Project Description

According to ADB website, the subprogram 2 will support the continuation of reforms on the second strategic pillar of the MP3EI achieved under the first subprogram. The government has implemented further reforms aimed at improving the policy, regulatory, financial, institutional, and business climate frameworks for connectivity and infrastructure development. A stronger enabling environment for domestic and international connectivity will in turn enable increased infrastructure investments by the public and private sectors to support sustainable higher and more inclusive economic growth. Now there is increased urgency to accelerate implementation of these reforms to accelerate connectivity improvement and infrastructure development in general as economic growth has started to slow the protracted nature of the recovery of the global economy.
