Project Description

According to ADB website, ADB is helping Uzbekistan improve solid waste management in the capital, Tashkent. The project will develop a sanitary landfill, and upgrade and modernize solid waste collection systems and management to improve the urban environment, reduce carbon emissions and improve air quality in the city. It will also support increased private sector participation, and waste reduction and recycling.

The project aims to provide an improved SWM system in Tashkent city, resulting in upgrading urban infrastructure and services. The Project will support the development of an international standard sanitary landfill, rehabilitation of transfer stations and a modernization of the waste collection and transfer fleet. The Project will also provide capacity development support and formulation of a national SWM strategy. The impact will be improved urban environment and quality of life for the residents of Tashkent city. The project is related to a closed project - ADB-45366-003: Solid Waste Management Improvement Project.

Investment Description

- Asian Development Bank (ADB)

Office Address: 6 Amir Temur Street, Tashkent, Uzbekistan

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
