineers, Community Organizers, public representatives, member local communities attended in the meeting.

Ledger Books and other supporting materials have been provided to the District and Upazila LGED offices for documentation of the SCM and GRM processes. These books are opened to all interested persons and entities for reference.

#### **4.2.5. Grievance Redress Process**

**Grievance petition and timeline:** Any person including the project affected persons can submit his/her complaints directly to the complaint Box or by directly writing in SCM Books, sending complaints through postal mail or email. All complains to GRC will be received at the office of the Upazila Engineer through the Community Organizer.

The community organizer and/or the District Sociologist will visit the ongoing subprojects regularly in each month with the role of grievance redress focal person. In each visit, they will interact with the residents alongside the UZR and owners of affected land whether acquired or resumed from authorized or unauthorized occupation. If any complaints or grievances are voiced by any of the community members, those will be formally received in writing within a week and produced to the GRC or SCC as appropriate for resolution.

Any complaints on project social development and resettlement process should be produced or bring in notices to the grievance focal points within 6 months of commencements of civil works for subprojects with implementation period of 12 months. The local LGED offices will inform the communities and affected persons while disclosing about the SCM. Any petitioner will be notified for hearing at least 5 working days before.

**Hearing and Resolution:** GRCs and SCCs sit at least once in a month in their respective offices. **Written notice issues and cellular phone message sent for Complainers to appear in the hearing.** The committees ensure proper presentation of complaints and grievances as well as impartial hearings and investigations and transparent resolution. If the resolution attempt at the local level fails, GRC refers the complaint to the SCC. The SCC makes decision and communicates it to the concerned GRC within a week of the complaint receipt. If the aggrieved person is not satisfied with the decision of the SCC, then SCC refers the case to PMU, LGED, Dhaka. LGED can refer the case to the Ministry of Local Government, Rural Development & Cooperatives (MLGRD&C) with the minutes of hearings at local and headquarters level. The Ministry takes decision on unsolved cases within four weeks by an official designated by the Secretary of Local Government Division of MLGRD&C. A deed of understanding is prepared between the aggrieved person/s and GRC/SCC/LGED for a settled complaint. A decision agreed with the aggrieved person/s at any level of hearing is binding upon LGED.

**Complaint at the World Bank GRS:** An aggrieved person can also place his/her complaint to the World Bank Grievance Redress Service (GRS), in the event that he/she is not satisfied with the resolution from the project GRM. Complaints must be in writing in the official language of the World Bank and addressed to the World Bank GRS. Complaints at GRS will

be accepted by mail, fax, email and by hand delivery to the GRS at the World Bank Headquarters in Washington or World Bank Country Offices.

GRS Contacts:       Email: [grievances@worldbank.org](mailto:grievances@worldbank.org)  
                          Fax (Washington): +1-202-614-7313  
                          Country Office Fax (Dhaka): 02 5566-7778

#### **4.2.6. GRC Documentation and Reporting**

Complaints and suggestions may come to GRC in different methods. Whatever be the method - writing in SCM Book, postal mail or e-mail, all the complaints will be written in Complaint Ledger Register. The recorded complaints in the Complaint Ledger Register which are eligible for hearing are recorded in Intake Register with a Case number, detail address of the complainer and summary of the objection. After hearing decision of the GRC, date of field investigation, date & result of hearing and if aggrieved person is satisfied from hearing then agreement with him are written in Resolution Register. After agreement with aggrieved person or after referring unsolved cases to SCC, GRC records the case history, progress and management action in the Closing Register.

Grievance resolution is a continuous process. GRC and SCC send reports on all resolved and unresolved complaints to PMU and PMU keeps all records. PMU also prepares periodic reports on grievance resolution process and publish on the LGED Website.

## **5. RESETTLEMENT ACTION PLAN (RAP)**

### **5.1. Subprojects with Involuntary Resettlement Issues**

A total of 18.11 km roads in 03 UZR's will be improved with acquisition of private land. Despite cordial efforts from LGED, involuntary resettlement issues could not be avoided in these three subprojects.

This Resettlement Action Plan (RAP) has been prepared to deal with the issues related to involuntary resettlement. Social safeguard compliance according to the SIMF is mandatory for all subprojects under RTIP-II.

### **5.2 Objectives of the RAP**

Overall objectives of the RAP are to compensate the unavoidable losses and restore pre-project income stream and livelihoods of the affected persons. This RAP covers the losses and impacts those could not be avoided with any other ways. The specific objectives include the following:

1. Identify the affected persons experiencing loss of land, assets and income due to the project.
2. Assess their individual losses and determine compensation loss of assets and cash assistance for livelihood restoration.
3. Engage the affected persons in resettlement process and address their grievances related to resettlement.
4. Provide institutional support to the affected persons for compensation and livelihood restoration assistance.
5. Carry out disclosure of information, consultation, and the informed participation of those affected.
6. Provide opportunities for interested vulnerable persons including women to employment in project civil works.

### **5.3 Strategy and Guidelines for Land Acquisition and Resettlement**

The Project strategy on use of land is adopted as follows:

As far as possible, the alignment of UZR will be selected where the improvement works can be carried out within the existing alignment.

However, at special circumstances of critical requirements, in three UZR's of 18.11 km under Region-1 and Region 2 acquisition of private land and trees cannot be avoided. The RAP has been developed for management of losses due to acquisition and entitlements as per the SIMF commensurate to the losses.

These roads are selected through social screening and census of affected persons where involuntary resettlement issues were identified. Consultation with beneficiaries was held at that time. Further consultation will be held with them after finalization of the RAP. Market price of their lost properties has been assessed during PAP Census. The loss of asset and income and their current market price will be verified before RAP implementation. DC office and LGED

will directly pay the affected persons for their lost properties and diminished income so that they can receive replacement cost for their losses.

## 5.4 Subproject Impact and Affected Persons

### 5.4.1 Sub-Project Area and Impacts

Most of the required land is agricultural. 421 number of HH and 2512 number of HH members (PAPs) (Male 1173 and female 1339) will be affected from this acquisition. All the affected HHs were interviewed and their loss is measured. The UZR has been developing on the existing alignments. In most of the cases land required for widening of UZR. So, threat of totally displacement is very low.

The completed UZR will enhance accessibility of the beneficiaries of the UZR. Transportation will be easy, fast and economic. Marketing of local products will be more dynamic. Doors will be open for new employment in transport, trading etc. It is expected that impact of the UZR will be impressive.

**Table 5.1 Project Affected Units in three UZR with acquisition**

SL	Name of UZR and package number	No. of HH members (PAPs)	No. of Affected Households		
			Male headed household	Female headed Household	Total
Region- 1					
1	Bagharchar-Sananadabari Via Goalkanda Rd.(JAM/UZR-64)	482	53	03	56
2	Alokdiar (jamtoli)- Someshpur (Belkuchi Upazila) GC Road(SIR/UZR-76)	1228	206	08	214
Region- 2					
3.	Derai- Jagnathpur via Jagdol, Bhurakhati Road(SUN/UZR-32)	802	146	05	151
Total		2512	405	16	421

Source: Census of Project Affected Persons, 2016

### 5.4.2 Occupations of the Affected Households Heads:

Though displacement will be done for the better interest of the society, but there will be more or less effect on the people whose properties will be shifted. It was tried to identify the losses in the PAPs census. It has been revealed from the census that among 421 numbers of affected HH, 405 are male and 16 are female household head. Most of the PAPs found depend on agriculture. Agriculture is the primary occupation of 86.93% of the affected households followed by 3.80% Housewife and business 3.09%. Ninety six PAPs HH found have secondary occupation.

**Table-: 5.2: Primary and Secondary Occupations of the Affected Households**

Primary Occupation						Secondary Occupation					
Agriculture	Business	Labor	Housewife	Others	Total	Agriculture	Business	Labor	Housewife	Others	Total
366	13	08	16	18	421	26	17	21	0	32	96

Source: Census of Project Affected Persons, 2016

### 5.4.3 Project Affected Persons by Gender

Project affected persons Survey indicates that among 421 Households there are only 16 female headed household who will loss land and trees in result of acquisition.

Table 5.3 shows that 2512 will be affected from project development activities. Among these project affected persons (PAPs) 1173 (46.7%) male and 1339 (53.3%) female.

**Table 5.3: Distribution of PAPs by gender**

SL.	Gender	Number	%
1.	Male	1173	46.7
2.	Female	1339	53.3
3.	Total	2512	100

Source: Census of Project Affected Persons, 2016

There are 16 female household heads who will be affected from acquisition. Traditionally most of the rural females in Bangladesh are not involved in income generation activities. Table 5.4 shows that by profession 100% female household heads are housewife. All of these females have earning from agriculture. Moreover, other members of the household have income form different sources.

**Table 5.4 : Distribution of female household heads by profession and type of loss**

Sl #	Profession	Type of Land			Type of loss of the female PAPs			Number
		Agricultur e Land	Residentia l Land	Commercial Land	Residentia l Structure	Commertia l Structure	Trees

#### 5.4.4 House/Structure Affected on Private Lands

Three UZR in Jamalpur, Sirajgonj and Sunamgonj are developing mostly on the existing alignment. The UZR crossed open agricultural fields. Moreover, UZR of Sunamgonj is in the Haor (large water body area) area where filed remains under water for six months in the year. None of the three UZR are usable in the wet season. During PAPs census no structures either residential or business found annexed with the UZR. So, no structures on the private lands or on public lands will be affected for implementation of the three UZR. No one will be physically displaced or loss income during development of the UZR.

#### 5.4.5 Transition Allowance

If the acquired land is agricultural and amounts to 20% or more of the total productive land owned by an affected household, a transition allowance is provisioned for addressing the severity of loss. Transition allowance for severe loss of agricultural land is equivalent to three times harvest value of the crops produced in a year on the acquired land.

Most of the land proposed for acquisition for improvement of 3<sup>rd</sup> year UZR under the subprojects are agricultural land. Among the three subprojects, 62 land owners will loss agricultural lands amounts to 20% or more of their total productive land. These severely affected agri-land owners are eligible for transition allowance (TA) @ BDT 1500 per decimal of acquired agricultural land according to Entitlement Matrix of the SIMF (source- Entitlement Matrix, No. 5- LOSS OF AGRICULTURAL, BUSINESS, EMPLOYMENT & RENTAL INCOME).

List of the affected persons eligible for transition allowance is given at Appendix-11. Total allowance and number of affected owners is shown in the following Table.

**Table 5.5 Transition allowance and number of eligible persons for the allowance**

SL	Name of the subprojects and Package number	Number of land owners affected severely		Volume of land acquired (decimal)	Total transition allowance @ BDT 1500 per decimal
		Male	Female		
<b>Region 1</b>

### 5.4.6 Trees Affected

Trees are another major loss item. During the Census survey on project affected persons the investigators walked through the UZR. The investigators identified 765 trees those will be cut down for the development works. Of these affected trees, 63 trees are large, 404 trees are medium in size and 298 are small. In terms of productivity, 192 of these trees are fruit trees and 573 are timber trees. Value of the affected trees determined by asking local people, affected person and local timber traders for same kind of trees. The value will be reviewed by Market Price Survey Committee before payment of compensation. Details of the affected trees can be seen in Appendix 10.

In the light of SIMF precaution was taken to avoid unnecessary fell down of trees. More caution will be taken at the time of implementation of civil works to save trees as far as possible. Within the acquired land trees are affected as per the following Table 5.6:

**Table-5.6: Trees Affected on acquired Lands by Contract and Districts**

District	Package	Number of Trees (Fruit)				Number of Trees (Timber)				Total trees	Total Affected Owners
		Large	Medium	Small	Total	Large	Medium	Small	Total		
Region 1											
Jamalpur	JAM/UZR-64	0	13	0	13	0	57	120	177	190	12

Note: Sizes of trees are measured by circumference:

Small: 7" to 2'-6"; Medium: 2'-7" to 5'-0" and large 5'-0" and more.

(Source: Divisional Forest Officer (DFO), Dhaka)

### 5.4.7 Standing Crops

At the time of PAP census, standing crops were identified on the acquired agricultural land of the amount of 7.22 acres. The acquired lands with standing crops are owned by 241 owners, The owners will be affected by losing standing crops from their agricultural land. Market price of the affected crops were determined discussing with the local farmers. The following table (Table 5.7) shows affected standing crops in the acquired land, number of affected persons and compensation for the loss.

**Table- : 5.7 Affected Standing Crops in the three UZR with acquisition.**

Sl.	Name of the subproject	Affected land (acre)	Number of affected owners of land		Compensation (Tk.)
			Male	Female	
<b>Region 1</b>

	<b>Total</b>	<b>722.34</b>	<b>231</b>	<b>10</b>	<b>494661</b>

Source: Census of Project Affected Persons, 2016

#### 5.4.8 Loss of Fruits before Harvesting

The UZR subprojects passed across the agricultural field. At present only a few people are living along the UZR. Most of the affected trees grew few years ago after construction of the road in first stage. Before existence of the road the land was low agricultural land. Due to improvement of the UZR 34 owners will loss 192 fruit trees. All of the affected trees are not matured enough for fruits. Fruits grow only in few trees of the UZR. In Region 1 PAPs census was conducted after harvesting of fruits at JAM/UZR-64 and SIR/UZR-76. UZR SUN/UZR-32 is in the haor area. There are no trees by the UZR. So, no trees will be felled before harvesting in the subproject area. None of these trees are from any orchard used as a source of livelihood. Mainly fruits of these trees used for self-consumption of the affected persons. But the owners of the fruit trees will be compensated for fruits according to type of trees and number of years required to get a new tree at fruit bearing age.

#### 5.5 Eligibility of Entitlement

##### 5.5.1 Eligibility Cut-off-Date

Compensation eligibility will be limited by a cut-off date for each project or subproject under financing facility on the day of the beginning of the census survey for the impact assessment in order to avoid an influx of outsiders. Each affected person will be identified and confirms their presence on the site prior to the cut-off date. If anybody claims after the cut-off date will not be eligible for compensation. In this RAP the following entitlements are applicable for affected persons losing land and trees. There will also be special provisions for vulnerable displaced persons. Cut-off-Dates of the Third Year UZR with acquisition of private lands is given below.

**Table-5.8: Date of commencement of census (cut-off-date) by contract packages/sub projects.**

Sl.	Districts	Package No/Name of sub-projects	Start date of census (Beginning)	Cut-off-date (Ending date)
<b>Region-1</b>				
1	Jamalpur	Bagharchar-Sananadabari Via Goalkanda Rd.(JAM/UZR-64)	02.02.2016	03.02.2016

### 5.5.2 Eligible Person for Compensation and Assistance

The following table shows that from the three UZR in three districts 421 HH will be affected, 1705.18decimal (17.05 acre) of land will be required for the UZR and affected persons for lands will be compensated Taka 34084170. Total 765 trees owned by 110 HHs will be required to cut down for development works and the owners will be compensated Tk. 2898000 for the affected trees.

**Table-5.9: Number of affected HHs and summary of their losses for sub-project works**

Sl.	Name of Road	Land			Trees						Total compensation (land + tree) (Taka)

Source: Census of Project Affected Persons, 2016

Replacement cost includes current market price of land plus the expenditure for legalizing the land transfer including cost of stamp purchase and other duties (Please see Annex B2 of SIMF). In addition to this amount 16 female headed household will get Tk.3,24,00.00 as special assistance to recover losses. They may need to hire mentors and workers in this regard.

### 5.5.3 Eligibility Considerations

RTIP-II resettlement measures include compensation for acquired assets at replacement cost. According to the SIMF provisions, replacement cost for land and structures on the land is applicable for acquisition of private land only. As there are no squatters or any type of illegal occupiers on the road area, all the affected persons will be compensated on the basis of their legal entitlements.

### 5.5.4 Vulnerability :

During PAPs census investigators visited household physically and tried to identify vulnerability to assess requirements of assistance .National Poverty Line of Bangladesh (per capita daily income US\$2.00) considered to assess whether any households were vulnerable. The other criteria were also considered as poor women headed households, landless and marginal farmers, peoples with disability, elderly, indigenous people. Vulnerability was not found in the male headed households. There are 16 Female headed household and they have income from agricultural lands. Some of them have income from tiny poultry and cow & goat rearing. Other members of these female headed household have also income. Though vulnerability is not marked in these household but they need assistance for rapid recovering from losses due to acquisition. Their requirement of assistance assessed and allocated Taka. Tk.3,24,000.00 in the budget. Vulnerability will be further reviewed before payment of compensation.

### 5.5.5 Entitlement Matrix

A Compensation and Entitlement Matrix for these subprojects has been prepared for attending the losses of the affected persons. This Matrix has been constructed on the basis of SIMF Entitlement Matrix (Appendix-4) in compliance with the OP 4.12 of the World Bank on Involuntary Resettlement. Table 5.10 references the losses by impact category qualifying compensation and assistance as per the EM included with the SIMF adopted for RTIP-II.

**Table 5.10 Losses by Impact Categories by the Subproject Intervention**

Loss category	Unit of losses	Quantity of losses	No. of Entitled Persons	Reference of SIMF EM (clause #)
Region 1				Package No. JAM/UZR-64

Land (agri & residential)	Deci	292.64	56	Compensation-under-law (CUL) or replacement cost (Market price with registration cost), whichever is higher. Ref: Loss category 1 (Loss of agricultural & other lands) of SIMF.
Structures	Sft	0	0	Compensation-under-law (CUL) or replacement cost (Market price with registration cost), whichever is higher. <i>Shiftable structures:</i> Transfer and Reconstruction Grant (TRG) @ Tk 50 per sq.ft. of floor area with a minimum of Tk 4,000 and maximum of Tk 6,000. <i>Non-shiftable structures I:</i> TRG @ Tk 75 per sq.ft. of floor area with minimum of Tk 5,000 and maximum of Tk 7,000. · Allowed to keep the salvageable materials. Entitlement Matrix for payment of compensation can be seen at annexure -12.

### 5.5.6 Market Price Survey Methodology

For this SRAP replacement cost of the affected properties assessed during PAPs census conducted by trained Sociologists of RTIP-II and consultants. During PAPs census investigators visited the affected spots, went door to door of the affected persons, talked with local and concern peoples to assess the market price. The market price of the affected properties mentioned in the SRAP will be reviewed prior to implementation of SRAP by a ten-member Market Price Survey Committee formed by LGED following the guidelines of SIMF. The Market price of the affected properties will be implemented with the assistance of DS Consultants. These rates will be indexed for inflation, if the payment is made after 12 months from the date of current market price assessment. Structure of the Market Price Survey Committee is as follows:

SL. No.	Representative	Organization	Position in the Committee
1.	Executive Engineer, Office of the Superintending Engineer (Region),	LGED	Convener
2.	Representative of the District Commissioner (DC)	DC Office	Member

3.	Representative of Executive Engineer, Public Works Department, concerned district	Public Works Department (PWD)	Member
4.	Representative of Divisional Forest Officer	Dept. of Forest	Member
5.	Upazila Engineer	LGED	Member
6.	Social Deve. Specialist/ARE, RTIP-II	D&S Consultant	Member
7.	Sociologist , RTIP-II, LGED	LGED	Member
8.	UP Chairman/his representative of concern UP	Local Government	Member
9.	Representative of Local NGO (BRAC Officer/ Representative)	NGO	Member
10.	Sr. Assistant Engineer of the concern XEN office	LGED	Member Secretary

The replacement cost of land, trees and crops will be finalized by the committee from the sources of sale and purchase of same kind of assets in the locality. The Committee will collect market price from buyers and sellers of land, trees and crops. Valuation process to determine compensation rates and standards were as follows:

- The surveyors will consider the quality of the lands under acquisition with current use, cropping intensity, value of the crops produced, accessibility from the present roads and other characteristics that influence on the market price. The survey will conduct with three groups of respondents- i) randomly selected 10-15 land owners of the same mouza adjacent with road, ii) recent buyers and sellers of similar kind of lands in the same and adjacent mouzas, iii) Deed writers at Land Registration office who handled same kind of land adjacent to the road in the same mouza.
- In case of variations in average prices reported by the three groups are insignificant (10% or less), average of the reported price will be fixed as current price of the lands. If the variation is significant (more than 10%) the current prices will be negotiated in open meetings with the affected and other land owners, community leaders, CBOs/NGOs and the like.
- Market prices of different trees are determined by surveying the prevailing prices paid by timber and fuel wood traders in the local markets. The compensation for trees will be fixed at the highest prices offered by a trader. Harvest price will be paid for fruits in the trees, if affected. Market price of harvest price of crops for agricultural land has been determined using the same method.

### **5.5.7 Finance**

The affected persons are eligible for compensation/assistance according to this RAP. An amount of Taka: Tk 4,26,71,123 (\$538981.00) has been proposed to LGED for providing compensation and assistance to the affected persons. The project considered compensation for affected property according to their type, extent and severity. LGED will review the recommendations and approve for delivery of compensation and assistance to the eligible affected persons. The recommendations of this RAP for compensation and assistance are presented in the following Table 5.13.

**Table 5.11: Compensation Heads and Amount**

Sl No.	Compensation	Amount (Tk.)
1.	Compensation for agricultural land	3,11,77,820
2.	Compensation for vity land (non-agricultural high land)	29,06,350
3.	Registration costs	34,08,417
4.	Standing crops	4,94,661
5.	Transition allowance to agriculture land losers	12,81,875
6	Trees	28,98,000
7.	Compensation for loss of fruits	1,80,000
8.	Special Assistance	3,24,000
	<b>Total (in Taka)</b>	<b>4,26,71,123</b>

## **6. IMPLEMENTATION ARRANGEMENT**

### **6.1 Institutional Arrangements**

The Project Director (PD), RTIP-II, LGED is the head of Project Management Unit. Among the responsibilities, he has to oversee the preparation and implementation of phase-wise land acquisition and resettlement action plans. The PD is accountable to the Chief Engineer, LGED. The PD oversees land acquisition, resettlement and Grievance redress processes. It is his responsibility to ensure that SRAPs are implemented in full, including compensation payment, before the civil works start on the ground. In this regard, a Senior Sociologist at PMU is assisting the PD in land acquisition and resettlement process including gender and vulnerability. In carrying out the resettlement activities, LGED will utilize its existing staff up at the District & Upazila levels, and has appointed additional field staff under the project. The key LGED staff consists of an Executive Engineer (XEN) in each district, an Upazila Engineer (UE), Assistant Engineer, Community Organizer and a Surveyor, with other supporting staffs at the Upazila. The project has appointed full-time District Sociologist (DS), Assistant Engineer (RTIP-II) in each district. The Deputy Commissioner (DC) office is the acquiring body for land acquisition and pay CUL payments on behalf of the requiring body LGED. District Sociologist (DS), Assistant Engineer (RTIP-II) follow up the acquisition cases at the DC office. In this effort, the PMU will be actively assisted by the Social Scientist Cum Resettlement Specialist of MSC and Social Development/Resettlement Specialist of D & S Consultants for land acquisition and resettlement services.

D & SC Professionals provided all kinds of the technical services required for preparation and implementation of the SRAP along with monitoring and reporting. The XENs and UEs coordinate all these activities at the district and Upazila level and liaise with the concerned DCs and Upazila Nirbahi Officers (UNOs). The DSs and COs will directly work with the D&SC professionals and participate in carrying out the process tasks for TPDP preparation and implementation.

The PMU will also set up information processing facility to collate and update the resettlement database to monitor progress in land acquisition and delivery of entitlements with the required number of appropriately qualified persons.

There are outlines in SIMF to implement SRAP which will be followed at the time of implementation. There is land acquisition or any kind of displacement for improvement of the UZR. The MSC and D&SC professionals will assist LGED to implement the development plan.

## 6.2 Implementation Schedule:

The SRAP preparation process include census of the affected assets and their owners, and survey of current market prices of the various affected items (such as displacement of PAPs, squatters from Public Lands, or any other issues related with displacement of vulnerable people and Indigenous people). The SRAP has prepared and will be implemented following the timeframe shown below:

### Tentative Implementation Schedule of Resettlement Action Plan (SRAP)

Sl. No.	Resettlement Activities	Tentative time requirement
1.	Census survey with Cut- off Dates (Social Screening) by D&SC	Completed
2.	Consultations and information campaign with community people/ road users with FGD by D&SC	Running process
3.	Design/Development of SRAP implementation tools	Completed
4.	Identification of PAPs	Completed
5.	Joint Inventory Verification (JIV) based on detail design within subproject alignment area	15-days
6.	Market survey for the preparation of individual entitlement for Top-up payment by LGED	Completed
7.	Submission of Resettlement Budget and individual entitlement by MSC with the assistance of D&SC	15-days
8.	Approval of Resettlement Budget by LGED (Top-up)	15-days
9.	Payment of compensation/resettlement benefits for PAPs & Squatters by LGED	15-days
10.	Training and income generation program for PAPs	15-days
11.	Monitoring and Evaluation programs	Running process

### 6.3. Payment of Compensation and Cash Payment

#### 6.3.1 Resettlement Budget

Budget has been prepared to meet the cost of affected properties for the PAPs who will be affected along the roadside. Market price of land and other affected properties has been assessed by a Committee formed by LGED with the assistance from D&S Consultant.

The major direct cost items are agricultural land for which affected households will be paid at replacement/ market prices. There may also be a few items, such as trees, etc, which will add to the cost of resettlement. Compensation policy is described in details in the Entitlement Policy (Annexure-12).

**Table-6.1: Proposed Resettlement Budget (In Taka), Based on Market Price**

Item No	Compensation Categories		No. of PAPs		Area (Acres)	Average Unit Cost at Market Price (Tk) per Acre	Total Replacement cost (Tk)
	Main compensation	Classifications	Male	Female			
1	2	3	4	5	6	7	8
1	Land	Agriculture	376	16	16.3655	1905100	31177820
		Viti Land	28	01	0.6863	4234800	2906350
		<b>Sub-Total</b>					
4	Other Grants	Registration cost			10% of market price of land (Stamp duty + registration cost + deed writing cost )		3408417
		Standing Crops	231	10	Tk 684.803 per decimal x 722.34 decimal		494661

#### 6.3.2 Payment Process

##### Compensation Payment for the UZR with land acquisition:

List of Project Affected Persons (PAPs) and Replacement cost of the affected properties or losses prepared after conducting a PAPs Census by LGED with the assistance of D&S Consultants. The replacement cost estimated by the investigators after discussing with local people and people related with selling or buying of same kind of goods or services.

LGED has formed a ten member Market Price Survey Committee in all project districts for ensuring the actual market price assessment survey for affected person who will be compensated by the project and make sure the rates is standard and acceptable. The Market Price Survey Committee will verify replacement cost of the affected properties assessed at the

time of PAPs Census following guidelines of Social Impact Management Framework (SIMF).

A list of project affected persons and list of the lost properties are prepared from the Land Acquisition Plan conducted by DS Consultants. The LAPs were already verified from field by the XEN.

Market Price Survey Committee will submit the assessed value to XEN for approval of PMU.

The Market Price Survey Committee will also assess grants according to the SIMF for affected persons.

If the Government estimates for affected properties is lower than replacement cost estimated by the Market Price Survey Committee; LGED will bridge up the gaps by paying directly the PAPs as Top-Up.

XEN will arrange payments for affected properties and will arrange approved resettlement.

LGED will ensure that the compensations/entitlements to the PAPs are paid in full before they are evicted from the acquired/not acquired private and public lands.

## **7. MONITORING AND EVALUATION**

LGED will set up an internal monitoring system to report quarterly involving the Upazila Engineer at the Upazila level and the Executive Engineer at the district level. The District Sociologists will primarily be responsible for collection of monitoring data on land acquisition and implementation of resettlement plans, indigenous people's plans (if any) and gender actions in the process. The project Management Support Consultant team will include a senior, experienced Social Scientist who will prepare six-monthly reports on monitoring of land acquisition and implementation of resettlement plans, indigenous peoples plans (if any) and gender actions in the process.

The LGED PMU will be responsible for monitoring, reporting and evaluation, including the design of the M&E system. Independent reviews of the LGED land acquisition process will be carried out at regular intervals through the RTIP-II integrated performance audit procedure on a 15% sample of roads under a construction phase. The timing of these independent audits, and the tasks of the auditor for each audit, will be done annually or as determined from time-to-time based on the status of implementation of the Project Work Plan. In respect of land acquisition, the audits will at different stages review the LGED land acquisition process and its monitoring results, and the implementation of the RAPs. This will provide timely feedback on the effectiveness of the planning and implementation process for land acquisition and resettlement of affected and on its monitoring. It will generate prompt feedback on problems and issues to be addressed by the Project. An independent impact evaluation will be carried out on 15% sample roads under each construction phase to evaluate the adequacy of the mitigation policies, the socio-economic impact of the Project on the persons affected, and the achievement of the social development goals as well as lessons for future projects. This independent evaluation will require inputs at project-start (to collect baseline data), during implementation (to expand the baseline data base and collect interim evaluation data) and at project-end (for evaluation). LGED will contract with local consultants to carry out the independent impact evaluation. Annex A5 presents the outline terms of reference for the independent evaluation. LGED has prepared the TOR for Independent Performance Auditing (IPA) and shared with the Bank before appraisal. All IPA reports including supervision of RP/IPP implementation will be shared with the Bank.

### **7.1 Monitoring Arrangement**

Monitoring is the process of regular observation, in respect of that the close monitoring ensures the proper implementation of SRAP. The MSC will assist LGED to set up a system to monitor, report on progress and performance in land acquisition and resettlement activities. Independent reviews of the LGED land acquisition process will be carried out at regular intervals through the RTIP-II Integrated Performance Audit (IPA) procedure on a 15% sample of roads under construction phase. In respect of land acquisition the audits will review the LGED land acquisition process and its monitoring results and the implementation of the RAPs.

Monitoring also is an integral part of every project, from start to finish. A project is a series of activities (investments) that aim at solving particular problems within a given time frame and

in a particular location. The investments include time, money, human and material resources. Before achieving the objectives, a project goes through several stages. Monitoring should take place at and be integrated into all stages of the project cycle. The three basic stages include:

- Project planning (situation analysis, problem identification, definition of the goal, formulating strategies, designing a work plan, and budgeting);
- Project implementation (mobilization, utilization and control of resources and project operation); and
- Project evaluation.

Contract wise Monthly Monitoring report on land acquisition, CUL payment by DCs and Top-up payment will be submitted to PMU by MSC with the assistance of D&SC. The indicators for monitoring land acquisition are related to various steps followed in the legal process up to CUL payment by DCs. The indicators are as follows:

- i) Number of LAPs submitted to DCs;
- ii) Number of UZR where Notice Under Section 3, 6 and 7 issued;
- iii) Number of UZR where Joint price verification completed;
- iv) Progress of submission of compensation amount to DCs.
- v) Number of Project affected person (PAPs) including Affected claim for compensation or assistance;
- vi) Number of PAPs submitted legal documents in support of their claims;
- vii) Numbers of PAPs including Affected get compensation and assistance;
- viii) Number of PAPs including Affected replaced;
- ix) Number of tribal people compensated.
- x) Number of School teachers trained on safety to deliver safety classes.
- xi) Number of public consultation done regarding Land Acquisition and Resettlement.
- xii) Number of grievance cases recorded, heard and settled in GRC and SCC.
- xiii) Information submitted to LGED for comprehensive IT based maintenance management system.

## **7.2 Internal Monitoring**

LGED will set up an internal monitoring system to report quarterly involving the Upazila Engineer at the Upazila level and the Executive Engineer at the district level. The District Sociologists will primarily be responsible for collection of monitoring data on land acquisition and implementation of resettlement plans, indigenous peoples plans (if any) and gender actions in the process. The project Management Support Consultant team will include a senior, experienced Social Scientist who will be prepare six-monthly reports on monitoring of land acquisition and implementation of resettlement plans, indigenous peoples plans (if any) and gender actions in the process.

The primary objectives of independent performance auditing of project are to review the efficacy of internal monitoring, and design and conduct periodic third party monitoring and provide feedback to LGED and the World Bank on improvement of the measures being applied and enhancement of the implementation process. These audits are independent of SIMF but will also cover pertinent issues on land acquisition and resettlement, and identify the problems

to be addressed by LGED and the need for further mitigation measures. TOR for IPA is being prepared by LGED and will be placed with the Bank for agreement before appraisal.

### **7.3 Indicators of Internal Monitoring:**

The following monitoring indicators are required to be reported:

- Achievement of resettlement activities against agreed implementation plan.
- Fund sufficiency for implementation of SRAP.
- Amount of compensation already paid.
- Numbers of affected persons get full compensation according to SRAP.
- Number of consultations taken with affected persons.
- Number of affected persons used the grievance redress procedures.
- Type of grievances raised.
- Outcomes from Grievance Redress Process.
- Number cases resolved and unresolved in Grievance Redress Process.

### **7.4 Independent External Monitoring**

The primary objectives of independent performance auditing of project are to review the efficacy of internal monitoring, and design and conduct periodic third party monitoring and provide feedback to LGED and the World Bank on improvement of the measures being applied and enhancement of the implementation process. These audits are independent of SIMF but will also cover pertinent issues on land acquisition and resettlement, and identify the problems to be addressed by LGED and the need for further mitigation measures. TOR for IPA is being prepared by LGED and will be placed with the Bank for agreement before appraisal.

#### **Scope of Tasks**

The IPA, in addition to overall project performance, will cover the following tasks to cover also the SIMF objectives and procedures:

- (1) To identify monitoring indicators and develop baseline of the indicators through a well designed baseline survey at the outset of each subproject implementation. Essential indicators are provided in Annex-B3.
- (2) To review specific monitoring indicators for undertaking monitoring for Resettlement plans (RP), Indigenous peoples plans (IPP) and Gender actions.
- (3) To review and verify the progress in land acquisition/resettlement implementation of the Project, including implementation of the RPs.
- (4) Identify the strengths and weaknesses of the land acquisition/resettlement, approaches and implementation strategies.
- (5) Assess the quality, timeliness and sufficiency of delivery of different categories of entitlements (compensation and rehabilitation measures).

- (6) Review the results of internal monitoring and verify claims through sampling checks at the field level, involving affected people and community groups, to assess whether land acquisition/resettlement targets and objectives are generally being met.
- (7) Monitor and assess the adequacy and effectiveness of the consultative process with PAPs, particularly vulnerable groups and women, including the adequacy and effectiveness of grievance procedures and legal redress available to the affected parties, and dissemination of information about these.
- (8) Verify expenditure and adequacy of budget for resettlement activities.
- (9) Provide a summary of whether land acquisition and involuntary resettlement is being implemented (a) in accordance with the RPs/IPPs, and (b) in accordance with the stated policy.
- (10) Describe any outstanding actions that are required to bring the resettlement activities in line with the policy and the RP.

### **7.5 Reporting Requirements**

The PMU shall prepare and send status reports to the WB on SRAP implementation periodically and a Final Progress Report upon completion of the resettlement program. LGED, MSC and D&SC will assist PMU in preparation of these reports.

During subproject implementation, LGED will establish a monthly monitoring system involving LGED staff at the sub-project Upazila. The Resettlement Specialist assisted by Sociologist shall prepare monthly progress reports on all aspects of resettlement operations.

The Resettlement Specialist of the MSC will conduct periodic reviews and supervision missions during the implementation stage and will report to LGED on the progress of all aspects of resettlement activities. It is understood that a post-evaluation of SRAP activities will be carried out by the WB to assess the resettlement impact and the efficacy of the SRAP policy.

## Entitlement Matrix based on SIMF

## 1. LOSS OF AGRICULTURAL &amp; OTHER LANDS

Ownership Type	Entitled Person	Entitlement	Responsibility
<i>Private</i>	<i>Legal Owners, as determined by DCs, or by courts in cases of legal disputes</i>	Compensation-under-law (CUL) or replacement cost <sup>1</sup> , whichever is higher. <b><i>If applicable (subject to paragraphs 41 &amp; 42)</i></b> <ul style="list-style-type: none"> <li>• Top-up equal to the difference between CUL and replacement cost.</li> <li>• Transition allowance (TA) for income loss (see Loss Category 5 below).</li> </ul>	<ul style="list-style-type: none"> <li>• CUL paid by DCs</li> <li>• Top-up &amp; TA paid by LGED</li> </ul>
<i>Public Lands/VNR lands under lease</i>	<i>Leaseholders</i>	Three-month advance notice and contractual obligations with the public agencies (DCs if VNR), as determined by DCs	Paid by DCs
<i>Vested &amp; Non-Resident Property (not under lease)</i>	<i>Current Owners/Users (without lease)</i>	Transition allowance for income loss (see Loss Category 5).	Paid by LGED

## 2. LOSS OF HOMESTEAD LANDS

Location	Entitled Person	Entitlement	Responsibility
<i>Homesteads on Private Lands</i>	<i>Legal Owners, as determined by DCs, or by courts in cases of legal disputes</i>	<b><i>In addition to CUL &amp; applicable top-up (as for Agricultural &amp; Other Lands):</i></b> <ul style="list-style-type: none"> <li>• Relocation assistance, including land development, where households choose to relocate on their own, <u>or</u> developed plots if they decide to relocate in public lands arranged by LGED.</li> <li>• Restoration of pre-acquisition level basic utilities (water supply, sanitation, electricity, etc.).</li> </ul>	By LGED

<sup>1</sup> Replacement cost include current market price of land plus the expenditure for legalizing the land transfer including cost of stamp purchase and other duties (see Annex B2).

<b>Location</b>	<b>Entitled Person</b>	<b>Entitlement</b>	<b>Responsibility</b>
<i>Homesteads on Public Lands</i>	<i>Vulnerable Squatters</i>	<ul style="list-style-type: none"> <li>Relocation assistance, including developed plots on LGED or other public lands to be arranged by LGED.</li> <li>Provision of water supply &amp; sanitation facilities.</li> </ul>	By LGED
<i>Homesteads on VNR Lands</i>	<i>Present Owners/Users (without lease)</i>	<ul style="list-style-type: none"> <li>Assistance to move and rebuild the houses in the same homestead, in cases of partial acquisitions.</li> <li>Assistance to settle in developed plots on public lands arranged by LGED, where acquisition requires relocation elsewhere; <u>or</u></li> <li>Six months' rent for comparable living accommodations.</li> <li>Provision of water supply &amp; sanitation facilities.</li> </ul>	By LGED
	<i>Lessees</i>	<ul style="list-style-type: none"> <li>Contractual obligations with the public agencies (DCs), as determined by DCs</li> </ul>	Paid by DCs

### 3. LOSS OF HOUSES/STRUCTURES USED FOR LIVING, BUSINESS & OTHER ACTIVITIES

<b>Type &amp; Location</b>	<b>Entitled Person</b>	<b>Entitlement</b>	<b>Responsibility</b>
<i>All Houses/ Structures on Acquired Private Lands</i>	<i>Legal owners, as determined by DCs, or by courts in cases of legal disputes.</i>	<ul style="list-style-type: none"> <li>Compensation-under-law (CUL) or replacement cost, whichever is higher.</li> <li>Transfer Grant (TG) to cover the carrying costs of household goods, at one-eighth (12.5%) of the replacement costs of the affected structures, in cases where a house is to be removed and constructed elsewhere.</li> <li>Rental Allowance (RA) to cover 3 (three) months' rental of a comparable residential house in the upazila town, in cases where a house is to be removed and constructed elsewhere.</li> <li>Allowed to keep the salvageable materials.</li> </ul>	<p>CUL paid by DCs and Top-Up paid by LGED in case replacement cost is higher than CUL.</p> <p>TG and RA paid by LGED</p>

Type & Location	Entitled Person	Entitlement	Responsibility
<i>Shiftable &amp; Non-shiftable Structures on Acquired Public Lands</i>	<i>Vulnerable Squatters</i>	<ul style="list-style-type: none"> <li><i>Shiftable structures</i><sup>2</sup>: Transfer and Reconstruction Grant (TRG) @ Tk 50 per sq.ft. of floor area with a minimum of Tk 4,000 and maximum of Tk 6,000.</li> <li><i>Non-shiftable structures</i><sup>3</sup>: TRG @ Tk 75 per sq.ft. of floor area with minimum of Tk 5,000 and maximum of Tk 7,000.</li> <li>Allowed to keep the salvageable materials.</li> </ul>	TRG paid by LGED
<i>Houses/ Structures on VNR Lands</i>	<i>Current Owners/Users</i>	<ul style="list-style-type: none"> <li>TRG (Amounts are to be determined in consultation with the current owners/users).</li> <li>Allowed to keep the salvageable materials.</li> </ul>	TRG paid by LGED
		<ul style="list-style-type: none"> <li></li> </ul>	

#### 4. LOSS OF TREES AND CROPS ON ACQUIRED PRIVATE & PUBLIC LANDS

Location	Entitled Person	Entitlement	Responsibility
<i>On private Lands</i>	<i>Legal owners as determined by DCs, or by courts in cases of legal disputes</i> <i>Current cultivator of agricultural lands (including tenants)</i>	<ul style="list-style-type: none"> <li>Current market value of trees, based on species, size and maturity.</li> <li>Current market prices of fruits on trees, if they are felled before harvest.</li> <li>Current market price of crops based on variety</li> <li>Owners are allowed to fell the trees and harvest the crops, and keep them.</li> </ul>	By DCs (included in the CUL) and/or By LGED (included in the top-up)
<i>On public Lands</i>	<ul style="list-style-type: none"> <li><i>Squatters</i></li> <li><i>Private groups, NGOs, etc.*</i></li> </ul>	As those stipulated above for trees and fruits.	By LGED
<i>On VNR Lands</i>	<i>Present Owner/User</i>	As those stipulated above for trees and fruits.	By LGED

\* Public lands, especially along the roads, are sometimes leased out to private groups and NGOs for tree plantation under income generation programs.

<sup>2</sup> Small structures on poles, which can be shifted without dismantling are not eligible for compensation (road side small pan-bidi shops, groceries and tea stalls).

<sup>3</sup> Non-shiftable structures with costly materials (RCC roof or CI sheet roof with brick walls) will not be eligible for this entitlement.

## 5. LOSS OF AGRICULTURAL, BUSINESS, EMPLOYMENT & RENTAL INCOME

Impact Type	Entitled Person	Entitlement	Responsibility
<b>Agricultural:</b> <ul style="list-style-type: none"> <li>If acquisition amounts to 20% or more of the total productive land holding</li> <li>If acquired VNR lands are agricultural</li> </ul>	Legal Owners, as determined by DCs, or by courts in cases of legal disputes.	Transition allowance @ BDT 1500 per decimal of acquired agricultural land.	By LGED
	Present Owners/Users	Transition allowance equivalent to three times the harvest prices of one year's crops produced on the acquired agricultural lands.	By LGED
<b>Business:</b> <ul style="list-style-type: none"> <li>Temporary closure of businesses in existing premises</li> </ul>	Business Owners (premise/land owners & tenants)	Compensation, based on daily net income, for the actual number of days the businesses remain closed or needed to complete the civil works, whichever is smaller.	By LGED
<ul style="list-style-type: none"> <li>Partially affected businesses</li> </ul>	Business Owners (premise/land owners & tenants)	Compensation, calculated as above, for the number of days needed to repair and reopen the individual businesses, or complete the civil works, whichever is smaller.	By LGED
<ul style="list-style-type: none"> <li>Businesses requiring removal from the existing premises and spots</li> </ul>	Business Owners (premise/land owners & tenants)	Compensation, calculated as above, for the number of days the business owners need to find alternative locations themselves, which will be paid for a maximum of 90 days.	By LGED
<ul style="list-style-type: none"> <li>Loss of employment income</li> </ul>	Business Employees	Compensation at current daily wage rate for the period needed to reopen the businesses, which will be for a maximum of 30 days.	By LGED
<ul style="list-style-type: none"> <li>Loss of income from rented-out premises</li> </ul>	Legal Owners	Three months' rent at the current rates to the owners of the premises.	By LGED

**6. UNFORESEEN LOSSES**

<b>Impact Type</b>	<b>Entitled Person</b>	<b>Entitlement</b>	<b>Responsibility</b>
<i>As may be identified during subproject preparation &amp; implementation</i>	<i>As identified</i>	As determined in consultation with IDA and the stakeholders.	By LGED
