

Public Information Summary

Host Countries	Albania, Burundi, Cambodia, Colombia, Cote d'Ivoire, Dominican Republic, East Timor, Egypt, El Salvador, Equatorial Guinea, Fiji, Georgia, Guatemala, Guyana, Honduras, India, Indonesia, Jordan, Kazakhstan, Kenya, Kosovo, Kyrgyzstan, Liberia, Malawi, Malaysia, Maldives, Mexico, Mozambique, Nepal, Nigeria, Pakistan, Papua New Guinea, Peru, Philippines, Rwanda, Senegal, Serbia, South Africa, Sri Lanka, Tajikistan, Tanzania, Tunisia, Turkmenistan, Uganda, Uzbekistan, Vietnam, and the West Bank
Name of Insured Party	DAI Global, LLC
Private Insurer Participation	N/A
Project Description	DAI Global, LLC, will implement technical assistance projects that include (without limitation) economic development, and capacity building and reform, for host country governments across 47 Project Countries to be funded by certain non-governmental, bilateral and multilateral institution donors.
Investment Amount	\$8,000,000
Investment Type	Covered Property
Proposed Insurance Amount	\$8,000,000
Total Project Costs	\$13,000,000
U.S. Involvement	DAI Global, LLC is a for-profit international development consulting company, organized under the laws of the state of Delaware, headquartered in Maryland and majority owned by its U.S. employees.
Foreign Enterprise	The Insured operates subsidiaries as required by funding agency requirements, by Project Country government regulations, or by program objectives.
Policy Review	
U.S. Economic Impact	The Projects are not expected to have a negative impact on the U.S. economy.
Developmental Objectives	This extension of an ongoing DFC insurance contract supports an array of political risk insurance for 47 Project Countries where DAI Global, LLC works with USAID and other international development partners to pursue social and economic development goals.
Environment and Social Assessment	Screening: This project has been reviewed against DFC's categorical prohibitions and determined to be categorically eligible. Technical services projects are screened either as Category B or C under DFC's environmental and social guidelines depending on the specific circumstances of the project. This project has been screened as a Category B because DFC will be providing insurance on vehicles and property. The primary environmental and social issues associated with the Project involve the servicing and maintenance of vehicles and

assurance of safe worker practices when operating vehicles or when building modifications are being made.

Applicable Standards: DFC's environmental and social due diligence indicates that the Project will have impacts that must be managed in a manner consistent with the following Performance Standards:

PS1: Social and Environmental Assessment and Management Systems;

PS2: Labor and Working Conditions;

PS3: Pollution Prevention and Abatement; and

PS4: Community Health, Safety and Security

In addition to the Performance Standards listed above the IFC April 30, 2007 Environmental, Health, and Safety General Guidelines apply to this project.

A desk-review of available project information indicates that the Project does not involve any land acquisition, impact biodiversity, indigenous peoples or cultural heritage therefore, P.S. 5 through 8 are not applicable to this project.

Environmental and Social Risks: The Insured intends to implement an Environmental Management System for each of its projects. It also provides a hot line number for the transmission of any complaints concerning the project. All workers are trained before leaving the country, especially when traveling to countries with security risks. Environmental measures are in place for mitigating potential impacts that may result from the servicing and maintenance of vehicles. Modifications to buildings will entail minor renovations and are not expected to have significant environmental and social impact.

Risk Mitigation: The Project and any subcontractors will be required to comply with applicable measures in the IFC Environmental, Health and Safety General Guidelines with respect to building modifications, provision of potable water, solid waste disposal, and safe driving. Env Assessment:
