

Public Information Summary

Host Country	South Africa/Madagascar
Name of Grantee	Loowatt Limited
Project Description	The technical assistance will enable Loowatt to secure the services of a third party to develop the necessary engineering designs and specifications for the latest iteration of Loowatt's waste processing machine. The technical assistance will support Loowatt in improving the overall efficiency and cost-effectiveness of its innovative toilet system and prepare it for mass production ahead of potential DFC debt financing.
DFC Contribution	\$200,000
All-Source Funding Total	\$400,000
