## Project Description

The Asian Development Bank (ADB), at the request of the Government of the Republic of the Union of Myanmar, provided financial assistance for the improvement of 66.4 kilometer (km) of road between Eindu and Kawkareik, in Kayin State. The project road will be improved to the Greater Mekong Subregion (GMS) road network standard of two lanes with appropriate width paved shoulders, suitable for all standard highway traffic. The section will require complete reconstruction, with some short sections of realignment for improved vehicle operating speed and road safety. The project also includes design features for climate resilience in this flood-prone area, including raising the road to a level that takes into account potentially higher future flood levels to provide year-round access.

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
