Project Description

The NTP formally sets out strategic objective of developing an effective transport infrastructure and transport services to support sustained economic growth and social development in Solomon Islands. The plan provides the framework to develop and maintain transport sector physical infrastructure and services, and improve the capacities of government agencies and the private sector. The NTF serves as a sustainable mechanism to fund the development and maintenance of transport infrastructure and transport services. Of the 1502 km of sealed and unsealed roads, 377 bridges and 81 wharves, NTP targets to rehabilitate these infrastructure assets to maintainable conditions and 100% to be annually maintained by 2030.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
