WUL	Water Use Licence

1 INTRODUCTION

Tetra4 (Pty) Ltd (hereafter referred to as the applicant) has appointed Environmental Impact Management Services (Pty) Ltd (EIMS) as the Environmental Assessment Practitioner (EAP) to assist with undertaking the required authorisation processes (including the statutory public participation), and to compile and submit the required documentation in support of application for:

- Environmental Authorisation (EA) and amendments in accordance with the National Environmental Management Act- NEMA (Act 107 of 1998).
- Atmospheric Emissions Licence variation in accordance with the requirements of the National Environmental Management: Air Quality Act- NEM:AQA (Act 39 of 2004.
- Waste Management Licence in accordance with the requirements of the National Environmental Management: Waste Act- NEM:WA (Act 59 of 2008).
- Water Use Licence (WUL) in accordance with the National Water Act NWA (Act 36 of 1998).
- Amendment of Rights Permits or Plans in accordance with Section 102 of the Mineral and Petroleum Resources Development Act MPRDA (Act 28 Of 2002).

The applicant wishes to expand their natural gas operations, to be located within the approved production right area. This planned expansion to the existing approved production activities will involve up to 300 new production wells, gas transmission pipelines and associated infrastructure, compressor stations and a new combined Liquid Natural Gas (LNG) and Liquid Helium (LHe) plant ("LNG/LHe Plant") and associated infrastructure as part of the Cluster 2 expansion of the Project in order to meet the future production requirements.

The proposed project falls within the Masilonyana and Matjhabeng Local Municipalities, in the Lejweleputswa District Municipality, Free State Province. The site boundary is ~5km south west of the town of Virginia, ~9km south the town of Welkom and ~16km north of the town of Theunissen. The application area covers approximately 27 500 hectares, and the approximate centre point of the site is located at 28°10'20.47"S and 26°43'50.79"E.

2 OBJECTIVES OF THE PUBLIC PARTICIPATION

South Africa, being one of the countries with the most progressive constitutions, enshrined the public's right to be involved in decisions that may affect them in its Constitution. Section 57(1) of the new Constitution that provides: *"The National Assembly may (b) make rules and orders concerning its business, with due regard to representative and participatory democracy, accountability, transparency and public involvement"*. This provision, along with several others gave rise to many new trends in South African legislation. In environmental legislation, the idea of public participation (or stakeholder engagement) features strongly and especially the National Environmental Management Act (Act 107 of 1998, NEMA) and the recent regulations passed under the auspices of this Act makes very strict provisions for public participation in environmental decision-making.

Public participation can be defined as..."*a process leading to a joint effort by stakeholders, technical specialists, the authorities and the proponent who work together to produce better decisions than if they had acted independently*^{"1}. From this definition, it can be seen that the input of the public is regarded as very important indeed.

The PPP is designed to provide sufficient and accessible information to Interested and Affected Parties (I&APs) in an objective manner to assist them to:

¹ Greyling, T. (1999) Towards Managing Environmental Disputes: Appropriate Public Participation. Prepared for Conference on Environmental Dispute Resolution 10-11 June 1998, Fourways, Gauteng, Manyaka Greyling Meiring (Pty) Ltd, South Africa

- During the Scoping and Environmental Impact Assessment (EIA) Process:
 - o Contribute relevant local information and knowledge to the environmental assessment;
 - Verify that their issues have been recorded;
 - o Comment on the findings of the environmental assessments; and
 - Provide relevant local information and knowledge to the environmental assessment.

The PPP is a requirement of several pieces of South African Legislation and aims to ensure that all relevant I&APs are consulted, involved and their opinions are taken into account and a record included in the reports submitted to Authorities. The process ensures that all stakeholders are provided this opportunity as part of a transparent process which allows for a robust and comprehensive environmental study. The PPP for the necessary authorisation required for the proposed Tetra4 Gas Gathering and Production Project needs to be managed sensitively and according to best practises in order to ensure and promote:

- Compliance with international best practice options;
- Compliance with national legislation;
- Establishment and management of relationships with key stakeholder groups; and
- Encouragement of involvement and participation in the environmental study and authorisation/approval process.

As such, the purpose of the PPP and stakeholder engagement process is to:

- Introduce the proposed project and process for the authorisation project;
- Explain the environmental authorisation;
- Determine and record issues, concerns, suggestions, and objections to the project;
- Provide opportunity for input and gathering of local knowledge;
- Establish and formalise lines of communication between the I&APs and the project team;
- Identify all significant issues for the project; and
- Identify possible mitigation measures or environmental management plans to minimise and/or prevent negative environmental impacts and maximise and/or promote positive environmental impacts associated with the project.

This Public Participation Report (PPR) lists all verbal and written issues raised by I&APs and stakeholders from the 30-day initial notification and call to register period from the 20 May 2022 to date. A breakdown of the PPP is given within the remaining sections of this PPR.

2.1 LEGAL COMPLIANCE

The PPP must comply with all environmental legislation that requires public participation as part of an application for authorisation or approval; namely:

- NEMA;
- NEM:WA
- NEM:AQA; and
- NWA.

Adherence to the requirements of the above-mentioned Acts will allow for an Integrated PPP to be conducted, and in so doing, satisfy the requirement for public participation referenced in the Acts. The details of the Integrated PPP are provided below.

3 IDENTIFICATION OF INTERESTED AND AFFECTED PARTIES (I&APS)

An initial I&AP database has been compiled from historic projects in the area and Windeed searches to obtain the contact details of the affected and surrounding landowners. The I&APs referred to in the PPR include:

- Pre-identified and registered landowners and surrounding/adjacent landowners;
- Pre-identified and registered key stakeholders;
- Regulatory authorities;
- Specialist interest groups; and
- All I&APs who responded to the initial notifications and requested to be registered.

Efforts to pre-identify key I&APs involved various avenues such as consultation with the proponent and known landowners within the study area, review of related previously conducted studies, and identification of key interest groups and authorities within the vicinity of the study area and municipality. Refer Appendix B 1 for the Key Stakeholder/I&AP Database.

All landowners whose properties are within the study area have been notified about the project via post, fax and/or email as well as through advertisements and/or site notices inviting them to participate in the EIA process. Refer to Appendix B 2 for the landowner, key stakeholder and I&AP initial notifications.

3.1 LIST OF AUTHORITIES NOTIFIED

The following authorities, but not limited to, were notified of the proposed project and invited to participate in the public participation process:

- Free State Development Corporation
- Free State Department of Cooperative Governance and Traditional Affairs
- Free State Department of Economic, Small Business Development, Tourism and Environmental Affairs
- Free State Department of Mineral Resources and Energy
- Free State Department of Police, Roads and Transport
- Free State Department of Public Works and Infrastructure
- Free State Department of Water and Sanitation
- Free State Development Corporation
- Free State Heritage Resources Authority
- Lejweleputswa District Municipality

- Masilonyana Local Municipality
- Matjhabeng Local Municipality
- National Department of Agriculture, Land Reform and Rural Development;
- National Department of Forestry, Fisheries and the Environment;
- National Department of Transport
- National Department of Water and Sanitation; and
- National Department of Mineral Resources
- National Energy Regulator of South Africa
- National House of Traditional Leaders
- Sedibeng Water
- South African Heritage Resources Agency (SAHRA).

3.2 LIST OF OTHER KEY I&APS AND STAKEHOLDERS IDENTIFIED AND NOTIFIED

The following key I&APs, but not limited to, were notified of the proposed project and invited to participate in the public participation process:

- AFGRI Agri Services
- African Carbon Energy (Pty) Ltd
- AFRI forum
- Agri Free State
- Agri South Africa
- Birdlife SA
- Botanical Society
- Centre for Environmental Rights
- Conservation South Africa
- Council for Geoscience
- CSIR
- Earth Life Africa
- Endangered Wildlife Trust
- Eskom Holdings SOC Ltd;

- Federation for a Sustainable Environment
- Free State Wetland Forum
- GroundWork SA
- Local Ward Councillors
- Matjhabeng Ratepayers Association
- National Farmers Union
- Sibanye Stillwater
- South African National Biodiversity Institute
- South African National Roads Agency Ltd: Eastern Region
- Tara Wildlife SA
- Transnet SOC Ltd
- World Wildlife Fund

4 NOTIFICATION OF INTERESTED AND AFFECTED PARTIES

This section provides details on the notifications that were distributed as part of the consultation process to date.

4.1 INITIAL NOTIFICATION OF LANDOWNERS AND I&APS

The PPP commenced on the 16th May 2022 with an initial notification and call to register ending on the 21st June 2022. Notification during this initial consultation was given in the manner described below.

4.1.1 REGISTERED LETTERS, FAXES AND EMAILS

Notification letters in English, Afrikaans and Sesotho were distributed to pre-identified I&APS through either registered mail, faxes, and/or emails. Please refer to Appendix B 2 for initial notification and proof of initial notification.

The notification documents included the following information:

- List of anticipated activities to be authorised;
- Sufficient detail of the proposed development to enable I&APs to assess/surmise what impact the development will have on them or on the use of their land;
- The purpose of the proposed project;
- Details of the application processes associated with proposed activities;
- Details of the affected properties (including a locality map);

- Details of the South African environmental legislation that must be adhered to;
- Date by which the I&AP must register and send comments through to EIMS;
- Contact details of the EAP.

4.1.2 NEWSPAPER ADVERTISMENTS

Advertisements describing the proposed project and EIA process were placed in the Vista Newspaper (in English, Afrikaans and Sesotho) with adequate circulation in the vicinity of the study area on the 19th May 2022. A notice was also placed in the Free State Provincial Gazette on the 01st July 2022. The newspaper advert and notice included the following information:

- Project name;
- Applicant name;
- Project location;
- Nature of the activity;
- Legislative requirements; and
- Relevant EIMS contact person for the project.

Please refer to Appendix B 3 for proof of adverts and notices placed.

4.1.3 SITE NOTICE PLACEMENT

Seventy-Eight (78) A1 Correx site notices (in English, Afrikaans and Sesotho) were placed at 78 locations along, within and surrounding the perimeter of the proposed project study area on the 16th-19th May 2022. The on-site notices included the following information:

- Project name;
- Applicant name;
- Project location;
- Map of proposed project area;
- Project description;
- Legislative requirements; and
- Relevant EIMS contact person for the project.

Please refer to Appendix B 4 for proof of site notice and site notice distribution.

4.2 NOTIFICATION OF INTERESTED AND AFFECTED PARTIES OF SCOPING REPORT AVAILABILITY

Notifications (in English, Afrikaans and Sesotho) regarding the availability of the Scoping Report were distributed to pre-identified and registered I&APs through either faxes, registered mail, SMS and/or emails. The notification included details regarding where hard copies of the reports can be accessed.

Contact details were provided to I&APs if they require assistance accessing the information or require copies of the reports.

The Scoping report and associated appendices were made available for public review and comment from the 30th of July 2022 to the 30th of August 2022 at the Virginia Public Library. An additional hard copy of the report was placed at the Welkom Public Library.

Please refer to Appendix B 5 for proof of Scoping Report notification.

4.3 KEY STAKEHOLDER AND PUBLIC MEETINGS/OPEN DAYS

During the scoping report review period a series of focus group meetings and open days were held with different stakeholders to present the findings from the scoping report and solicit comments.

Community focus group meeting were held on the 23rd of August 2022 with the communities within the application area to present a high-level summary of the scoping report and to solicit comments regarding the project. The meetings were held at the Stilte Community Primary school, and at the Adamsonvley Community Primary School, from 12pm to 2pm and from 4pm to 6pm, respectively.

A Landowner Focus Group Open Day was held on the 24th August 2022 at the Goldfields Game Ranch between 10am and 4pm, subsequently followed by a Landowner Focus group meeting between 5pm and 7pm with the pre-identified and registered affected and adjacent landowners. A high-level summary presentation of the scoping report and its findings were presented whereafter discussions were held.

A public open day was held on the 25th August 2022 at the NG Virginia Kerk, Virginia between 10am and 5pm to present a high-level summary of the Scoping Report. I&APs were invited to attend the open day. The findings from the Scoping Report were presented and discussions based on the findings were also undertaken.

Please refer to Appendix B 6 for Public Open Day documentation.

4.4 SUMMARY OF PUBLIC PARTICIPATION OPPORTUNITIES

The table below provides a summary of the opportunities provided to I&APs for participation in the public participation process to date.

PUBLIC PARTICIPATION PHASE			
ACTION	DESCRIPTION	PUBLICATION/PLACE	DATE
Initial Public Notification (announcement of project and call to register)	Newspaper advertisements	Vista Newspaper (English, Afrikaans and Sesotho)	19 May 2022
	Placement of site notices.	78 A1 site notices (English, Afrikaans and Sesotho) within and around the study area (78 placement locations).	16 - 19 May 2022
	Notification of landowners, occupiers, and other key I&APs.	Affected landowners and key I&APs were notified via email, fax, and/or post (English, Afrikaans and Sesotho).	20 May 2022
		Government Gazette (English, Afrikaans and Sesotho)	01 July 2022
Scoping report public review and comment period	Notification of landowners, occupiers, and other key I&APs (including Authorities, NGO's etc).	Affected landowners, legal occupiers, key and registered I&APs were notified via email, fax, SMS and/or post.	30 th of July 2022 to the 30 th of August 2022

Table 1: Opportunities Provided for Public Participation

PUBLIC PARTICIPATION PHASE			
ACTION	DESCRIPTION	PUBLICATION/PLACE	DATE
		Hard Copies of the report were placed at the Virginia and Welkom Public Libraries. A digital copy of the report was made available on the EIMS website.	
	Notification of landowners, occupiers, and other key I&APs.	Affected landowners, legal occupiers, and key I&APs were notified via email, fax, and/or SMS.	05 th August 2022
Public Open Days and Focus Group Meetings	 Stilte Community Adamsonvley Community Landowner Focus Group Open Day Landowner Focus Group Open Day and Meeting Public Open Day 	 Stilte Community Primary School Adamsonvley Primary School Goldfields Game Ranch Goldfields Game Ranch NG Virginia Kerk 	 23rd Aug 2022 (12pm – 2pm) 23rd Aug 2022 (4pm – 6pm) 24th Aug 2022 (10am – 4pm) 24th Aug 2022 (5pm – 7pm) 25th Aug 2022 (10am – 5pm)

5 NOTIFYING INTERESTED AND AFFECTED PARTIES OF THE DECISION

Registered I&APs will be notified via either fax, registered mail, SMS and/or email (where contact details are available) of the decision once available including the appeal process should they wish to appeal the decision.

6 **RECORD OF ISSUES RAISED**

The summary of comments presented in the sub-section below are those that have been received and addressed from 20 May 2022 to date.

6.1 Summary of Comments Received

A high-level summary of the comments raised to date are presented below.

- Concerns of water availability to farmers and air quality impacts of the proposed project.
- Groundwater contamination concerns.
- I&AP deregistration.
- I&AP registration.
- KMZ file request by Eskom.
- Notification of ongoing PV Authorization project from EAP within project area notification, locality map sharing and BID documents.
- Request for a list of farms to be affected by the proposed developments.
- Seeking of potential business opportunities from the proposed development.

- Transnet commented that the proposed development does not affect their pipeline servitudes in the region.
- SAHRA provided an interim comment that a comment is to be provided once a HIA and draft EIA Report are made available for comment.
- Query regarding website document accessibility.
- Requests by various members of the community for jobs as well as other specific services such as electricity, skills upliftment, etc.
- Concerns by NGO's about the living standards of the community members.
- NGOs highlighted the possible confusion regarding Tetra4 vs Renergen and how the two companies relate to this project.
- Concerns that impacts on landowners seem to have been underestimated.
- Concerns regarding the project's impacts on the safety, livelihoods and land value for landowners.
- Access road degradation concerns from landowners.
- Request by landowner for more detail on infrastructure specific location and timing of the project aspects.
- Request by landowner for more detail on logistics regarding access and maintenance of Tetra4 infrastructure on farmlands as well as contractual concerns.

All comments and/or queries received to date are appended to this report and presented in Appendix B 7 and Appendix B 8 for submission to the competent authority, the Petroleum Agency SA (PASA). Please refer to Appendix B 7 for the table of comments and responses and then Appendix B 8 for proof of correspondence.

7 CONCLUSION AND RECOMMENDATIONS

This report has been updated for submission to the PASA, following the 30-day public review period of the Scoping Report and associated appendices.

Please note that in an effort to protect the personal information of the Registered I&AP's the contents of this document will not be made publicly available. Should you require access to this document for the purposes of fulfilling your obligations under the NEMA EIA Regulations or other lawful right, please feel free to contact the EIMS Information officer at 011 789 7170 or popia@eims.co.za

20 May 2022 Production Right Ref: 12/4/1/07/2/2 Our Ref: BW/qm/1473

To whom it may concern

Dear Sir or Madam:

NOTIFICATION REGARDING OPPORTUNITY TO PARTICIPATE IN ENVIRONMENTAL AUTHORISATION AND WATER USE LICENCE APPLICATION PROCESSES FOR THE PROPOSED TETRA4 CLUSTER 2 GAS GATHERING AND PRODUCTION PROJECT, IN THE VIRGINIA AREA, FREE STATE PROVINCE, SOUTH AFRICA

Tetra4 (Pty) Ltd (hereafter referred to as the applicant) has appointed Environmental Impact Management Services (Pty) Ltd (EIMS) as the Environmental Assessment Practitioner (EAP) to assist with undertaking the required authorisation processes (including the statutory public participation), and to compile and submit the required documentation in support of application for:

- Environmental Authorisation (EA) and amendments in accordance with the National Environmental Management Act- NEMA (Act 107 of 1998).
- Atmospheric Emissions Licence variation in accordance with the requirements of the National Environmental Management: Air Quality Act- NEM:AQA (Act 39 of 2004.
- Waste Management Licence in accordance with the requirements of the National Environmental Management: Waste Act- NEM:WA (Act 59 of 2008).
- Water Use Licence (WUL) in accordance with the National Water Act NWA (Act 36 of 1998).
- Amendment of Rights Permits or Plans in accordance with Section 102 of the Mineral and Petroleum Resources Development Act MPRDA (Act 28 Of 2002).

Additional listed activities and/or water uses may be identified during the application processes and more detail will be provided in a subsequent opportunity for registered interested and affected parties (I&AP's) to participate.

The applicant wishes to expand their natural gas operations, to be located within the approved production right area. This planned expansion to the existing approved production activities will involve up to 300 new production wells, gas transmission pipelines and associated infrastructure, compressor stations and a new combined Liquid Natural Gas (LNG) and Liquid Helium (LHe) plant ("LNG/LHe Plant") and associated infrastructure as part of the Cluster 2 expansion of the Project in order to meet the future production requirements.

The proposed project falls within the Masilonyana and Matjhabeng Local Municipalities, in the Lejweleputswa District Municipality, Free State Province. The site boundary is ~5km south west of the town of Virginia, ~9km south the town of Welkom and ~16km north of the town of Theunissen. The application area covers approximately 27 500 hectares, and the approximate centre point of the site is located at 28°10'20.47"S and 26°43'50.79"E. A locality map is included below for ease of reference. The project covers various farm portions and a set of maps showing the farms and portions can be found on the EIMS website at the link below. Refer to the list of farms below the locality map:

EIMS will be following the procedures defined in the Environmental Impact Assessment (EIA) Regulations (GRN982 of 2014, as amended) for undertaking a Scoping and Environmental Impact Assessment (EIA) process. In accordance with Chapter 6 of the EIA Regulations, a public participation process will be undertaken. You are hereby invited to register and comment on the proposed project and applications. In order to ensure that you are identified and registered as an I&AP and that your comments are captured, please submit your name, contact details, the reason for your interest, in writing or telephonically by no later than 21 June 2022, to EIMS. Please note that only registered I&AP's will be informed of future project information and opportunities for participation.

By registering as an interested and affected party you consent to the collection and processing of your personal information as per the EIMS Privacy Notice available at <u>www.eims.co.za/public-participation</u>. In order to avoid missing out on opportunities for public participation please submit I&AP registrations, or any queries, comments, or concerns with regards to this application, as soon as possible to EIMS at:

20 Mei 2022 Produksie Reg Verwysing: 12/4/1/07/2/2 Ons verwysing: BW/qm/1473

Vir wie dit mag aangaan

Geagte Meneer of Mevrou:

KENNISGEWING MET BETREKKING TOT GELEENTHEID OM DEEL TE NEEM AAN OMGEWINGSMAGTIGING EN WATERGEBRUIK-LISENSIE AANSOEKPROSESSE VIR DIE VOORGESTELDE TETRA4 KLUSTER 2 GASINSAMELING EN PRODUKSIEPROJEK, IN DIE VIRGINIA AREA, VRYSTAAT PROVINSIE, SUID AFRIKA

Ooreenkomstig die vereistes van Hoofstuk 6 van die Omgewingsimpakstudie (OIB) Regulasies

(Regeringskennisgewing R982 soos gewysig, afgekondig kragtens die Nasionale

Omgewingsbestuurswet 107 van 1998-WNOB), word hiermee kennis gegee van 'n aansoek/e wat aan 'n proses van openbare deelname onderwerp sal word.

Tetra4 (Edms) Bpk (hierna as die aansoeker genoem) het Environmental Impact Management Services (Edms) Bpk (EIMS) as die Omgewingsevalueringspraktisyn (EAP) aangestel om te help met die onderneem van die vereiste magtigingsprosesse (insluitend die statutêre openbare deelname), en om die vereiste dokumentasie saam te stel en in te dien ter ondersteuning van aansoek vir:

• Omgewingsmagtiging (OM) en wysigings in ooreenstemming met die Wet op Nasionale Omgewingsbestuur-WNOB (Wet 107 van 1998).

• Atmosferiese Emissies-lisensie-variasie in ooreenstemming met die vereistes van die Wet op Nasionale Omgewingsbestuur: Luggehalte- WNOB:LH (Wet 39 van 2004.

• Afvalbestuurslisensie in ooreenstemming met die vereistes van die Nasionale Omgewingsbestuur: Afvalwet-WNOB:AW (Wet 59 van 2008).

Watergebruiklisensie (WGL) in ooreenstemming met die Nasionale Waterwet – NWW (Wet 36 van 1998).

• Wysiging van regtepermitte of -planne in ooreenstemming met Artikel 102 van die Wet op die Ontwikkeling van Minerale en Petroleumhulpbronne – WOMPHB (Wet 28 Van 2002).

Bykomende gelyste aktiwiteite en/of watergebruike kan tydens die aansoekprosesse geïdentifiseer word en meer besonderhede sal verskaf word in 'n daaropvolgende geleentheid vir geregistreerde belanghebbende en geaffekteerde partye (B&GP's) om deel te neem.

Die aansoeker wil hulle aardgasbedrywighede uitbrei om binne die goedgekeurde

produksiereggebied geleë te wees. Hierdie beplande uitbreiding aan die bestaande goedgekeurde produksieaktiwiteite sal 300 nuwe produksieputte, gastransmissiepypleidings en gepaardgaande infrastruktuur, kompressorstasies en 'n nuwe gekombineerde Vloeibare aardgas (LNG) en Vloeibare helium (LHe)-aanleg ("LNG/LHe Plant) en gepaardgaande infrastruktuur as deel van die Fase 2-uitbreiding van die Projek behels om aan die toekomstige produksievereistes te voldoen.

Die voorgestelde projek val binne die Masilonyana en Matjhabeng Plaaslike Munisipaliteite, in die Lejweleputswa Distriksmunisipaliteit, Vrystaat Provinsie. Die terreingrens is ~5km suidwes van die dorp Virginia, ~9km suid van die dorp Welkom en ~16km noord van die dorp Theunissen. Die toedieningsgebied beslaan ongeveer 27 500 hektaar, en die benaderde middelpunt van die terrein is geleë op 28°10'20.47"S en 26°43'50.79"O. 'n Liggingskaart is hieronder ingesluit vir maklike verwysing. Die projek dek verskeie plaasgedeeltes en 'n stel kaarte wat die plase en plaasgedeeltes wys, kan gevind word op die EIMS-webwerf by die skakel hieronder. Verwys na die lys van plase onder die liggingskaart:

EIMS sal die prosedures volg wat in die Omgewingsimpakbepaling (OIB) Regulasies (GRN982 van 2014, soos gewysig) omskryf is om 'n omvangbepaling en Omgewingsimpakbepaling (EIA) te onderneem. In ooreenstemming met Hoofstuk

6 van die OIB-regulasies, sal 'n openbare deelnameproses onderneem word. U word hiermee uitgenooi om te registreer en kommentaar te lewer op die voorgestelde projek en aansoeke. Om te verseker dat jy geïdentifiseer en geregistreer is as 'n B&GP en dat jou kommentaar vasgelê word, dien asseblief jou naam, kontakbesonderhede, die rede vir jou belangstelling, skriftelik of telefonies, in teen nie later nie as 21 Junie 2022, by EIMS in. Neem asseblief kennis dat slegs geregistreerde B&GP's ingelig sal word oor toekomstige projekinligting en geleenthede vir deelname.

Deur te registreer as 'n belanghebbende en geaffekteerde party stem jy in tot die versameling en verwerking van jou persoonlike inligting soos per die EIMS Privaatheidskennisgewing beskikbaar by <u>www.eims.co.za/public-participation</u>. Om te verhoed dat geleenthede vir publieke deelname misgeloop word, dien asseblief B&GP-registrasies, of enige navrae, kommentaar of bekommernisse met betrekking tot hierdie aansoek, so gou moontlik in by EIMS by:

Kontakpersoon: Qaphela Magaqa

[GENERAL NOTICE NO. 52 OF 2022]

NOTIFICATION REGARDING OPPORTUNITY TO PARTICIPATE IN ENVIRONMENTAL AUTHORISATION AND WATER USE LICENCE APPLICATION PROCESSES FOR THE PROPOSED TETRA4 CLUSTER 2 GAS GATHERING AND PRODUCTION PROJECT, IN THE VIRGINIA AREA, FREE STATE PROVINCE, SOUTH AFRICA

Tetra4 (Pty) Ltd (hereafter referred to as the applicant) has appointed Environmental Impact Management Services (Pty) Ltd (EIMS) as the Environmental Assessment Practitioner (EAP) to assist with undertaking the required authorisation processes (including the statutory public participation), and to compile and submit the required documentation in support of application for: Environmental Authorisation (EA) and amendments in accordance with the National Environmental Management Act- NEMA (Act 107 of 1998); Atmospheric Emissions Licence variation in accordance with the requirements of the National Environmental Management: Air Quality Act- NEM:AQA (Act 39 of 2004; Waste Management Licence in accordance with the requirements of the National Environmental Management: Waste Act- NEM:WA (Act 59 of 2008); Water Use Licence (WUL) in accordance with the National Water Act – NWA (Act 36 of 1998); and Amendment of Rights Permits or Plans in accordance with Section 102 of the Mineral and Petroleum Resources Development Act – MPRDA (Act 28 Of 2002). Additional listed activities and/or water uses may be identified during the application processes and more detail will be provided in a subsequent opportunity for registered interested and affected parties (I&AP's) to participate.

The applicant wishes to expand the natural gas operations, to be located within the approved production right area. This planned expansion to the existing approved production activities will involve up to 300 new production wells, gas transmission pipelines and associated infrastructure, compressor stations and a new combined Liquid Natural Gas (LNG) and Liquid Helium (LHe) plant ("LNG/LHe Plant") and associated infrastructure as part of the Cluster 2 expansion of the Project in order to meet the future production requirements. The proposed project falls within the Masilonyana and Matjhabeng Local Municipalities, in the Lejweleputswa District Municipality, Free State Province. The site boundary is ~5km south west of the town of Virginia, ~9km south the town of Welkom and ~16km north of the town of Theunissen. The application area covers approximately 27 500 hectares, and the approximate centre point of the site is located at 28°10'20.47"S and 26°43'50.79"E. The project covers various farm portions and a set of maps showing the farms and portions can be found on the EIMS website at the link below. The parent farms are as follows:

Adamsons Vley No. 655, Annex Glen Ross No. 562, Annex Grusde No. 474, Annex Mooivlakte No. 208, Blaauwdrift No. 188, Bloemhoek No. 509, Boschluis Spruit No. 278, Braklaagte No. 41, Brakspruit No. 121, Bruintjies Hoogte No. 367, Bryan No. 561, Cabriere No. 215, Carlo No. 596, Damplaats No. 341, Dankbaarheid No. 16, De Klerks Kraal No. 231, Die Mond No. 479, Digito No. 642, Doorn River No. 330, Doorndeel No. 236, Enkeldoorn No. 360, Frisgewaag No. 550, Glen Ross No. 734, Grusde No. 229, Hakkies No. 695, Hakkies No. 742, Harmonie No. 579,

Helpmekaar No. 47, Jonkers Rust No. 72, Jordaan No. 1, Jordaans Rust No. 59, Kaalpan No. 65, Kalkoenkrans No. 225, Klein Palmiet Kuil No. 407, Klein Pan No. 320, Kleinbegin No. 134, Kovno No. 235, Langlaagte No. 110, Leeuwaarden No. 171, Leeuwbult No. 52, Leeuwbult No. 580, Lekkerlewe No. 643, Middelplaas No. 583, Mond Van Doornrivier No. 38, Mooifontein No. 639, Mooivlakte No. 199, Mooivlei No. 357, Nortier No. 361, Palmietkuil No. 548, Palmietkuil No. 328, Paulina No. 470, Richelieu No. 135, Rondehoek No. 200, Siberia No. 464, Spoorleggerswoning 54 No. 167, Stille Woning No. 703, Terra Blanda No. 155, Toulon No. 368, Vaalbank No. 190, Vlakpan No. 358, Welgelegen No. 382, Weltevrede No. 638, Weltevreden No. 443, Zoetendal No. 243, Zonderzorg No. 342, Zonderzorg No. 640

EIMS will be following the procedures defined in the Environmental Impact Assessment (EIA) Regulations (GRN982 of 2014, as amended) for undertaking a Scoping and EIA process. In accordance with Chapter 6 of the EIA Regulations, a public participation process will be undertaken. You are hereby invited to register and comment on the proposed project and applications. In order to ensure that you are identified and registered as an I&AP and that your comments are captured, please submit your name, contact details, the reason for your interest, in writing or telephonically, to EIMS. Please note that only registered I&AP's will be informed of future project information and opportunities for participation. By registering as an interested and affected party you consent to the collection and processing of your personal information as per the EIMS Privacy Notice available at <u>www.eims.co.za/public-participation</u>. In order to avoid missing out on opportunities for public participation please submit I&AP registrations, or any queries, comments, or concerns with regards to this application, within 30 days from publication of this notice to EIMS.

Contact Person: Qaphela Magaqa EIMS Reference Number: 1473 Postal Address: P.O. Box 2083; Pinegowrie; 2123 Telephone: (011) 789 7170/ Fax: (086) 571 9047 E-mail: <u>tetracluster2@eims.co.za</u> Please include the project reference number **1473** in all correspondence. Please feel free to contact the undersigned if you have any queries or concerns. Kind Regards, **Qaphela**

KENNISGEWING MET BETREKKING TOT GELEENTHEID OM DEEL TE NEEM AAN DIE OMGEWINGSMAGTIGING EN WATERGEBRUIK-LISENSIE AANSOEKPROSESSE VIR DIE VOORGESTELDE TETRA4 CLUSTER 2 GASVERSAMELING EN PRODUKSIE PROJEK, IN DIE VIRGINIA OMGEWING, VRYSTAAT PROVINSIE, SUID-AFRIKA

Tetra4 (Edms) Bpk (hierna die aansoeker genoem) het Environmental Impact Management Services (Edms) Bpk (EIMS) as die Omgewingsevalueringspraktisyn (EAP) aangestel om te help met die onderneem van die vereiste magtigingsprosesse (insluitend die statutêre openbare deelname prosesse), en om die vereiste dokumentasie saam te stel en in te dien ter ondersteuning van die aansoek om: Omgewingsmagtiging (OM) en wysigings in ooreenstemming met die Vareistes van die Nasionale Omgewingsbestuurswet- NEMA (Wet 107 van 1998); Atmosferiese Emissies Lisensie variasie in ooreenstemming met die vereistes van die Nasionale Omgewingsbestuur: Luggehalte Wet- NEM:AQA (Wet 39 van 2004; Afvalbestuur Lisensie in ooreenstemming met die vereistes van die Nasionale Omgewingsbestuur: Afval Wet- NEM:WA (Wet) 59 van 2008); Watergebruiklisensie (WUL) ooreenkomstig die Nasionale Waterwet – NWA (Wet 36 van 1998); en Wysiging van regtepermitte of - planne ooreenkomstig Artikel 102 van die Wet op die Ontwikkeling van Minerale en Petroleumhulpbronne – MPRDA (Wet 28 van 2002). Bykomende gelyste aktiwiteite en/of watergebruike kan tydens die aansoekprosesse geïdentifiseer word en meer besonderhede sal verskaf word in 'n daaropvolgende geleentheid vir geregistreerde belanghebbende en geaffekteerde partye (B&GP's) om deel te neem.

Die aansoeker wil die aardgasbedrywighede uitbrei wat binne die goedgekeurde produksiereggebied geleë is. Hierdie beplande uitbreiding na die bestaande goedgekeurde produksieaktiwiteite sal tot 300 nuwe produksieboorgate, gastransmissiepypleidings en gepaardgaande infrastruktuur, kompressorstasies en 'n nuwe gekombineerde Vloeibare Aardgas (LNG) en Vloeibare Helium (LHe)-aanleg ("LNG/ LHe Aanleg") behels en gepaardgaande infrastruktuur as deel van die Cluster 2-uitbreiding van die Projek om aan die toekomstige produksievereistes te voldoen. Die voorgestelde projek val binne die Masilonyana en Matjhabeng Plaaslike Munisipaliteite, in die Lejweleputswa Distriksmunisipaliteit Vrystaat Provinsie,. Die terreingrens is ~5km suidwes van die dorp Virginia, ~9km suid van die dorp Welkom and ~16km noord van die dorp Theunissen. Die toedieningsgebied beslaan ongeveer 27 500 hektaar, en die benaderde middelpunt van die terrein is geleë op 28°10'20.47"S en 26°43'50.79"O. Die projek dek verskeie plaasgedeeltes en 'n stel kaarte wat die plase en gedeeltes wys, kan gevind word op die EIMS-webwerf by die skakel hieronder. Die plase is soos volg:

Adamsons Vley No. 655, Annex Glen Ross No. 562, Annex Grusde No. 474, Annex Mooivlakte No. 208, Blaauwdrift No. 188, Bloemhoek No. 509, Boschluis Spruit No. 278, Braklaagte No. 41, Brakspruit No. 121, Bruintjies Hoogte No. 367, Bryan No. 561, Cabriere No. 215, Carlo No. 596, Damplaats No. 341, Dankbaarheid No. 16, De Klerks Kraal No. 231, Die Mond No. 479, Digito No. 642, Doorn River No. 330, Doorndeel No. 236, Enkeldoorn No. 360, Frisgewaag No. 550, Glen Ross No. 734, Grusde No. 229, Hakkies No. 695, Hakkies No. 742, Harmonie No. 579, Helpmekaar No. 47, Jonkers Rust No. 72, Jordaan No. 1, Jordaans Rust No. 59, Kaalpan No. 65, Kalkoenkrans No. 225, Klein Palmiet Kuil No. 407, Klein Pan No. 320, Kleinbegin No. 134, Kovno No. 235, Langlaagte No. 110, Leeuwaarden No. 171, Leeuwbult No. 52, Leeuwbult No. 580, Lekkerlewe No. 643, Middelplaas No. 583, Mond Van Doornrivier No. 38, Mooifontein No. 639, Mooivlakte No. 199, Mooivlei No. 357, Nortier No.

EIMS sal die prosedures volg soos omskryf in die Omgewingsimpakbepaling (OIB) Regulasies (GRN982 van 2014, soos gewysig) vir die onderneem van 'n Omvangbepaling en OIB proses. In ooreenstemming met Hoofstuk 6 van die OIB-regulasies, sal 'n openbare deelnameproses onderneem word. U word hiermee uitgenooi om te registreer en kommentaar te lewer op die voorgestelde projek en aansoeke. Om te verseker dat u geïdentifiseer en geregistreer is as 'n B&GP en dat u kommentaar vasgelê word, dien asseblief u naam, kontakbesonderhede, die rede vir u belangstelling, skriftelik of telefonies, by EIMS in. Neem asseblief kennis dat slegs geregistreerde B&GP's ingelig sal word oor toekomstige projekinligting en geleenthede vir deelname. Deur te registreer as 'n belanghebbende en geaffekteerde party stem u in tot die versameling en verwerking van u persoonlike inligting soos per die EIMS Privaatheidskennisgewing beskikbaar by <u>www.eims.co.za/public-participation</u>. Om te verhoed dat geleenthede vir publieke deelname misgeloop word, dien asseblief B&GP-registrasies, of enige navrae, kommentaar of bekommernisse met betrekking tot hierdie aansoek, binne 30 dae vanaf publikasie van hierdie kennisgewing by EIMS in.

To whom it may concern

Dear Registered Interested and Affected Party:

NOTIFICATION REGARDING OPPORTUNITY TO PARTICIPATE IN ENVIRONMENTAL APPROVAL PROCESSES FOR THE PROPOSED TETRA4 CLUSTER 2 GAS PRODUCTION PROJECT NEAR VIRGINIA, IN THE MASILONYANA AND MATJHABENG LOCAL MUNICIPALITIES, FREE STATE PROVINCE.

As a registered Interested and Affected Party (I&AP) for the above-mentioned project, you are hereby notified of the following opportunity for public participation:

Description of event:	Availability of Scoping Report for public review and comment A hard copy of the report can be viewed at the Virginia Public Library (Cnr of Civic and Garden Route, Virginia)				
Where:					
	A hard copy of the report can be viewed at the Welkom City Library (Welkom Central)				
	An electronic copy of the report can be downloaded from the EIMS website: <u>https://www.eims.co.za/public-participation/</u>				
When:	Comments to be submitted until 30 August 2022				

The purpose of this Scoping Phase is to solicit feedback on potential concerns raised by I&APs to enable timely consideration thereof and to undertake further assessments, where necessary in the next phase of the application process.

All inputs received by EIMS on the Scoping Report will be included in subsequent submissions to the Petroleum Agency SA (PASA) for consideration in their decision-making process.

Please submit all comments or queries via letter, fax, phone call or email to the following contact details:

Contact Person: Qaphela Magaqa

EIMS Reference Number: 1473

Postal Address: P.O. Box 2083; Pinegowrie; 2123

Telephone: (011) 789 7170

Fax: (086) 571 9047

E-mail: tetracluster2@eims.co.za

Please include the project reference number 1473 in all correspondence.

Kind Regards,

Qaphela Magaqa

Ons verwysing: 1473/BW/qm

Aan wie dit mag aangaan

Geagte Geregistreerde Belanghebbende en Geaffekteerde Party:

KENNISGEWING MET BETREKKING TOT GELEENTHEID OM AAN OMGEWINGSGOEDKEURINGSPROSESSE TE NEEM VIR DIE VOORGESTELDE TETRA4 CLUSTER 2 GASPRODUKSIEPROJEK NABY VIRGINIA, IN DIE MASILONYANA EN MATJHABENG PLAASLIKE MUNISIPALITEITE, VRYSTAAT PROVINSIE.

As 'n geregistreerde Belanghebbende en Geaffekteerde Party (B&GP) vir die bogenoemde projek, word u hiermee in kennis gestel van die volgende geleentheid(e) vir publieke deelname:

Beskrywing van gebeurtenis:	Beskikbaarheid van Omvangbepalingsverslag vir publieke hersiening en kommentaar			
Waar:	'n Harde kopie van die verslag kan besigtig word by die Virginia Publieke Biblioteek (Hoek van Civic Laan en Garden Route, Virginia)			
	'n Harde kopie van die verslag kan by die Welkom Stadsbiblioteek (Welkom Sentraal) besigtig word.			
	'n Elektroniese kopiee van die verslag kan van die EIMS-webwerf afgelaai word: <u>https://www.eims.co.za/public-participation/</u>			
Wanneer:	Kommentaar moet teen 30 Augustus 2022 ingedien word			

Die doel van hierdie Omvangbepalingsfase is om terugvoer te verkry oor potensiële kwelpunte of kwessies wat deur B&GPe geopper word om tydige oorweging daarvan in die Studieplan vir die Omgewings Impak Studie (EIA) moontlik te maak en om, waar nodig, verdere assesserings te onderneem wat in die komende EIA/ Omgewings Bestuurs Program verslag (EMPr)-fase aangebied sal word vir verdere konsultasie.

Alle insette wat deur EIMS oor die Omvangbepalingsverslag ontvang word, sal ingesluit word in daaropvolgende voorleggings aan die Petroleum Agentskap van Suid Afrika (PASA) vir oorweging in hul besluitnemingsproses.

Stuur asseblief alle kommentaar of navrae per brief, faks, telefoonoproep of e-pos na die volgende kontakbesonderhede:

Kontakpersoon: Qaphela Magaqa EIMS Verwysingsnommer: 1473 Posadres: Posbus 2083; Pinegowrie; 2123 Telefoon: (011) 789 7170 Faks: (086) 571 9047 E-pos: <u>tetracluster2@eims.co.za</u>

Sluit asseblief die projekverwysingsnommer, 1473, by alle korrespondensie in.

Vriendelike groete,

Qaphela Magaqa

To whom it may concern

Dear Landowner:

NOTIFICATION REGARDING OPPORTUNITY TO PARTICIPATE IN ENVIRONMENTAL LICENCING PROCESSES FOR THE PROPOSED TETRA4 CLUSTER 2 GAS PRODUCTION PROJECT NEAR VIRGINIA, IN THE MASILONYANA AND MATJHABENG LOCAL MUNICIPALITIES, FREE STATE PROVINCE.

As a Landowner within the application area for the above-mentioned project, you are hereby notified of the following opportunity/ies for public participation:

Description of event:	Invitation to a Landowner Open Day (walk-in at your convenient time) followed by Public Meeting
Where:	Goldfields Game Ranch
	8 Kilometres outside Virginia on the R730 Virginia (28°12'38.64"S; 26°49'8.07"E)
When:	Open Day: Wednesday <u>24 August 2022</u> from <u>10AM to 4PM</u>
	Meeting: Wednesday <u>24 August 2022</u> from <u>5PM-7PM</u>

All inputs received by EIMS will be included in subsequent submissions to the Petroleum Agency SA (PASA) for consideration in their decision-making process.

I&AP registrations, or any queries, comments, or concerns with regards to this application, can be directed to EIMS at:

Contact Person: Qaphela Magaqa

EIMS Reference Number: 1473

Postal Address: P.O. Box 2083; Pinegowrie; 2123

Telephone: (011) 789 7170/ Fax: (086) 571 9047

E-mail: tetracluster2@eims.co.za

Please include the project reference number 1473 in all correspondence and don't hesitate to contact the undersigned if you have any queries or concerns.

Kind Regards,

Qaphela Magaqa

To whom it may concern

Dear Registered Interested and Affected Party:

NOTIFICATION REGARDING OPPORTUNITY TO PARTICIPATE IN ENVIRONMENTAL LICENCING PROCESSES FOR THE PROPOSED TETRA4 CLUSTER 2 GAS PRODUCTION PROJECT NEAR VIRGINIA, IN THE MASILONYANA AND MATJHABENG LOCAL MUNICIPALITIES, FREE STATE PROVINCE.

As a registered Interested and Affected Party (I&AP) for the above-mentioned project, you are hereby notified of the following opportunity/ies for public participation:

Description of event: Invitation to a Public Open Day (walk-in at your convenient time)	
Where:	NG Virginia church
	69 Highlands Ave, Virginia, 9431
When:	Thursday <u>25 August 2022</u> from <u>10AM to 5PM</u>

All inputs received by EIMS will be included in subsequent submissions to the Petroleum Agency SA (PASA) for consideration in their decision-making process.

I&AP registrations, or any queries, comments, or concerns with regards to this application, can be directed to EIMS at:

Contact Person: Qaphela Magaqa EIMS Reference Number: 1473

Postal Address: P.O. Box 2083; Pinegowrie; 2123

Telephone: (011) 789 7170/ Fax: (086) 571 9047

E-mail: tetracluster2@eims.co.za

Please include the project reference number 1473 in all correspondence and don't hesitate to contact the undersigned if you have any queries or concerns.

Kind Regards,

Qaphela Magaqa

5 August 2022 Our ref: 1473/BW/qm

To whom it may concern

Dear Community Member:

NOTIFICATION REGARDING OPPORTUNITY TO PARTICIPATE IN ENVIRONMENTAL LICENCING PROCESSES FOR THE PROPOSED TETRA4 CLUSTER 2 GAS PRODUCTION PROJECT NEAR VIRGINIA, IN THE MASILONYANA AND MATJHABENG LOCAL MUNICIPALITIES, FREE STATE PROVINCE.

As a Community Member within the application area for the above-mentioned project, you are hereby notified of the following opportunity/ies for public participation:

Description of event:	Invitation to a Community Focus Group Meetings	
Where:	Stilte Community – School Hall	
	Adamsonsvley Community – In the community grounds	
When:	Stilte: Tuesday 23 August 2022 – 12AM to 2PM	
	Adamsonsvley: Tuesday 23 August 2022 – 4PM to 6PM	

All inputs received by EIMS will be included in subsequent submissions to the Petroleum Agency SA (PASA) for consideration in their decision-making process.

I&AP registrations, or any queries, comments, or concerns with regards to this application, can be directed to EIMS at:

Contact Person: Qaphela Magaqa EIMS Reference Number: 1473 Postal Address: P.O. Box 2083; Pinegowrie; 2123 Telephone: (011) 789 7170/ Fax: (086) 571 9047 E-mail: <u>tetracluster2@eims.co.za</u>

Please include the project reference number 1473 in all correspondence and don't hesitate to contact the undersigned if you have any queries or concerns.

Kind Regards,

Qaphela Magaqa

Hi Thapelo,

As discussed, please find attached notification regarding the Community Focus Group Meeting. We would like to request that you notify community members of the Stilte Community Focus Group Meeting.

Secondly, we would like to book the hall for the 23rd August between 11am to 2:30pm for the meeting.

Please confirm receipt of this email and let us know when the hall booking has been done.

Have a good day.

Kind regards,

QAPHELA MAGAQA

MEETING DETAILS

Meeting	1473 Community Focus Group Meeting		
Meeting Venue	Stilte Primary School Hall	Date	2022/08/23
		Time	12h00-14h00

A Community Focus Group was held at the Stilte Primary School during the public review period of the scoping report with Interested and Affected Parties (I&APs)) – specifically with Community Members within the application area. The aim of the Community Focus Group was to consult with the members of the community within the proposed Tetra4 Project Area and to capture comments and/or concerns. Members of the Tetra4 team were also present during the meeting as observers and provided feedback as and where required.

Ms Jeanette Maila of EIMS introduced the EIMS team to the community in seSotho and explained the purpose of the meeting to all the attendees. Ms Maila stated that the purpose of the meeting was to present the planned project description, legal application procedure, impacts identified in the scoping phase and to capture comments and/or queries from the attendees. Ms Maila asked if the presentation could be delivered in English by Mr Brian Whitfield and all the attendees agreed. The meeting attendees were informed that should they have questions in seSotho and/or Afrikaans, they should feel free to ask in their preferred language. Mr Whitfield provided an overview of the project and application process to the community through the use of posters with specific emphasis of the proposed Cluster 2 project location and infrastructure, scoping impact assessment process, project team and project timeframes. All questions and comments that were raised by attendees were responded to in the specific I&AP's preferred language.

All attendees were asked to sign the attendance register at the venue.

TETRA4 GAS PRODUCTION PROJECT

Item No	Item		
	I&APs were encouraged to submit their comments and concerns through filling in the questionnaires provided. It was noted that all attendees who have provided their contact details would be registered by default on the I&AP database maintained by EIMS.		
2.	Questions and Answers		
2.1	Mr Jacob Radebe		
	Mr Radebe asked how their community would benefit economically and in terms of employment as the Stilte community is faced with high levels of unemployment.		
	Mr Whitfield responded that Tetra4 has indicated that the project will create an unconfirmed number of job opportunities for both skilled and unskilled labourers. The number of job opportunities is to be higher during the 3 year planned construction period and would be less for the planned 20 years of operation.		
	Mr Radebe stated that there are high levels of illiteracy in the Stilte community and majority of the residents cannot draft their own CVs, therefore asked if the residents will be assisted in any way or wha selection procedure will Tetra4 be using to allow for possible employment.		
	Ms de Hart from Tetra4 responded that Tetra4 will, during the application process, use a strategy the had previously used with the community where Tetra4 printed blank CVs for the members of the community to fill in their details as if it was a form and Tera4 could collect from the community.		
2.2	Mr Lwando Mbelebele		
	Mr Mbelebele asked if individuals who do not have valid passports would be considered in the hiring process should the project commence.		
	Ms de Hart stated that Tetra4 requires a recognisable form of Identification such as an identity document passport or driver's license.		
	Mr Mbelebele asked what would be done in the case of individuals with no Identity Documents.		
	Mr Whitfield stated that the Department of Home Affairs was the relevant department to deal with matters of such nature and EIMS nor Tetra4 cannot assist in such instances. The community was reminded that the construction phase would only commence after March 2023 and therefore the relevant community members with no form of identification should use this time leading up to 2023 to try and obtain such documents.		
2.4	Mr Paseka Togo		
	Mr Togo stated that during Tetra4's selection there needs to be an even selection or appointment o labourers where people living in farms adjacent to Stilte are also considered.		
	Ms de Hart responded that Tetra4 has recently appointed a community liaison specialist Mr Boitumele Joy Alec, who was also present at the meeting. Ms de Hart stated that Mr Alec would be in touch with communities as well as occupiers of farms within the application area and would coordinate communication between Tetra4 and the communities. Mr Alec introduced himself to the community and handed out his contact details.		
3	Closure		
3.1	The attendees were thanked for their comments and questions. All attendees were reminded that the can submit any additional comments to the project specific contact details provided for in the informatio

ltem No	Item		
	I&APs were encouraged to submit their comments and concerns through filling in the questionnaires provided. It was noted that all attendees who have provided their contact details would be registered by default on the I&AP database maintained by EIMS.		
2.	Questions and Answers		
2.1	Ms Maki Mwaya		
	Ms Mwaya stated that Tetra4 is a gas producing company and that the project is an expansion project on the currently existing gas production activities, however, they do not have electricity for cooking purposes in the Adamsonvley community. Ms Mwaya asked if Tetra4 would be providing gas to the community for the purposes of cooking or any possible form of energy to enable them to cook.		
	Mr Whitfield responded that EIMS has taken note of the question and requested that Tetra4 provide a response to the query.		
	Mr Gerhard Muller from Tetra4 explained to the meeting attendees that the gas gathered by Tetra4 is not Liquid Petroleum Gas (LPG) which is typically used in gas cylinders to cook. Tetra4 collects Methane gas which is compressed and liquified to Liquid Natural Gas (LNG) and has different chemical properties to LPG and is therefore not ideally suited to small scale cooking appliances. The gas is typically used in industrial processes such as glass making.		
	Ms Mwaya stated that Tetra4 has provided solar panels in the community for a few households, and some were left out.		
	Mr Muller confirmed that the solar installation project by Tetra4 was still in progress and more solar panels were still to be delivered and installed at the community shortly.		
2.2	Mr Aupa Mwaya		
	Mr Mwaya stated that the road conditions in their area were bad and during rain events the roads get damaged such that access to their community is impacted.		
	Mr Whitfield acknowledged that the comment has been captured and the matter would be taken up with Tetra4 to consider road maintenance as and where required by the project company.		
2.3	Ms Nthabeleng Mwaya		
	Ms Mwaya stated that they were eager to be part of the project, however stated that contractors and subcontractors are typically hired to carry out the work in such projects where they bring their own workers. Ms Mwaya asked if Tetra4 would be providing skills development and training to help equip the communities with the necessary skills needed for the members of the community.		
	Mr Whitfield acknowledged that the comment had been captured and that while contractors and sub contractors often have a certain staff complement, there would still be opportunities for semi-skilled and unskilled workers from the community to participate in the project whereby new skills would be gained through experience. The number of job opportunities is not however firm at this time and would be communicated to the community during the course of the project development.		
2.5	<u>Mr Aupa Mwaya</u>		
	Mr Mwaya stated that they were thankful for the potable water borehole that was previously supplied to their community by Tetra4, however they were experiencing issues with pumping the water from the borehole to the storage tank using a petrol powered pump and the fuel for operating the pump is		

EIMS	ENVIRONMENTAL IMPACT MANAGEMENT SERVICES

EIMS Ref 1473

TETRA4 GAS PRODUCTION PROJECT

ltem No	Item
	expensive while they struggle to fill up the tank. Mr Mwaya suggested that the community had an alternative to get water from the neighbouring farm's borehole however this would require a pipe to convey the water and deliver it to the tank in Adamsonvley, and would like to know if Tetra4 would be able to assist.
	Mr Whitfield acknowledged that the query was noted and would be discussed with Tetra4 and the affected landowner. Feedback would be provided once confirmed.
3	Closure
3.1	The attendees were thanked for their comments and questions. All attendees were reminded that they can submit any additional comments to the project specific contact details provided for in the information handouts distributed during the meeting and comment sheets and asked to make sure that they have signed the attendance register.

MEETING DETAILS

Meeting	1473 Landowner Focus Group Meeting Open Day		
Meeting Venue	Goldfields Game Ranch	Date	2022/08/24
		Time	10H00 - 16H00 17h80 - 19h80

A Landowner Focus Group open day was held at the Goldfields Game Ranch during the public review period of the scoping report. The invitation was extended to the affected and adjacent landowners. This session was aimed at consulting with landowners and to solicit comments, queries and concerns regarding the proposed Cluster 2 project. Posters and a PowerPoint presentation where available which provided a summary of the planned project location and description, legal application process, project team, various maps as well as preliminary impacts identified and assessed during the scoping phase. The Environmental Assessment Practitioner (EAP), Mr Brian Whitfield from EIMS, was available to attended to all questions and comments.

DISCUSSION POINTS

Item	

1. Focus Group open day made allowance for discussion around any queries that may be raised.

MINUTES

ltem No	Item			
1.	During the course of the Landowners Focus Group open day, one landowner attended and requested clarification on his property location as detailed in Item 2 below.			
	A second landowner (represented by Mr Elmar Roberg and Ms Liesel du Toit of Africary) attended towards the end of the open day and indicated that questions would be posed during the formal meeting later in the day. Details of these questions are captured in the Landowner Focus Group Meeting minutes.			
2.	Questions and Answers			
2.1	<u>Mr J van Huyssteen</u>			
	Mr Van Huyssteen asked where the proposed infrastructure would be.			
	Utilising the cadastral map overlayed with the project area and infrastructure, Mr Whitfield describe the proposed infrastructure and confirmed that Mr van Hiyssteen's property fell outside of the application area and ~3 km from the nearest well/pipeline infrastructure.			
	Mr Van Huyssteen expressed that he was grateful that no infrastructure would be located within his property and queried why he had been notified of the project.			
	Mr Whitfield explained that the invitations were distributed to landowners whose properties were within and adjacent to the application area and while Mr Van Huyssteen's farm falls outside of the application area, he has been registered as a potential interested party.

Page 1 of 3

EIMS Ref 1473

Project Name

TETRA4 GAS PRODUCTION PROJECT

Item No	Item
	Mr Whitfield clarified that the proposed cluster 2 plant would be located within the Tetra4 owned farm (Mont Doornrivier 38, RE), and that the proposed Cluster 2 plant expansion would be further away from the R30 road behind the current existing plant.
2.2	Mr Johan Prinsloo
	Mr Prinsloo stated that he is now a pensioner and had invested his entire life savings in purchasing and improving his property and that this game farm represents everything that he owns. Mr Prinsloo stated that a few years ago he attended some meetings with Mr Johan Brand (Africary) at a lawyers offices in Welkom and Mr Brand wanted to do fracking on the farm. Mr Prinsloo then with the assistance of lawyers managed to put the breaks on that plan. Subsequently, Tetra4 held a meeting in Theunissen at the Golf Club where Mr Prinsloo asked if Tetra4 is working hand in hand with Mr Johan Brand upon which Mr Nick Mitchell stated that there was no connection at all. Mr Prinsloo noted the presence of Mr Elmar Roberg at the Cluster 2 meeting and upon discovering that Mr Roberg works for Mr Johan Brand (Africary), he noted that the connection between Tetra4 and Mr Johan Brand seems incredibly close, and he voiced his suspicion in this regard.
	Mr Prinsloo concluded that his game farm is his entire life and would not allow unknown people to enter his farm that could endanger his safety and that of his family. Mr Prinsloo stated that he would not permit any access to his farm, and he did not wish to, not intend to discuss the matter further. Mr Prinsloo then left the meeting.
	It is recorded that Mr Johan Terblanche and Mr Gert Oosthuizen also left the meeting directly after Mr Prinsloo. Mr Oosthuizen did however provide written comments to EIMS on 30 August 2022 which are dealt with outside of these minutes.
2.3	Mr Elmar Roberg
	Mr Roberg queried whether further invasive processes or sampling/testing is required for the EIA which would require access to landowner properties and if this is what the farmers concerns were about.
	Mr Whitfield stated that no invasive sampling or testing is required for the EIA Phase assessment as the specialists have the required information they need and don't need to undertake invasive works however the landowners were likely more concerned about construction and operational work.
	Mr Nick Mitchell of Tetra4 stated that it is important to note that Tetra4 is currently authorised to carry on with some exploration wells under the Production Right approval but is not authorised for connection of the wells outside of the Cluster 1 approval area.
2.4	Mr Elmar Roberg
	Mr Roberg stated that he noted that the corridors that were being applied for authorisation caught his attention and interest as there seemingly is a "West wing" and "East wing" and would like to understand what has informed the selection of the corridors.
	Mr Mitchell responded that the selection of the corridors is based on subsurface geological information where known faults, fissures and dykes are targeted.
3	Closure
3.1	The attendees were thanked for their comments and questions.

	Ms Masabata stated that she understood the project and expressed that she is in support of the proposed project as it would likely provide job opportunities.
2.2	Mojaki Ntuka and Xolile Hlanganiso
	After the posters were presented to Mr Ntuka and Mr Hlanganiso they stated that they have business interests in the project as they would like to offer their services to Tetra4. They asked how one can obtain a vendor number from Tetra4.
	Mr Whitfield stated that EIMS is not involved in the procurement processes as EIMS is an independent consultant responsible for the Environmental Application Process, however the Mr Ntuka and Mr Hlanganiso were advised to visit the Tetra4 website as Tetra4 has a vendor registration section on their website.
2.3	Samson Mokoena (Vaal Environmental Justice Alliance – VEJA)
	Mr Mokoena queried who the applicant for the project was between Renergen (Pty) Ltd and Tetra4 (Pty) Ltd.
	Mr Whitfield explained that the company Tetra4 (Pty) Ltd is a wholly owned subsidiary of Renergen (Pty) Ltd.
	Mr Mokoena asked if the event (open day) wasn't meant to be a formal community meeting with presentation.
	Mr Whitfield explained to Mr Mokoena that as per the notification that was distributed, the event was a public open day for the general public to attend at leisure, but that there were prior meetings specifically with landowners on the 24 th August 2022 and community focus group meetings held at the Stilte and Adamsonvley community schools within the application area on the 23 rd August.
	Mr Mokoena asked that he and his colleagues be excused as they wanted to visit the communities within the application area and they stated that they would return to the Public Open Day thereafter.
2.4	Jan Venter and Rina Venter
	Mr and Mrs Venter stated that the proposed project was interesting, and they stated that they were in full support of the project as it could potentially restore economic activities in Virginia as it is an old mining town and has recently been experiencing high levels of crime and declining property values. They further questioned if they could buy shares into Tetra4.
	Mr Whitfield responded that EIMS is an independent consulting company and therefore not associated directly with Tetra4, however Tetra4 is fully owned by a listed company (Renergen) and as they are a listed company, anyone who has such business interests can buy shares through the appropriate channels.
2.5	Sean Tsehle
	Mr Tsehle requested a quick overview of the project and asked if job opportunities would be provided.
	Following an overview of the project, EIMS explained to Mr Tsehle that Tetra4 has indicated that the project would provide limited job opportunities to semi-skilled and unskilled labourers from the surrounding areas during the 3 year planned construction phase and fewer opportunities for the duration of the project's operational period.

2.6	Samson Mokoena, Kenneth Matili, Tlabole Masike (Vaal Environmental Justice Alliance – VEJA) 8 Makhotla Sefuli (Gold and Uranium Belt Impact Sensoring Organisation – GUBICO)
	Mr Mokoena, Mr Matili, Ms Masike and Mr Sefuli rejoined the open day following their excursion to the communities within the application area as well as the Cluster 1 Processing Plant area. Mr Mokoena again indicated that he was concerned that there was a lot of confusion as the applicant for this application is Tetra4 while the sign outside of the Processing Plant indicates "Renergen".
	Mr Whitfield clarified that Tetra4 is a wholly owned subsidiary of Renergen as indicated in the Scoping Report.
	Mr Mokoena and his team indicated that they had spoken to some of the community members in the area who had stated that they had no access to clean drinking water and therefore had to travel to town to obtain water at considerable cost. Furthermore, some community members were renting housing or farms.
	Mr Whitfield acknowledged that there were challenges with some communities accessing basic services and noted that Tetra4 had recently completed a project to provide a potable water borehole and water tank within the Adamsonvlei community. It was however noted that the issue of communities paying rent on the farms was outside of the scope of this EIA.
	Mr Mokoena and his team further noted that many of the community members complained about access to electricity while Tetra4 has access to the Eskom grid and therefore should assist communities with electricity.
	Mr Whitfield along with Mr Boitumelo Alec of Tetra4 clarified that many of the communities do in fact have metered connections to the Eskom grid however the issue is that the communities claim the costs are too high for many of them to make use of Eskom power. Mr Alec further stated that Tetra4 was busy with a project to install photovoltaic (PV) panels at the Adamsonvlei Community to assist with lighting and that these forms of community upliftment could be expanded upon once further development of the gas field is realised. It was stressed that it is an iterative process and therefore could not be rolled out or a massive scale all at once.
	Mr Mokoena and his team stated that some of the community members that they had approached were not aware of the proposed Cluster 2 expansion project.
	Mr Whitfield and Ms Jeanette Maila of EIMS indicated that reasonable attempts were made to notify as many people as possible within the application area including the erection of 78 site notice boards within and surrounding the application area and requesting landowners identify occupiers within their farms for inclusion on the I&AP database. There remained an obligation on any I&AP's to actively contact EIMS to ensure that they are added to the database for further notifications during the EIA process.
3	Closure
3.1	The open day was concluded at 17H00.

TETRA4 CLUSTER 2 GAS PRODUCTION PROJECT

EAP: Environmental Impact Management Services (Pty) Ltd (EIMS)

Applicant: Tetra4 (Pty) Ltd

Project Description

Tetra4 (Pty) Ltd (hereafter Tetra4) holds a Gas Production Right (Ref: 12/4/1/07/2/2) that was granted in 2012 which spans approximately 187 000 hectares for the development of natural gas production operations near the town of Virginia in the Free State Province. Tetra4 wishes to expand the natural gas operations, to be located within the approved production right area and within and around the Cluster 1 project. The Cluster 2 application area covers a total of ~27 500 hectares.

Cluster 2 development aims to produce a total of ~45 Million Standard Cubic Feet per Day (MMSCFD) of gas. The construction of the gas gathering network (including pipelines, booster and compressor stations, etc) is planned to commence in ~May 2023 and be completed by ~October 2025. Construction of the LNG/LHe Plant is planned to commence in ~March 2023 and be completed by ~February 2026. The operational (gas production) timeframe for the project is approximately 20 years (~2026 to ~ 2046).

Cluster 2 Environmental Authorisation (EA) is being applied for to increase the gas production within the Production This planned expansion to the existing approved production activities will involve:

- ☆ ~400 exploration wells (each 50 m X 50 m = 250 m²)
- ~300 production wells (each 1,4 m x 1,1 m = 1.54 m²)
- ✤ ~480 km of gas transmission pipelines (10 m servitude)
- ~28 booster stations (each 10 m x 14 m = 140 m²)
- 3 compressor stations (each 60 m x 60 m = 3600 m²)
- Access roads (2.5 m wide)
- LNG/LHe Plant (~9.6 ha) with temporary camp/laydown area (~15.8 ha)

Right. This application will include a MPRDA Section 102 revision of the Cluster 1 EMPr to include Cluster 2 specific infrastructure as well as amendments or additions of mitigation measures as and where required. The EA application and study area covers 284 farm portions within the Masilonyana and Matjhabeng Local Municipalities and includes ~27 500 hectares. The site boundary is ~5km southwest of Virginia, ~9km south of Welkom and ~16km north of Theunissen.

A full Scoping and Environmental Impact Assessment (S&EIA) application process is being followed for the EIA Listing Notices listed activities applicable to the project namely:

- NEMA GNR 983: Activity 12, 16, 19, 21D, 24, 27, 28, 34, 48, 51, 56, 59, 60, 67
- NEMA GNR 984: Activity 4, 5, 7, 15
- NEMA GNR 985: Activity 4, 10, 12, 14, 18, 22, 23

Additional licence applications:

- NEMWA Category A1, A6, A7, A12, A13, A14, B1, B10, B11, C1, C2, C6 Integrated EA and WML application
- NEMAQA: Section 21 Subcategory 2.4 Air Emissions Licence Application
- NWA: Section 21 (c), (g) and (i) Water Use Licence Application

PROPOSED TETRA4 CLUSTER 2 GAS PRODUCTION PROJECT SCOPING REPORT PRESENTATION

Meeting Agenda

- Welcome and Introductions
- Project and Application Description
 - Applicant details, EAP and specialist team, Legal framework, EIA & Public participation process, Project location and description, Baseline studies, Alternatives, Preliminary impacts, Plan of study for EIA.
- Way forward
- Discussion

Applicant and EIA Team Details

- Applicant: Tetra4 (Pty) Ltd wholly owned subsidiary of Renergen.
- <u>EAP:</u> Environmental Impact Management Services (Pty) Ltd (EIMS) Brian Whitfield (EAPASA Ref: 2022/4496)
- **Specialists:** Specialist Studies as follows:

Specialist Discipline	Company/Organisation
Agriculture and Hydropedology	The Biodiversity Company
Air Quality & Health Risk & GHG / Climate Change	Airshed Planning Professionals
Economic	Strategy4Good
Geohydrology	Gradient Groundwater Consulting
Heritage and Palaeontology	PGS Heritage
Hydrology	SMEC South Africa
Noise	Airshed Planning Professionals
Social	Equispectives Research and Consulting Services
Terrestrial Biodiversity	The Biodiversity Company
Visual	Environmental Planning and Design
Wetland and Aquatic	The Biodiversity Company

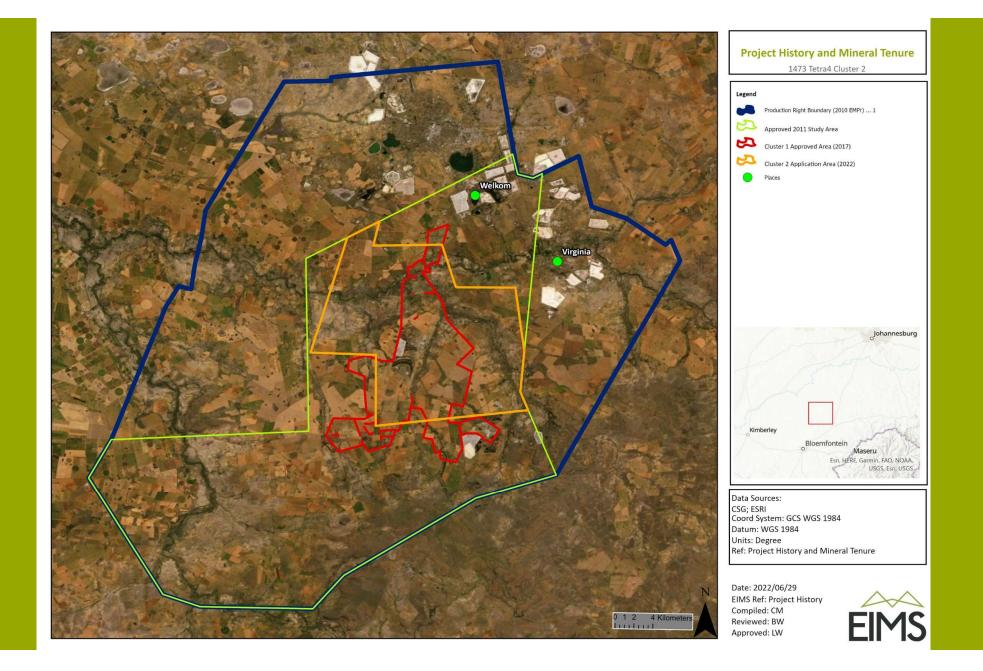

Legal Framework

- Gas Production Right (Ref: 12/4/1/07/2/2) granted in 2011 covering ~187 000 hectares.
- Cluster 1 Environmental Authorisation (Ref: 12/04/07) granted in 2017 for production wells, pipelines, CNG/LNG Plant and associated infrastructure within the PR.
- Cluster 2 Environmental Authorisation is being applied for to increase the gas production within the Production Right. This application will include a MPRDA Section 102 revision of the Cluster 1 EMPr to include Cluster 2 specific infrastructure as well as amendments or additions of mitigation measures as and where required.

EIA Process and Public Participation

- According to the NEMA EIA Regulations 2014 the following listed activities are potentially triggered by the Cluster 2 gas production activities:
 - NEMA GNR 983: Activity 12, 16, 19, 21D, 24, 27, 28, 34, 48, 51, 56, 59, 60, 67
 - NEMA GNR 984: Activity 4, 5, 7, 15
 - NEMA GNR 985: Activity 4, 10, 12, 14, 18, 22, 23
- Additional triggers:
 - NEMWA Category A1, A6, A7, A12, A13, A14 / B1, B10, B11 / C1, C2, C6
 - NEMAQA: Section 21 Subcategory 2.4 (handling and storage of petroleum products)
 - NWA: Section 21 (c), (g) and (i)

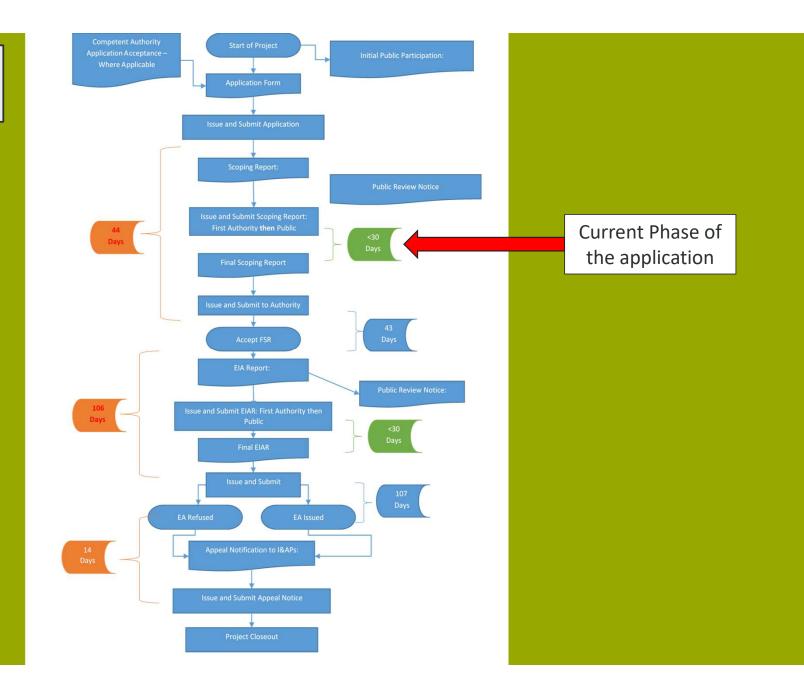

EIA Process and Public Participation (continued)

- Full EIA process comprises of : Scoping and EIA Phases, each with prescribed public participation requirements
- Cluster 2 currently in the Scoping Phase:
 - The primary aim of scoping is to undertake a preliminary assessment of how the proposed project is likely to interact with the specific characteristics of the receiving environment.
 - The outcomes of scoping are a list of potential impacts and the identification of alternatives to be further investigated and assessed in the EIA Phase.
- Public Participation Process:
 - Affected & adjacent landowners, legal occupiers, relevant organs of state, NGO's, etc.
 - Presenting findings in the Scoping Report (report availability and public open day / focus group meetings).
 - Soliciting issues, concerns, comments with regards to the proposed activities.

NEMA Scoping & EIA Flow Diagram

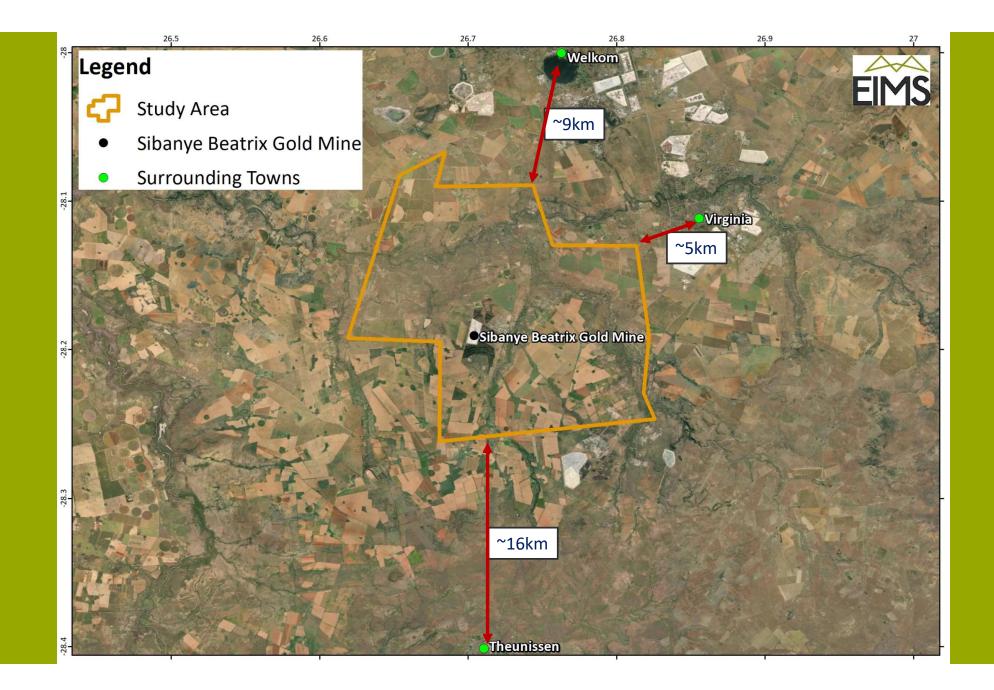

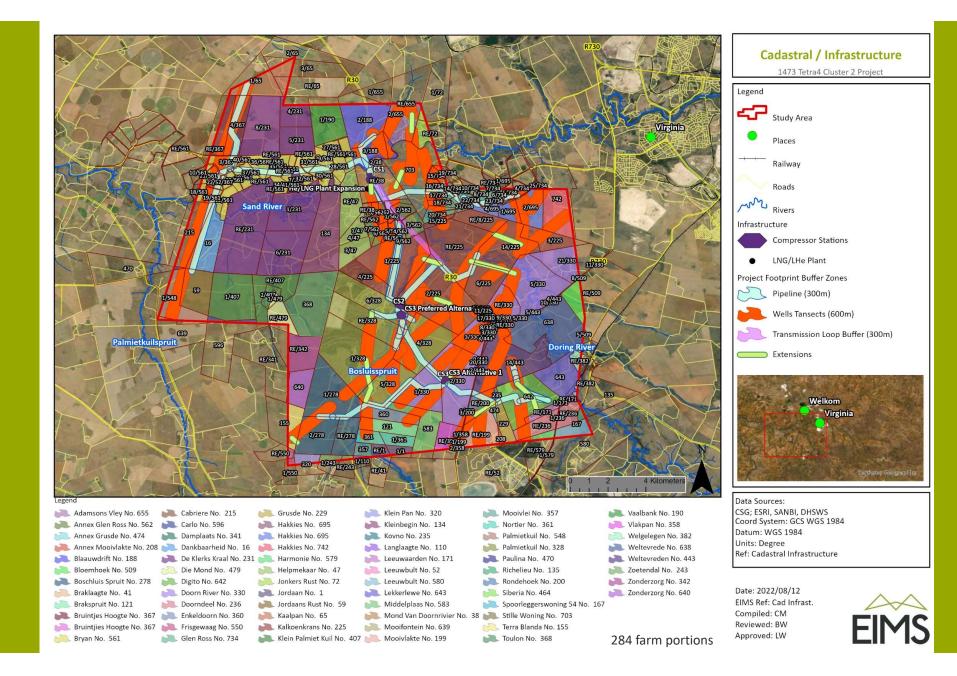

Project Location

- The application and study area covers 284 farm portions within the Masilonyana and Matjhabeng Local Municipalities and includes ~27 500 hectares.
- The site boundary is ~5km southwest of Virginia, ~9km south of Welkom and ~16km north of Theunissen.

Project Overview

• Overview:

- Cluster 2 development aims to produce a total of ~45 Million Standard Cubic Feet per Day (MMSCFD) of gas.
- The construction of the gas gathering network is planned to commence in ~May 2023 and be completed by ~October 2025.
- Construction of the LNG/LHe Plant is planned to commence in ~March 2023 and be completed by ~February 2026.
- The operational timeframe for the project is approximately 20 years (~2026 to ~ 2046)

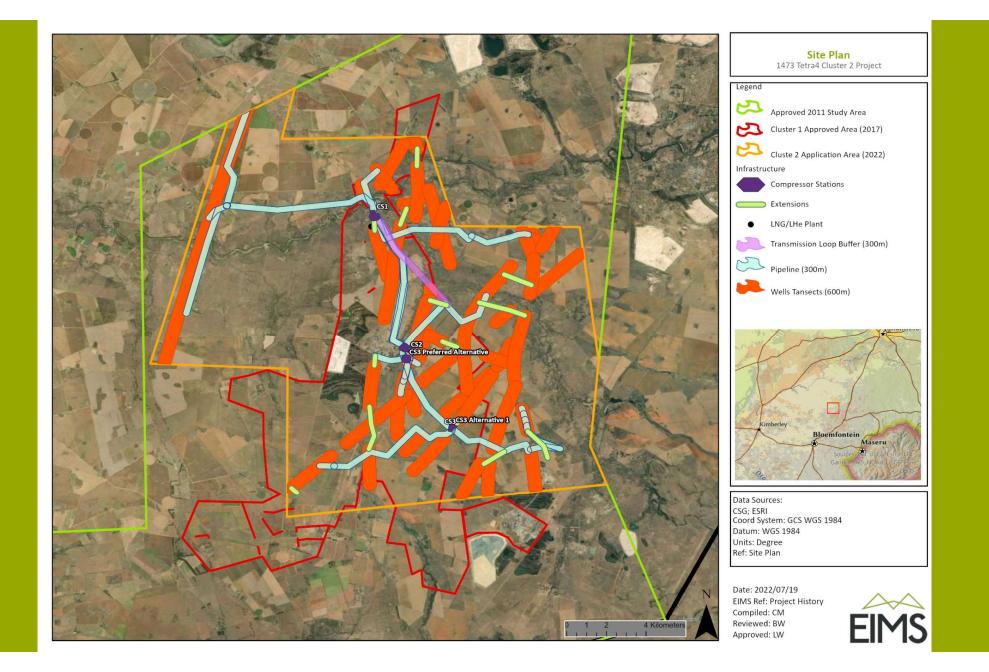

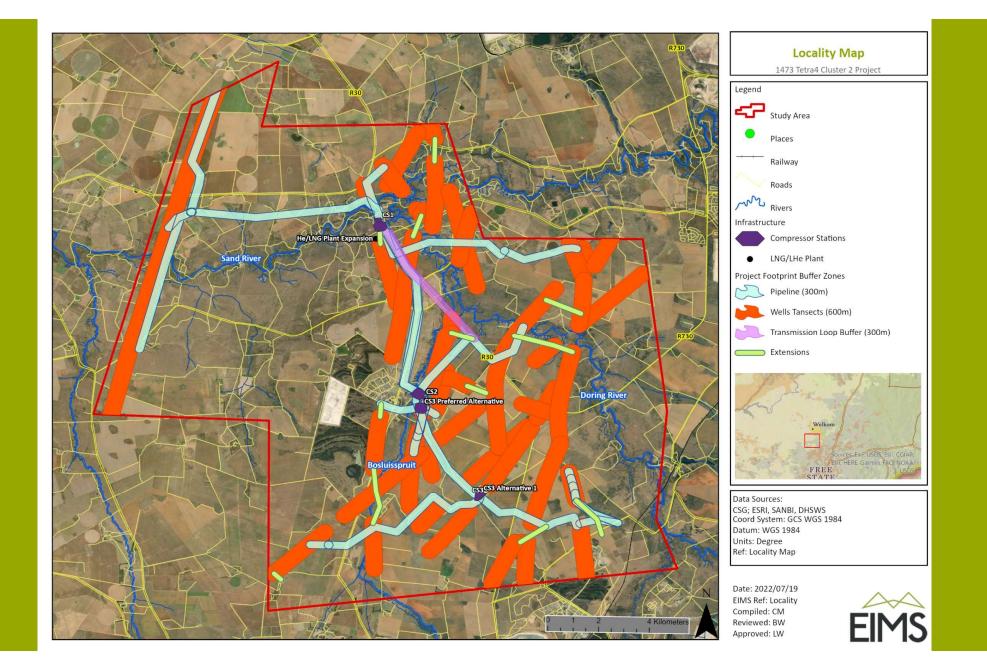

Project Description

- ~400 exploration wells (each 50 m X 50 m = 250 m²)
- ~300 production wells (each 1,4 m x 1,1 m = 1.54 m²)
- ~480 km of gas transmission pipelines (10 m servitude)
- ~28 booster stations (each 10 m x 14 m = 140 m²)
- 3 compressor stations (each 60 m x 60 m = 3600 m²)
- Access roads (2.5 m wide)
- LNG/LHe Plant (~9.6 ha) with temporary camp/laydown area (~15.8 ha)

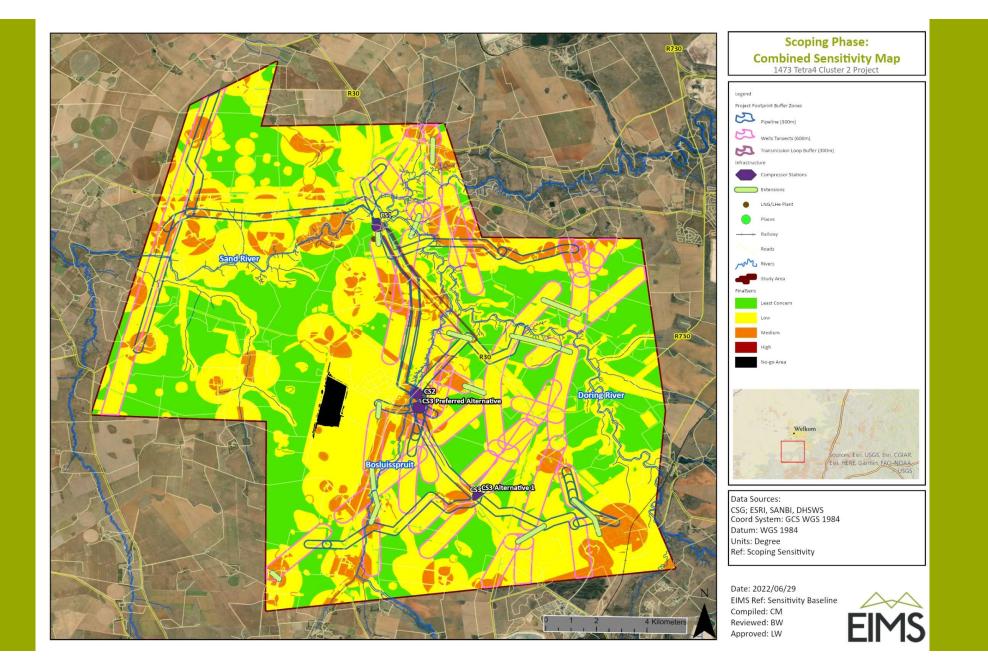

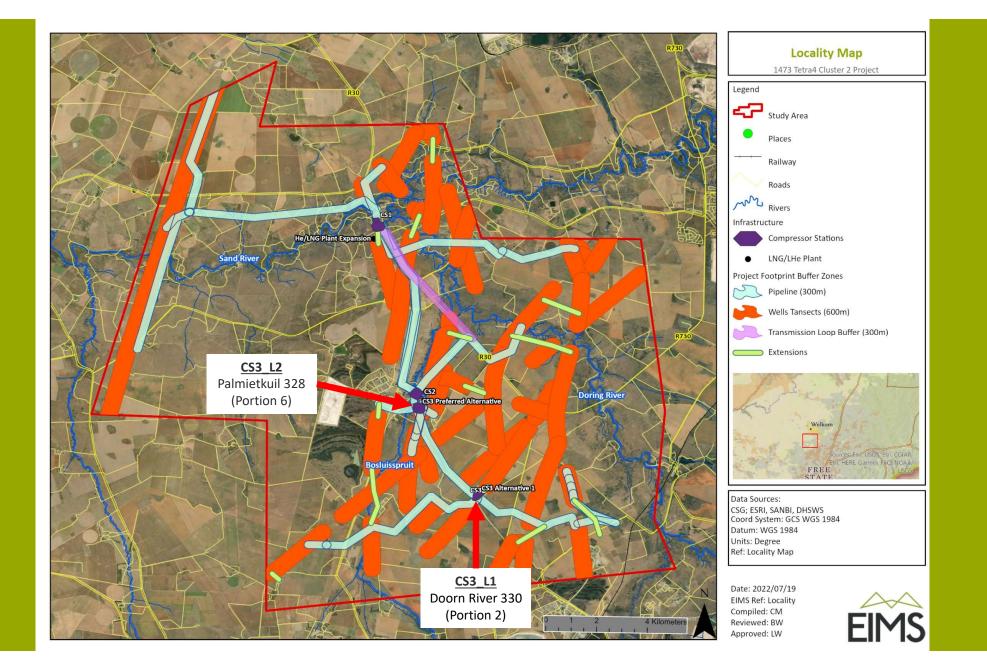

Specialist Studies

Specialist Discipline	Company/Organisation
Agriculture, Soils and	The Biodiversity Company
Hydropedology (soil water)	
Air Quality & Health Risk +	Airshed Planning Professionals
Climate Change / GHG	
Economic	Strategy4Good
Geohydrology (groundwater)	Gradient Groundwater Consulting
Heritage and Palaeontology	PGS Heritage
Hydrology (surface water)	SMEC South Africa
Noise	Airshed Planning Professionals
Social	Equispectives Research and
	Consulting Services
Terrestrial Biodiversity	The Biodiversity Company
Visual	Environmental Planning and Design
Wetland and Aquatic	The Biodiversity Company

Alternatives

Alternative Category	Alternative	Alternative Description Summary	Advantages	Disadvantages/ Risks	Carried into EIA
Location Alternatives	CS3_L1	Compressor Station 3 alternative located on the farm Doorn River 330 (Portion 2).	Well positioned within the southern gas pipeline network to balance the system without expensive reinforced pipeline network.	High risk that no electricity supply / connection is available in this location which would prevent operation of the compressor station and negatively affect the entire southern gas production network.	Yes
	CS3_L2	Compressor Station 3 located adjacent to the existing Cluster 1 Compressor Station A on farm Palmietkuil 328 (Portion 6).	Electricity supply is confirmed as the existing Cluster 1 CSA is already connected to the Eskom grid.	Would require a more costly pipeline design in the southern gas pipeline network.	Yes
Layout Alternatives	Based on a sei	nsitivity mapping of the well transects and pipeline transects, any unacceptably high-risk areas v	vill be delineated as no-go areas		Yes
Process Alternatives	No specific feasible process alternatives were identified.				No
Technology Alternatives					No
No-Go Alternative	No-Go	The proposed Cluster 2 project will not take place at all.	No environmental impacts as a result of the Cluster 2 project.	No benefits with respect to job creation and also no direct and indirect socio-economic benefits created for the local and regional economies.	

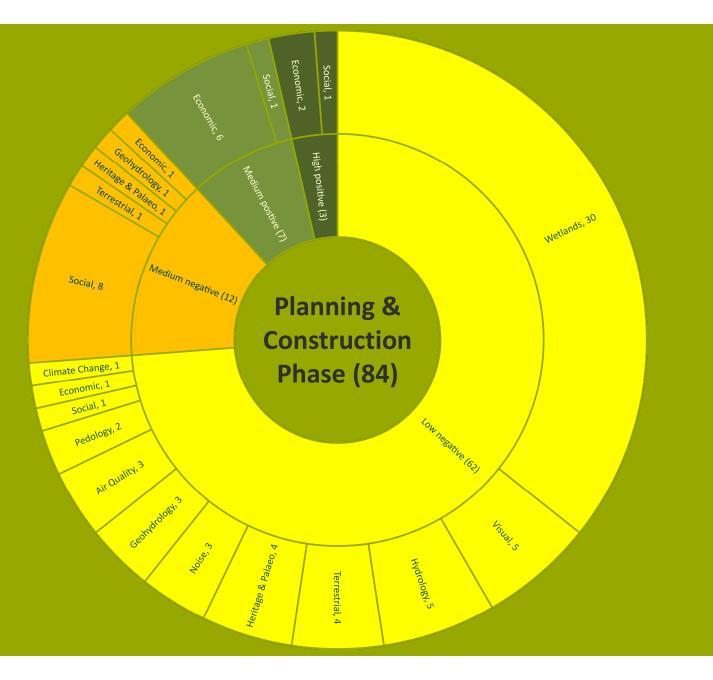

Preliminary Impacts and Assessment

- 225 Preliminary impacts identified for the various project phases (planning, construction, operation, decommissioning, rehabilitation and closure).
- Mitigation/management measures for identified impacts are included in the Scoping Report and will be updated where necessary during the EIA phase.

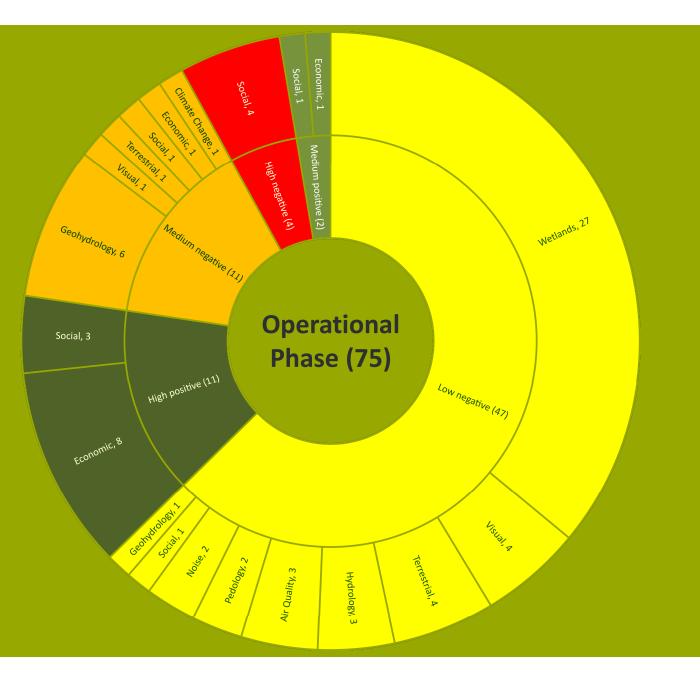

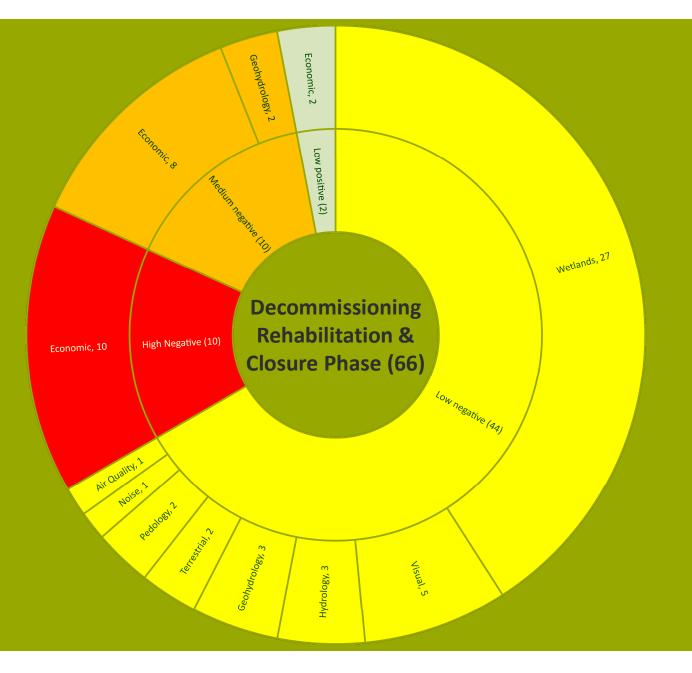

Enviror	nmental Significance Rating
Value	Description
≤ -17	High negative (i.e. where the impact must have an influence on the decision process to develop in the area).
> -17 ≤ -9	Medium negative (i.e. where the impact could influence the decision to develop in the area).
> -9 < 0	<u>Low negative</u> (i.e. where this impact would not have a direct influence on the decision to develop in the area).
0	No impact
>0 < 9	Low positive (i.e. where this impact would not have a direct influence on the decision to develop in the area).
≥9<17	<u>Medium positive</u> (i.e. where the impact could influence the decision to develop in the area).
≥ 17	High positive (i.e. where the impact must have an influence on the decision process to develop in the area).

Environmental Significance Rating

≥ 17	High positive (i.e. where the impact must have an influence on the decision process to develop in the area).	

Preliminary Impact Assessment (Highlights)

	Impact on livelihoods	Operation	-21
	Impact of servitudes on land values	Operation	-21
	Impacts on safety and security of local residents	Construction	-17
	Impacts on safety and security of local residents	Operation	-18
Social	Impacts on sense and spirit of place	Operation	-28
	Contribution to economy of South Africa	Operation	27
	Secondary economic opportunities	Construction	20
	Secondary economic opportunities	Operation	21
	Potential opportunity for education, skills development, and training	Operation	21

Plan of Study for EIA

- EIA Phase will commence on acceptance of the Scoping Report by the PASA.
- Finalise specialist assessments.
- Alternatives:
 - Compressor Station 3 Doorn Rivier 330 (Portion 2) vs Palmietkuil 328 (Portion 6)
 - Refined sensitivity planning approach to the consolidated sensitivity map in which any no-go areas will be delineated.

Indicative Timeframes going forward

- Scoping Report availability: 29 July 2022 30 August 2022
- EIA Report availability: ~mid October to mid November 2022
- Submission of Final Reports: End November 2022
- Decision: ~March 2023

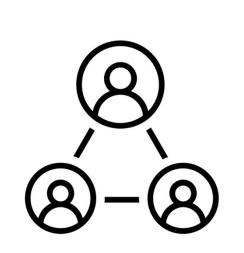

Who to Contact

- Contact Person: Qaphela Magaqa
- EIMS Reference Number: 1473
- Postal Address: P.O. Box 2083; Pinegowrie; 2123
- Telephone: (011) 789 7170/ Fax: (086) 571 9047
- E-mail: tetracluster2@eims.co.za
- Please include the project reference number 1473 in all correspondence.

Good morning, Please note that all development applications are processed via our online portal, the South African Heritage Resources Information System (SAHRIS) found at the following link: <u>http://sahra.org.za/sahris/</u>. We do not accept emailed, posted, hardcopy, faxed, website links or DropBox links as official submissions. Please create an application on SAHRIS and upload all documents pertaining to the Environmental Authorisation Application Process. As per section 24(4)b(iii) of NEMA and section 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA), an assessment of heritage resources must form part of the process and the assessment must comply with section 38(3) of the NHRA. Once all documents including all appendices are uploaded to the case applications, please ensure that the status of the case is changed from DRAFT to SUBMITTED. Please ensure that all documents produced as part of the EA process are submitted as part of the application.

Good day Natasha, Thank you for your email. We note the contents thereof. Please note, an application will be created on the SAHRIS platform and all documents pertaining to the environmental authorisation application will be uploaded as indicated in your email below. Should you have any further comments and/or queries, please feel free to contact EIMS. Kind regards,

Dear Mr Magaqa, Your wayleave application with project reference number Bw/qm/1473 dated 20 May 2022 has reference. Transnet Pipelines, a division of Transnet SOC Limited, is not affected by the proposal. Your awareness of the existence of Transnet's pipeline servitudes and concern for their integrity is highly appreciated. This authorisation shall be valid for 48 months from the date - 20 May 2022. Yours Sincerely	Dear Mr Hadebe, We kindly confirm receipt of your email, and your comment has been noted. Should you have any further comments or queries, please feel free to contact EIMS. Kind regards,

Hermien Slabbert

225 near Virginia, your client Renergen has existing exploration gas wells on this farm and is planning phase 2 wells (see attached kmz file for reference). We would like to register as I&APs for the EIA process for the phase 2 exploration wells on the farm in order to understand the planned wells and in order to accommodate it in our layout. Will you please register myself and my colleague on CC as I&Aps, see details below:

Good day Brain, We are planning a Solar Power Plant on Portion 2 of the farm Kalkoenkrans Good morning Hermien. Thank you for your email below and your interest in this project. We will register yourself as well as Mr Venter on the I&AP database as requested. You will receive additional correspondence on this project/application process from the project dedicated email address (copied herewith).

and my concease on ce as reachs, see details below.

Hi Please Provide details on how I&APs can register their interest with and submit comments on the project 1473 ENVIRONMENTAL AUTHORISATION APPLICATION PROCESS FOR THE PROPOSED TETRA4 CLUSTER 2 GAS PRODUCTION PROJECT REGARDS	Greetings Mr. Chris Opperman, Further to your email regarding registering as an Interested and Affected Party (I&AP) for the Tetra4 Cluster 2 Project, kindly note that you have been registered as an I&AP in the projects database. If you have any other contact information you would like us to add, please forward it to us via email to this project dedicated email address. As a registered I&AP you will be notified of opportunities to participate in the Environmental Authorisation Application Process as they become available. Should you have any queries or comments, please feel free to contact EIMS.
Date 2022/06/17 Method Email	
Comment	Response
FYI Regards	Good day Chris, Thanks for your email. This serves to confirm that you have been registered as an I&AP on the proposed Tetra4 Cluster 2 Gas Gathering and Production project. As an I&AP for the aforementioned project you will be notified of public participation opportunities as and when they become available. Should you have any further comments and/or queries, please feel free to contact EIMS.

The SAHRA Archaeology, Palaeontology, Meteorite (APM) Unit notes that an HIA will be undertaken for the proposed development. Further comments will be issued once the HIA along with the draft EIA documents inclusive of appendices has been submitted to the case on SAHRIS.	EIMS noted and captured SAHRA's interim comment.

Request of a copy of notification document and maps of the Tetra4 Cluster 2 project	Dear Sonja, Please note, there has been a change in the Tetra4 Cluster 2 Project and the call to register process is to be redone. Interested and Affected Parties (I&APs) are to be notified regarding this in due course and the relevant documentation will be made available. Please note, should you wish to register as an I&AP for the Tetra4 Cluster 2 Project, we have also attached an I&AP registration form for you to fill in and return. As a registered I&AP you will be notified of public participation opportunities as they become available. Should you have any comments or queries, please feel free to contact EIMS. Kind regards,

Good day, We would like to register as an Interested and Affected Party (I&AP) on this project. We would therefore like to be kept informed regarding the project and be afforded an opportunity to participate in the process through the relevant communication processes and all relevant correspondences. Please do send us the registration forms and questionnaires for us to fill in and attend to soonest possible.

Dear Tsheliso, Thank you for your interest and correspondence in the proposed Tetra4 Cluster 2 Project. Please find the attached Interested and Affected Party (I&AP) registration form for your attention as requested. Furthermore, kindly note that you have both been registered as an I&APs in the projects database. As a registered I&APs you will be notified of opportunities to participate in the Environmental Authorisation Application Process as they become available. If you have any comments or queries, please feel free to contact EIMS. Kind regards,

Good Day Qaphela, Thank you for the confirmation. Please find attached the locality map of the project location and BID, as requested. Kindly advise should you want to also register on the project database for the solar power plant, known as the Oryx Solar Power Plant. I look forward to hearing from you.

Good day Lisa, Thank you for the information supplied. With regard to I&AP registration for the Oryx PV project, a separate email with contact details will be sent shortly. May you please supply us with the shapefiles of the proposed infrastructure and powerlines for the Oryx Solar Power Plant. Kind regards,

Date 2022/04/07 Method Email

Comment

Hi Qaphela, Thank you, I received the email from Brian this morning. We will do the registration as per his request and send through a confirmation once completed on our side. Please take note that we have been in contact with the Applicant of the Tetra4 Cluster 2 regarding the PV facility. There also has been correspondence/communication between the two respective Applicants. Regarding the infrastructure of the project, the detailed layout is not available as yet. The EIA process only commenced now with the distribution of the notification for the EIA process. The project is still in its planning phase. Furthermore, the specialist fieldwork results will be considered by the developer/applicant to ensure that areas of high environmental sensitivity are avoided by the planned layout. Due to the early stage of the process, we only have information available pertaining to the EIA area under assessment and the development footprint area (within which the infrastructure is proposed to be placed). We have subsequently distributed a KMZ file to the Tetra4 Cluster 2 Applicant (as attached) so that the technical aspects and challenges can be discussed between both parties. Please see the KMZ file attached which shows the details available at this stage with some locations of proposed infrastructure – this is subject to change depending on the results of the specialist surveys (i.e. consideration of no-go areas where applicable). I kindly request that the KMZ file be treated as confidential as the information has not yet been released formally to the public – it will only become available once the Scoping Report is released for the 30-day review and comment period. Please can you also send through any project information that would have been distributed to the database for the Cluster 2? Do you have a BID available and locality / layout map that we can consider? I look forward to hearing from you. Kind regards

Response

Hi Lisa. Thank you for your clarification and preliminary shapefiles. We will treat these as confidential for now as requested. The Tetra4 Cluster 2 application is also in the initial stages and the future opportunities to comment on reports will be notified in due course. As requested, please find attached the BID and locality maps as requested. Kind regards,

Table 1: Comments and responses.

Comment	Response / Way Forward
 Comment I feel that the impact on landowners, in most of the specialist study sections, has been underestimated. Just to name a few examples: The impact of erosion, construction and operational phases. (Seen from cluster 1's 'rehabilitation') Alien and invader plant species, all phases. (Viewed from Cluster 1) Drilling process in Arable fields and wildlife camps (Economic impact for landowner) Low point drain manhole surface area in fields and wildlife camps (Production capacity and operations) Above ground compressor stations and booster stations. (Jobs, security, way of life) Impact on groundwater and water quality. (Cluster 1 is not even properly up and running yet.) Access roads at ground level, farm roads (BIG headache from cluster 1) Visual impact and landscape character, Vegetation. Disturbance of wildlife, (Construction and operational phases) Livelihood, sense of place, access control, LAND OWNERSHIP and LAND VALUE Economic impact on landowners, nothing is even mentioned (Land value, ability to produce, production volumes) 	Response / Way Forward Thank you for this comment on the list of impacts you feel have been underestimated in the Scoping Report. Please note that the purpose of the Scoping Phase and consultation process is to solicit feedback from affected parties in order to consider them further in the upcoming EIA Phase. We therefore confirm that we have taken note of your comment and the list of impacts you consider underestimated and will share this with our specialists for them to consider your inputs and re-evaluate their findings where relevant. The impact assessment presented in the Scoping Report is a preliminary assessment and your comments are considered extremely valuable in helping us focus on the impacts that require more detailed interrogation and whether suitable mitigation measures that are both feasible and acceptable to affected landowners can be put in place.
• Social impact (Heritability of land, nature of way of life, Safety) On the report we see the impact before and after measures were introduced, but it is not clear what was taken into account to determine the impact and afterwards, what measures were proposed.	Within the Scoping Report, the Impact Assessment methodology is included in Section 11.1 with each impact described in Section 11.2. Table 50 in Section 11.3 provides the detailed impact assessment for each impact where the nature, extent, duration, magnitude, reversibility and probability scores for both pre-mitigation and post mitigation scenarios are presented.
The landowners who are affected by Tetra4's Phase 2 gas exploration are very concerned about the scope and the impact of this project. And rightly so.	Your concerns regarding the control over your assets is noted and therefore as part of this EIA process, we wish to have open engagement with yourself and all affected landowners

from outside has an impact and the impact is always negative.	
Putting an open contract with very few specifications, almost no explanation and giving	We will liaise with Tetra4 to discuss your concerns around the contractual arrangements
Tetra4 carte blanche for an indefinite period in front of any landowner is unfair and irresponsible. Each contract must have very clear conditions that are acceptable to	and provide feedback during the EIA phase.
everyone, after which the details must be negotiated personally with each owner as each	
situation is very different.	
Below are a few points of concern that need to be addressed.	
1. The basic scope of the project must be explained.	With reference to Section 4.1 of the Scoping Report, and specifically to Section 4.1.3.2
a. Depth and route of the pipeline	where the pipelines detail is provided, the pipelines will be a minimum of 1.5 meters below ground level (to top of pipe).
	Due to the nature of gas exploration, the exact routing of the pipelines cannot be
	determined until the exploration drilling campaign begins and data on each exploration
	well is analysed. Once exploration wells are confirmed successful (i.e. adequate commercial gas volumes), the exact routing of connection pipelines and trunklines can be
	determined. It is for this reason that the current application is considering 300m wide
	pipeline corridors as indicated in Figure 6 of the Scoping Report (Section 4.1.1). A pre-
	requisite for the exact pipeline routing within these predefined corridors will be that the
h. Duration and course of the drilling process and installation process	affected landowners be fully involved with the final route decision.
b. Duration and course of the drilling process and installation process.	The drilling and installation process would be encompassed within the "construction" phase. This phase would commence in "May 2023 and be completed by "October 2025
	(~2.5 years) as indicated in Section 4.1.11 of the Scoping Report. It is our understanding
Page 2 of 6	

Comment	Response / Way Forward
	that you are looking for more specific detail in this regard and will therefore we engage Tetra4 to obtain more detail on the construction phase schedule and make this available to you in the EIA phase.
 c. Well heads/bore holes i. We as owners want more information about the drilling process. ii. Can more than one borehole be drilled from the same drillpoint? iii. Approximately how long does the process take per borehole? iv. Which drillpoints are really important or are they just looking for an access agreement so that Tetra can go ahead and do as they see fit? f. Explanation about the infrastructure at well heads. vi. Sketches must be provided. vii. What if agreed infrastructure is deviated from? viii. Can more than one wellhead be operated from one underground manhole? ix. Will the borehole be left open for a certain time after it has been drilled or will it be piped away immediately? x. How are the wellheads connected to each other? xi. What happens if no gas is found at a borehole? 	Your request for more detail is noted and while some of your questions are addressed in the Scoping Report, we will engage with Tetra4 to obtain more detail and make this available to you in the EIA phase. Kindly refer to Figure 13 in Section 4.1.3 of the Scoping Report for the engineering design drawing of a typical subterranean precast well chamber layout.
 d. Blowers, Boosters and compressors if any i. Position of these pumps ii. Power supply to the pumps, no overhead power lines iii. If electrical cables are required, cable buried with pipes? iv. Infrastructure around these pumpssketches to be provided. f. Maintenance and manning of the pumps with emphasis on access and security 	Your request for more detail is noted and while some of your questions are addressed in the Scoping Report, we will engage with Tetra4 to obtain more detail and make this available to you in EIA Phase. Kindly refer to Section 4.1.3.3 of the Scoping Report where preliminary detail is provided for the various stations along the pipeline network. Only the location of the 3 new compressor stations are certain at this time while the location of the blower stations, pigging stations and low point drains depend on the final pipeline location which in turn depends on the final production well locations. The compressor station locations are shown in Figure 6 (Section 4.1.1 of the Scoping Report).
 e. Position of Condensation wells i. Position must therefore already be identifiable. ii. Quantity and location of these wells influence negotiation over access. iii. Plan around the removal of the condensation water. iv. According to contract, no more than once a weekis it per well or per route of the honey sucker? 	Your request for more detail on the location of the low point drains (condensation wells) is noted and while some of your questions are addressed in the Scoping Report, we will engage with Tetra4 to obtain more detail and make this available to you in EIA phase. Only the location of the 3 new compressor stations are certain at this time while the location of the low point drains depend on the final pipeline location which in turn depends on the final production well locations.

Comment	Response / Way Forward
f. Monitoring of pipeline and infrastructure	Your request for more detail is noted and we will engage with Tetra4 to obtain more detail
i. Frequency of visits	and make this available to you in the EIA phase.
ii. Access of staff after rain is limited.	
iii. Plan around maintenance in relation to access routes. After phase 1, little has been	
done around it.	
g. Security	Your request for more detail is noted and we will engage with Tetra4 to obtain more detail
i. Plan around Security in relation to theft or vandalism	and make this available to you in the EIA phase.
ii. Insurance against the occurrence of fires	
iii. Insurance against damage to land, animals and property of landowner.	
iv. Resilience plan in relation to leakage in the pipelines or wellheads, booster stations	
and compressors.	
v. Installation of gates in farm fences for access control.	
vi. Access routes over boundary wires to and from neighboring farms.	
vii. Replacement and repair of fences and farm infrastructure where damaged	
viii. The landowner is not responsible for any equipment from Tetra4.	
h. Without the plan, schedule, an idea of access required and duration of processes,	Your request for more detail is noted and we will engage with Tetra4 to obtain more detail
contract conclusion cannot be achieved.	and make this available to you in the EIA phase.
i. Crops on fields or future crops must be taken into account.	
ii. Nature and use of land influence must also be taken into account. Eg hunting season	
and sowing land.	
iii. Duration of drilling and installation process also plays a role.	
iv. It is highly unfair to expect landowners to sign over 'options' on their land (asset) for	
an indefinite period.	
v. No period for the validity of the contract is mentioned.	
vi. Shouldn't the option to explore the land come to an end somewhere. The one contract	
now cannot possibly be valid for the lifetime of the production right and potentially its renewal.	
vii. Perhaps the drilling and installation process should be seen and handled as two	
different agreements.	
i. Servitites	Your request for more detail is noted and we will engage with Tetra4 to obtain more detail
i. Servitude registration is not first choice.	and make this available to you in the EIA phase.
ii. Servitude registration is not inst choice. ii. Servitudes reduce the future value of any land. This can cause land not to be sold in	and make this available to you in the Lin phase.
the future.	
iii. Agreements for servitude cannot be closed until landowners know where gas has	
been found and where pipelines are being installed.	
Deen found and where pipennes are being instaned.	

Comment	Response / Way Forward
iv. So the drilling process will have to be completed first, after which the route of the pipelines must be determined.	
f. Should a specific pipeline or wellhead no longer be in use, the servitude must be	
cancelled at Tetra's expense.	
vi. Time factor around the cancellation of an unproductive pipeline or wellhead servitude must be agreed per contract.	
vii. Servitude cannot necessarily be seen as access routes.	
j. Compensation	Your request for more detail is noted and we will engage with Tetra4 to obtain more detail
i. Should be seen as inconvenience costs in relation to installation, maintenance,	and make this available to you in the EIA phase.
monitoring and general access to private property. ii. Can also be seen as contract closing costs.	
iii. The uncertainty of where exactly pipeline routes and boreholes will be makes the	
negotiation very difficult.	
k. Infrastructure on exploration and production wells.	Your request for more detail is noted and we will engage with Tetra4 to obtain more detail
i. The exact location of this infrastructure will also play a role in negotiations due to the	and make this available to you in the EIA phase.
different uses of land.	
ii. This is linked to the frequency that access is required, as well as the types of vehicles	
that will be using the roads. iii. Owners must have insight into the final position of infrastructure.	
iv. Nature of the infrastructure and deviation from the sketches, as mentioned earlier,	
will also make a difference.	
I. Installation process	Your request for more detail is noted and we will engage with Tetra4 to obtain more detail
i. How long does the process take and when does this process start? Immediately after	and make this available to you in the EIA phase.
the drilling process on each owner's property is completed, or only after all drilling is	
finished? ii. No compensation will be paid for the storage of machinery during installation.	
iii. Work can be done from sun up to sun down, after which no worker will be left behind	
on the farm. Penalty will apply.

m. Access roads	Your request for more detail is noted and we will engage with Tetra4 to obtain more detail
i. Access routes will be indicated by each owner of the farm. No deviation from these	and make this available to you in the EIA phase.
routes will be tolerated. ii. Servitudes cannot necessarily be seen as access routes.	
in servicines currier necessarily be seen as access routes.	

Comment	Response / Way Forward
iii. Where new routes are to be built, negotiations will have to take place between the	
owner of the land and Tetra4.	
iv. After access routes are established and constructed where necessary, no new routes	
will be used or constructed by Tetra4.	
f. Since each owner prefers his own way of building the road, as well as the difficult	
determination of costs, very good negotiation will have to take place on an individual
