### Project Description

According to the bank website, "the program supports the expansion of local currency lending to MFIs in ADB's DMCs, in turn providing an increase in the provision of financial services to the underserved poor population segment. This will help address the significant unmet demand for financial services, and provide additional funding for micro-borrowers."

### **Early Warning System Project Analysis**

According to the ADB, the project is classified as financial intermediary and will be treated as category C for environment, involuntary resettlement, and indigenous people under ADB's Safeguard Policy Statement (2009). Given the nature of microfinance operations, environmental impacts are expected to be negligible and no involuntary resettlement or impact on indigenous peoples are foreseen.

**ACCOUNTABILITY MECHANISM OF ADB**

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
