

Proposed Project Summary for Public Disclosure
(concept review stage)

Project Name	Ganzhou Urban Transport Improvement Project
Country	The People's Republic of China
Type	Sovereign
Area of Operation	Transport Infrastructure
Concept Approval Date	April 3, 2023
Total Project Cost	Around RMB 7 billion
Proposed Limit of NDB Financing	RMB 3.44 billion
Borrower	The People's Republic of China
Project Entities	The People's Government of Jiangxi Province The People's Government of Ganzhou Municipality
Project Context	<p>Over the past two decades, Ganzhou's industrial composition has expanded from traditional manufacturing sectors such as furniture and textile to new materials, electronics and new energy equipment. With rapid economic and vehicle ownership growth in recent years, Ganzhou has become one of the most congested cities in Jiangxi Province.</p> <p>Connectivity among districts in the city core area, as well as accessibility of the city core area to the national transport network is critical to the city's competitiveness. In 2021, a comprehensive development plan was set forth by the municipal government to enhance the mobility in the city core area. The proposed Project is part of the plan</p>
Project Description	The Project comprises: (i) Construction and reconstruction of roads, including the south section of Nankang Airport Expressway, G105 National Highway Rerouting Phase II and G357 National Highway that enhance accessibility of major industrial parks and divert vehicular traffic away from the central city; and (ii) Project management and capacity building
Project Objective	The objective of the Project is to improve connectivity and accessibility of the key industrial areas in Ganzhou and boost socioeconomic development of the city. The Project is expected to directly benefit about 500,000 residents and 6,000 enterprises in Ganzhou.
