Project Description

According to ADB website, the project will provide piped water supply to about 200,000 poor people in peri-urbanized and poor areas in Indonesia. This will be done by (i) financing and constructing water intake and treatment facilities; (ii) building the capacity of local government and community organizations and associated agencies, to design, finance, operate and maintain the distribution system; and (iii) raising awareness with poor communities on the health benefits of piped and treated water supply to raise demand for piped water supply systems.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
