### Project Description

According to ADB website, ADB is helping Papua New Guinea upgrade its national airports to strengthen aviation safety and services. The second project under the program will strengthen the operations of National Airports Corporation, Papua New Guinea Air Services Limited, and Civil Aviation Safety Authority of Papua New Guinea. It will improve airport infrastructure and air traffic management and navigation services.

The proposed Tranche 2 will establish a sustainable civil aviation network to support the economic growth of the country. The outcome will be safer, more secure, and more efficient all-weather access to air transport services in the project areas. This project is associated with closed ADB projects (ADB-43141-012 and ADB-43141-023).

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
