Project Description

According to ADB website, the impact and outcome of the overall project, with additional cofinancing, will remain the same as in the ongoing project, and the outputs from Part B will be enhanced. The respective outputs will be expanded through additional financing by (i) about 2,000 SPV water pumping systems installed with an estimated total 18.3 MW-peak of solar capacity; and (ii) development of a gender-related action plan for an awareness campaign and capacity development for SPV water pumping systems.

Investment Description

- Asian Development Bank (ADB)

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
