## Project Description

According to ADB website, the project aims to assist the Government of Cambodia with periodic maintenance of the national and provincial roads administered by the Ministry of Public Works and Transport (MPWT). The project's original concept is aimed to (i) assist MPWT in the periodic maintenance of about 515 kilometers (km) of MPWT roads; and (ii) help to create a sustainable road maintenance regime by strengthening capacity at MPWT by (a) improving the maintenance and management of its road network; (b) strengthening axle load control operations; and (c) further strengthening the process of privatizing MPWT's force account units. The project will also support a community-based road safety program, and an HIV/AIDS and human trafficking awareness and prevention program, with sufficient gender considerations.

## ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
