### Project Description

According to ADB website, ADB is helping build a marine ferry terminal and other facilities to boost tourism in southern Cambodia. The project will upgrade rural roads and wastewater management in areas with well-preserved Khmer and colonial architecture, including Kampot province and seaside towns in Kep and Koh Kong provinces. It will also improve tourist and environmental services, and support services for businesses.

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
