Sectors	Agriculture and Forestry
Investment Type(s)	Advisory Services, Loan
Investment Amount (USD)	$ 0.50 million
Loan Amount (USD)	$ 150.00 million

Project Description

According to ADB website, ADB is helping the People's Republic of China upgrade urban water systems in Huainan municipality. The project will improve wastewater collection, rehabilitate and build water channels and flood control systems, and reduce pollution in five lakes. It will also help prepare an urban flood and waterlogging management master plan and develop a flood forecasting and warning system.

The impact of the project will be improved urban water environment, public health, and quality of life for urban residents in the Huainan municipality. The outcome of the project will be improved management of surface water resources in the Huainan municipality. The project will have the following components which are all linked to each other:

Component 1: Improvement of wastewater collection and transmission systems.
Component 2: Improvement of urban water channels.
Component 3: Improvement of lakes and wetlands.
Component 4: Project management support and capacity development.

Investment Description

- Asian Development Bank (ADB)

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
