## **Project Description**

According to ADB website, the impact of the TA will be an integrated urban planning and management system adopted by the relevant departments in the project cities. City planning and management departments consistently consider environmental issues, such as climate change mitigation and adaptation measures in planning, construction and management of urban infrastructure. The outcome of the TA will be enhanced city management's capacity in integrated planning and management of urban infrastructure.

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
