SAFEGUARDS

D. Project location and salient physical characteristics relevant to the safeguard analysis (if known)

To increase the access to schooling of vulnerable children with a focus on children with disabilities from poor households including at least 50 percent girls in the five poorest regions of the country and Ouagadougou. According to project activities, the Component 1: Improving access to preschools and primary schools (US\$513,500) aims to implement an activity with potential environmental impacts and risks with Improvement of school environment by making small physical adjustments in schools to facilitate the mobility of children with disabilities or to organize remedial classes for children with disabilities at risk of school failure, etc. The risks seem to be Low in the civil works view. The Borrower has experience in managing World Bank operations and have benefitted from other (past and ongoing) IDA projects (Education Access and Quality Improvement EAQIP (P148062)).

E. Borrower's Institutional Capacity for Safeguard Policies

The Borrower has experience in managing World Bank operations and have benefitted from other (past and ongoing) IDA projects which provided/are providing relatively sufficient capacity for understanding and applying safeguards policies. However, the Borrower and its potential Counterparts capacities have been assessed and evaluated and required to conduct environmental screenings on subprojects, reviewed and approved by the National Agency (BUNEE) and the Bank. The assessment and management of risks and impacts and the nature of this project environmental outcomes may also be influenced by or be dependent upon the role played by third interested parties.
