Policy Review	
Developmental Objectives	The Project is expected to have a highly developmental impact by supporting an investment in the Borrower which provides financial instruments to microfinance institutions and SME financial institutions in Latin America, the Caribbean, and sub-Saharan Africa, which in turn provide loans to low-income and SME borrowers. The Borrower will also provide loans to development focused non-financial social enterprises for working capital needs. Through the Borrower, Global Partnerships expects to invest in organizations that provide access to livelihood creation, education, energy, health, and housing for people living in poverty, with a focus on women and the rural poor. The Project is expected to benefit underserved segments of the host countries by expanding the Borrower’s socially responsible and development focused lending; leading to multiplier effects throughout country economies.
Environment and Social Assessment	Loans to financial institutions for the purposes of on-lending to microfinance institutions are screened as Category C projects under DFC’s environmental and social policies, but are subject to conditions related to the use of proceeds. Excluded activities include lending to entities engaged in categorically prohibited activities or activities likely to have a significant adverse impact on the environment. The Borrower

	<p>has an environmental policy that will be used to guide the Project to achieve sound and sustainable environmental and social performance.</p> <p>The Project will be required to operate in a manner consistent with the International Finance Corporation's Performance Standards, DFC's Environmental and Social Policies and Procedures, and applicable local laws. DFC's statutorily required language will be supplemented with provisions concerning nondiscrimination and the use of loan proceeds, which will be restricted with respect to the Borrower's operations, including the employment of minors and other applicable labor law requirements. Standard and supplemental contract language will be applied to all workers engaged by the Project. This Project involves on-lending to social enterprises in sub-Saharan Africa, Latin America, and the Caribbean. The Borrower has developed policies and management systems that address social risk, including labor, commensurate with the risks associated with the Borrower's anticipated portfolio. This review covers the commensurate human rights risks associated with social enterprise on-lending in sub-Saharan Africa, Latin America, and the Caribbean.</p>
