Urban Water Supply Project

Early Warning System
Urban Water Supply Project

ADB-41403-013

Quick Facts

Countries	Cambodia
Specific Location	Stung Treng, Siem Reap, Kampong Cham and Svay Rieng.
Financial Institutions	Asian Development Bank (ADB)
Status	Approved
Bank Risk Rating	B
Voting Date	2014-12-11
Borrower	Government of the Kingdom of Cambodia, Ministry of Industry and Handicraft
Sectors	Water and Sanitation
Investment Type(s)	Loan
Loan Amount (USD)	$ 34.00 million
Project Cost (USD)	$ 37.40 million

Project Description

According to ADB website, ADB is helping Cambodia expand piped water coverage in nine provincial towns. The project will establish a new water supply system in Stung Treng and a distribution zone in Siem Reap, and rehabilitate treatment plants and pipelines in the other seven towns. The project will also support an expansion of water supply networks in Kampong Cham and Svay Rieng.

The project will provide additional new and rehabilitated water supply infrastructure and extend system coverage to expand access to safe water in nine towns. The project interventions will replicate initiatives that made PPWSA successful and build on PPWSA experience. It will also incorporate lessons from previous ADB projects. The project will help the PWW's reduce real NRW levels to below 15% by using improved material and construction practices in its works to complement ongoing NRW reduction initiatives by the service providers and other development partners.

This project is associated with a closed project (ADB-41403-012).

Investment Description

- Asian Development Bank (ADB)

Phnom Penh, Cambodia

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
