## Project Description

According to the bank website, "the Trade Finance Program (TFP) closes market gaps for trade finance by providing guarantees and loans to partner banks to support trade. Drawing the private sector into developing countries is important to closing gaps and TFP is the biggest mobilizer of private sector financing at ADB. In addition to doing transactions TFP provides a number of 'knowledge products' which contribute to closing financing gaps. More information can be found at [www.adb.org/tfp](http://www.adb.org/tfp)."
