

## Public Information Summary

<b>Host Country(ies)</b>	Serbia
<b>Name(s) of Guaranteed Party(ies)</b>	Banca Intesa a.d. Beograd
<b>Project Description</b>	Loan portfolio guaranty intended to increase lending to micro, small, and medium-sized enterprises (“MSMEs”) in Serbia, with a focus on the agricultural sector, underserved regions, start-up MSMEs and women-owned businesses.
<b>Proposed DFC Loan/Guaranty</b>	\$41,000,000 / 50% guaranty / tenor 12 years
<b>All-Source Funding Total</b>	\$82,000,000
<b>Policy Review</b>	
<b>Developmental Objectives</b>	<p>This Project is anticipated to have highly developmental impact in Serbia, by providing lending opportunities to MSMEs, including those in the agriculture sector, which face major constraints to their competitiveness. Among the largest challenges for the country’s MSMEs is the financing gap that is estimated to be over \$10 billion, ranking Serbia among the top 15% of countries in size of financing gap as a percentage of GDP. Agriculture has been identified as a key area with a need for increased competitiveness and is a primary focus for USAID. This Project includes a minimum of 25% of funds for MSMEs in the agriculture sector, including an anticipated 17.5% for primary agriculture. USAID will work with the Guaranteed Party to source MSME lending opportunities and will support borrowers with technical assistance through USAID Serbia’s current and follow-on projects.</p>
<b>Environment and Social Assessment</b>	<p>The Project has been reviewed against the DFC’s 2020 Environmental and Social Policies and Procedures manual (“ESPP”) and has been determined to be categorically eligible. DFC loan portfolio guaranties for the expansion of lending to micro, small, and medium enterprises are screened as a Category C for environmental and social assessment. These downstream investments are expected to result in minimal adverse environmental and social impacts. Therefore, all those downstream investments have been prescreened as Category C and further review and consent is not required for these investments.</p> <p>To ensure that the Guaranteed Party’s investments are consistent with the DFC’s statutory and policy requirements, the DFC loan portfolio guaranty will be subject to conditions regarding the use of proceeds. The primary environmental and social issues identified in this transaction relate to the need for an Environmental and Social Policy (“ESP”) that meets the 2012 IFC Performance Standards.</p>

	<p>Under the DFC’s ESPP, the Guaranteed Party is required to comply with applicable local and national laws and regulations related to environmental and social performance and applicable provisions of the 2012 International Finance Corporation’s Performance Standard (“PS”) 1 and 2. A desk-review based due diligence assessment indicates that because the Project will use DFC support for supporting the expansion of its on-lending to MSMEs in Serbia, significant adverse impacts concerning community health and safety, biodiversity, land acquisition and resettlement, indigenous peoples, and cultural heritage are not anticipated; therefore, PS 3, 4, 5, 6, 7, and 8 are not triggered at this time.</p> <p>The Guaranteed Party has a basic environmental and social management system (“ESMS”) that is comprised of grievance mechanisms, environmental and social risk identification and mitigation procedures, and human resources policies. However, it will require some strengthening of its child and forced labor risk assessments and non-discrimination policies prior to receipt of DFC support to align with DFC’s ESPP.</p>
