Project Description

According to ADB website, the project will develop the steam resources in the Sarulla concession area and construct, operate, and maintain three geothermal power generation units with a total capacity of about 320 megawatts (MW). The units will be powered by steam from production and injection facilities at the Silangkitang and Namora-I-Langit reservoirs, located in North Sumatra. The project will be developed and implemented under a 30-year energy sales contract (ESC) with PLN, a 30-year joint operating contract (JOC) with Pertamina Geothermal Energy (PGE) and a 20-year guarantee from the Ministry of Finance, as stipulated under a business viability guarantee letter (BVGL).

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
