### Project Description

According to ADD website, the Sustainable Transport Infrastructure Improvement Program will improve the transport sector's capacity to sustain improved mobility and accessibility to socioeconomic opportunities through key policy reform actions.

The impact will be that the people of the Solomon Islands have sustainably improved mobility and accessibility to socioeconomic opportunities. The outcome will be that the government achieves safe, efficient and effective transport infrastructure through continuing rehabilitation, maintenance, and improvement of transport infrastructure by promoting the National Transport Plan (NTP), National Transport Fund (NTF), and central project implementation unit (CPIU).

## ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
